# SENATE - ASSEMBLY

January 13, 2016

IN SENATE -- A BUDGET BILL, submitted by the Governor pursuant to article seven of the Constitution -- read twice and ordered printed, and when printed to be committed to the Committee on Finance

IN ASSEMBLY -- A BUDGET BILL, submitted by the Governor pursuant to article seven of the Constitution -- read once and referred to the Committee on Ways and Means

AN ACT making appropriations for the support of government

STATE OPERATIONS BUDGET

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. a) The several amounts specified in this chapter for state operations, or so much thereof as shall be sufficient to accomplish the purposes designated by the appropriations, are hereby appropriated and authorized to be paid as hereinafter provided, to the respective public officers and for the several purposes specified.

b) Where applicable, appropriations made by this chapter for expenditures from federal grants for state operations may be allocated for spending from federal grants for any grant period beginning, during, or prior to, the state fiscal year beginning on April 1, 2016.

c) The several amounts named herein, or so much thereof as shall be sufficient to accomplish the purpose designated, being the undisbursed and/or unexpended balances of the prior year's appropriations, are hereby reappropriated from the same funds and made available for the same purposes as the prior year's appropriations, unless herein amended, for the fiscal year beginning April 1, 2016. Certain reappropriations in this chapter are shown using abbreviated text, with three leader dots (an ellipsis) followed by three spaces (... ) used to indicate where existing law that is being continued is not shown. However, unless a change is clearly indicated by the use of brackets [ ] for deletions and underscores for additions, the purposes, amounts, funding source and all other aspects pertinent to each item of appropriation shall be as last appropriated.

For the purpose of complying with the state finance law, the year, chapter and section of the last act reappropriating a former original appropriation or any part thereof is, unless otherwise indicated, chapter 50, section 1, of the laws of 2015.

d) No moneys appropriated by this chapter shall be available for payment until a certificate of approval has been issued by the director of the budget, who shall file such certificate with the department of audit and control, the chairperson of the senate finance committee and the chairperson of the assembly ways and means committee.

e) The appropriations contained in this chapter shall be available for the fiscal year beginning on April 1, 2016.

EXPLANATION--Matter in italics (underscored) is new; matter in brackets [ ] is old law to be omitted.

SCHEDULE

BUDGET DIVISION PROGRAM ..... 48,684,000

General Fund
State Purposes Account - 10050

Notwithstanding any other provision of law to the contrary, and subject to the conditions set forth herein, for the purpose of planning, developing and/or implementing the consolidation of procurement, real estate and facility management, fleet management, business and financial services, administrative services, payroll administration, time and attendance, benefits administration and other transactional human resources functions, contract management, and grants management, the amounts appropriated for state operations may be (i) interchanged, (ii) transferred from this state operations appropriation within this agency to the office of general services, and/or (iii) suballocated to the office of general services with the approval of the director of the budget who shall file such approval with the department of audit and control and copies thereof with the chairman of the senate finance committee and the chairman of the assembly ways and means committee. With respect only to such interchanges, transfers and suballocations for the purpose of planning, developing and/or implementing the consolidation of procurement, real estate and facility management, fleet management, business and financial services, administrative services, payroll administration, time and attendance, benefits administration and other transactional human resources functions, contract management, and grants management that exceed any interchange, transfer or suballocation authorized under any other provision of law, the amounts interchanged, transferred or suballocated may only be used for state operations and fringe benefits purposes. The foregoing

interchange, transfer and suballocation authority is defined as the "OGS Interchange and Transfer Authority."

Notwithstanding any other provision of law to the contrary, and subject to the conditions set forth herein, for the purpose of planning, developing and/or implementing measures to reduce and eliminate duplicative, outdated, and inefficient information technology infrastructure and processes to achieve better, cost-effective, information technology services for state agencies, the amounts appropriated for state operations may be (i) interchanged, (ii) transferred from this state operations appropriation within this agency to any other state operations appropriations of any state department or agency, and/or (iii) suballocated to any state department or agency with the approval of the director of the budget who shall file such approval with the department of audit and control and copies thereof with the chairman of the senate finance committee and the chairman of the assembly ways and means committee. With respect only to such interchanges, transfers and suballocations for the purpose of planning, developing and/or implementing the transformation of information technology services that exceed any interchange, transfer or suballocation authorized under any other provision of law, the amounts interchanged, transferred or suballocated may only be used for state operations and fringe benefits purposes. The foregoing interchange, transfer and suballocation authority is defined as the "IT Interchange and Transfer Authority."

In addition to such authority granted pursuant to law and by this appropriation to interchange, transfer, and suballocate amounts appropriated, such amounts appropriated for state operations may also be interchanged, transferred and suballocated for the purpose of planning, developing and/or implementing the alignment of the following operations within and between the office of mental health, the office for people with developmental disabilities, the office of alcoholism and substance abuse services, the department of health, and the office of children and family services in order to better coordinate and improve the quality and efficiency of oversight activities related to the care of vulnerable persons: (i) conducting criminal background checks as may otherwise be required by law, (ii) workforce training, (iii) the coordination of reports, complaints and other relevant information regarding charges of abuse and

neglect committed against individuals in the care and charge of such agencies as otherwise authorized by law, (iv) audit of services and (v) certification. The foregoing interchange, transfer and suballocation authority is defined as the "Alignment Interchange and Transfer Authority."

CONTRACT NEGOTIATION AND ADMINISTRATION PROGRAM

General Fund
State Purposes Account - 10050

The appropriation made by chapter 50, section 1, of the laws of 2013, as amended by chapter 50, section 1, of the laws of 2015, is hereby amended and reappropriated to read:

Notwithstanding any other provision of law to the contrary, the funds appropriated herein shall be made available for a pilot program to provide job placement training to employees in the office of children and family services, the office of mental health, the department of corrections and community supervision, and the office for people with developmental disabilities who are impacted by the closure or restructuring of facilities in state fiscal years 2012-13, 2013-14, 2014-15, [or] 2015-16, or 2016-17. Such pilot program shall be developed and administered solely by the office of employee relations. The terms of this pilot program shall be subject only to consultation with the department of civil service and approval by the director of the division of the budget.

Notwithstanding any other provision of law to the contrary, this pilot program shall only be made available to such impacted employees who are not otherwise offered an employment opportunity in a position with a statutory salary grade, non-statutorily established grade-equation, non-statutorily established flat-salary or non-statutorily established not to exceed salary that is determined to be comparable to the employee's current position by the department of civil service, provided, however, such offer shall be made to a position at a work location in the state service within twenty-five miles of the impacted employee's current work location through: (i) department of civil service-administered agency reduction transfer lists; or (ii) any means authorized under the New York state civil service law.

Notwithstanding any other provision of law to the contrary, the funds provided herein may be suballocated to any other state department, agency, or office, only for the purpose of implementing the pilot program for job placement training established by this appropriation, under the terms and conditions specified within this appropriation subject to the approval of the director of the division of the budget.

MEDICAL ASSISTANCE ADMINISTRATION PROGRAM ..... 1,832,474,000

General Fund
State Purposes Account - 10050

Notwithstanding section 40 of the state finance law or any other law to the contrary, all medical assistance appropriations made from this account shall remain in full force and effect in accordance, in the aggregate, with the following schedule: not more than 49 percent for the period April 1, 2016 to March 31, 2017; and the remaining amount for the period April 1, 2017 to March 31, 2018.
Notwithstanding section 40 of the state finance law or any provision of law to the contrary, subject to federal approval, department of health state funds medicaid spending, excluding payments for medical services provided at state facilities operated by the office of mental health, the office for people with developmental disabilities and the office of alcoholism and substance abuse services and further excluding any payments which are not appropriated within the department of health, in the aggregate, for the period April 1, 2016 through March 31, 2017, shall not exceed $18,540,445,000 except as provided below and state share medicaid

spending, in the aggregate, for the period April 1, 2017 through March 31, 2018, shall not exceed $18,995,139,000, but in no event shall department of health state funds medicaid spending for the period April 1, 2016 through March 31, 2018 exceed $37,535,584,000 provided, however, such aggregate limits may be adjusted by the director of the budget to account for any changes in the New York state federal medical assistance percentage amount established pursuant to the federal social security act, increases in provider revenues, reductions in local social services district payments for medical assistance administration and beginning April 1, 2013 the operational costs of the New York state medical indemnity fund, pursuant to a chapter establishing such fund, and state costs or savings from the essential plan. Such projections may be adjusted by the director of the budget to account for increased or expedited department of health state funds medicaid expenditures as a result of a natural or other type of disaster, including a governmental declaration of emergency. The director of the budget, in consultation with the commissioner of health, shall assess on a monthly basis known and projected medicaid expenditures by category of service and by geographic region, as determined by the commissioner of health, incurred both prior to and subsequent to such assessment for each such period, and if the director of the budget determines that such expenditures are expected to cause medicaid spending for such period to exceed the aggregate limit specified herein for such period, the state medicaid director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allocation plan to limit such spending to the aggregate limit specified herein for such period.

Such medicaid savings allocation plan shall be designed, to reduce the expenditures authorized by the appropriations herein in compliance with the following guidelines: (1) reductions shall be made in compliance with applicable federal law, including the provisions of the Patient Protection and Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No. 111-152 (collectively "Affordable Care Act") and any subsequent amendments thereto or regulations promulgated thereunder; (2) reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medi-

care and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation plan that meets the other criteria set forth herein; (3) reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the Affordable Care Act; (4) reductions shall be made uniformly among categories of services and geographic regions of the state, to the extent practicable, and shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific categories of services contributed to department of health medicaid state funds spending in excess of the limits specified herein; the need to maintain safety net services in underserved communities; or the potential benefits of pursuing innovative payment models contemplated by the Affordable Care Act, in which case such grounds shall be set forth in the medicaid savings allocation plan; and (5) reductions shall be made in a manner that does not unnecessarily create administrative burdens to medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation plan, to the extent that all or part of such plan, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation plan on the department of health's website and shall provide written copies of such plan to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

(b) The commissioner may revise the medicaid savings allocation plan subsequent to the provisions of notice and prior to imple-

mentation but need provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the plan.

Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this paragraph if, in the discretion of the commissioner, expedited development and implementation of a medicaid savings allocation plan is necessary due to a public health emergency.

For purposes of this section, a public health emergency is defined as: (i) a disaster, natural or otherwise, that significantly increases the immediate need for health care personnel in an area of the state; (ii) an event or condition that creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or (iii) any other event or condition determined by the commissioner to constitute an imminent threat to public health.

Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation plan from taking effect retroactively to the extent permitted by the federal centers for medicare and medicaid services.

In accordance with the medicaid savings allocation plan, the commissioner of the department of health shall reduce department of health state funds medicaid spending by the amount of the projected overspending through, actions including, but not limited to modifying or suspending reimbursement methods, including but not limited to all fees, premium levels and rates of payment, notwithstanding any provision of law that sets a specific amount or methodology for any such payments or rates of payment; modifying medicaid program benefits; seeking all necessary federal approvals, including, but not limited to waivers, and waiver amendments; and suspending time frames for notice, approval or certification of rate requirements, notwithstanding any provision of law, rule or regulation to the contrary, including but not limited to sections 2807 and 3614 of the public health law, section 18 of chapter 2 of the laws of 1988, and 18 NYCRR 505.14(h).

The department of health shall prepare a monthly report that sets forth: (a) known and projected department of health medicaid expenditures as described in subdivi-

sion 1 of this section, and factors that could result in medicaid disbursements for the relevant state fiscal year to exceed the projected department of health state funds disbursements in the enacted budget financial plan pursuant to subdivision 3 of section 23 of the state finance law, including spending increases or decreases due to: enrollment fluctuations, rate changes, utilization changes, MRT investments, and shift of beneficiaries to managed care; and variations in offline medicaid payments; and (b) the actions taken to implement any medicaid savings allocation plan implemented pursuant to subdivision 4 of this section, including information concerning the impact of such actions on each category of service and each geographic region of the state. Each such monthly report shall be provided to the chairs of the senate finance and the assembly ways and means committees and shall be posted on the department of health's website in a timely manner.

The money hereby appropriated is available for payment of aid heretofore and hereafter accrued to municipalities, and to providers of medical services pursuant to section 367-b of the social services law, and shall be available to the department net of disallowances, refunds, reimbursements, and credits.

Notwithstanding any other provision of law, the money hereby appropriated may be increased or decreased by interchange, with any appropriation of the department of health, and may be increased or decreased by transfer or suballocation between these appropriated amounts and appropriations of the office of mental health, the office for people with developmental disabilities, the office of alcoholism and substance abuse services, the department of family assistance office of temporary and disability assistance, and office of children and family services with the approval of the director of the budget, who shall file such approval with the department of audit and control and copies thereof with the chairman of the senate finance committee and the chairman of the assembly ways and means committee.

Notwithstanding any inconsistent provision of law to the contrary, funds may be used by the department for outside legal assistance on issues involving the federal government, the conduct of preadmission screening and annual resident reviews required by the state's medicaid program, computer matching with insurance carriers to insure that medicaid is the payer of last resort, activities related to the

management of the pharmacy benefit available under the medicaid program and administrative expenses of other health insurance programs of the department of health. Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2016 through March 31, 2018, the department of health shall develop a list of critical prescription drugs for which there is a significant public interest in ensuring rational pricing by drug manufacturers. In selecting drugs for possible inclusion in such list, factors to be considered by the department of health shall include, but not be limited to: the seriousness and prevalence of the disease or condition that is treated by the drug; the extent of utilization of the drug; the average wholesale price and retail price of the drug; the number of pharmaceutical manufacturers that produce the drug; whether there are pharmaceutical equivalents to the drug; and the potential impact of the cost of the drug on public health care programs, including medicaid. For each prescription drug included on the critical prescription drug list, the department of health shall require the manufacturers of said prescription drug to report: (a) the actual cost of developing, manufacturing, producing (including the cost per dose of production), and distributing such drug; (b) research and development costs of the drug including payments to predecessor entities conducting research and development, including but not limited to biotechnology companies, universities and medical schools, and private research institutions; (c) administrative, marketing, and advertising costs for the drug, apportioned by marketing activities that are directed to consumers, marketing activities that are directed to prescribers, and the total cost of all marketing and advertising that is directed primarily to consumers and prescribers in New York, including but not limited to prescriber detailing, copayment discount programs and direct to consumer marketing; (d) prices for the drug that are charged to purchasers outside the United States; (e) prices charged to typical purchasers in New York, including but not limited to pharmacies, pharmacy chains, pharmacy wholesalers or other direct purchasers; (f) the average rebates and discounts provided per payor type; (g) the average profit margin of each drug over the prior five year period and the projected profit margin anticipated for such drug; and (h)

clinical information including but not limited to clinical trials and clinical outcomes research. The department of health shall develop a standard reporting form for the submission of such information, and require manufacturers to provide the required information within ninety days of the department's request. All such information disclosed pursuant to subparagraph (ii) of this paragraph shall be confidential and shall not be disclosed by the department or health or its actuary in a form that discloses the identity of a specific manufacturer, or prices charged for drugs by such manufacturer, except as the commissioner of health determines is necessary to carry out the requirements of this paragraph, or to allow the department of health, the attorney general, the state comptroller, or the centers for medicare and medicaid services to perform audits or investigations authorized by law. For each critical prescription drug identified by the department of health, the department shall direct its actuary to utilize the information provided by manufacturers pursuant to this paragraph to conduct a value-based assessment of such drug and establish a reasonable ceiling price. The commissioner of health may require a drug manufacturer to provide rebates to the department for a critical prescription drug whose price exceeds the ceiling price for the drug established by the department of health's actuary. Such rebates shall be in addition to any rebates payable to the department of health pursuant to any other provision of federal or state law. The additional rebates authorized pursuant to this paragraph shall apply to critical prescription drugs dispensed to medical assistance enrollees of managed care providers pursuant to section 364-j of the social services law and to critical prescription drugs dispensed to medical assistance recipients who are not enrollees of such providers.

Provided, however, if this chapter appropriates sufficient additional funds to allow medical assistance to pay for the cost of critical prescription drugs without requiring additional rebates to be provided, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2016.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2016 through March 31, 2018, the commissioner of health may require prior authorization under the clinical drug review program for

any drug, prior to obtaining the evaluation and recommendation of the drug utilization review board, after considering: (a) whether the drug requires monitoring of prescribing protocols to protect both the long-term efficacy of the drug and the public health; (b) the potential for, or a history of, overuse, abuse, drug diversion or illegal utilization; and (c) the potential for, or a history of, utilization inconsistent with approved indications. Where the commissioner of health finds that a drug meets at least one of these criteria, in determining whether to make the drug subject to prior authorization under the clinical drug review program, the commissioner of health shall consider whether similarly effective alternatives are available for the same disease state and the effect of that availability or lack of availability. The drug utilization review board may recommend to the commissioner of health that any prior authorization requirement imposed pursuant to this paragraph be modified, continued or removed.

Provided, however, if this chapter appropriates sufficient additional funds to allow medical assistance to pay for drugs which meet the criteria for prior authorization under the clinical drug review program until such time as the evaluation and recommendation of the drug utilization review board can be obtained, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2016.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2016 through March 31, 2018, the commissioner of health may require manufacturers of drugs other than single source drugs and innovator multiple source drugs, as such terms are defined at 42 U.S.C. § 1396r-8(k), to provide rebates to the department of health for generic drugs covered by the medical assistance program whose prices increase at a rate greater than the rate of inflation. Such rebates shall be in addition to any rebates payable to the department of health pursuant to any other provision of federal or state law. In determining the amount of such additional rebates for generic drugs, the commissioner of health may use a methodology similar to that used by the centers for medicare and medicaid services in determining the amount of any additional rebates for single source and innovator multiple source drugs, as set

forth at 42 U.S.C. § 1396-8. The additional rebates authorized pursuant to this paragraph shall apply to generic prescription drugs dispensed to medical assistance enrollees of managed care providers pursuant to section 364-j of the social services law and to generic prescription drugs dispensed to medical assistance recipients who are not enrollees of such providers.

Provided, however, if this chapter appropriates sufficient additional funds to allow medical assistance to pay for the cost of drugs other than single source drugs and innovator multiple source drugs without the receipt of additional rebates, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2016.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2016 through March 31, 2018, if a health plan participating in part C of title XVIII of the federal social security act pays for items and services provided to persons eligible for medical assistance who are also beneficiaries under part B of title XVIII of the federal social security act and items and services provided to qualified medicare beneficiaries under part B of title XVIII of the federal social security act, the amount payable for services under the medical assistance program shall be the amount of any co-insurance liability of such eligible persons pursuant to federal law if they were not eligible for medical assistance or were not qualified medicare beneficiaries with respect to such benefits under such part B, but shall not exceed the amount that otherwise would be made under the medical assistance program if provided to an eligible person who is not a beneficiary under part B or a qualified medicare beneficiary, less the amount payable by the part C health plan; provided, however, for items and services provided to persons who are eligible for medical assistance who are also beneficiaries under part B or to qualified medicare beneficiaries by an ambulance service under the authority of an operating certificate issued pursuant to article 30 of the public health law, a psychologist licensed under article 153 of the education law, or a facility under the authority of an operating certificate issued pursuant to article 16, 31 or 32 of the mental hygiene law and with respect to outpatient hospital and clinic items and services provided by a facility under the

authority of an operating certificate issued pursuant to article 29 of the public health law, the amount payable under the medical assistance program shall not be less than the amount of any co-insurance liability of such eligible persons or such qualified medicare beneficiaries, or for which such eligible persons or such qualified medicare beneficiaries would be liable under federal law were they not eligible for medical assistance or were they not qualified medicare beneficiaries with respect to such benefits under part B.

Provided, however, if this chapter appropriates sufficient additional funds to provide medical assistance payments for such coinsurance liability in situations where the medical assistance payment combined with the amount payable under part B of title XVIII of the federal social security act would exceed the amount that otherwise would be made under the medical assistance program if provided to an eligible person other than a person who is also a beneficiary under part B or is a qualified medicare beneficiary, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2016.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2016 through March 31, 2018, the commissioner of health shall require managed care providers participating in the medical assistance program to require prior authorization of prescriptions issued to medical assistance recipients of opioid analgesics in excess of four prescriptions in a thirty-day period.

Provided, however, if this chapter appropriates sufficient additional funds to allow medical assistance to pay for the cost of managed care premiums to managed care providers participating in the medical assistance program without requiring prior authorization of prescriptions of opioid analgesics in excess of four prescriptions in a thirty-day period, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2016.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2016 through March 31, 2018, benefits under the medical assistance program shall be furnished to applicants in cases where, although such applicant has a responsible relative with sufficient income and

resources to provide medical assistance, the income and resources of the responsible relative are not available to such applicant because of the absence of such relative and the refusal or failure of such absent relative to provide the necessary care and assistance. In such cases, however, the furnishing of such assistance shall create an implied contract with such relative, and the cost thereof may be recovered from such relative in accordance with title 6 of article 3 of the social services law and other applicable provisions of law.

Provided, however, if this chapter appropriates sufficient additional funds to allow medical assistance to be furnished in situations in which a responsible relative who is not absent from the household fails or refuses to provide necessary care and assistance, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2016.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2016 through March 31, 2018, the medical assistance program may authorize payment for a drug that is not on the preferred drug list established pursuant to section 272 of the public health law if certain criteria are met, including: (a) the preferred drug has been tried by the patient and has failed to produce the desired health outcomes; (b) the patient has tried the preferred drug and has experienced unacceptable side effects; (c) the patient has been stabilized on a non-preferred drug and transition to the preferred drug would be medically contraindicated; or (d) other clinical indications identified by the committee for the patient's use of the non-preferred drug, which shall include consideration of the medical needs of special populations, including children, elderly, chronically ill, persons with mental health conditions, and persons affected by HIV/AIDS. In the event that the patient does not meet this criteria, the prescriber may provide additional information to the medical assistance program to justify the use of the drug. The medical assistance program shall provide a reasonable opportunity for the prescriber to reasonably present his or her justification of prior authorization. The medical assistance program will consider the additional information and the justification presented to determine whether the use of a prescription drug

that is not on the preferred drug list is warranted. In the case of atypical antipsychotics and antidepressants, if after consultation with the medical assistance program, the prescriber, in his or her reasonable professional judgment, determines that the use of a prescription drug that is not on the preferred drug list is warranted, the prescriber's determination shall be final.

In addition, managed care providers participating in the medical assistance program shall be required to cover non-formulary drugs for medical assistance recipients only if such drugs are in the atypical antipsychotic and antidepressant therapeutic classes and if the prescriber, after consulting with the managed care provider, demonstrates that such drugs, in the prescriber's reasonable professional judgment, are medically necessary and warranted.

Provided, however, if this chapter appropriates sufficient additional funds to allow the medical assistance program to pay for drugs, other than drugs in the atypical antipsychotic and antidepressant therapeutic classes, that are not on the preferred drug list or on the formulary of a managed care provider participating in the medical assistance program based solely on the determination of the prescriber that the use of the drugs is warranted, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2016.

Notwithstanding any provision of law to the contrary, this appropriation shall not be available for reimbursement of $180,024,000 in FY 2016-2017 and $337,555,000 in FY 2017-2018 for local administrative expenses for medical assistance programs to a social services district having a population of more than five million unless the legislature has enacted a chapter or chapters of law identical to legislation submitted by the governor pursuant to article VII of the New York constitution as Part A of legislative bill numbers S. 6407/A. 9007.

Notwithstanding any other provision of law to the contrary, the OGS Interchange and Transfer Authority, the IT Interchange and Transfer Authority and the Alignment Interchange and Transfer Authority as defined in the 2016-17 state fiscal year state operations appropriation for the budget division program of the division of the budget, are deemed fully incorporated herein and a part of this appropriation as if fully stated.

DEPARTMENT OF HEALTH

STATE OPERATIONS 2016-17

| | |
|---|---|
| Personal service--regular (50100) ..... | 105,899,000 |
| Temporary service (50200) ..... | 130,000 |
| Holiday/overtime compensation (50300) ..... | 490,000 |
| Supplies and materials (57000)..... | 720,000 |
| Travel (54000)..... | 474,000 |
| Contractual services (51000) ..... | 381,132,000 |
| Equipment (56000) ..... | 180,000 |
| Total amount available ..... | 489,025,000 |

Notwithstanding any other provision of law, the money herein appropriated, together with any available federal matching funds, is available for transfer or suballocation to the state university of New York and its subsidiaries, or to contract without competition for services with the state university of New York research foundation, to provide support for the administration of the medical assistance program including activities such as dental prior approval, retrospective and prospective drug utilization review, development of evidence based utilization thresholds, data analysis, clinical consultation and peer review, clinical support for the pharmacy and therapeutic committee, and other activities related to utilization management and for health information technology support for the medicaid program.

Notwithstanding any provision of law to the contrary, the portion of this appropriation covering fiscal year 2016-17 shall supersede and replace any duplicative (i) reappropriation for this item covering fiscal year 2016-17, and (ii) appropriation for this item covering fiscal year 2016-17 set forth in chapter 50 of the laws of 2015.

|---|---|
| Contractual services (51000) ..... | 9,500,000 |

For services and expenses for conducting audits of disproportionate share hospital payments made by the state of New York to general hospitals and for the purpose of conducting audits of hospital cost reports as submitted to the state of New York in accordance with article 28 of the public health law.

Notwithstanding any provision of law to the contrary, the portion of this appropriation covering fiscal year 2016-17 shall supersede and replace any duplicative (i) reappropriation for this item covering fiscal year 2016-17, and (ii) appropriation for this item covering fiscal year 2016-17 set forth in chapter 50 of the laws of 2015.

Contractual services (51000) ..... 4,600,000

Notwithstanding any inconsistent provision of law, subject to the approval of the director of the budget, up to the amount appropriated herein, together with any available federal matching funds, may be interchanged to support personal service costs related to required criminal background checks for non-licensed long-term care employees including employees of nursing homes, certified home health agencies, long term home health care providers, AIDS home care providers, and licensed home care service agencies.

Notwithstanding any provision of law to the contrary, the portion of this appropriation covering fiscal year 2016-17 shall supersede and replace any duplicative (i) reappropriation for this item covering fiscal year 2016-17, and (ii) appropriation for this item covering fiscal year 2016-17 set forth in chapter 50 of the laws of 2015.

Contractual services (51000) ..... 3,000,000

Program account subtotal ..... 506,125,000

Special Revenue Funds - Federal
Federal Health and Human Services Fund
Electronic Medicaid System Account - 25107

Notwithstanding section 40 of the state finance law or any other law to the contrary, all medical assistance appropriations made from this account shall remain in full force and effect in accordance, in the aggregate, with the following schedule: not more than 50 percent for the period April 1, 2016 to March 31, 2017; and the remaining amount for the period April 1, 2017 to March 31, 2018.

For services and expenses related to the operation of an electronic medicaid eligibility verification system and operation of a medicaid override application system, and operation of a medicaid management information system, and development and operation of a replacement medicaid system. The moneys hereby appropriated shall be available for payment of liabilities heretofore accrued and hereafter to accrue.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2016 through March 31, 2018, the department of health shall develop a list of critical prescription drugs for which there is a

significant public interest in ensuring rational pricing by drug manufacturers. In selecting drugs for possible inclusion in such list, factors to be considered by the department of health shall include, but not be limited to: the seriousness and prevalence of the disease or condition that is treated by the drug; the extent of utilization of the drug; the average wholesale price and retail price of the drug; the number of pharmaceutical manufacturers that produce the drug; whether there are pharmaceutical equivalents to the drug; and the potential impact of the cost of the drug on public health care programs, including medicaid. For each prescription drug included on the critical prescription drug list, the department of health shall require the manufacturers of said prescription drug to report: (a) the actual cost of developing, manufacturing, producing (including the cost per dose of production), and distributing such drug; (b) research and development costs of the drug including payments to predecessor entities conducting research and development, including but not limited to biotechnology companies, universities and medical schools, and private research institutions; (c) administrative, marketing, and advertising costs for the drug, apportioned by marketing activities that are directed to consumers, marketing activities that are directed to prescribers, and the total cost of all marketing and advertising that is directed primarily to consumers and prescribers in New York, including but not limited to prescriber detailing, copayment discount programs and direct to consumer marketing; (d) prices for the drug that are charged to purchasers outside the United States; (e) prices charged to typical purchasers in New York, including but not limited to pharmacies, pharmacy chains, pharmacy wholesalers or other direct purchasers; (f) the average rebates and discounts provided per payor type; (g) the average profit margin of each drug over the prior five year period and the projected profit margin anticipated for such drug; and (h) clinical information including but not limited to clinical trials and clinical outcomes research. The department of health shall develop a standard reporting form for the submission of such information, and require manufacturers to provide the required information within ninety days of the department's request. All such information disclosed pursuant to subparagraph (ii) of this paragraph shall

be confidential and shall not be disclosed by the department or health or its actuary in a form that discloses the identity of a specific manufacturer, or prices charged for drugs by such manufacturer, except as the commissioner of health determines is necessary to carry out the requirements of this paragraph, or to allow the department of health, the attorney general, the state comptroller, or the centers for medicare and medicaid services to perform audits or investigations authorized by law. For each critical prescription drug identified by the department of health, the department shall direct its actuary to utilize the information provided by manufacturers pursuant to this paragraph to conduct a value-based assessment of such drug and establish a reasonable ceiling price. The commissioner of health may require a drug manufacturer to provide rebates to the department for a critical prescription drug whose price exceeds the ceiling price for the drug established by the department of health's actuary. Such rebates shall be in addition to any rebates payable to the department of health pursuant to any other provision of federal or state law. The additional rebates authorized pursuant to this paragraph shall apply to critical prescription drugs dispensed to medical assistance enrollees of managed care providers pursuant to section 364-j of the social services law and to critical prescription drugs dispensed to medical assistance recipients who are not enrollees of such providers.

Provided, however, if this chapter appropriates sufficient additional funds to allow medical assistance to pay for the cost of critical prescription drugs without requiring additional rebates to be provided, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2016.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2016 through March 31, 2018, the commissioner of health may require prior authorization under the clinical drug review program for any drug, prior to obtaining the evaluation and recommendation of the drug utilization review board, after considering: (a) whether the drug requires monitoring of prescribing protocols to protect both the long-term efficacy of the drug and the public health; (b) the potential for, or a history of, overuse, abuse, drug diversion or illegal utilization; and (c) the potential for, or

a history of, utilization inconsistent with approved indications. Where the commissioner of health finds that a drug meets at least one of these criteria, in determining whether to make the drug subject to prior authorization under the clinical drug review program, the commissioner of health shall consider whether similarly effective alternatives are available for the same disease state and the effect of that availability or lack of availability. The drug utilization review board may recommend to the commissioner of health that any prior authorization requirement imposed pursuant to this paragraph be modified, continued or removed.

Provided, however, if this chapter appropriates sufficient additional funds to allow medical assistance to pay for drugs which meet the criteria for prior authorization under the clinical drug review program until such time as the evaluation and recommendation of the drug utilization review board can be obtained, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2016.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2016 through March 31, 2018, the commissioner of health may require manufacturers of drugs other than single source drugs and innovator multiple source drugs, as such terms are defined at 42 U.S.C. § 1396r-8(k), to provide rebates to the department of health for generic drugs covered by the medical assistance program whose prices increase at a rate greater than the rate of inflation. Such rebates shall be in addition to any rebates payable to the department of health pursuant to any other provision of federal or state law. In determining the amount of such additional rebates for generic drugs, the commissioner of health may use a methodology similar to that used by the centers for medicare and medicaid services in determining the amount of any additional rebates for single source and innovator multiple source drugs, as set forth at 42 U.S.C. § 1396-8. The additional rebates authorized pursuant to this paragraph shall apply to generic prescription drugs dispensed to medical assistance enrollees of managed care providers pursuant to section 364-j of the social services law and to generic prescription drugs dispensed to medical assistance recipients who are not enrollees of such providers.

Provided, however, if this chapter appropriates sufficient additional funds to allow medical assistance to pay for the cost of drugs other than single source drugs and innovator multiple source drugs without the receipt of additional rebates, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2016.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2016 through March 31, 2018, if a health plan participating in part C of title XVIII of the federal social security act pays for items and services provided to persons eligible for medical assistance who are also beneficiaries under part B of title XVIII of the federal social security act and items and services provided to qualified medicare beneficiaries under part B of title XVIII of the federal social security act, the amount payable for services under the medical assistance program shall be the amount of any co-insurance liability of such eligible persons pursuant to federal law if they were not eligible for medical assistance or were not qualified medicare beneficiaries with respect to such benefits under such part B, but shall not exceed the amount that otherwise would be made under the medical assistance program if provided to an eligible person who is not a beneficiary under part B or a qualified medicare beneficiary, less the amount payable by the part C health plan; provided, however, for items and services provided to persons who are eligible for medical assistance who are also beneficiaries under part B or to qualified medicare beneficiaries by an ambulance service under the authority of an operating certificate issued pursuant to article 30 of the public health law, a psychologist licensed under article 153 of the education law, or a facility under the authority of an operating certificate issued pursuant to article 16, 31 or 32of the mental hygiene law and with respect to outpatient hospital and clinic items and services provided by a facility under the authority of an operating certificate issued pursuant to article 28 of the public health law, the amount payable under the medical assistance program shall not be less than the amount of any co-insurance liability of such eligible persons or such qualified medicare beneficiaries, or for which such eligible persons or such qualified medicare beneficiaries would be liable under

federal law were they not eligible for medical assistance or were they not qualified medicare beneficiaries with respect to such benefits under part B.

Provided, however, if this chapter appropriates sufficient additional funds to provide medical assistance payments for such coinsurance liability in situations where the medical assistance payment combined with the amount payable under part B of title XVIII of the federal social security act would exceed the amount that otherwise would be made under the medical assistance program if provided to an eligible person other than a person who is also a beneficiary under part B or is a qualified medicare beneficiary, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2016.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2016 through March 31, 2018, the commissioner of health shall require managed care providers participating in the medical assistance program to require prior authorization of prescriptions issued to medical assistance recipients of opioid analgesics in excess of four prescriptions in a thirty-day period.

Provided, however, if this chapter appropriates sufficient additional funds to allow medical assistance to pay for the cost of managed care premiums to managed care providers participating in the medical assistance program without requiring prior authorization of prescriptions of opioid analgesics in excess of four prescriptions in a thirty-day period, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2016.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2016 through March 31, 2018, benefits under the medical assistance program shall be furnished to applicants in cases where, although such applicant has a responsible relative with sufficient income and resources to provide medical assistance, the income and resources of the responsible relative are not available to such applicant because of the absence of such relative and the refusal or failure of such absent relative to provide the necessary care and assistance. In such cases, however, the furnishing of such assistance shall create an implied contract with such relative, and the cost

thereof may be recovered from such relative in accordance with title 6 of article 3 of the social services law and other applicable provisions of law.

Provided, however, if this chapter appropriates sufficient additional funds to allow medical assistance to be furnished in situations in which a responsible relative who is not absent from the household fails or refuses to provide necessary care and assistance, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2016.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2016 through March 31, 2018, the medical assistance program may authorize payment for a drug that is not on the preferred drug list established pursuant to section 272 of the public health law if certain criteria are met, including: (a) the preferred drug has been tried by the patient and has failed to produce the desired health outcomes; (b) the patient has tried the preferred drug and has experienced unacceptable side effects; (c) the patient has been stabilized on a non-preferred drug and transition to the preferred drug would be medically contraindicated; or (d) other clinical indications identified by the committee for the patient's use of the non-preferred drug, which shall include consideration of the medical needs of special populations, including children, elderly, chronically ill, persons with mental health conditions, and persons affected by HIV/AIDS. In the event that the patient does not meet this criteria, the prescriber may provide additional information to the medical assistance program to justify the use of the drug. The medical assistance program shall provide a reasonable opportunity for the prescriber to reasonably present his or her justification of prior authorization. The medical assistance program will consider the additional information and the justification presented to determine whether the use of a prescription drug that is not on the preferred drug list is warranted. In the case of atypical antipsychotics and antidepressants, if after consultation with the medical assistance program, the prescriber, in his or her reasonable professional judgment, determines that the use of a prescription drug that is not on the preferred drug list is warranted, the prescriber's determination shall be final.

In addition, managed care providers participating in the medical assistance program shall be required to cover non-formulary drugs for medical assistance recipients only if such drugs are in the atypical antipsychotic and antidepressant therapeutic classes and if the prescriber, after consulting with the managed care provider, demonstrates that such drugs, in the prescriber's reasonable professional judgment, are medically necessary and warranted.

Provided, however, if this chapter appropriates sufficient additional funds to allow the medical assistance program to pay for drugs, other than drugs in the atypical antipsychotic and antidepressant therapeutic classes, that are not on the preferred drug list or on the formulary of a managed care provider participating in the medical assistance program based solely on the determination of the prescriber that the use of the drugs is warranted, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2016.

Notwithstanding any provision of law to the contrary, this appropriation shall not be available for reimbursement of $180,024,000 in FY 2016-2017 and $337,555,000 in FY 2017-2018 for local administrative expenses for medical assistance programs to a social services district having a population of more than five million unless the legislature has enacted a chapter or chapters of law identical to legislation submitted by the governor pursuant to article VII of the New York constitution as Part A of legislative bill numbers S. 6407/A. 9007.

Notwithstanding any inconsistent provision of law and subject to the approval of the director of the budget, the amount appropriated herein may be increased or decreased by interchange with any other appropriation or with any other item or items within the amounts appropriated within the department of health special revenue funds - federal with the approval of the director of the budget who shall file such approval with the department of audit and control and copies thereof with the chairman of the senate finance committee and the chairman of the assembly ways and means committee.

| Nonpersonal service (57050) ..... | 404,000,000 |
| Program account subtotal ..... | 404,000,000 |

Special Revenue Funds - Federal
Federal Health and Human Services Fund
Medical Administration Transfer Account - 25107

Notwithstanding section 40 of the state finance law or any other law to the contrary, all medical assistance appropriations made from this account shall remain in full force and effect in accordance, in the aggregate, with the following schedule: not more than 50 percent for the period April 1, 2016 to March 31, 2017; and the remaining amount for the period April 1, 2017 to March 31, 2018.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2016 through March 31, 2018, the department of health shall develop a list of critical prescription drugs for which there is a significant public interest in ensuring rational pricing by drug manufacturers. In selecting drugs for possible inclusion in such list, factors to be considered by the department of health shall include, but not be limited to: the seriousness and prevalence of the disease or condition that is treated by the drug; the extent of utilization of the drug; the average wholesale price and retail price of the drug; the number of pharmaceutical manufacturers that produce the drug; whether there are pharmaceutical equivalents to the drug; and the potential impact of the cost of the drug on public health care programs, including medicaid. For each prescription drug included on the critical prescription drug list, the department of health shall require the manufacturers of said prescription drug to report: (a) the actual cost of developing, manufacturing, producing (including the cost per dose of production), and distributing such drug; (b) research and development costs of the drug including payments to predecessor entities conducting research and development, including but not limited to biotechnology companies, universities and medical schools, and private research institutions; (c) administrative, marketing, and advertising costs for the drug, apportioned by marketing activities that are directed to consumers, marketing activities that are directed to prescribers, and the total cost of all marketing and advertising that is directed primarily to consumers and prescribers in New York, including but not limited to prescriber detailing, copayment discount programs and direct to consumer marketing; (d) prices for the drug that are charged

to purchasers outside the United States; (e) prices charged to typical purchasers in New York, including but not limited to pharmacies, pharmacy chains, pharmacy wholesalers or other direct purchasers; (f) the average rebates and discounts provided per payor type; (g) the average profit margin of each drug over the prior five year period and the projected profit margin anticipated for such drug; and (h) clinical information including but not limited to clinical trials and clinical outcomes research. The department of health shall develop a standard reporting form for the submission of such information, and require manufacturers to provide the required information within ninety days of the department's request. All such information disclosed pursuant to subparagraph (ii) of this paragraph shall be confidential and shall not be disclosed by the department or health or its actuary in a form that discloses the identity of a specific manufacturer, or prices charged for drugs by such manufacturer, except as the commissioner of health determines is necessary to carry out the requirements of this paragraph, or to allow the department of health, the attorney general, the state comptroller, or the centers for medicare and medicaid services to perform audits or investigations authorized by law. For each critical prescription drug identified by the department of health, the department shall direct its actuary to utilize the information provided by manufacturers pursuant to this paragraph to conduct a value-based assessment of such drug and establish a reasonable ceiling price. The commissioner of health may require a drug manufacturer to provide rebates to the department for a critical prescription drug whose price exceeds the ceiling price for the drug established by the department of health's actuary. Such rebates shall be in addition to any rebates payable to the department of health pursuant to any other provision of federal or state law. The additional rebates authorized pursuant to this paragraph shall apply to critical prescription drugs dispensed to medical assistance enrollees of managed care providers pursuant to section 364-j of the social services law and to critical prescription drugs dispensed to medical assistance recipients who are not enrollees of such providers.

Provided, however, if this chapter appropriates sufficient additional funds to allow medical assistance to pay for the cost of critical prescription drugs without requiring additional rebates to be

provided, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2016.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2016 through March 31, 2018, the commissioner of health may require prior authorization under the clinical drug review program for any drug, prior to obtaining the evaluation and recommendation of the drug utilization review board, after considering: (a) whether the drug requires monitoring of prescribing protocols to protect both the long-term efficacy of the drug and the public health; (b) the potential for, or a history of, overuse, abuse, drug diversion or illegal utilization; and (c) the potential for, or a history of, utilization inconsistent with approved indications. Where the commissioner of health finds that a drug meets at least one of these criteria, in determining whether to make the drug subject to prior authorization under the clinical drug review program, the commissioner of health shall consider whether similarly effective alternatives are available for the same disease state and the effect of that availability or lack of availability. The drug utilization review board may recommend to the commissioner of health that any prior authorization requirement imposed pursuant to this paragraph be modified, continued or removed.

Provided, however, if this chapter appropriates sufficient additional funds to allow medical assistance to pay for drugs which meet the criteria for prior authorization under the clinical drug review program until such time as the evaluation and recommendation of the drug utilization review board can be obtained, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2016.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2016 through March 31, 2018, the commissioner of health may require manufacturers of drugs other than single source drugs and innovator multiple source drugs, as such terms are defined at 42 U.S.C. § 1396r-8(k), to provide rebates to the department of health for generic drugs covered by the medical assistance program whose prices increase at a rate greater than the rate of inflation. Such rebates shall be in addition to any rebates payable to the

department of health pursuant to any other provision of federal or state law. In determining the amount of such additional rebates for generic drugs, the commissioner of health may use a methodology similar to that used by the centers for medicare and medicaid services in determining the amount of any additional rebates for single source and innovator multiple source drugs, as set forth at 42 U.S.C. § 1396-8. The additional rebates authorized pursuant to this paragraph shall apply to generic prescription drugs dispensed to medical assistance enrollees of managed care providers pursuant to section 364-j of the social services law and to generic prescription drugs dispensed to medical assistance recipients who are not enrollees of such providers.

Provided, however, if this chapter appropriates sufficient additional funds to allow medical assistance to pay for the cost of drugs other than single source drugs and innovator multiple source drugs without the receipt of additional rebates, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2016.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2016 through March 31, 2018, if a health plan participating in part C of title XVIII of the federal social security act pays for items and services provided to persons eligible for medical assistance who are also beneficiaries under part B of title XVIII of the federal social security act and items and services provided to qualified medicare beneficiaries under part B of title XVIII of the federal social security act, the amount payable for services under the medical assistance program shall be the amount of any co-insurance liability of such eligible persons pursuant to federal law if they were not eligible for medical assistance or were not qualified medicare beneficiaries with respect to such benefits under such part B, but shall not exceed the amount that otherwise would be made under the medical assistance program if provided to an eligible person who is not a beneficiary under part B or a qualified medicare beneficiary, less the amount payable by the part C health plan; provided, however, for items and services provided to persons who are eligible for medical assistance who are also beneficiaries under part B or to qualified medicare beneficiaries by an ambulance

service under the authority of an operating certificate issued pursuant to article 30 of the public health law, a psychologist licensed under article 153 of the education law, or a facility under the authority of an operating certificate issued pursuant to article 16, 31 or 32 of the mental hygiene law and with respect to outpatient hospital and clinic items and services provided by a facility under the authority of an operating certificate issued pursuant to article 28 of the public health law, the amount payable under the medical assistance program shall not be less than the amount of any co-insurance liability of such eligible persons or such qualified medicare beneficiaries, or for which such eligible persons or such qualified medicare beneficiaries would be liable under federal law were they not eligible for medical assistance or were they not qualified medicare beneficiaries with respect to such benefits under part B.

Provided, however, if this chapter appropriates sufficient additional funds to provide medical assistance payments for such coinsurance liability in situations where the medical assistance payment combined with the amount payable under part B of title XVIII of the federal social security act would exceed the amount that otherwise would be made under the medical assistance program if provided to an eligible person other than a person who is also a beneficiary under part B or is a qualified medicare beneficiary, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2016.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2016 through March 31, 2018, the commissioner of health shall require managed care providers participating in the medical assistance program to require prior authorization of prescriptions issued to medical assistance recipients of opioid analgesics in excess of four prescriptions in a thirty-day period.

Provided, however, if this chapter appropriates sufficient additional funds to allow medical assistance to pay for the cost of managed care premiums to managed care providers participating in the medical assistance program without requiring prior authorization of prescriptions of opioid analgesics in excess of four prescriptions in a thirty-

day period, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2016.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2016 through March 31, 2018, benefits under the medical assistance program shall be furnished to applicants in cases where, although such applicant has a responsible relative with sufficient income and resources to provide medical assistance, the income and resources of the responsible relative are not available to such applicant because of the absence of such relative and the refusal or failure of such absent relative to provide the necessary care and assistance. In such cases, however, the furnishing of such assistance shall create an implied contract with such relative, and the cost thereof may be recovered from such relative in accordance with title 6 of article 3 of the social services law and other applicable provisions of law.

Provided, however, if this chapter appropriates sufficient additional funds to allow medical assistance to be furnished in situations in which a responsible relative who is not absent from the household fails or refuses to provide necessary care and assistance, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2016.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2016 through March 31, 2018, the medical assistance program may authorize payment for a drug that is not on the preferred drug list established pursuant to section 272 of the public health law if certain criteria are met, including: (a) the preferred drug has been tried by the patient and has failed to produce the desired health outcomes; (b) the patient has tried the preferred drug and has experienced unacceptable side effects; (c) the patient has been stabilized on a non-preferred drug and transition to the preferred drug would be medically contraindicated; or (d) other clinical indications identified by the committee for the patient's use of the non-preferred drug, which shall include consideration of the medical needs of special populations, including children, elderly, chronically ill, persons with mental health conditions, and persons affected by HIV/AIDS. In the event that the patient

does not meet this criteria, the prescriber may provide additional information to the medical assistance program to justify the use of the drug. The medical assistance program shall provide a reasonable opportunity for the prescriber to reasonably present his or her justification of prior authorization. The medical assistance program will consider the additional information and the justification presented to determine whether the use of a prescription drug that is not on the preferred drug list is warranted. In the case of atypical antipsychotics and antidepressants, if after consultation with the medical assistance program, the prescriber, in his or her reasonable professional judgment, determines that the use of a prescription drug that is not on the preferred drug list is warranted, the prescriber's determination shall be final.

In addition, managed care providers participating in the medical assistance program shall be required to cover non-formulary drugs for medical assistance recipients only if such drugs are in the atypical antipsychotic and antidepressant therapeutic classes and if the prescriber, after consulting with the managed care provider, demonstrates that such drugs, in the prescriber's reasonable professional judgment, are medically necessary and warranted.

Provided, however, if this chapter appropriates sufficient additional funds to allow the medical assistance program to pay for drugs, other than drugs in the atypical antipsychotic and antidepressant therapeutic classes, that are not on the preferred drug list or on the formulary of a managed care provider participating in the medical assistance program based solely on the determination of the prescriber that the use of the drugs is warranted, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2016.

Notwithstanding any provision of law to the contrary, this appropriation shall not be available for reimbursement of $180,024,000 in FY 2016-2017 and $337,555,000 in FY 2017-2018 for local administrative expenses for medical assistance programs to a social services district having a population of more than five million unless the legislature has enacted a chapter or chapters of law identical to legislation submitted by the

governor pursuant to article VII of the New York constitution as Part A of legislative bill numbers S. 6407/A. 9007. Notwithstanding any inconsistent provision of law and subject to the approval of the director of the budget, moneys hereby appropriated may be increased or decreased by transfer or suballocation between these appropriated amounts and appropriations of other state agencies and appropriations of the department of health. Notwithstanding any inconsistent provision of law and subject to approval of the director of the budget, moneys hereby appropriated may be transferred or suballocated to other state agencies for reimbursement to local government entities for services and expenses related to administration of the medical assistance program.

The appropriation made by chapter 50, section 1, of the laws of 2015, is hereby amended and reappropriated to read:

Notwithstanding section 40 of the state finance law or any other law to the contrary, all medical assistance appropriations made from this account shall remain in full force and effect in accordance, in the aggregate, with the following schedule: not more than 47 percent for the period April 1, 2015 to March 31, 2016; and the remaining amount for the period April 1, 2016 to [March 31] June 30, 2017.

Notwithstanding any inconsistent provision of law and subject to the approval of the director of the budget, moneys hereby appropriated may be increased or decreased by transfer or suballocation between these appropriated amounts and appropriations of other state agencies and appropriations of the department of health. Notwithstanding any inconsistent provision of law and subject to approval of the director of the budget, moneys hereby appropriated may be transferred or suballocated to other state agencies for reimbursement to local government entities for services and expenses related to administration of the medical assistance program.

Personal service (50000) ... 100,612,000 ..... (re. $100,612,000)

STATE OF NEW YORK MORTGAGE AGENCY

STATE OPERATIONS 2016-17

For payment according to the following schedule:

| | APPROPRIATIONS | REAPPROPRIATIONS |
|---|---|---|
| General Fund | 76,800,000 | 0 |
| All Funds | 76,800,000 | 0 |

SCHEDULE

HOMEOWNER MORTGAGE REVENUES REIMBURSEMENT PROGRAM ..... 61,800,000

General Fund
State Purposes Account - 10050

For deposit to the appropriate account or accounts of the homeowner mortgage revenue bonds general resolution pursuant to chapter 261 of the laws of 1988. Notwithstanding section 40 of the state finance law, this appropriation shall remain in effect until a subsequent appropriation is made available ..... 39,800,000

The sum of $22,000,000 is hereby appropriated to the state of New York mortgage agency, for deposit in the appropriate account or fund of the homeowner mortgage revenue bonds general resolution. Such appropriation shall only be made available, upon certification by the director of the budget, to the state of New York mortgage agency when and to the extent that the agency certifies to the director of the budget that monies available to the agency are not sufficient to meet the agency's obligations with respect to all bonds issued under the homeowner mortgage revenue bonds general resolution dated September 10, 1987 as amended. Copies of the certification made by the director of the budget shall be filed with the chairs of the senate finance committee and the assembly ways and means committee.

Notwithstanding section 40 of the state finance law, this appropriation shall remain in effect until a subsequent appropriation is made available ..... 22,000,000

MORTGAGE INSURANCE FUND REIMBURSEMENT PROGRAM ..... 15,000,000

General Fund
State Purposes Account - 10050

The sum of fifteen million dollars ($15,000,000), or so much thereof as may be necessary and available, is hereby appropriated from the state purposes account of the general fund to the state

of New York mortgage agency, for deposit in the mortgage insurance fund established by section 2429-b of the public authorities law as the aggregate reserve amount of the mortgage insurance fund. Any moneys expended pursuant to the provisions of this appropriation shall forthwith be transferred to the general fund, to the extent moneys are available, from the housing reserve account of the New York state infrastructure trust fund established pursuant to section 88 of the state finance law. Such appropriation shall only be made available, upon certification by the director of the budget, to the state of New York mortgage agency to the extent and if the agency requires the use of the aggregate reserve amount of the mortgage insurance fund. Copies of such certification shall be filed with the chairs of the senate finance committee and the assembly ways and means committee.

Notwithstanding section 40 of the state finance law, this appropriation shall remain in effect until a subsequent appropriation is made available ..... 15,000,000

ADMINISTRATION PROGRAM ..... 433,726,000

General Fund
State Purposes Account - 10050

Notwithstanding any other provision of law to the contrary, the New York state data center is established in the department of labor to be operated in cooperation with the United States bureau of the census in order to compile, analyze and disseminate socio-economic information and data.
For services and expenses of the state data center pursuant to section 21 of the labor law.

Personal service--regular (50100) ..... 85,000

For contracted services for the state data center program. Contractor will act as the department of labor's agent for the federal-state cooperative program for population estimates (FSCPE).

Contractual services (51000) ..... 200,000

Program account subtotal ..... 285,000

Special Revenue Funds - Federal
Unemployment Insurance Administration Fund
Unemployment Insurance Administration Account - 25901

For services and expenses of administering unemployment insurance programs, job service programs, workforce investment act programs, employability development programs, other miscellaneous programs, and a reserve for unanticipated funding, pursuant to federal grants and contracts. A portion of this appropriation may be used to provide information and advice regarding unemployment insurance benefit

appeals and hearing assistance. A portion of this appropriation may be transferred to aid to localities.

Notwithstanding section 135 of the civil service law, the commissioner of the department of labor, subject to approval of the director of the budget, is hereby authorized to grant additional compensation to employees of the department of labor whose positions are funded in whole or in part by the disabled veterans' outreach program specialists and/or local veterans' employment representative grant or grants based on merit as determined pursuant to the performance incentive program provided for in the grant consistent with the terms of the grant and applicable provisions of federal law. The payment of such extra compensation shall be in addition to and shall not be part of an employee's basic annual salary and shall not affect or impair any performance advancement payments, performance awards, longevity payments or other rights or benefits to which an employee may be entitled. Furthermore, any additional compensation payable pursuant to this subdivision shall not be included as compensation for retirement purposes. The amount appropriated herein shall also include any Reed act funds that may be made available to this state under section 903 of the social security act as amended and in accordance with federal regulations, to be used under the direction of the New York state department of labor subject to approval of the director of the budget to pay the administrative expenses of the employment security program, including the administration of the unemployment insurance law and the administration of state public employment offices.

Notwithstanding any other provision of law to the contrary, the OGS Interchange and Transfer Authority and the IT Interchange and Transfer Authority as defined in the 2016-17 state fiscal year state operations appropriation for the budget division program of the division of the budget, are deemed fully incorporated herein and a part of this appropriation as if fully stated.

Federal Emergency Employment Act Fund
Federal Workforce Investment Act Account - 26001

For the administration and operation of employment and training programs as funded by grants under the workforce investment act, public law 105-220, and the workforce innovation and opportunity act, public law 113-128, including grants to other governmental units, community-based organizations, non-profit and for profit organizations, suballocations to state departments and agencies and a portion may be transferred to aid to localities, according to the following:

For services and expenses of statewide activities, including but not limited to state administration and technical assistance to local workforce investment areas, pursuant to an expenditure plan approved by the director of the budget. Of the moneys appropriated herein for statewide activities, the state workforce investment board shall assist the governor in developing programs and identifying activities to be funded through the statewide reserve pursuant to section 134 of the federal workforce investment act, PL 105-220, and section 134 of the workforce innovation and opportunity act, public law 113-128, and the commissioner of labor shall periodically report to the state workforce investment board on such programs and activities which shall be developed giving consideration to the strategic training alliance program and other existing programs.

Statewide employment and training activities may include one-to-one business advisement and training for qualified enrollees of the self-employment assistance program which may be operated by the state's small business development centers or the entrepreneurial assistance program.

DEPARTMENT OF LABOR

STATE OPERATIONS - REAPPROPRIATIONS 2016-17

ADMINISTRATION PROGRAM

Special Revenue Funds - Federal
Unemployment Insurance Administration Fund
Unemployment Insurance Administration Account - 25901

By chapter 50, section 1, of the laws of 2015:
For services and expenses of administering unemployment insurance programs, job service programs, workforce investment act programs, employability development programs, other miscellaneous programs, and a reserve for unanticipated funding, pursuant to federal grants and contracts. A portion of this appropriation may be used to provide information and advice regarding unemployment insurance benefit appeals and hearing assistance. A portion of this appropriation may be transferred to aid to localities.
Notwithstanding section 135 of the civil service law, the commissioner of the department of labor, subject to approval of the director of the budget, is hereby authorized to grant additional compensation to employees of the department of labor whose positions are funded in whole or in part by the disabled veterans' outreach program specialists and/or local veterans' employment representative grant or grants based on merit as determined pursuant to the performance incentive program provided for in the grant consistent with the terms of the grant and applicable provisions of federal law. The payment of such extra compensation shall be in addition to and shall not be part of an employee's basic annual salary and shall not affect or impair any performance advancement payments, performance awards, longevity payments or other rights or benefits to which an employee may be entitled. Furthermore, any additional compensation payable pursuant to this subdivision shall not be included as compensation for retirement purposes. The amount appropriated herein shall also include any Reed act funds that may be made available to this state under section 903 of the social security act as amended and in accordance with federal regulations, to be used under the direction of the New York state department of labor subject to approval of the director of the budget to pay the administrative expenses of the employment security program, including the administration of the unemployment insurance law and the administration of state public employment offices.
Notwithstanding any other provision of law to the contrary, the OGS Interchange and Transfer Authority and the IT Interchange and Transfer Authority as defined in the 2015-16 state fiscal year state operations appropriation for the budget division program of the division of the budget, are deemed fully incorporated herein and a part of this appropriation as if fully stated.

Notwithstanding any other provision of law to the contrary, any of the amounts appropriated herein may be increased or decreased by interchange or transfer without limit, with any appropriation of the office of mental health or by transfer or suballocation to any department, agency or public authority for expenditures incurred in the operation of such programs with the approval of the director of the budget who shall file such approval with the department of audit and control and copies thereof with the chairman of the senate finance committee and the chairman of the assembly ways and means committee.

Notwithstanding any other provision of law to the contrary, the commissioner of the office of mental health shall be authorized, subject to the approval of the director of the budget, to transfer up to $1,500,000 of this appropriation to the department of health for the purpose of making physician loan repayment awards to psychiatrists who are licensed to practice in New York state and who agree to work for a period of at least five years in one or more hospitals or outpatient programs that are operated by the office of mental health and deemed to be in one or more underserved areas, as determined by the commissioner of mental health. Notwithstanding paragraph (d) of subdivision 5-a, and paragraphs (d), (e), and (f) of subdivision 10 of section 2807-m of the public health law, all awards made by the department of health from any of the office of mental health funds transferred herein shall be made consistent with the provisions of paragraphs (a), (b) and (c) of subdivision 10 of section 2807-m of the public health law and may not supplant or otherwise support the department of health's physician's loan repayment program.

Notwithstanding any other provision of law to the contrary, the OGS Interchange and Transfer Authority, the IT Interchange and Transfer Authority, and the Alignment Interchange and Transfer Authority as defined in the 2016-17 state fiscal year state operations appropriation for the budget division program of the division of the budget, are deemed fully incorporated herein and a part of this appropriation as if fully stated.

Notwithstanding any other provision of law to the contrary, the commissioner of mental health is authorized to take actions, as necessary, for efficient operations provided that (i) a maximum net reduction of 400 state-operated inpatient beds could be implemented; (ii) there is a consistent 90 day period of time that the inpatient beds remain vacant before any net reduction in overall funded capacity occurs; (iii) the office of mental health shall invest a minimum of $110,000 to improve mental health services for each net reduction of inpatient beds that requires community housing and (iv) investments to improve mental health services shall begin prior to the reduction in funding for inpatient beds. The commissioner of mental health shall provide monthly status reports to the chairs of the senate and assembly fiscal committees which shall include state operated inpatient census, admissions and discharges, with an explanation of any material census reductions when known; rate of medicaid psychiatric inpatient readmissions to any hospital within 30 days of discharge; medicaid emergency room psychiatric visits and descriptions of new community service investments.

Notwithstanding any provision of articles 153, 154 and 163 of the education law, there shall be an exemption from the professional licensure requirements of such articles, and nothing contained in such articles, or in any other provisions of law related to the licensure requirements of persons licensed under those articles, shall prohibit or limit the activities or services of any person in the employ of a program or service operated, certified, regulated, funded approved by, or under contract with the office of mental health, a local governmental unit as such term is defined in article 41 of the mental hygiene law, and/or a local social services district as defined in section 61 of the social services law, and all such entities shall

be considered to be approved settings for the receipt of supervised experience for the professions governed by articles 153, 154 and 163 of the education law, and furthermore, no such entity shall be required to apply for nor be required to receive a waiver pursuant to section 6503-a of the education law in order to perform any activities or provide any services.

The state comptroller is hereby authorized and directed to loan money in accordance with the provisions set forth in subdivision 5 of section 4 of the state finance law to the mental hygiene patient income account.

Notwithstanding any other provision of law to the contrary, any of the amounts appropriated herein may be increased or decreased by interchange or transfer without limit, with any appropriation of the office of mental health or by transfer or suballocation to any department, agency or public authority for expenditures incurred in the operation of such programs with the approval of the director of the budget who shall file such approval with the department of audit and control and copies thereof with the chairman of the senate finance committee and the chairman of the assembly ways and means committee.

Notwithstanding any other provision of law to the contrary, the OGS Interchange and Transfer Authority, the IT Interchange and Transfer Authority, and the Alignment Interchange and Transfer Authority as defined in the 2016-17 state fiscal year state operations appropriation for the budget division program of the division of the budget, are deemed fully incorporated herein and a part of this appropriation as if fully stated.

Notwithstanding any other provision of law to the contrary, the commissioner of mental health is authorized to take actions, as necessary, for efficient operations provided that (i) a maximum net reduction of 400 state-operated inpatient beds could be implemented; (ii) there is a consistent 90 day period of time that the inpatient beds remain vacant before any net reduction in overall funded capacity occurs; (iii) the office of mental health shall invest a minimum of $110,000 to improve mental health services for each net reduction of inpatient beds that requires community housing and (iv) investments to improve mental health services shall begin prior to the reduction in funding for inpatient beds. The commissioner of mental health shall provide monthly status reports to the

chairs of the senate and assembly fiscal committees which shall include state operated inpatient census, admissions and discharges, with an explanation of any material census reductions when known; rate of medicaid psychiatric inpatient readmissions to any hospital within 30 days of discharge; medicaid emergency room psychiatric visits and descriptions of new community service investments.

Notwithstanding any provision of articles 153, 154 and 163 of the education law, there shall be an exemption from the professional licensure requirements of such articles, and nothing contained in such articles, or in any other provisions of law related to the licensure requirements of persons licensed under those articles, shall prohibit or limit the activities or services of any person in the employ of a program or service operated, certified, regulated, funded approved by, or under contract with the office of mental health, a local governmental unit as such term is defined in article 41 of the mental hygiene law, and/or a local social services district as defined in section 61 of the social services law, and all such entities shall be considered to be approved settings for the receipt of supervised experience for the professions governed by articles 153, 154 and 163 of the education law, and furthermore, no such entity shall be required to apply for nor be required to receive a waiver pursuant to section 6503-a of the education law in order to perform any activities or provide any services.

Notwithstanding any other provision of law to the contrary, the commissioner of mental health is authorized to determine the location for the provision of care and treatment for defendants who have been found unfit to proceed under article 730 of the criminal procedure law due to mental illness, in an appropriate institution such as (a) a hospital operated by the office of mental health or a developmental center operated by the office for people with developmental disabilities, (b) a hospital licensed by the department of health which operates a psychiatric unit licensed by the office of mental health, or (c) a mental health unit operating within a correctional facility or local correctional facility, provided however that any such mental health unit operating within a local correctional facility shall qualify as an appropriate institution only pursuant to the terms of

an agreement between the commissioner and sheriff and any such mental health unit operating within a correctional facility shall qualify as an appropriate institution only pursuant to the terms of an agreement between the commissioner and commissioner of the department of corrections and community supervision.

The state comptroller is hereby authorized and directed to loan money in accordance with the provisions set forth in subdivision 5 of section 4 of the state finance law to the mental hygiene program fund account.

Mental Hygiene Program Fund Account - 21907

Notwithstanding any inconsistent provision of law, the state comptroller is hereby authorized and directed to loan money in accordance with the provisions set forth in subdivision 5 of section 4 of the state finance law to the mental hygiene program fund account.

Notwithstanding any other provision of law, the money hereby appropriated may be transferred to local assistance and/or any appropriation of the office for people with developmental disabilities, with the approval of the director of the budget who shall file such approval with the department of audit and control and copies thereof with the chairman of the senate finance committee and the chairman of the assembly ways and means committee.

Notwithstanding section 6908 of the education law and any other provision of law, rule or regulation to the contrary, direct support staff in programs certified or approved by the office for people with developmental disabilities, including the home and community based services waiver programs that the office for people with developmental disabilities is authorized to administer with federal approval pursuant to subdivision (c) of section 1915 of the federal social security act, are authorized to provide such tasks as OPWDD may specify when performed under the supervision, training and periodic inspection of a registered professional nurse and in accordance with an authorized practitioner's ordered care.

Notwithstanding any provision of articles 153, 154 and 163 of the education law, there shall be an exemption from the professional licensure requirements of such articles, and nothing contained in such articles, or in any other provisions of law related to the licensure requirements of persons licensed under those articles, shall prohibit or limit the activities or services of any person

in the employ of a program or service operated, certified, regulated, funded, approved by, or under contract with the office for people with developmental disabilities, a local governmental unit as such term is defined in article 41 of the mental hygiene law, and/or a local social services district as defined in section 61 of the social services law, and all such entities shall be considered to be approved settings for the receipt of supervised experience for the professions governed by articles 153, 154 and 163 of the education law, and furthermore, no such entity shall be required to apply for nor be required to receive a waiver pursuant to section 6503-a of the education law in order to perform any activities or provide any services.

Notwithstanding any other provision of law to the contrary, the OGS Interchange and Transfer Authority, the IT Interchange and Transfer Authority and the Alignment Interchange and Transfer Authority as defined in the 2016-17 state fiscal year state operations appropriation for the budget division program of the division of the budget, are deemed fully incorporated herein and a part of this appropriation as if fully stated.

General Fund
State Purposes Account - 10050

For employee fringe benefits, net of receipts to the fringe benefit escrow accounts, including costs for those benefits which are related to employees paid from funds, accounts, or programs where the division of the budget has issued waivers.

For the state's contribution to the health insurance fund, provided however that notwithstanding any other provision of law to the contrary, in regard to state reimbursement for medicare premium charges to an eligible active or retired employee and his or her dependents, if any, effective October 1, 2016, an amount not to exceed $104.90 per month for the standard medicare premium charge for such supplementary medical insurance benefits shall be reimbursed monthly or at other intervals to such active or retired employee from the health insurance fund; provided, however, effective January 1, 2016, there shall be no reimbursement whatsoever for the income related monthly adjustment amount for any amounts or premiums incurred on or after January 1, 2016, to any active or retired employee and his or her dependents, if any.

Notwithstanding any other provision of law to the contrary, with the exception of: (i) members of the New York state and local police and fire retirement system, (ii) members in the uniformed personnel in institutions under the jurisdiction of the state department of corrections and community supervision, (iii) members who are security hospital treatment assistants as defined in section 89 of the retirement and social security law, and (iv) any state employee determined to have retired with an ordinary, accidental, or performance of duty disability retirement

benefit, the state's contribution for the cost of premium or subscription charges for the coverage of retired state employees who are enrolled in the statewide and the supplementary health benefit plans established pursuant to article 11 of the civil service law and who retired on or after October 1, 2016 shall be as set forth in this appropriation, as follows:

(a) For state employees who retire from a position at or equated to grade 10 or higher with at least 10 but less than 20 years of service, the state shall pay 50 percent of the cost of premium or subscription charges for the individual coverage of such retired state employees. Such contributions shall increase by 2 percent of the cost of premium or subscription charges for each year of service in excess of 10 years, to a maximum of 68 percent of the cost of individual premium or subscription charges. The state shall pay 35 percent of the cost of premium or subscription charges for the coverage of dependents of such retired state employees; such contribution shall increase by 2 percent of the cost of premium or subscription charges for each year of service in excess of 10 years, to a maximum of 53 percent of the cost of premium or subscription charges for such dependents;

(b) For state employees who retire from a position at or equated to grade 10 or higher with 20 or more years of service, the state shall pay 74 percent of the cost of premium or subscription charges for the individual coverage of such retired state employees. Such contributions shall increase by 1 percent of the cost of premium or subscription charges for each year of service in excess of 20 years, to a maximum of 84 percent of the cost of individual premium or subscription charges. The state shall pay 59 percent of the cost of premium or subscription charges for the coverage of dependents of such retired state employees; such contribution shall increase by 1 percent of the cost of premium or subscription charges for each year of service in excess of 20 years, to a maximum of 69 percent of the cost of premium or subscription charges for such dependents;

(c) For state employees who retire from a position at or equated to grade 9 or lower with at least 10 but less than 20 years of service, the state shall pay 54 percent of the cost of premium or subscription

charges for the individual coverage of such retired state employees. Such contributions shall increase by 2 percent of the cost of premium or subscription charges for each year of service in excess of 10 years, to a maximum of 72 percent of the cost of premium or subscription charges. The state shall pay 39 percent of the cost of premium or subscription charges for the coverage of dependents of such retired state employees; such contribution shall increase by 2 percent of the cost of premium or subscription charges for each year of service in excess of 10 years, to a maximum of 57 percent of the cost of premium or subscription charges for such dependents;

(d) For state employees who retire from a position at or equated to grade 9 or lower with 20 or more years of service, the state shall pay 78 percent of the cost of premium subscription charges for the individual coverage of such retired state employees. Such contributions shall increase by 1 percent of the cost of premium or subscription charges for each year of service in excess of 20 years, to a maximum of 88 percent of the cost of premium or subscription charges. The state shall pay 63 percent of the cost of premium or subscription charges for the coverage of dependents of such retired state employees; such contribution shall increase by 1 percent of the cost of premium or subscription charges for each year of service in excess of 20 years, to a maximum of 73 percent of the cost of premium or subscription charges for such dependents;

(e) With respect to all such retired state employees, each increment of 1 or 2 percent of the cost of premium or subscription charges for each year of service shall be applicable for whole years of service to the state and shall not be applied on a pro-rata basis for partial years of service; and

(f) For the purposes of determining the premium or subscription charges to be paid by the state on behalf of retired state employees enrolled in the New York state health insurance program who retire on or after October 1, 2016, the state shall consider all years of service that a retired state employee has accrued in a public retirement system of the state or an optional retirement program established pursuant to articles 3, 8-b, or 125-a of the education law; notwithstanding, however, this provision may not be used to
