Amendments to Senate 6256, Assembly 9758
(Public Protection, General Government Article VII Bill)

Part N, relating to authorizing the state comptroller to deposit reimbursements for capital spending from new capital appropriations, is amended to:

- Add reimbursement authorization and temporary loan language for the new empire opportunity fund.

Part O, relating to the rate of interest on judgments, is added to:

- Establish a market-based index for determining the rate of interest to be applied in court judgments against the State, local governments and certain public authorities. The 9% interest rate that is applied under current law is unreasonably high in comparison to prevailing market rates. This change would also provide mandate relief to local governments.
