

# **WORKERS' COMPENSATION BOARD**

## **MISSION**

To protect the well-being of New York's labor force, most private and public sector employers in New York are required to carry workers' compensation and disability benefits insurance for their employees or demonstrate their ability to self-insure. The Workers' Compensation Board reviews claims for workers' compensation payments and assists in resolving disputed claims. In performing these responsibilities, the Board administers provisions of the following laws: the Workers' Compensation Law; the Disability Benefits Law; the Civil Defense Volunteers' Law; the Volunteer Firefighters' Benefit Law; and the Volunteer Ambulance Workers' Benefit Law.

Because of its broad mission, the Board is responsible for implementing many of the reforms included in the Governor's New York Employment, Safety and Security Act that made historic reforms in the workers' compensation system. The Act improved workplace safety and reduced average workers' compensation rates by nearly 40 percent since enactment of the reforms.

## **ORGANIZATION AND STAFFING**

The Board is headed by a Chairperson selected by the Governor and includes 12 additional full-time members nominated by the Governor and confirmed by the Senate for seven year terms. District offices are located in Albany, Brooklyn, Binghamton, Buffalo, Hauppauge, Hempstead, Manhattan, Peekskill, Queens, Rochester, and Syracuse, with administrative offices in Albany. To make the hearing process as convenient as possible, the Board has 30 additional customer service centers located throughout the State. The Board will have a workforce of 1,577 positions for 2003-04.

## **FISCAL BACKGROUND AND BUDGET HIGHLIGHTS**

The Board is funded through assessments on the Workers' Compensation and Disability Benefits insurance industry and with revenues produced by various services provided by the Board. The assessments paid by insurers are allocated to three major programs: Disability Benefits; Systems Modernization; and Workers' Compensation.

The 2003-04 Executive Budget recommends approximately \$163.7 million in support for the Board, with savings achieved primarily through workforce reductions generated by attrition. The recommended funding will enable the Board to fulfill the Governor's commitment to improve service to businesses and injured workers.

## **PROGRAM HIGHLIGHTS**

The Board continues to improve services by resolving claims in the most efficient and equitable manner possible. For instance, the agency continues to refine its formal and informal adjudication tools and resolve more outstanding claims issues for new and reactivated cases.

At the Governor's direction, the Board also created a new Workers' Compensation Inspector General with staff located across the State. In 2001, the Inspector General's office received 5,206 alleged fraud case referrals, an increase of 34 percent over 2000. The Office investigated and closed 4,316 cases, up from 2,481 in 2000, and submitted 2,515 cases to various authorities for criminal prosecution or other appropriate action.

## **WORKERS' COMPENSATION**

### **DISABILITY BENEFITS PROGRAM**

Disability benefits provide cash payments in lieu of lost wages to temporarily disabled employees. Coverage is required for employers of one or more employees with such selected exceptions as agricultural enterprises and public employers.

### **SYSTEMS MODERNIZATION PROGRAM**

The Office for Systems Modernization manages a multi-year effort to overhaul the Board's capacity to manage and use information. This program also maintains computerized systems vital to various Board operations and collects and analyzes data that measure performance and identify potential problems. Now that the Board has automated and improved the claims processing operation, its focus continues to be directed to other functional areas in need of automation and re-engineering, including Administration, Research and Compliance and Regulatory Services. When the modernization program is complete, the Board will have a new Workers' Compensation Board Information System that will automate and streamline all business activities. This has already increased productivity by enhancing the Board's capacity to process the millions of pieces of information it receives each year.

### **WORKERS' COMPENSATION PROGRAM**

The Workers' Compensation Board reviews workers' claims for benefits, reports of injury filed by employers and medical reports from physicians and other health care providers. The Board adjudicates all issues and law judges make awards and findings to ensure that an entitled claimant promptly receives benefits and medical treatment. The decisions by the law judges may subsequently be appealed to Board panels and eventually to the courts. The Board, through its Bureau of Compliance, also monitors employers to ensure that they properly provide coverage for their employees and imposes penalties on those employers who fail to do so. In addition, the Board's Regulatory Services Bureau authorizes physicians to treat compensation cases, awards licenses to medical providers and arbitrates disputed medical bills.
