# 2008-09 Spending Plan

**Agency Name:** Hudson River Valley Greenway Communities Council and the Greenway Heritage Conservancy HRV, Inc.

**Agency Head:** Mark Castiglione, Acting Executive Director

#### A. Overview of Proposed Plan

#### A.1 Overall Approach

This financial management plan outlines an effective strategy to reduce spending in order to contribute to the Governor's efforts to maintain New York's financial strength. In addition to mandatory spending reductions in both personal service [PS] and non-personal service [NPS], the plan outlines additional economies resulting from the implementation of newly revised policies and procedures.

### A.2 Achievement of Savings on a Recurring Basis

New and revised policies and procedures ensure cost savings occur from year to year. New policies focusing on reducing vehicle miles traveled and reducing the use of personal vehicles for travel will result in sustainable cost savings over time. We will evaluate spending in each category to ensure we are maximizing savings and only spending what is necessary. Future NPS spending will be reviewed very closely and approved when needed to advance the mission of the agency.

Over the past year, the agency has recovered \$112,691 in grant funds so that the funds can be redirected to our member communities. This year the Greenway launched a comprehensive MS Access grants database, which enables the recovery and redirection process to continue in the future. The database allows more efficient monitoring of our obligated funds. The database is now searched on a monthly basis for grants expiring within the next calendar month.

## A.3 Protecting Key Priorities

The Greenway will continue to advance its mission to facilitate the development of a regional strategy for preserving the Hudson River Valley's scenic, natural, historic, cultural and recreational resources. To that end, it is critical that we be permitted to fill staff vacancies that occur within the reduced PS budget. These staffing actions are necessary to provide the high level of service that our communities and partners expect.

#### A.4 Treatment of New Initiatives

New initiatives will receive a hard look to determine if they are "mission critical." The mission of the Greenway requires the agency to work with a diverse group of partners. The Greenway sponsors events and training programs with other organizations. Any investment the Greenway makes for these programs leverages funding from partner organizations.

# **B. Summary of General Fund Financial Impacts**

**Greenway Communities Council:** 

| GENERAL FUND SAVINGS SUMMARY          |                    |                    |                    |  |  |  |  |  |  |  |  |

#### F. Plan to Manage the Workforce

#### F.1 Overall Approach

With a budget reduction to the PS allocation, the Greenway Council plans to work with the remaining appropriated funding to fill open positions for Executive Director, Deputy Director for Planning and Trails and Planner. The Greenway Conservancy is currently fully staffed and no changes are expected in FTEs.

#### F.2 Plan for Refill of Vacant Positions (both current and anticipated vacancies)

Historically, the Greenway Council has employed five (5) FTEs and one (1) intern. As of close of business May 9, 2008, the Greenway Council included only two (2) FTEs, an Administrative Assistant and a Senior Planner/Acting Executive Director. By default we have met the required reduction but it is critical to the mission of the agency to fill at least 2 of the vacant positions. Ideally we would like to hire an additional 3 employees to bring our initial target for the Council to 5 FTE's. Currently the Greenway Conservancy has 4 FTEs and no changes or adjustments are needed.

#### H. Assumptions Underlying the Proposed Plan

The plan assumes expanded eligibility of Washington County communities for Greenway programs and services; increased participation of newly eligible communities in Saratoga County; and increased participation throughout the rest of the legislatively defined Greenway area. Based on the trend of the past three years, it is estimated that an additional 30 communities will be eligible for agency grants and technical assistance over the course of this budget forecast. As a result, the total number of communities participating in the program will increase to 280.

By participating in the Greenway Compact program, communities make a more formal commitment to the Greenway and to regional planning, Communities pass local laws incorporating a regional Greenway Compact plan into their local zoning and subdivision regulations. Compacts are developed at the County level but implemented over time at the local level through amendments to local comprehensive plans, zoning ordinances and subdivision regulations. To incentivize this regional planning framework, the Greenway provides grants (typically in excess of \$10,000) to communities working to implement the Compact. The agency recently adopted a new County Compact strategy making an additional 10 communities eligible for that program. It is also anticipated that another County Compact plan will be completed within the term of this budget forecast making an additional 25 communities eligible to receive grants under the Compact program. Over the course of this budget forecast, 35 additional communities are estimated to become eligible for the Compact program in addition to the 52 currently participating.

### I. Management of Risks Inherent in the Plan

No risks have been identified

#### J. Additional Savings Opportunities for 2008-09

No additional savings opportunities have been identified.

# K. Potential Future Savings Opportunities/Operational Improvements (indicate if statutory change is required)

With the deployment of the agency's Grants Database, it will be much easier to track and monitor grants. In addition to the regular grant administration responsibilities, regular and formal communication to communities with outstanding grant funding has been incorporated within our quarterly granting process. This proposal will allow us to more effectively redirect unspent local assistance funds.

#### Additional:

## **Reviewing and approving NPS Spending:**

#### Supplies and Materials:

- Supplies not available from the Capitol Mail Room are purchased according to the internal controls guidelines established by the agency. Pursuant to Executive Order 134, Jan Patane is responsible for ordering environmentally preferred products.
- The agency maintains a corporate account to purchase office items not available through the mail room. Purchase requests are made to the designated purchasing agent. Expenses are reconciled monthly and sent to the Division of Budget.
- The agency will no longer purchase newspapers, thereby saving an additional \$78 dollars per month.

#### Travel:

- Mission critical travel is approved by the Executive Director.
- Vehicle formerly assigned to the Executive Director exclusively, will become the "fleet" vehicle
  for the agency. This vehicle will be used by staff in order to reduce travel reimbursements
  associated with personal vehicle use for mission critical travel. When feasible and cost
  effective, public transportation or rail will be considered a primary choice for travel.

In July, the agency will be exchanging its current 15/19 MPG vehicle for a more fuel efficient hybrid that is rated at 27/26 MPG, which will reduce gas purchase costs.
