Notwithstanding any other provision of law, rule or regulation, aid payable from this appropriation to community colleges shall be distributed to the colleges according to guidelines established by the city university trustees.

Notwithstanding any other law, rule, or regulation to the contrary, full funding for aidable community college enrollment for the college fiscal year 2015-16 and heretofore as provided under this appropriation is determined by the operating aid formulas defined in rules and regulations developed jointly by the boards of trustees of the state and city universities and approved by the director of the budget provided that the local sponsor may use funds contained in reserves for excess student revenue for operating support of a community college program even though said expenditures may cause expenses and
student revenues to exceed one-third of the college's net operating budget for the college fiscal year 2015-16 provided that such funds do not cause the college's revenue from the local sponsor's contribution in aggregate to be less than the comparable amounts for the previous community college fiscal year and further provided that pursuant to standards and regulations of the state university trustees and the city university trustees for the college fiscal year 2015-16, community colleges may increase tuition and fees above that allowable under current education law if such standards and regulations require that in order to exceed the tuition limit otherwise set forth in the education law, local sponsor contributions either in the aggregate or for each full-time equivalent student shall be no less than the comparable amounts for the previous community college fiscal year.

Provided further, that allocation of 10 percent of the total base operating aid support for each community college shall be contingent upon completion of a performance improvement plan approved by the board of trustees by December 31, 2015 to serve as the basis for performance funding allocations in future years; provided further, each campus performance improvement plan shall include, but not be limited to criteria to improve access, completion, academic and post-graduation success, job placement of graduates, new programs and certifications aligned with the needs of local business, and alignment with the regional economic development councils ................................. 206,047,000

Notwithstanding any provision of law to the contrary, the city university of New York shall make awards to community colleges from the next generation NY job linkage program incentive fund based on measures of student success for all students enrolled in programs that confer a credit-bearing certificate, an associate of occupational studies degree, or an associate of applied science degree, including, but not limited to:

1. The number of students who are employed following degree or certificate completion and their wage gains, if any, as deter-
mined by the department of labor, which
shall be given the greatest weighting
among all measures of student success;
(2) The number of degree completions,
certificate completions and student transfers to other institutions of higher
education;
(3) The number of degree and certificate
completions under the preceding item (2)
by students considered academically
at-risk due to economic disadvantage or
other factor of under-representation within
the field of study; veterans; and the
disabled;
(4) The number of students who make adequate
progress towards completion of a degree or
certificate, which may include accelerated
completion of a developmental education
program;
(5) The number of degree completions in
innovative programs designed to enable
students to balance school, work and other
personal responsibilities; and
(6) The number of students engaged in career
and employment opportunities including
apprenticeships, cooperative education

made on a pro-rata basis in accordance
with a methodology and in a form and
manner developed by the director of the

this appropriation shall be available for
remaining payments for the 2015-16 school

For a school district management efficiency awards program. Funds appropriated herein shall be used to provide competitive awards to school districts based on a plan developed by the commissioner and approved by the director of the budget. Provided that such funds may only be awarded to a school district which demonstrates that it has implemented one or more long term efficiencies within two years prior to a response to a request for proposal or during the current school year in school district management, operations, procurement practices or other cost savings measures and will not result in an increase in cost to the state or the locality and: (i) have resulted or will result in a significant reduction in total operating expenses compared to the prior year and/or significant reductions in the administrative component, or the equivalent, of the school district budget and/or transportation operating expenses and/or transportation capital expenses and/or other non-personal service costs included in the program component of the school district budget compared to the prior year; and (ii) are expected to result in substantial and recurring cost savings in total operating expenses and/or recurring significant reductions in administrative expenditures, or the equivalent, and/or transportation operating expenses and/or transportation capital expenses and/or other non-personal service costs.
service costs included in the program component of the school
district budget in future years; provided further that, a school
district that submits documentation that has been approved by the
commissioner by September 1 of 2013 and of each school year in which
a payment is made from this appropriation demonstrating that it has
fully implemented new standards and procedures for conducting annual
professional performance reviews of classroom teachers and building
principals to determine teacher and principal effectiveness shall
receive bonus points in the scoring of its grant application.

Provided further that, notwithstanding any provision of law to the
contrary, in addition to the competitive awards amount as defined in
paragraph ee of subdivision 1 of section 3602 of the education law,
a minimum of $37,500,000 shall be available for the payment of grant
awards made in the 2013-14 school year, with additional amounts to
be made available in the 2014-15 through 2016-17 state fiscal [year]
years as necessary to continue such awards, [and] make an additional
round of awards pursuant to subdivision 6-a of section 3641 of the
education law in the 2014-15 school year not to exceed the amount
awarded in the 2013-14 school year pursuant to such subdivision 6-a,
and make additional master teachers awards to the extent that the
master teachers program authorized herein would not otherwise expend
the maximum school year amount authorized herein; and such
$37,500,000 shall be made available for $12,500,000 of
prekindergarten grants, $10,000,000 of school-wide extended learning
grants, $7,500,000 of community schools grants, $5,500,000 for a
master teacher program and $2,000,000 for the early college high
school program; provided, however, that no school district shall

have submitted documentation that has been approved by the
commissioner by September 1 of 2013 and of each school year in which
a payment to such district from this appropriation would otherwise
be made demonstrating that it has fully implemented new standards
and procedures for conducting annual professional performance
reviews of classroom teachers and building principals to determine
teacher and principal effectiveness.

Provided, further, that notwithstanding any provision of law to the
contrary, the $12,500,000 appropriated herein available for full-day
and half-day pre-kindergarten grants shall be awarded, based on a
request for proposals developed by the commissioner and approved by
the director of the budget, to school districts to establish new
full-day and half-day pre-kindergarten placements and/or to convert
existing half-day pre-kindergarten placements into full-day place-
ments; provided that preference shall be granted for full-day place-
ments while ensuring that a portion of grants include half-day
placements based on eligible applications; and provided, further,
that such grants shall only be used to supplement, not supplant
existing pre-kindergarten programs, and provided further, however,
that any portion of such $12,500,000 that is not awarded shall
remain available for subsequent awards in the 2013-14 school year or
for full-day and half-day pre-kindergarten grants to be awarded in
subsequent school years. Provided, further, that such grants from
funds appropriated herein shall be awarded based on factors includ-
ing, but not limited to, the following: (i) measures of school
district need, (ii) measures of the need of students to be served by each of the school districts, (iii) the school district's proposal to target the highest need schools and students, (iv) the extent to which the district's proposal would prioritize funds to maximize the total number of eligible children in the district served in pre-kindergarten programs, and (v) proposal quality. Provided, however, that full-day and half-day pre-kindergarten grants appropriated herein shall only be available to support programs (i) that provide instruction for at least five hours per school day for full-day pre-kindergarten programs and at least two and one-half hours per school day for half-day pre-kindergarten programs; (ii) that agree to offer instruction consistent with the New York state pre-kindergarten foundation for the common core standards within three years; (iii) that ensure that, to the extent community-based providers are part of such program, such providers meet the requirements of paragraphs d-1 and d-2 of subdivision 12 of section 3602-e of the education law; and (iv) that otherwise comply with all of the same rules and requirements as universal pre-kindergarten programs pursuant to section 3602-e of the education law except as modified herein. Provided, further, that a school district's pre-kindergarten grant shall equal the product of (A) (i) two multiplied by the approved number of new full-day pre-kindergarten placements plus (ii) the approved number of half-day pre-kindergarten placement conversions and new half-day pre-kindergarten placements, and (B) the district's selected aid per pre-kindergarten pupil pursuant to subparagraph i of paragraph b of subdivision 10 of section 3602-e of the education law; provided, however, that no district shall receive a grant in excess of the total actual grant expenditures incurred by the district in the current school year as approved by the commissioner. Provided, further, that as a condition of eligibility for receipt of such funding, a school district shall agree to adopt approved quality indicators within two years, including, but not limited to, valid and reliable measures of environmental quality, the quality of teacher-student interactions and child outcomes, and ensure that any such assessment of child outcomes shall not be used to make high-stakes educational decisions for individual children. Provided, further, that no school district shall receive more than forty percent of the total pre-kindergarten grant allocation. Provided, further, that notwithstanding any provision of law to the contrary, the $10,000,000 appropriated herein available for school-wide extended learning grants shall be awarded to school districts or school districts in collaboration with not-for-profit community-based organizations based on responses to a request for proposals for planning and implementation grants that is (i) developed by the commissioner; (ii) approved by the director of the budget; and (iii) issued by the commissioner. Provided, further, that such grants shall be awarded based on factors including, but not limited to, the following: (i) the school district's proposal to target the schools and students with the greatest need, and (ii) proposal quality. Provided, further, that to assess proposal quality in order to award implementation grant funding, the commissioner shall take into account factors including, but not limited to: (i) the extent to which the school district's proposal would maximize the use of the
additional learning time through a comprehensive restructuring of
the school day and/or year, (ii) the extent to which the proposal
would provide additional learning time for students in grades six
through eight, and (iii) how the additional learning time would be
utilized, including, but not limited to, additional time spent on
core academics. Provided, however, that no district shall be eligi-
able to receive a school-wide extended learning grant unless its
proposal would increase student learning time by at least 25
percent. Provided, further, that a school district's schoolwide
extended learning implementation grant shall equal its average daily
attendance in the school-wide extended learning program multiplied
by the expected cost per pupil of the additional learning time;
provided, further, that the expected cost per pupil of the addi-
tional learning time shall equal the greater of $1,500 or (A) the
quotient of (i) the school district's approved operating expense,
pursuant to paragraph t of subdivision 1 of section 3602 of the
education law, for the year prior to the base year, divided by (ii)
the district's public school district enrollment, pursuant to
subparagraph (2) of paragraph n of such subdivision, for the year
prior to the base year, multiplied by (B) 10 percent (0.10), multi-
plied by (C) the quotient of (i) the average of the national consum-
er price indexes determined by the United States department of labor
for the 12-month period preceding January first of the base year,
divided by (ii) the average of the national consumer price indexes
determined by the United States department of labor for the 12-month
period preceding January first of the year two years prior to the
base year; provided, however, that in extraordinary cases the
commissioner may award a grant that exceeds the per pupil limit
described above; provided further, however, that no district shall
receive a grant in excess of the total actual grant expenditures
incurred by the district in the current school year as approved by
the commissioner. Provided, further, that no school district shall
receive more than forty percent of the total school-wide extended
learning grant allocation.

Provided, further, that notwithstanding any provision of law to the
contrary, the $7,500,000 appropriated herein available for community
schools grants shall be awarded, based on a request for proposals
(i) developed by the state council on children and families in coor-
dination with the commissioner, (ii) approved by the director of the
budget and (iii) issued by the commissioner, to school districts, or
in a city with a population of one million or more an eligible enti-
ity, to improve student outcomes through the implementation of commu-
nity schools programs that use school buildings as community hubs to
deliver co-located or school-linked academic, health, mental health,
nutrition, counseling, legal and/or other services to students and
their families. In a city with a population of one million or more,
eligible entities shall mean the city school district of the city of
New York, or not-for-profit organizations, which shall include not-
for-profit community-based organizations. An eligible entity that is
a not-for-profit may apply for a community school grant provided
that it collaborates with the city school district of the city of
New York and receives the approval of the chancellor of the city
school district of the city of New York. Provided, further, that
such grants shall be awarded based on factors including, but not
limited to, the following: (i) measures of school district need,
(ii) measures of the need of students to be served by each of the
school districts, (iii) the school district's proposal to target the
highest need schools and students, (iv) the sustainability of the
proposed community schools program, and (v) proposal quality.
Provided, further, that to assess proposal quality in order to award
such funding, the commissioner shall take into account factors
including, but not limited to: (i) the extent to which the school
district's proposal would provide such community services through
partnerships with local governments and non-profit organizations,
(ii) the extent to which the proposal would provide for delivery of
such services directly in school buildings, (iii) the extent to
which the proposal articulates how such services would facilitate
measurable improvement in student and family outcomes, (iv) the
extent to which the proposal articulates and identifies how existing
funding streams and programs would be used to provide such community
services, and (v) the extent to which the proposal ensures the safe-
ty of all students, staff and community members in school buildings
used as community hubs. Provided, however, that community schools
grants appropriated herein shall be paid to school districts in
installments upon successful implementation of each phase of a
school district's approved proposal. Provided, further, that no
school district shall receive more than forty percent of the total
community schools grant allocation, and that each individual commu-
nity school site shall be limited to a maximum grant of $500,000.
Provided, further, that notwithstanding any provision of law to the
contrary, the $5,500,000 appropriated herein available for a master
teachers program shall support the award of stipends of $15,000 per
annum over four years to individual high-performing teachers in
math, science and related fields, and of related costs, administered
by the state university of New York pursuant to a plan developed in
consultation with the commissioner, who shall consult with appropri-
cate state organizations representing K-12 public school teachers and
approved by the director of the budget, to build a corps of
outstanding math, science and related fields teachers in order to
improve the quality of instruction at public secondary schools.
Such plan for use of funding appropriated herein shall: (i) estab-
lish an application process; (ii) guidelines by which applications
from eligible teachers shall be evaluated, which shall include, but
not be limited to, achievement of a rating of highly effective on
the annual professional performance review; and (iii) provide peri-
odic opportunities for professional development for successful
applicants. Provided, further, that priority shall be given to
applicants in regions of the state where a similar program is not
otherwise offered. Notwithstanding any provision of law to the
contrary, upon approval of the director of the budget, such
$5,500,000 of master teachers program funding may be sub-allocated,
interchanged, transferred or otherwise made available to the state
university of New York for the sole purpose of administering such

a sliding scale based upon the number of college credits earned
annually by participating students, consistent with guidelines
established by the commissioner. Provided further that,notwith-
standing any provision of law to the contrary, higher education
partners participating in an early college high schools program, or
the entity/entities responsible for setting tuition at the institu-
tion, shall be authorized to set a reduced rate of tuition and/or
fees, or to waive tuition and/or fees entirely, for students
enrolled in such early college high schools program with no
reduction in other state, local or other support for such students
earning college credit that such higher education partner would
otherwise be eligible to receive.

Provided further that, notwithstanding any provision of law to the
contrary, of the amount appropriated herein, a minimum of
$12,500,000 per year shall be available in the 2014-15 through 2016-

school year] as follows: $2,500,000 of pathways in technology early
college high school program grants and $10,000,000 of teacher
excellence fund grants; provided further that, notwithstanding any
provision of law to the contrary, such [$25,000,000] $12,500,000,
plus any other amounts so designated in other items of appropriation
within the general fund local assistance account office of
prekindergarten through grade twelve education program, shall
constitute the competitive awards amount authorized for the 2013-14
school year by chapter 53 of the laws of 2013.

Provided further that, notwithstanding any provision of law to the
contrary, the $2,500,000 appropriated herein available for pathways
in technology early college high school (P-TECH) program grants
shall be awarded pursuant to a plan developed by the commissioner

education and private-sector partners commit to the required
elements and responsibilities of a P-TECH program, (ii) provisions
to ensure regional diversity of grant recipients, and (iii) priority
for P-TECH programs serving students in academically challenged

available the request for proposals for such program on or before
May fifteenth and the commissioner shall issue awards on or before
August fifteenth; and provided further that a portion of the
payments to P-TECH programs awarded funding from this appropriation
shall be made on a sliding scale based upon the number of college
credits earned annually by participating students, consistent with
guidelines established by the commissioner. Provided further that, notwithstanding any provision of law to the contrary, higher education partners participating in a P-TECH program, or the entity/entities responsible for setting tuition at the institution, shall be authorized to set a reduced rate of tuition and/or fees, or to waive tuition and/or fees entirely, for students enrolled in such P-TECH program with no reduction in other state, local or other support for such students earning college credit that such higher education partner would otherwise be eligible to receive.

Provided further that, notwithstanding any provision of law to the contrary, of the amount appropriated herein, a minimum of $25,000,000 per year shall be available in the 2015-16 and 2016-17 school years for the payment of grant awards as follows: $12,500,000 for three-year-old prekindergarten grants, $2,500,000 for an expanded master teacher program, $1,500,000 of pathways in technology early college high school program grants, $1,500,000 for a school district teacher residency program, $1,500,000 for a New York state masters-in-education teacher incentive scholarship program, $1,500,000 for QUALITYstarsNY, and $4,000,000 for turnaround strategies for chronically underperforming schools; provided further that, notwithstanding any provision of law to the contrary, such $25,000,000, plus any other amounts so designated in other items of appropriation within the general fund local assistance account office of prekindergarten through grade twelve education program, shall constitute the competitive awards amount authorized for the 2015-16 school year.

the education law notwithstanding, for the purposes of this
appropriation, an eligible child shall be a resident child who is
three years of age on or before December first of the year in which
he or she is enrolled. Provided, further, that as a condition of

currently offer a prekindergarten program for four-year-old
children, or children who would otherwise be eligible under
paragraph c of subdivision 1 of section 3602-e of the education law;
provided, further, that a school district may apply for only as many
full-day or half-day placements for three-year-old children as it
currently offers for four-year-old children, or children who would

Nothing herein shall be construed to limit the rights of labor organizations representing teachers to collectively bargain terms and conditions pursuant to article 14 of the civil service law.

Provided further that, notwithstanding any provision of law to the contrary, the $1,500,000 appropriated herein available for pathways in technology early college high school (P-TECH) program grants shall be awarded pursuant to a plan developed by the commissioner and approved by the director of the budget, provided that such plan shall include but not be limited to (i) assurances that K-12, higher education and private-sector partners commit to the required elements and responsibilities of a P-TECH program, (ii) provisions to ensure regional diversity of grant recipients, and (iii) priority
for P-TECH programs serving students in academically challenged

shall be made on a sliding scale based upon the number of college
credits earned annually by participating students, consistent with
guidelines established by the commissioner. Provided further that in
connection with such guidelines, the commissioner shall execute a
memorandum of understanding with the state university of New York
and the city university of New York to develop common data
collection, sharing and reporting mechanisms based on student-level

Provided further that, notwithstanding any inconsistent provision of law, subject to the approval of the director of the budget, funds appropriated herein may be interchanged with the appropriation for School District Performance Improvement grants within the general fund local assistance account office of prekindergarten through grade twelve education program. Notwithstanding section 40 of the state finance law or any provision of law to the contrary, this appropriation shall lapse on March 31, 2017 ... 250,000,000 ..................... performance; and that those eligible districts also demonstrate the
most improved academic achievement gains and student outcomes such
as establishing or expanding participation in college level or early
college programs; and other appropriate measures of student perform-
ance; provided further that in determining the amount of the award
to be made from the funds appropriated herein for those school
districts identified as making the greatest achievement gains and
eligible for such award, the maximum grant award available to each
school district shall be based upon the size of the district meas-
ured by public school enrollment of the district; and provided
further that such amount shall be adjusted based upon measures of
district need and provided further that no district receiving a
grant may be awarded more than forty percent of the total amount
awarded; and provided further that any such funds awarded to a
school district shall be used to increase student performance,
narrow the achievement gap, and increase academic performance in
traditionally underserved student groups.

Provided further that, notwithstanding any provision of law to the
contrary, in addition to the competitive awards amount as defined in
paragraph ee of subdivision 1 of section 3602 of the education law,
a minimum of $37,500,000 shall be available for the payment of grant

education law in the 2014-15 school year not to exceed the amount
awarded in the 2013-14 school year pursuant to such subdivision 6-a,
and make additional master teachers awards to the extent that the
master teachers program authorized herein would not otherwise expend
the maximum school year amount authorized herein; and such

kindergarten grants, $10,000,000 of school-wide extended learning
grants, $7,500,000 of community schools grants, $5,500,000 for a
master teacher program and $2,000,000 for the early college high

receive any portion of the funds appropriated herein unless it shall
have submitted documentation that has been approved by the
commissioner by September 1 of 2013 and of each school year in which
a payment to such district from this appropriation would otherwise
be made demonstrating that it has fully implemented new standards
and procedures for conducting annual professional performance
reviews of classroom teachers and building principals to determine
teacher and principal effectiveness.

Provided, further, that notwithstanding any provision of law to the
contrary, the $12,500,000 appropriated herein available for full-day
and half-day pre-kindergarten grants shall be awarded, based on a
request for proposals developed by the commissioner and approved by
the director of the budget, to school districts to establish new
full-day and half-day pre-kindergarten placements and/or to convert
existing half-day pre-kindergarten placements into full-day place-
ments; provided that preference shall be granted for full-day place-
ments while ensuring that a portion of grants include half-day
placements based on eligible applications; and provided, further,
that such grants shall only be used to supplement, not supplant
existing pre-kindergarten programs, and provided further, however,
that any portion of such $12,500,000 that is not awarded shall
remain available for subsequent awards in the 2013-14 school year or
for full-day and half-day pre-kindergarten grants to be awarded in
subsequent school years. Provided, further, that such grants from
funds appropriated herein shall be awarded based on factors includ-
ing, but not limited to, the following: (i) measures of school
district need, (ii) measures of the need of students to be served by
each of the school districts, (iii) the school district's proposal
to target the highest need schools and students, (iv) the extent to
which the district's proposal would prioritize funds to maximize the
total number of eligible children in the district served in pre-kind-
garten programs, and (v) proposal quality. Provided, however,
that full-day and half-day pre-kindergarten grants appropriated
herein shall only be available to support programs (i) that provide
instruction for at least five hours per school day for full-day
pre-kindergarten programs and at least two and one-half hours per
school day for half-day pre-kindergarten programs; (ii) that agree
to offer instruction consistent with the New York state pre-kinder-
garten foundation for the common core standards within three years;
(iii) that ensure that, to the extent community-based providers are
part of such program, such providers meet the requirements of para-
graphs d-1 and d-2 of subdivision 12 of section 3602-e of the educa-
tion law; and (iv) that otherwise comply with all of the same rules
and requirements as universal pre-kindergarten programs pursuant to
section 3602-e of the education law except as modified herein.
Provided, further, that a school district's pre-kindergarten grant
shall equal the product of (A) (i) two multiplied by the approved
number of new full-day pre-kindergarten placements plus (ii) the
approved number of half-day pre-kindergarten placement conversions
and new half-day pre-kindergarten placements, and (B) the district's
selected aid per pre-kindergarten pupil pursuant to subparagraph i
of paragraph b of subdivision 10 of section 3602-e of the education
law; provided, however, that no district shall receive a grant in
excess of the total actual grant expenditures incurred by the
district in the current school year as approved by the commissioner.
Provided, further, that as a condition of eligibility for receipt of
such funding, a school district shall agree to adopt approved quali-
ty indicators within two years, including, but not limited to, valid
and reliable measures of environmental quality, the quality of
teacher-student interactions and child outcomes, and ensure that any
such assessment of child outcomes shall not be used to make high-
stakes educational decisions for individual children. Provided,
further, that no school district shall receive more than forty
percent of the total pre-kindergarten grant allocation.
Provided, further, that notwithstanding any provision of law to the
contrary, the $10,000,000 appropriated herein available for school-
wide extended learning grants shall be awarded to school districts
or school districts in collaboration with not-for-profit community-
based organizations based on responses to a request for proposals
for planning and implementation grants that is (i) developed by the
commissioner; (ii) approved by the director of the budget; and (iii)
issued by the commissioner. Provided, further, that such grants shall be awarded based on factors including, but not limited to, the following: (i) the school district's proposal to target the schools and students with the greatest need, and (ii) proposal quality. Provided, further, that to assess proposal quality in order to award implementation grant funding, the commissioner shall take into account factors including, but not limited to: (i) the extent to which the school district's proposal would maximize the use of the additional learning time through a comprehensive restructuring of the school day and/or year, (ii) the extent to which the proposal would provide additional learning time for students in grades six through eight, and (iii) how the additional learning time would be utilized, including, but not limited to, additional time spent on core academics. Provided, however, that no district shall be eligible to receive a school-wide extended learning grant unless its proposal would increase student learning time by at least 25 percent. Provided, further, that a school district's schoolwide extended learning implementation grant shall equal its average daily attendance in the school-wide extended learning program multiplied by the expected cost per pupil of the additional learning time; provided, further, that the expected cost per pupil of the additional learning time shall equal the greater of $1,500 or (A) the quotient of (i) the school district's approved operating expense, pursuant to paragraph t of subdivision 1 of section 3602 of the education law, for the year prior to the base year, divided by (ii) the district's public school district enrollment, pursuant to subparagraph (2) of paragraph n of such subdivision, for the year prior to the base year, multiplied by (B) 10 percent (0.10), multiplied by (C) the quotient of (i) the average of the national consumer price indexes determined by the United States department of labor for the 12-month period preceding January first of the base year, divided by (ii) the average of the national consumer price indexes determined by the United States department of labor for the 12-month period preceding January first of the year two years prior to the base year; provided, however, that in extraordinary cases the commissioner may award a grant that exceeds the per pupil limit described above; provided further, however, that no district shall receive a grant in excess of the total actual grant expenditures incurred by the district in the current school year as approved by the commissioner. Provided, further, that no school district shall receive more than forty percent of the total school-wide extended learning grant allocation.

Provided, further, that notwithstanding any provision of law to the contrary, the $7,500,000 appropriated herein available for community schools grants shall be awarded, based on a request for proposals (i) developed by the state council on children and families in coordination with the commissioner, (ii) approved by the director of the budget and (iii) issued by the commissioner, to school districts, or in a city with a population of one million or more an eligible entity, to improve student outcomes through the implementation of community schools programs that use school buildings as community hubs to deliver co-located or school-linked academic, health, mental health, nutrition, counseling, legal and/or other services to students and
their families. In a city with a population of one million or more, eligible entities shall mean the city school district of the city of New York, or not-for-profit organizations, which shall include not-for-profit community-based organizations. An eligible entity that is a not-for-profit may apply for a community school grant provided that it collaborates with the city school district of the city of New York and receives the approval of the chancellor of the city school district of the city of New York. Provided, further, that such grants shall be awarded based on factors including, but not limited to, the following: (i) measures of school district need, (ii) measures of the need of students to be served by each of the school districts, (iii) the school district’s proposal to target the highest need schools and students, (iv) the sustainability of the proposed community schools program, and (v) proposal quality. Provided, further, that to assess proposal quality in order to award such funding, the commissioner shall take into account factors including, but not limited to: (i) the extent to which the school district’s proposal would provide such community services through partnerships with local governments and non-profit organizations, (ii) the extent to which the proposal would provide for delivery of such services directly in school buildings, (iii) the extent to which the proposal articulates how such services would facilitate measurable improvement in student and family outcomes, (iv) the extent to which the proposal articulates and identifies how existing funding streams and programs would be used to provide such community services, and (v) the extent to which the proposal ensures the safety of all students, staff and community members in school buildings used as community hubs. Provided, however, that community schools grants appropriated herein shall be paid to school districts in installments upon successful implementation of each phase of a school district’s approved proposal. Provided, further, that no school district shall receive more than forty percent of the total community schools grant allocation, and that each individual community school site shall be limited to a maximum grant of $500,000. Provided, further, that notwithstanding any provision of law to the contrary, the $5,500,000 appropriated herein available for a master teachers program shall support the award of stipends of $15,000 per annum over four years to individual high-performing teachers in math, science and related fields, and of related costs, administered by the state university of New York pursuant to a plan developed in consultation with the commissioner, who shall consult with appropriate state organizations representing K-12 public school teachers, and approved by the director of the budget, to build a corps of outstanding math, science and related fields teachers in order to improve the quality of instruction at public secondary schools. Such plan for use of funding appropriated herein shall: (i) establish an application process; (ii) guidelines by which applications from eligible teachers shall be evaluated, which shall include, but not be limited to, achievement of a rating of highly effective on the annual professional performance review; and (iii) provide periodic opportunities for professional development for successful applicants. Provided, further, that priority shall be given to applicants in regions of the state where a similar program is not
otherwise offered. Notwithstanding any provision of law to the
contrary, upon approval of the director of the budget, such
$5,500,000 of master teachers program funding may be sub-allocated,
interchanged, transferred or otherwise made available to the state
university of New York for the sole purpose of administering such
program. Nothing herein shall be construed to limit the rights of
labor organizations to collectively bargain terms and conditions
pursuant to article 14 of the civil service law.
Provided, further, that notwithstanding any provision of law to the
contrary, the $2,000,000 appropriated herein available for the early
college high school program shall support the continuation and
expansion of such program pursuant to a plan developed by the
commissioner and approved by the director of the budget. Provided,
however, that a portion of the payments to early college high school
programs awarded funding from this appropriation shall be awarded on
a sliding scale based upon the number of college credits earned
annually by participating students, consistent with guidelines
established by the commissioner. Provided further that, notwith-
standing any provision of law to the contrary, higher education
partners participating in an early college high schools program, or
the entity/entities responsible for setting tuition at the institu-
tion, shall be authorized to set a reduced rate of tuition and/or
fees, or to waive tuition and/or fees entirely, for students
enrolled in such early college high schools program with no
reduction in other state, local or other support for such students

otherwise be eligible to receive.
Provided further that, notwithstanding any provision of law to the
contrary, of the amount appropriated herein, a minimum of
$12,500,000 per year shall be available in the 2014-15 through 2016-
17 school years for the payment of grant awards [made in the 2014-15
school year] as follows: $2,500,000 of pathways in technology early
college high school program grants and $10,000,000 of teacher
excellence fund grants; provided further that, notwithstanding any
provision of law to the contrary, such [$25,000,000] $12,500,000,
plus any other amounts so designated in other items of appropriation
within the general fund local assistance account office of
prekindergarten through grade twelve education program, shall
constitute the competitive awards amount authorized for the 2013-14
school year by chapter 53 of the laws of 2013.
Provided further that, notwithstanding any provision of law to the
contrary, the $2,500,000 appropriated herein available for pathways
in technology early college high school (P-TECH) program grants
shall be awarded pursuant to a plan developed by the commissioner
and approved by the director of the budget, provided that such plan
shall include but not be limited to (i) assurances that K-12, higher
education and private-sector partners commit to the required
elements and responsibilities of a P-TECH program, (ii) provisions
to ensure regional diversity of grant recipients, and (iii) priority
for P-TECH programs serving students in academically challenged
school districts; provided further that the commissioner shall make
available the request for proposals for such program on or before
May fifteenth and the commissioner shall issue awards on or before
August fifteenth; and provided further that a portion of the payments to P-TECH programs awarded funding from this appropriation shall be made on a sliding scale based upon the number of college credits earned annually by participating students, consistent with guidelines established by the commissioner. Provided further that, notwithstanding any provision of law to the contrary, higher education partners participating in a P-TECH program, or the entity/entities responsible for setting tuition at the institution, shall be authorized to set a reduced rate of tuition and/or fees, or to waive tuition and/or fees entirely, for students enrolled in such P-TECH program with no reduction in other state, local or other support for such students earning college credit that such higher education partner would otherwise be eligible to receive.

Provided further that, notwithstanding any provision of law to the contrary, the $10,000,000 appropriated herein available for teacher excellence fund grants shall be awarded to eligible school districts pursuant to a request for proposals based on a plan developed by the commissioner and approved by the director of the budget; provided that such plan shall include an application for award of such grants to such eligible school districts to provide annual teacher excellence fund performance awards of up to $20,000 to eligible teachers rated as "highly effective" on the most recent annual professional performance review, in accordance with the requirements of section 3012-c of the education law and the regulations of the commissioner, pursuant to such districts' approved applications; provided that in making such grants the commissioner shall prioritize school districts' applications based on factors including but not limited to (i) the extent to which the school district's application would recognize and reward such teachers in school buildings with the greatest academic need, in difficult-to-staff subject or certification areas and grade levels, and at critical points in a teacher's career in order to encourage highly effective teachers to remain in the classroom, and (ii) the quality of the school district's application; and provided further that the commissioner shall make available the application for such grants on or before May fifteenth and the commissioner shall issue preliminary grant awards on or before October fifteenth.

Provided further that, notwithstanding any provision of law to the contrary, of the amount appropriated herein, a minimum of $25,000,000 per year shall be available in the 2015-16 and 2016-17 school years for the payment of grant awards as follows: $12,500,000 for three-year-old prekindergarten grants, $2,500,000 for an expanded master teacher program, $1,500,000 of pathways in technology early college high school program grants, $1,500,000 for a school district teacher residency program, $1,500,000 for a New York state masters-in-education teacher incentive scholarship program, $1,500,000 for QUALITYstarsNY, and $4,000,000 for turnaround strategies for chronically underperforming schools; provided further that, notwithstanding any provision of law to the contrary, such $25,000,000, plus any other amounts so designated in
other items of appropriation within the general fund local
assistance account office of prekindergarten through grade twelve
education program, shall constitute the competitive awards amount
authorized for the 2015-16 school year.

Provided, further, that notwithstanding any provision of law to the
contrary, the $12,500,000 appropriated herein available for grants
to full-day and half-day pre-kindergarten programs for three-year-old children shall be awarded, based on a request for proposals
developed by the commissioner and approved by the director of the
budget, to school districts to establish new full-day and half-day
prekindergarten placements for three-year-olds; provided that such
grants shall only be used to supplement, not supplant existing pre-
kindergarten programs; and provided further, however, that any
portion of such $12,500,000 that is not awarded shall remain
available for subsequent awards in the 2015-16 school year or for
full-day and half-day pre-kindergarten grants to be awarded in
subsequent school years. Provided, further, that such grants from
funds appropriated herein shall be awarded based on factors
including, but not limited to, the following: (i) measures of school
district need, (ii) measures of the need of students to be served by

the extent community-based providers are part of such program, such
providers meet the requirements of paragraphs d-1 and d-2 of
subdivision 12 of section 3602-e of the education law; and (iv) that
otherwise comply with all of the same rules and requirements as
universal pre-kindergarten programs pursuant to section 3602-e of
the education law except as modified herein; provided that

the education law notwithstanding, for the purposes of this
appropriation, an eligible child shall be a resident child who is

children, or children who would otherwise be eligible under
paragraph c of subdivision 1 of section 3602-e of the education law;
provided, further, that a school district may apply for only as many
full-day or half-day placements for three-year-old children as it
currently offers for four-year-old children, or children who would

district's grant for three-year-old prekindergarten shall equal the

full-day pre-kindergarten placements plus (ii) the approved number
of new half-day pre-kindergarten placements, and (B) the district’s
selected aid per pre-kindergarten pupil pursuant to subparagraph i
of paragraph b of subdivision 10 of section 3602-e of the education
law; provided, however, that no district shall receive a grant in
excess of the total actual grant expenditures incurred by the
district in the current school year as approved by the commissioner.
Provided, further, that as a condition of eligibility for receipt of
such funding, a school district shall agree to adopt approved
quality indicators within two years, including, but not limited to,
valid and reliable measures of environmental quality, the quality of
teacher-student interactions and child outcomes, and ensure that any
such assessment of child outcomes shall not be used to make high-
stakes educational decisions for individual children. Provided,
further, that no school district shall receive more than forty
percent of the total pre-kindergarten for three-year-old children
grant allocation.

Provided further that notwithstanding any provision of law to the

process; (iii) guidelines by which applications from eligible
teachers shall be evaluated, which shall include, but not be limited
to, achievement of a rating of highly effective on the annual
professional performance review; and (iv) provide periodic
opportunities for professional development for successful
applicants. Provided, further, that priority shall be given to
applicants in regions of the state where a similar program is not
otherwise offered. Notwithstanding any provision of law to the
contrary, upon approval of the director of the budget, such
$2,500,000 of master teachers program funding may be sub-allocated,
interchanged, transferred or otherwise made available to the state
university of New York for the sole purpose of administering such
program. Nothing herein shall be construed to limit the rights of
labor organizations representing teachers to collectively bargain
terms and conditions pursuant to article 14 of the civil service
law.

Provided further that, notwithstanding any provision of law to the
contrary, the $1,500,000 appropriated herein available for pathways
in technology early college high school (P-TECH) program grants
shall be awarded pursuant to a plan developed by the commissioner
and approved by the director of the budget, provided that such plan
shall include but not be limited to (i) assurances that K-12, higher
education and private-sector partners commit to the required
elements and responsibilities of a P-TECH program, (ii) provisions
to ensure regional diversity of grant recipients, and (iii) priority
for P-TECH programs serving students in academically challenged
school districts; provided further that the commissioner shall make
available the request for proposals for such program on or before
May fifteenth and the commissioner shall issue awards on or before
August fifteenth; and provided further that a portion of the
payments to P-TECH programs awarded funding from this appropriation
shall be made on a sliding scale based upon the number of college
credits earned annually by participating students, consistent with
guidelines established by the commissioner. Provided further that in
connection with such guidelines, the commissioner shall execute a
memorandum of understanding with the State University of New York
and the City University of New York to develop common data
collection, sharing and reporting mechanisms based on student-level
data for students enrolled in P-TECH and Smart Scholars early
college high school programs. Provided further that, notwithstanding
any provision of law to the contrary, higher education partners
participating in a P-TECH program, or the entity/entities
responsible for setting tuition at the institution, shall be
authorized to set a reduced rate of tuition and/or fees, or to waive
tuition and/or fees entirely, for students enrolled in such P-TECH
program with no reduction in other state, local or other support for

budget. Provided, further, that such plan shall establish a process
for selection of experienced nonprofit entities to manage the
program. Provided, further, that no school district shall receive
more than forty percent of the total grant allocation.
Provided, further, that notwithstanding any provision of law to the
contrary, $1,500,000 of the amount appropriated herein shall be made
available for payment of New York state masters-in-education teacher
incentive scholarship program awards. Provided, further, that

Social services districts must adjust the amount of payments made for care provided by congregate care and foster boarding home programs and to foster parents to reflect the cost of living adjustments in the manner specified by the office. Each authorized agency operating a congregate care or foster boarding home program in New York state for which the office sets a maximum state aid rate pursuant to section 398-a of the social services law or section 4003 or 4405 of the education law shall submit, at the time and in a manner to be determined by the office, a written certification, attesting that the funds received for the continuation of the cost of living adjustment to the maximum state aid rate that became effective April 1, 2008 for that program will be or were used solely in accordance with the requirements of the cost of living adjustment established by the office. Notwithstanding any inconsistent provision of law, including section 1 of part C of chapter 57 of the laws of 2006, as amended by section 1 of part I of chapter 60 of the laws of 2014, for the period commencing on April 1, 2015 and ending March 31, 2016 the commissioner shall not apply any cost of living adjustment for the purpose of establishing rates of payments, contracts or any other form of reimbursement.

Notwithstanding any other provision of law, such block grant allocation shall be based, in part, on each district's claims for such costs, adjusted by the applicable cost allocation methodology and net of any retroactive payments for the 12 month period ending June 30, 2014 that are submitted on or before January 2, 2015.
and, in part, on such other factors as

aftercare services provided pursuant to
regulations of the department of family
assistance, claimed by such district
during the next state fiscal year up to

grant allocation by the state share
decrease related to federal retroactive

services law or federal law.
Notwithstanding any other provision of law,
the state shall not be responsible for
reimbursing a social services district and
a district shall not seek state reimburse-
ment for any portion of any state disal-
lowance or sanction taken against the
social services district, or any federal
disallowance attributable to final federal
agency decisions or to settlement made, on
or after July 1, 1995, when such disallow-
ance or sanction results from the failure
of the social services district to comply
with federal or state requirements,
including, but not limited to, failure to
document eligibility for federal or state
funds in the case record; provided, howev-
er, if the office determines that any
federal disallowance for services provided

state to any and all social services
districts that the office of children and
family services has determined have not
complied with the title IV-E eligibility
requirements or have not taken the neces-
sary actions to ensure compliance with
such requirements including, but not
limited to, failing to: assess and fully
document all the criteria and have readily
available all the necessary documents to
establish and continue title IV-E eligi-
bility for all title IV-E eligible chil-
dren within the required time frames;
claim title IV-E funding only for cases
that meet all of the title IV-E eligibil-
ity criteria; and fully implement the
social services payment system on or
before April 1, 2005 for all direct and
voluntary agency foster care services.
Notwithstanding any law to the contrary, the
office of children and family services
shall impose on social services districts
any federal disallowance issued against the state as a result of a federal title IV-E secondary eligibility review regardless of the date the children may have entered foster care, the date the eligibility or payment errors occurred, or the filing date of any federal claims for reimbursement; provided, however, that the state shall be responsible for the disallowed costs and expenditures related to the placement of children in a facility operated by the office of children and family services, which shall be determined in the same manner as the disallowed costs and expenditures for social services districts other than the city of New York. In order to reimburse the federal government for the full amount of any disallowance imposed on the state by the federal administration for children and families within the timeframes necessary to avoid any potential interest payments on such amount, the office of children and family services is authorized to immediately offset funds otherwise due to each district for a pro rata share of the total disallowed costs based on the percentage of applicable federal title IV-E claims made by that district for the relevant time period as compared to the total applicable statewide title IV-E claims. The amount of the offset against each district will be adjusted, if necessary, upon completion of the disallowance allocation process. The final allocation of the amount of any federal disallowance resulting from a title IV-E secondary eligibility review shall be allocated among the districts so that each district shall be responsible for the amount attributable to each of the district's children or cases that are determined by the federal review to be unallowable. Each district shall also be responsible for a portion of the federal extrapolated disallowance amount based on the relative error rate for the district. The city of New York's error rate will be based on the federal sample and federal statistics. For all social services districts other than the city of New York, the error rate will be based on a review conducted by the
DEPARTMENT OF FAMILY ASSISTANCE

AID TO LOCALITIES 2015-16

district of a sample of children and/or
and cases determined by the office of children
and family services and a re-review of a
sub-sample by the office of those children
and/or cases determined by the office. The
office of children and family services
will determine what is reasonable in
establishing the size of the sample and
sub-sample for each district. The office
of children and family services shall
notify each social services district of
the sample of children and/or cases from
the federal audit period that the social
services district must review. Any child
or case from the social services district
that was included in the federal sample
will automatically be included in the
social services district's review sample
and the determination made at the federal
review regarding that child or case will
govern for the purposes of the social
services district's review. The social
services district must complete and submit
the results of its review to the office of
children and family services within 60
days of receipt of the sample. The error
rate for the district will be based on the
findings of the district's review and the
office of children and family services'
re-review. If a social services district
does not complete its review within 60
days of receiving the sample from the
office of children and family services,
the office of children and family services
shall assign an error rate to the social
services district based on the relative
percentage of the district's applicable
title IV-E claims for the relevant period
as compared to applicable statewide title
IV-E claims for that period and other
circumstances that the office of children
and family services may consider in order
to allocate 100 percent of the federal
disallowance. The office of children and
family services shall apply each social
services district's error rate to the
total amount of the district's applicable
title IV-E claims including associated
administrative expenses. The resulting
dollar amounts for all of the social
services districts will be summed to
derive the total amount of title IV-E
claims deemed to be in error statewide. To
establish a disallowance percentage for
each social services district, the amount
of the district's title IV-E claims deemed
to be in error will be divided by the
amount of statewide title IV-E claims
deemed to be in error. The resulting
disallowance percentage for each district
will be applied to the entire title IV-E
extrapolated disallowance calculated by
the federal review to determine the amount
of the extrapolated disallowance for which
the district is responsible. Each district
will be credited for the amount already
disallowed for any individual children or
cases found to be in error during the
federal review. The exclusive appeal
rights for the review of the amount of the
federal disallowance assigned to each
social services district shall be pursuant
to article 78 of the civil practice laws
and rules; provided, however, that in any
such action all of the social services
districts shall be joined as necessary
parties and the venue of any such action
shall be in Rensselaer county. Any social
services district that fails to complete
its sample review in the required time
frames shall have no right to appeal and
shall not be a necessary party to any
action brought by another social services
district.

FAMILY AND CHILDREN'S SERVICES PROGRAM

General Fund
Local Assistance Account - 10000

Notwithstanding any inconsistent provision of law, the amount appropriated herein, shall be available under a foster care block grant for state reimbursement of eligible social services district expenditures for the provision and administration of foster care services including care, maintenance, supervision, and tuition; for supervision of foster children placed in federally funded job corps programs; for care, maintenance, supervision, and tuition for adjudicated juvenile delinquents and persons in need of supervision placed in residential programs operated by authorized agencies and in out-of-state residential programs; and for the provision and administration of the kinship guardian assistance program including kinship guardianship assistance payments and payments for non-recurring guardianship expenses.

Notwithstanding any other provision of law, a portion of the funds are available to reimburse social services districts for the change in the maximum state aid rates established by the office of children and family services for the 2014-15 rate year pursuant to section 398-a of the social services law and sections 4003 and 4405 of the education law to reflect the continuation of the cost of living adjustments that became effective April 1, 2008 for payments made to foster parents and for salary and fringe benefit costs and other critical nonpersonal services costs for foster care programs as determined by the office. Social services districts must adjust the amount of payments made for care provided by congregate care and foster boarding home programs and to foster parents to reflect the cost of living adjustments in the manner specified by the office. Each authorized agency operating a congregate care or foster boarding home program in New York state for which the office sets a maximum state aid rate pursuant to section 398-a of the social services law or section 4003 or 4405 of the education law shall submit, at the time and in a manner to be determined by the office, a written certification, attesting that the funds received for the continuation of the cost of living adjustment to the maximum state aid rate that became effective April 1, 2008 for that program will be or were used solely in accordance with the requirements of the cost of living adjustment established by the office. Notwithstanding any inconsistent provision of law, including section 1 of part C of chapter 57 of the laws of 2006, as amended by section 1 of part N of
chapter 56 of the laws of 2013, for the period commencing on April 1, 2014 and ending March 31, 2015 the commissioner shall not apply any cost of living adjustment for the purpose of establishing rates of payments, contracts or any other form of reimbursement. Within the amounts appropriated herein, state reimbursement to each social services district for services identified herein that are otherwise reimbursable by the state from April 1, 2014 through March 31, 2015 shall be limited to a district allocation, hereinafter referred to as the district's block grant allocation. Notwithstanding any other provision of law, such block grant allocation shall be based, in part, on each district's claims for such costs, adjusted by the applicable cost allocation methodology and net of any retroactive payments for the 12 month period ending June 30, 2013 that are submitted on or before January 2, 2014 and, in part, on such other factors as determined by the office of children and family services and approved by the director of the budget. Any portion of a social services district’s allocation from funds appropriated herein not claimed by such district during the state fiscal year may be used by such district for expenditures on preventive services provided pursuant to section 409-a of the social services law, independent living services and aftercare services provided pursuant to regulations of the department of family assistance, claimed by such district during the next state fiscal year up to the amount remaining from the district's foster care block grant allocation, provided however, that any claims for such services during the next state fiscal year in excess of such amount shall be subject to 62 percent state reimbursement exclusive of any federal funds made available for such purposes, in accordance with directives of the department of family assistance and subject to the approval of the director of the budget. Any claims submitted by a social services district for reimbursement for a particular state fiscal year for which the social services district does not receive state or federal reimbursement during that state fiscal year may not be claimed against that district's block grant apportionment for the next state fiscal year.

The office of children and family services, with the approval of the director of the budget, may reduce a district's block grant allocation by the state share decrease related to federal retroactive reimbursement for such foster care services identified herein. The office, with the approval of the director of the budget, may reduce a district's block grant allocation by the state share of disallowances or sanctions taken against the district pursuant to the social services law or federal law. Notwithstanding any other provision of law, the state shall not be responsible for reimbursing a social services district and a district shall not seek state reimbursement for any portion of any state disallowance or sanction taken against the social services district, or any federal disallowance attributable to final federal agency decisions or to settlement made, on or after July 1, 1995, when such disallowance or sanction results from the failure of the social services district to comply with federal or state requirements, including, but not limited to, failure to document
eligibility for federal or state funds in the case record; provided, however, if the office determines that any federal disallowance for services provided between January 1, 1999 and May 31, 1999 results solely from the late enactment of the state legislation implementing the federal adoption and safe families act, the state shall be solely responsible for the full amount of the disallowance or sanction; provided, further, however, this provision shall be deemed to apply both prospectively and retroactively regardless of whether such sanctions or disallowances are for services provided or claims made prior to or after April 1, 2014.

Notwithstanding any other provision of law, any federal disallowance resulting from a federal title IV-E eligibility review or audit that uses extrapolated statistic techniques shall be passed along by the state to any and all social services districts that the office of children and family services has determined have not complied with the title IV-E eligibility requirements or have not taken the necessary actions to ensure compliance with such requirements including, but not limited to, failing to: assess and fully document all the criteria and have readily available all the necessary documents to establish and continue title IV-E eligibility for all title IV-E eligible children within the required time frames; claim title IV-E funding only for cases that meet all of the title IV-E eligibility criteria; and fully implement the social services payment system on or before April 1, 2005 for all direct and voluntary agency foster care services.

Notwithstanding any law to the contrary, the office of children and family services shall impose on social services districts any federal disallowance issued against the state as a result of a federal title IV-E secondary eligibility review regardless of the date the children may have entered foster care, the date the eligibility or payment errors occurred, or the filing date of any federal claims for reimbursement; provided, however, that the state shall be responsible for the disallowed costs and expenditures related to the placement of children in a facility operated by the office of children and family services, which shall be determined in the same manner as the disallowed costs and expenditures for social services districts other than the city of New York. In order to reimburse the federal government for the full amount of any disallowance imposed on the state by the federal administration for children and families within the timeframes necessary to avoid any potential interest payments on such amount, the office of children and family services is authorized to immediately offset funds otherwise due to each district for a pro rata share of the total disallowed costs based on the percentage of applicable federal title IV-E claims made by that district for the relevant time period as compared to the total applicable statewide title IV-E claims. The amount of the offset against each district will be adjusted, if necessary, upon completion of the disallowance allocation process. The final allocation of the amount of any federal disallowance resulting from a title IV-E secondary eligibility review shall be allocated among the districts so that each district shall be responsible for the amount attributable to each of the district's
children or cases that are determined by the federal review to be unallowable. Each district shall also be responsible for a portion of the federal extrapolated disallowance amount based on the relative error rate for the district. The city of New York's error rate will be based on the federal sample and federal statistics. For all social services districts other than the city of New York, the error rate will be based on a review conducted by the district of a sample of children and/or cases determined by the office of children and family services and a re-review of a sub-sample by the office of those children and/or cases determined by the office. The office of children and family services will determine what is reasonable in establishing the size of the sample and sub-sample for each district. The office of children and family services shall notify each social services district of the sample of children and/or cases from the federal audit period that the social services district must review. Any child or case from the social services district that was included in the federal sample will automatically be included in the social services district's review sample and the determination made at the federal review regarding that child or case will govern for the purposes of the social services district's review. The social services district must complete and submit the results of its review to the office of children and family services within 60 days of receipt of the sample. The error rate for the district will be based on the findings of the district's review and the office of children and family services' re-review. If a social services district does not complete its review within 60 days of receiving the sample from the office of children and family services, the office of children and family services shall assign an error rate to the social services district based on the relative percentage of the district's applicable title IV-E claims for the relevant period as compared to applicable statewide title IV-E claims for that period and other circumstances that the office of children and family services may consider in order to allocate 100 percent of the federal disallowance. The office of children and family services shall apply each social services district's error rate to the total amount of the district's applicable title IV-E claims including associated administrative expenses. The resulting dollar amounts for all of the social services districts will be summed to derive the total amount of title IV-E claims deemed to be in error statewide. To establish a disallowance percentage for each social services district, the amount of the district's title IV-E claims deemed to be in error statewide. To establish a disallowance percentage for each social services district, the amount of the district's title IV-E claims deemed to be in error will be divided by the amount of statewide title IV-E claims deemed to be in error. The resulting disallowance percentage for each district will be applied to the entire title IV-E extrapolated disallowance calculated by the federal review to determine the amount of the extrapolated disallowance for which the district is responsible. Each district will be credited for the amount already disallowed for any individual children or cases found to be in error during the federal review. The exclusive appeal rights for the review of the amount of the federal disallowance assigned to each social services district shall be pursuant to article 78 of the civil practice laws and rules; provided, however, that in any such
action all of the social services districts shall be joined as
necessary parties and the venue of any such action shall be in
Rensselaer county. Any social services district that fails to
complete its sample review in the required time frames shall have no
right to appeal and shall not be a necessary party to any action
brought by another social services district.
The money hereby appropriated is to be available for payment of state
aid heretofore accrued or hereafter to accrue to municipalities.
Subject to the approval of the director of the budget, the money
hereby appropriated shall be available to the office net of
disallowances, refunds, reimbursements, and credits.
Notwithstanding any inconsistent provision of law, the amount herein
appropriated may be transferred to any other appropriation within
the office of children and family services and/or the office of
temporary and disability assistance and/or suballocated to the
office of temporary and disability assistance for the purpose of
paying local social services districts' costs of the above program
and may be increased or decreased by interchange with any other
appropriation or with any other item or items within the amounts
appropriated within the office of children and family services
general fund - local assistance account with the approval of the
director of the budget who shall file such approval with the
department of audit and control and copies thereof with the chairman
of the senate finance committee and the chairman of the assembly
ways and means committee.
Notwithstanding any inconsistent provision of law, in lieu of payments
authorized by the social services law, or payments of federal funds
otherwise due to the local social services districts for programs
provided under the federal social security act or the federal food
stamp act, funds herein appropriated, in amounts certified by the
state comptroller or the state commissioner of health as due from
local social services districts each month as their share of
payments made pursuant to section 367-b of the social services law
may be set aside by the state comptroller in an interest bearing
account with such interest accruing to the credit of the locality in
order to ensure the orderly and prompt payment of providers under
section 367-b of the social services law pursuant to an estimate
provided by the commissioner of health of each local social services
district's share of payments made pursuant to section 367-b of the
social services law.
Notwithstanding the provisions of any other law to the contrary, the
office of children and family services may, on behalf of social
services districts, make payments to foster boarding homes paid
directly by social services districts by direct deposit or debit
card. Local social services districts shall reimburse the office for
the costs of administering such direct deposit or debit card
payments.
Notwithstanding any inconsistent provision of the social services law
or the state finance law, the office of children and family services
shall, on a quarterly basis, request that the office of temporary

and family services pursuant to section 529 of the executive law
within 60 days of receiving a bill for services under such section,
or by the date certain set by such office for providing

provided, however, that should insufficient funds be available to
provide state reimbursement for 98 percent of 65 percent of such

based on the percentage of their total eligible claims to the amount
appropriated; and, provided further, however, that if the amount
appropriated exceeds the amount of funds necessary to reimburse 98
percent of 65 percent of the eligible social services district
expenditures, the office may, to the extent funds are available,
provide reimbursement for 98 percent of 65 percent of eligible
social services district expenditures for new community preventive

appropriated within the department of health, in the aggregate, for the period April 1, 2015 through March 31, 2016, shall not exceed $17,937,867,000 except as provided below and state share medicaid spending, in the aggregate, for the period April 1, 2016 through March 31, 2017, shall not exceed $18,720,468,000, but in no event shall department of health state funds medicaid spending for the period April 1, 2015 through March 31, 2017 exceed $36,658,335,000 provided, however, such aggregate limits may be adjusted by the director of the budget to account for any changes in the New York state federal medical assistance percentage amount established pursuant to the federal social security act, increases in provider revenues, reductions in local social services district payments for medical assistance administration and beginning April 1, 2012 the operational costs of the New York state medical indemnity fund, pursuant to a chapter establishing such fund, and state costs or savings from the basic health plan program. Such projections may be adjusted by the director of the budget to account for increased or expedited department of health state funds medicaid expenditures as a result of a natural or other type of disaster, including a governmental declaration of emergency. The director of the budget, in consultation with the commissioner of health, shall assess on a monthly basis known and projected medicaid expenditures by category of service and by geographic region, as determined by the commissioner of health, incurred both prior to and subsequent to such assessment for each such period, and if the director of the budget determines that such expenditures are expected to cause medicaid spending for such period to exceed the aggregate limit specified herein for such period, the state medicaid director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allocation plan to limit such spending to the aggregate limit specified herein for such period.
Such medicaid savings allocation plan shall be designed, to reduce the expenditures authorized by the appropriations herein in compliance with the following guidelines:

1. Reductions shall be made in compliance with applicable federal law, including the provisions of the Patient Protection and Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No. 111-152 (collectively "Affordable Care Act") and any subsequent amendments thereto or regulations promulgated thereunder;

2. Reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation plan that meets the other criteria set forth herein;

3. Reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the Affordable Care Act;

4. Reductions shall be made uniformly among categories of services and geographic regions of the state, to the extent practicable, and shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific categories of services contributed to department of health medicaid state funds spending in excess of the limits specified herein; the need to maintain safety net services in underserved communities; or the potential benefits of pursuing innovative payment models contemplated by the Affordable Care Act, in which case such grounds shall be set forth in the medicaid savings allocation plan;

5. Reductions shall be made in a
manner that does not unnecessarily create administrative burdens to medicaid applicants and recipients or providers. The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation plan, to the extent that all or part of such plan, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation plan on the department of health’s website and shall provide written copies of such plan to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

(b) The commissioner may revise the medicaid savings allocation plan subsequent to the provisions of notice and prior to implementation but need provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the plan.

Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this paragraph if, in the discretion of the commissioner, expedited development and implementation of a medicaid savings allocation plan is necessary due to a public health emergency.

For purposes of this section, a public health emergency is defined as: (i) a disaster, natural or otherwise, that significantly increases the immediate need for health care personnel in an area of the state; (ii) an event or condition that creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or (iii) any other event or
condition determined by the commissioner
to constitute an imminent threat to public
health.
Nothing in this paragraph shall be deemed to
prevent all or part of such medicaid
savings allocation plan from taking effect
retroactively to the extent permitted by
the federal centers for medicare and medi-
caid services.
In accordance with the medicaid savings
allocation plan, the commissioner of the
department of health shall reduce depart-
ment of health state funds medicaid spend-
ing by the amount of the projected over-
spending through, actions including, but
not limited to modifying or suspending
reimbursement methods, including but not
limited to all fees, premium levels and
rates of payment, notwithstanding any
 provision of law that sets a specific
amount or methodology for any such
payments or rates of payment; modifying
medicaid program benefits; seeking all
necessary federal approvals, including,
but not limited to waivers, waiver amend-
ments; and suspending time frames for
notice, approval or certification of rate
requirements, notwithstanding any
 provision of law, rule or regulation to
the contrary, including but not limited to
sections 2807 and 3614 of the public
health law, section 18 of chapter 2 of the
laws of 1988, and 18 NYCRR 505.14(h).
The department of health shall prepare a
monthly report that sets forth: (a) known
and projected department of health medi-
caid expenditures as described in subdivi-
sion (1) of this section, and factors that
could result in medicaid disbursements for
the relevant state fiscal year to exceed
the projected department of health state
funds disbursements in the enacted budget
financial plan pursuant to subdivision 3
of section 23 of the state finance law,
including spending increases or decreases
due to: enrollment fluctuations, rate
changes, utilization changes, MRT invest-
ments, and shift of beneficiaries to
managed care; and variations in offline
medicaid payments; and (b) the actions
taken to implement any medicaid savings
allocation plan implemented pursuant to
subdivision (4) of this section, including
information concerning the impact of such actions on each category of service and each geographic region of the state. Each such monthly report shall be provided to the chairs of the senate finance and the assembly ways and means committees and shall be posted on the department of health's website in a timely manner.

The money hereby appropriated is available for payment of aid heretofore accrued to municipalities, and to providers of medical services pursuant to section 367-b of the social services law, and shall be available to the department net of disallowances, refunds, reimbursements, and credits.

exceed $36,658,335,000 provided, however, such aggregate limits may be adjusted by
the director of the budget to account for any changes in the New York state federal
medical assistance percentage amount established pursuant to the federal social
security act, increases in provider revenues, reductions in local social services
district payments for medical assistance administration and beginning April 1, 2012
the operational costs of the New York state medical indemnity fund, pursuant to
a chapter establishing such fund, and state costs or savings from the basic
health plan program. Such projections may be adjusted by the director of the budget
to account for increased or expedited department of health state funds medicaid
expenditures as a result of a natural or other type of disaster, including a
governmental declaration of emergency. The
director of the budget, in consultation with the commissioner of health, shall
assess on a monthly basis known and projected medicaid expenditures by
category of service and by geographic region, as defined by the commissioner,
incurred both prior to and subsequent to such assessment for each such period, and
if the director of the budget determines that such expenditures are expected to
cause medicaid spending for such period to exceed the aggregate limit specified
herein for such period, the state medicaid director, in consultation with the
director of the budget and the commissioner of health, shall develop a
medicaid savings allocation plan to limit such spending to the aggregate limit
specified herein for such period.

Such medicaid savings allocation plan shall be designed, to reduce the expenditures

to or regulations promulgated thereunder; (2) reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation plan that meets the other criteria set forth herein; (3) reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the Affordable Care Act; (4) reductions shall be made uniformly among categories of services and geographic regions of the state, to the extent practicable, and shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific categories of services contributed to department of health medicaid state funds spending in excess of the limits specified herein; the need to maintain safety net services in underserved communities; or the potential benefits of pursuing innovative payment models contemplated by the Affordable Care Act, in which case such grounds shall be set forth in the medicaid savings allocation plan; and (5) reductions shall be made in a manner that does not unnecessarily create administrative burdens to medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation plan, to the extent that all or part of such plan, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid
program, particular categories of service 
or particular geographic regions of the 
states.
(a) The commissioner shall post the medicaid 
savings allocation plan on the department 
of health's website and shall provide 
written copies of such plan to the chairs 
of the senate finance and the assembly 
ways and means committees at least 30 days 
before the date on which implementation is 
expected to begin.
(b) The commissioner may revise the medicaid 
savings allocation plan subsequent to the

mentation but need provide a new notice 
pursuant to subparagraph (i) of this para-
graph only if the commissioner determines, 
in his or her discretion, that such 
revisions materially alter the plan. 
Notwithstanding the provisions of paragraphs 
(a) and (b) of this subdivision, the 
commissioner need not seek the input 
described in paragraph (a) of this subdi-
vision or provide notice pursuant to para-
graph (b) of this paragraph if, in the 
discretion of the commissioner, expedited 
development and implementation of a medi-
caid savings allocation plan is necessary 
due to a public health emergency.
For purposes of this section, a public 
health emergency is defined as: (i) a 
disaster, natural or otherwise, that 
significantly increases the immediate need 
for health care personnel in an area of

creates a widespread risk of exposure to a 
serious communicable disease, or the 
potential for such widespread risk of 
exposure; or (iii) any other event or 
condition determined by the commissioner 
to constitute an imminent threat to public 
health.
Nothing in this paragraph shall be deemed to 
prevent all or part of such medicaid 
savings allocation plan from taking effect

allocation plan, the commissioner of the 
department of health shall reduce depart-

The department of health shall prepare a monthly report that sets forth: (a) known and projected department of health medicaid expenditures as described in subdivision 1 of this section, and factors that could result in medicaid disbursements for the relevant state fiscal year to exceed the projected department of health state funds disbursements in the enacted budget financial plan pursuant to subdivision 3 of section 23 of the state finance law, including spending increases or decreases due to: enrollment fluctuations, rate changes, utilization changes, MRT investments, and shift of beneficiaries to managed care; and variations in offline medicaid payments; and (b) the actions taken to implement any medicaid savings allocation plan implemented pursuant to subdivision 4 of this section, including information concerning the impact of such actions on each category of service and each geographic region of the state. Each such monthly report shall be provided to the chairs of the senate finance and the assembly ways and means committees and shall be posted on the department of health’s website in a timely manner.

The money hereby appropriated is to be available for payment of aid heretofore accrued to municipalities, and to providers of medical services pursuant to section 367-b of the social services law,
and for payment of state aid to munici-
palities and to providers of family care
where payment systems through the fiscal
intermediaries are not operational, and
shall be available to the department net
of disallowances, refunds, reimbursements,

provided under the federal social security
act or the federal food stamp act, funds
herein appropriated, in amounts certified
by the state commissioner of temporary and

social services law pursuant to an esti-
mate provided by the commissioner of
health of each local social services
district's share of payments made pursuant
to section 367-b of the social services
law.
Notwithstanding any other provision of law,

DEPARTMENT OF HEALTH

AID TO LOCALITIES  2015-16

Notwithstanding section 40 of the state finance law or any provision of law to the contrary, subject to federal approval, department of health state funds medicaid spending, excluding payments for medical services provided at state facilities operated by the office of mental health, the office for people with developmental disabilities and the office of alcoholism and substance abuse services and further excluding any payments which are not appropriated within the department of health, in the aggregate, for the period April 1, 2015 through March 31, 2016, shall not exceed $17,937,867,000 except as provided below and state share medicaid spending, in the aggregate, for the period April 1, 2016 through March 31, 2017, shall not exceed $18,720,468,000, but in no event shall department of health state funds medicaid spending for the period April 1, 2015 through March 31, 2017 exceed $36,658,335,000 provided, however, such aggregate limits may be adjusted by the director of the budget to account for any changes in the New York state federal medical assistance percentage amount established pursuant to the federal social security act, increases in provider revenues, reductions in local social services district payments for medical assistance administration and beginning April 1, 2012 the operational costs of the New York state medical indemnity fund, pursuant to a chapter establishing such fund, and state costs or savings from the basic health plan program. Such projections may be adjusted by the director of the budget to account for increased or expedited department of health state funds medicaid expenditures as a result of a natural or other type of disaster, including a governmental declaration of emergency. The director of the budget, in consultation with the commissioner of health, shall assess on monthly basis known and projected medicaid expenditures by category of service and by geographic region, as determined by the commissioner of health, incurred both prior to and subsequent to such assessment for each such period, and if the director of the budget determines that such expenditures
are expected to cause medicaid spending for such period to exceed the aggregate limit specified herein for such period, the state medicaid director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allocation plan to limit such spending to the aggregate limit specified herein for such period.

Such medicaid savings allocation plan shall be designed, to reduce the expenditures authorized by the appropriations herein in compliance with the following guidelines: (1) reductions shall be made in compliance with applicable federal law, including the provisions of the Patient Protection and Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No. 111-152 (collectively "Affordable Care Act") and any subsequent amendments thereto or regulations promulgated thereunder; (2) reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation plan that meets the other criteria set forth herein; (3) reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the Affordable Care Act; (4) reductions shall be made uniformly among categories of services and geographic regions of the state, to the extent practicable, and shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific categories of services contributed to department of health medicaid state funds spending in excess of the
limits specified herein; the need to maintain safety net services in underserved communities; or the potential benefits of pursuing innovative payment models contemplated by the Affordable Care Act, in which case such grounds shall be set forth in the medicaid savings allocation plan; and (5) reductions shall be made in a manner that does not unnecessarily create administrative burdens to medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation plan, to the extent that all or part of such plan, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation plan on the department of health's website and shall provide written copies of such plan to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

(b) The commissioner may revise the medicaid savings allocation plan subsequent to the provisions of notice and prior to implementation but need provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the plan.

Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this paragraph if, in the discretion of the commissioner, expedited development and implementation of a medicaid savings allocation plan is necessary due to a public health emergency.

For purposes of this section, a public health emergency is defined as: (i) a disaster, natural or otherwise, that
significantly increases the immediate need for health care personnel in an area of the state; (ii) an event or condition that creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or (iii) any other event or condition determined by the commissioner to constitute an imminent threat to public health.

Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation plan from taking effect retroactively to the extent permitted by the federal centers for medicare and medicaid services.

In accordance with the medicaid savings allocation plan, the commissioner of the department of health shall reduce department of health state funds medicaid spending by the amount of the projected over-spending through, actions including, but not limited to modifying or suspending reimbursement methods, including but not limited to all fees, premium levels and rates of payment, notwithstanding any provision of law that sets a specific amount or methodology for any such payments or rates of payment; modifying medicaid program benefits; seeking all necessary federal approvals, including, but not limited to waivers, waiver amendments; and suspending time frames for notice, approval or certification of rate requirements, notwithstanding any provision of law, rule or regulation to the contrary, including but not limited to sections 2807 and 3614 of the public health law, section 18 of chapter 2 of the laws of 1988, and 18 NYCRR 505.14(h). The department of health shall prepare a monthly report that sets forth: (a) known and projected department of health medicaid expenditures as described in subdivision 1 of this section, and factors that could result in medicaid disbursements for the relevant state fiscal year to exceed the projected department of health state funds disbursements in the enacted budget financial plan pursuant to subdivision 3 of section 23 of the state finance law, including spending increases or decreases due to: enrollment fluctuations, rate

changes, utilization changes, MRT investments, and shift of beneficiaries to managed care; and variations in offline medicaid payments; and (b) the actions taken to implement any medicaid savings allocation plan implemented pursuant to subdivision 4 of this section, including information concerning the impact of such actions on each category of service and each geographic region of the state. Each such monthly report shall be provided to the chairs of the senate finance and the assembly ways and means committees and shall be posted on the department of health's website in a timely manner.

For the purpose of making payments to providers of medical care pursuant to section 367-b of the social services law, and for payment of state aid to municipalities where payment systems through fiscal intermediaries are not operational, to reimburse such providers for costs attributable to the provision of care to patients eligible for medical assistance. Payments from this appropriation to general hospitals related to indigent care pursuant to article 28 of the public health law respectively, when combined with federal funds for services and expenses for the medical assistance program pursuant to title XIX of the federal social security act or its successor program, shall equal the amount of the funds received related to health care reform act allowances and surcharges pursuant to article 28 of the public health law and deposited to this account less any such amounts withheld pursuant to subdivision 21 of section 2807-c of the public health law. Notwithstanding any inconsistent provision of law, the moneys hereby appropriated may be increased or decreased by interchange or transfer with any appropriation of the department of health with the approval of the director of the budget, who shall file such approval with the department of audit and control and copies thereof with the chairman of the senate finance committee and the chairman of the assembly ways and means committee.

Notwithstanding section 40 of state finance
law or any other law to the contrary, all
medical assistance appropriations made
from this account shall remain in full
force and effect in accordance, in the
aggregate, with the following schedule:
not more than 49 percent for the period
April 1, 2015 to March 31, 2016; and the
remaining amount for the period April 1,

Notwithstanding section 40 of the state
finance law or any provision of law to the
contrary, subject to federal approval,
department of health state funds medicaid
spending, excluding payments for medical
services provided at state facilities
operated by the office of mental health,
the office for people with developmental
disabilities and the office of alcoholism
and substance abuse services and further
excluding any payments which are not
appropriated within the department of
health, in the aggregate, for the period
April 1, 2015 through March 31, 2016,
shall not exceed $17,937,867,000 except as
provided below and state share medicaid
spending, in the aggregate, for the period
April 1, 2016 through March 31, 2017,
shall not exceed $18,720,468,000, but in
no event shall department of health state
funds medicaid spending for the period
April 1, 2015 through March 31, 2017
exceed $36,658,335,000 provided, however,
such aggregate limits may be adjusted by
the director of the budget to account for
any changes in the New York state federal
medical assistance percentage amount
established pursuant to the federal social
security act, increases in provider revenues, reductions in local social services
district payments for medical assistance
administration and beginning April 1, 2012
the operational costs of the New York
state medical indemnity fund, pursuant to
a chapter establishing such fund, and
state costs or savings from the basic
health plan. Such projections may be
adjusted by the director of the budget to
account for increased or expedited
department of health state funds medicaid
expenditures as a result of a natural or
other type of disaster, including a
governmental declaration of emergency. The
director of the budget, in consultation
with the commissioner of health, shall
assess on a monthly basis known and
projected medicaid expenditures by
category of service and by geographic
region, as determined by the commissioner
of health, incurred both prior to and
subsequent to such assessment for each
such period, and if the director of the
budget determines that such expenditures
are expected to cause medicaid spending
for such period to exceed the aggregate
limit specified herein for such period,
the state medicaid director, in
consultation with the director of the
budget and the commissioner of health,
shall develop a medicaid savings
allocation plan to limit such spending to
the aggregate limit specified herein for
such period.
Such medicaid savings allocation plan shall
be designed, to reduce the expenditures
authorized by the appropriations herein in
compliance with the following guidelines:
(1) reductions shall be made in compliance
with applicable federal law, including the
provisions of the Patient Protection and
Affordable Care Act, Public Law No. 111-
148, and the Health Care and Education
Reconciliation Act of 2010, Public Law No.
111-152 (collectively "Affordable Care Act")
and any subsequent amendments there-
to or regulations promulgated thereunder;
(2) reductions shall be made in a manner
that complies with the state medicaid plan
approved by the federal centers for medi-
care and medicaid services, provided,
however, that the commissioner of health
is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation plan that meets the other criteria set forth herein; (3) reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the Affordable Care Act; (4) reductions shall be made uniformly among categories of services and geographic regions of the state, to the extent practicable, and shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific categories of services contributed to department of health medicaid state funds spending in excess of the limits specified herein; the need to maintain safety net services in underserved communities; or the potential benefits of pursuing innovative payment models contemplated by the Affordable Care Act, in which case such grounds shall be set forth in the medicaid savings allocation plan; and (5) reductions shall be made in a manner that does not unnecessarily create administrative burdens to medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation plan, to the extent that all or part of such plan, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation plan on the department of health's website and shall provide written copies of such plan to the chairs
DEPARTMENT OF HEALTH

AID TO LOCALITIES 2015-16

of the senate finance and the assembly
ways and means committees at least 30 days
before the date on which implementation is
expected to begin.

(b) The commissioner may revise the medicaid
savings allocation plan subsequent to the
provisions of notice and prior to imple-
mentation but need provide a new notice
pursuant to subparagraph (i) of this para-
graph only if the commissioner determines,
in his or her discretion, that such
revisions materially alter the plan.

Notwithstanding the provisions of paragraphs
(a) and (b) of this subdivision, the
commissioner need not seek the input
described in paragraph (a) of this subdi-
vision or provide notice pursuant to para-
graph (b) of this paragraph if, in the
discretion of the commissioner, expedited
development and implementation of a medi-
ciaid savings allocation plan is necessary
due to a public health emergency.

For purposes of this section, a public
health emergency is defined as: (i) a
disaster, natural or otherwise, that
significantly increases the immediate need
for health care personnel in an area of
the state; (ii) an event or condition that
creates a widespread risk of exposure to a
serious communicable disease, or the
potential for such widespread risk of
exposure; or (iii) any other event or
condition determined by the commissioner
to constitute an imminent threat to public
health.

Nothing in this paragraph shall be deemed to
prevent all or part of such medicaid
savings allocation plan from taking effect
retroactively to the extent permitted by
the federal centers for medicare and medi-
ciaid services.

In accordance with the medicaid savings
allocation plan, the commissioner of the
department of health shall reduce depart-
ment of health state funds medicaid spend-
ing by the amount of the projected over-
spending through, actions including, but
not limited to modifying or suspending
reimbursement methods, including but not
limited to all fees, premium levels and
rates of payment, notwithstanding any
provision of law that sets a specific
amount or methodology for any such

payments or rates of payment; modifying
medicaid program benefits; seeking all
necessary federal approvals, including,
but not limited to waivers, waiver amend-
ments; and suspending time frames for
notice, approval or certification of rate
requirements, notwithstanding any
provision of law, rule or regulation to
the contrary, including but not limited to
sections 2807 and 3614 of the public
health law, section 18 of chapter 2 of the
laws of 1988, and 18 NYCRR 505.14(h).
The department of health shall prepare a
monthly report that sets forth: (a) known
and projected department of health medi-
caid expenditures as described in subdivi-
sion 1 of this section, and factors that
could result in medicaid disbursements for
the relevant state fiscal year to exceed
the projected department of health state
funds disbursements in the enacted budget
financial plan pursuant to subdivision 3
of section 23 of the state finance law,
including spending increases or decreases
due to: enrollment fluctuations, rate
changes, utilization changes, MRT invest-
ments, and shift of beneficiaries to
managed care; and variations in offline
medicaid payments; and (b) the actions
taken to implement any medicaid savings
allocation plan implemented pursuant to
subdivision 4 of this section, including
information concerning the impact of such
actions on each category of service and
each geographic region of the state. Each
such monthly report shall be provided to
the chairs of the senate finance and the
assembly ways and means committees and
shall be posted on the department of
health’s website in a timely manner.

For the purpose of making payments, the
money hereby appropriated is available for
payment of aid heretofore accrued or here-
after accrued, to providers of medical
care pursuant to section 367-b of the
social services law, and for payment of
state aid to municipalities and the feder-
al government where payment systems
through fiscal intermediaries are not
operational, to reimburse such providers
for costs attributable to the provision of
care to patients eligible for medical
assistance. Notwithstanding any inconsist-
ent provision of law, the moneys hereby appropriated may be increased or decreased by interchange or transfer with any appropriation of the department of health with the approval of the director of the budget, who shall file such approval with the department of audit and control and copies thereof with the chairman of the senate finance committee and the chairman of the assembly ways and means committee.

MEDICAL ASSISTANCE ADMINISTRATION PROGRAM

General Fund
Local Assistance Account - 10000

The appropriation made by chapter 53, section 1, of the laws of 2014, is hereby amended and reappropriated to read:

For reimbursement of local administrative expenses for medical assistance programs and for state administration of medical assistance programs, notwithstanding section 153 of the social services law, to include the performance of eligibility and enrollment determinations by the state or third-party entities designated by the state to perform such services. Notwithstanding any provision of law to the contrary, subject to the approval of the director of budget, up to $23,000,000 of the amount appropriated herein shall be available for the purpose of providing payments to local social services districts for medical assistance administration claims that exceed an administrative ceiling established by the commissioner of health.

Notwithstanding any inconsistent provision of law and subject to the approval of the director of budget, moneys hereby appropriated may be increased or decreased by transfer or interchange between these appropriated amounts and appropriations of the medical assistance administration program, the medical assistance program, and the office of health insurance programs. Funding authority from this account used for state administration of the medical assistance program may be transferred to state operations appropriations within the aforementioned programs at amounts agreed upon by the commissioner of health, and the New York state division of the budget.

Notwithstanding section 40 of state finance law or any other law to the contrary, all medical assistance appropriations made from this account shall remain in full force and effect in accordance, in the aggregate, with the following schedule: not more than 50 percent for the period April 1, 2014 to March 31, 2015; and the remaining amount for the period April 1, 2015 to [March 31] September 15, 2016.
Notwithstanding section 40 of the state finance law or any provision of law to the contrary, subject to federal approval, department of health state funds medicaid spending, excluding payments for medical services provided at state facilities operated by the office of mental health, the office for people with developmental disabilities and the office of alcoholism and substance abuse services and further excluding any payments which are not appropriated within the department of health, in the aggregate, for the period April 1, 2014 through March 31, 2015, shall not exceed $17,082,871,000 except as provided below and state share medicaid spending, in the aggregate, for the period April 1, 2015 through [March 31] September 15, 2016, shall not exceed $17,937,867,000, but in no event shall department of health state funds medicaid spending for the period April 1, 2014 through [March 31] September 15, 2016 exceed $35,020,738,000 provided, however, such aggregate limits may be adjusted by the director of the budget to account for any changes in the New York state federal medical assistance percentage amount established pursuant to the federal social security act, increases in provider revenues, reductions in local social services district payments for medical assistance administration and beginning April 1, 2012 the operational costs of the New York state medical indemnity fund, pursuant to a chapter establishing such fund. Such projections may be adjusted by the director of the budget to account for increased or expedited department of health state funds medicaid expenditures as a result of a natural or other type of disaster, including a governmental declaration of emergency. The director of the budget, in consultation with the commissioner of health, shall assess on a monthly basis known and projected medicaid expenditures by category of service and by geographic region, as determined by the commissioner of health, incurred both prior to and subsequent to such assessment for each such period, and if the director of the budget determines that such expenditures are expected to cause medicaid spending for such period to exceed the aggregate limit specified herein for such period, the state medicaid director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allocation plan to limit such spending to the aggregate limit specified herein for such period.

Such medicaid savings allocation plan shall be designed, to reduce the expenditures authorized by the appropriations herein in compliance with the following guidelines: (1) reductions shall be made in compliance with applicable federal law, including the provisions of the Patient Protection and Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No. 111-152 (collectively "Affordable Care Act") and any subsequent amendments thereto or regulations promulgated thereunder; (2) reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation plan that meets the other criteria set forth herein; (3) reductions shall be made in a
manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the Affordable Care Act; (4) reductions shall be made uniformly among categories of services and geographic regions of the state, to the extent practicable, and shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific categories of services contributed to department of health medicaid state funds spending in excess of the limits specified herein; the need to maintain safety net services in underserved communities; or the potential benefits of pursuing innovative payment models contemplated by the Affordable Care Act, in which case such grounds shall be set forth in the medicaid savings allocation plan; and (5) reductions shall be made in a manner that does not unnecessarily create administrative burdens to medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation plan, to the extent that all or part of such plan, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation plan on the department of health's website and shall provide written copies of such plan to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

(b) The commissioner may revise the medicaid savings allocation plan subsequent to the provisions of notice and prior to implementation but need provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the plan. Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this paragraph if, in the discretion of the commissioner, expedited development and implementation of a medicaid savings allocation plan is necessary due to a public health emergency.

For purposes of this section, a public health emergency is defined as:

(i) a disaster, natural or otherwise, that significantly increases the immediate need for health care personnel in an area of the state; (ii) an event or condition that creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or (iii) any other event or condition determined by the commissioner to constitute an imminent threat to public health.
Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation plan from taking effect retroactively to the extent permitted by the federal centers for medicare and medicaid services. In accordance with the medicaid savings allocation plan, the commissioner of the department of health shall reduce department of health state funds medicaid spending by the amount of the projected over-spending through, actions including, but not limited to modifying or suspending reimbursement methods, including but not limited to all fees, premium levels and rates of payment, notwithstanding any provision of law that sets a specific amount or methodology for any such payments or rates of payment; modifying medicaid program benefits; seeking all necessary federal approvals, including, but not limited to waivers, waiver amendments; and suspending time frames for notice, approval or certification of rate requirements, notwithstanding any provision of law, rule or regulation to the contrary, including but not limited to sections 2807 and 3614 of the public health law, section 18 of chapter 2 of the laws of 1988, and 18 NYCRR 505.14(h).
The department of health shall prepare a monthly report that sets forth: (a) known and projected department of health medicaid expenditures as described in subdivision (1) of this section, and factors that could result in medicaid disbursements for the relevant state fiscal year to exceed the projected department of health state funds disbursements in the enacted budget financial plan pursuant to subdivision 3 of section 23 of the state finance law, including spending increases or decreases due to: enrollment fluctuations, rate changes, utilization changes, MRT investments, and shift of beneficiaries to managed care; and variations in offline medicaid payments; and (b) the actions taken to implement any medicaid savings allocation plan implemented pursuant to subdivision (4) of this section, including information concerning the impact of such actions on each category of service and each geographic region of the state. Each such monthly report shall be provided to the chairs of the senate finance and the assembly ways and means committees and shall be posted on the department of health's website in a timely manner.
The money hereby appropriated is available for payment of aid heretofore accrued to municipalities, and to providers of medical services pursuant to section 367-b of the social services law, and shall be available to the department net of disallowances, refunds, reimbursements, and credits. Notwithstanding any other provision of law, the money hereby appropriated may be increased or decreased by interchange, with any appropriation of the department of health, and may be increased or decreased by transfer or suballocation between these appropriated amounts and appropriations of the office of mental health, the office for people with developmental disabilities, the office of alcoholism and substance abuse services, the department of family assistance office of temporary and disability assistance, and office of children and family services with the approval of the director of
the budget, who shall file such approval with the department of audit and control and copies thereof with the chairman of the senate finance committee and the chairman of the assembly ways and means committee.

MEDICAL ASSISTANCE PROGRAM

General Fund
Local Assistance Account - 10000

The appropriation made by chapter 54, section 1, of the laws of 2014, is
hereby amended and reappropriated to read:

For the medical assistance program, including administrative expenses,
for local social services districts, and for medical care rates for
authorized child care agencies.

Notwithstanding section 40 of state finance law or any other law to
the contrary, all medical assistance appropriations made from this
account shall remain in full force and effect in accordance, in the
aggregate, with the following schedule: not more than 49 percent for
the period April 1, 2014 to March 31, 2015; and the remaining amount
for the period April 1, 2015 to [March 31] September 15, 2016.

Notwithstanding section 40 of the state finance law or any provision
of law to the contrary, subject to federal approval, department of
health state funds medicaid spending, excluding payments for medical
services provided at state facilities operated by the office of
mental health, the office for people with developmental disabilities and the office of alcoholism and substance abuse services and further excluding any payments which are not appropriated within the department of health, in the aggregate, for the period April 1, 2014 through March 31, 2015, shall not exceed $17,082,871,000 except as provided below and state share medicaid spending, in the aggregate, for the period April 1, 2015 through [March 31] September 15, 2016, shall not exceed $17,937,867,000, but in no event shall department of health state funds medicaid spending for the period April 1, 2014 through [March 31] September 15, 2016 exceed $35,020,738,000 provided, however, such aggregate limits may be adjusted by the director of the budget to account for any changes in the New York state federal medical assistance percentage amount established pursuant to the federal social security act, increases in provider revenues, reductions in local social services district payments for medical assistance administration and beginning April 1, 2012 the operational costs of the New York state medical indemnity fund, pursuant to a chapter establishing such fund. Such projections may be adjusted by the director of the budget to account for increased or expedited department of health state funds medicaid expenditures as a result of a natural or other type of disaster, including a governmental declaration of emergency. The director of the budget, in consultation with the commissioner of health, shall assess on a monthly basis known and projected medicaid expenditures by category of service and by geographic region, as defined by the commissioner, incurred both prior to and subsequent to such assessment for each such period, and if the director of the budget determines that such expenditures are expected to cause medicaid spending for such period to exceed the aggregate limit specified herein for such period, the state medicaid director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allocation plan to limit such spending to the aggregate limit specified herein for such period. Such medicaid savings allocation plan shall be designed, to reduce the expenditures authorized by the appropriations herein in compliance with the following guidelines: (1) reductions shall be made in compliance with applicable federal law, including the provisions of the Patient Protection and Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No. 111-152 (collectively "Affordable Care Act") and any subsequent amendments thereto or regulations promulgated thereunder; (2) reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation plan that meets the other criteria set forth herein; (3) reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the Affordable Care Act; (4) reductions shall be made uniformly among categories of services and
geographic regions of the state, to the extent practicable, and shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific categories of services contributed to department of health medicaid state funds spending in excess of the limits specified herein; the need to maintain safety net services in underserved communities; or the potential benefits of pursuing innovative payment models contemplated by the Affordable Care Act, in which case such grounds shall be set forth in the medicaid savings allocation plan; and (5) reductions shall be made in a manner that does not unnecessarily create administrative burdens to medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation plan, to the extent that all or part of such plan, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the states.

(a) The commissioner shall post the medicaid savings allocation plan on the department of health's website and shall provide written copies of such plan to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

(b) The commissioner may revise the medicaid savings allocation plan subsequent to the provisions of notice and prior to implementation but need provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the plan.

Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this paragraph if, in the discretion of the commissioner, expedited development and implementation of a medicaid savings allocation plan is necessary due to a public health emergency.

For purposes of this section, a public health emergency is defined as: (i) a disaster, natural or otherwise, that significantly increases the immediate need for health care personnel in an area of the state; (ii) an event or condition that creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or (iii) any other event or condition determined by the commissioner to constitute an imminent threat to public health.

Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation plan from taking effect retroactively to the extent permitted by the federal centers for medicare and medicaid services.

In accordance with the medicaid savings allocation plan, the commissioner of the department of health shall reduce department of health state funds medicaid spending by the amount of the projected
overspending through, actions including, but not limited to
modifying or suspending reimbursement methods, including but not
limited to all fees, premium levels and rates of payment,
notwithstanding any provision of law that sets a specific amount or
methodology for any such payments or rates of payment; modifying or
discontinuing medicaid program benefits; seeking all necessary
federal approvals, including, but not limited to waivers, waiver
amendments; and suspending time frames for notice, approval or
certification of rate requirements, notwithstanding any provision of
law, rule or regulation to the contrary, including but not limited
to sections 2807 and 3614 of the public health law, section 18 of
chapter 2 of the laws of 1988, and 18 NYCRR 505.14(h).

The department of health shall prepare a monthly report that sets
forth: (a) known and projected department of health medicaid
expenditures as described in subdivision 1 of this section, and
factors that could result in medicaid disbursements for the relevant
state fiscal year to exceed the projected department of health state
funds disbursements in the enacted budget financial plan pursuant to
subdivision 3 of section 23 of the state finance law, including
spending increases or decreases due to: enrollment fluctuations,
rate changes, utilization changes, MRT investments, and shift of
beneficiaries to managed care; and variations in offline medicaid
payments; and (b) the actions taken to implement any medicaid
savings allocation plan implemented pursuant to subdivision 4 of
this section, including information concerning the impact of such
actions on each category of service and each geographic region of
the state. Each such monthly report shall be provided to the chairs
of the senate finance and the assembly ways and means committees and
shall be posted on the department of health's website in a timely
manner.

The money hereby appropriated is to be available for payment of aid
heretofore accrued to municipalities, and to providers of medical
services pursuant to section 367-b of the social services law, and
for payment of state aid to municipalities and to providers of
family care where payment systems through the fiscal intermediaries
are not operational, and shall be available to the department net of

share of payments made pursuant to section 367-b of the social
services law.

budget determines that such expenditures are expected to cause
medicaid spending for such period to exceed the aggregate limit
specified herein for such period, the state medicaid director, in
consultation with the director of the budget and the commissioner of
health, shall develop a medicaid savings allocation plan to limit
such spending to the aggregate limit specified herein for such
period.

Such medicaid savings allocation plan shall be designed, to reduce the
expenditures authorized by the appropriations herein in compliance
with the following guidelines: (1) reductions shall be made in
compliance with applicable federal law, including the provisions of
the Patient Protection and Affordable Care Act, Public Law No. 111-1
148, and the Health Care and Education Reconciliation Act of 2010,
Public Law No. 111-152 (collectively "Affordable Care Act") and any
subsequent amendments thereto or regulations promulgated thereunder;
(2) reductions shall be made in a manner that complies with the
state medicaid plan approved by the federal centers for medicare and
medicaid services, provided, however, that the commissioner of
health is authorized to submit any state plan amendment or seek
other federal approval, including waiver authority, to implement the
provisions of the medicaid savings allocation plan that meets the
other criteria set forth herein; (3) reductions shall be made in a
manner that maximizes federal financial participation, to the extent
practicable, including any federal financial participation that is
available or is reasonably expected to become available, in the
discretion of the commissioner, under the Affordable Care Act; (4)
reductions shall be made uniformly among categories of services and
geographic regions of the state, to the extent practicable, and
shall be made uniformly within a category of service, to the extent
practicable, except where the commissioner determines that there are
sufficient grounds for non-uniformity, including but not limited to:
the extent to which specific categories of services contributed to
department of health medicaid state funds spending in excess of the
limits specified herein; the need to maintain safety net services in
underserved communities; or the potential benefits of pursuing
innovative payment models contemplated by the Affordable Care Act,
in which case such grounds shall be set forth in the medicaid
savings allocation plan; and (5) reductions shall be made in a
manner that does not unnecessarily create administrative burdens to
medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as
organizations representing health care providers, consumers,
businesses, workers, health insurers, and others with relevant
expertise, in developing such medicaid savings allocation plan, to
the extent that all or part of such plan, in the discretion of the
commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation plan on the department of health's website and shall provide written copies of such plan to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

(b) The commissioner may revise the medicaid savings allocation plan subsequent to the provisions of notice and prior to implementation but need provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the plan.

Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this paragraph if, in the discretion of the commissioner, expedited development and implementation of a medicaid savings allocation plan is necessary due to a public health emergency.

For purposes of this section, a public health emergency is defined as:

(i) a disaster, natural or otherwise, that significantly increases the immediate need for health care personnel in an area of the state; (ii) an event or condition that creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or (iii) any other event or condition determined by the commissioner to constitute an imminent threat to public health.

Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation plan from taking effect retroactively to the extent permitted by the federal centers for medicare and medicaid services.

In accordance with the medicaid savings allocation plan, the commissioner of the department of health shall reduce department of health state funds medicaid spending by the amount of the projected over-spending through, actions including, but not limited to modifying or suspending reimbursement methods, including but not limited to all fees, premium levels and rates of payment, notwithstanding any provision of law that sets a specific amount or methodology for any such payments or rates of payment; modifying medicaid program benefits; seeking all necessary federal approvals, including, but not limited to waivers, waiver amendments; and suspending time frames for notice, approval or certification of rate requirements, notwithstanding any provision of law, rule or regulation to the contrary, including but not limited to sections 2807 and 3614 of the public health law, section 18 of chapter 2 of the laws of 1988, and 18 NYCRR 505.14(h). The department of health shall prepare a monthly report that sets forth: (a) known and projected department of health medicaid expenditures as described in subdivision 1 of this section, and factors that could result in medicaid disbursements for the relevant state fiscal year to exceed the projected department of health state funds disbursements in the enacted budget financial plan pursuant to subdivision 3 of section
23 of the state finance law, including spending increases or decreases due to: enrollment fluctuations, rate changes, utilization changes, MRT investments, and shift of beneficiaries to managed care; and variations in offline medicaid payments; and (b) the actions taken to implement any medicaid savings allocation plan implemented pursuant to subdivision 4 of this section, including information concerning the impact of such actions on each category of service and each geographic region of the state. Each such monthly report shall be provided to the chairs of the senate finance and the assembly ways and means committees and shall be posted on the department of health’s website in a timely manner.

For the purpose of making payments to providers of medical care pursuant to section 367-b of the social services law, and for payment of state aid to municipalities where payment systems through fiscal intermediaries are not operational, to reimburse such providers for costs attributable to the provision of care to patients eligible for medical assistance. Payments from this appropriation to general hospitals related to indigent care pursuant to article 28 of the public health law respectively, when combined with federal funds for services and expenses for the medical assistance program pursuant to title XIX of the federal social security act or its successor program, shall equal the amount of the funds received related to health care reform act allowances and surcharges pursuant to article 28 of the public health law and deposited to this account less any such amounts withheld pursuant to subdivision 21 of section 2807-c of the public health law. Notwithstanding any inconsistent provision of law, the moneys hereby appropriated may be increased or decreased by interchange or transfer with any appropriation of the department of health with the approval of the director of the budget, who shall file such approval with the department of audit and control and copies thereof with the chairman of the senate finance committee and the chairman of the assembly ways and means committee.

Notwithstanding any provision of law to the contrary, the portion of this appropriation covering fiscal year 2014-15 shall supersede and replace any duplicative (i) reappropriation for this item covering fiscal year 2014-15, and (ii) appropriation for this item covering fiscal year 2014-15 set forth in chapter 53 of the laws of 2013 ...

The appropriation made by chapter 53, section 1, of the laws of 2014, is hereby amended and reappropriated to read:

Notwithstanding section 40 of state finance law or any other law to the contrary, all medical assistance appropriations made from this account shall remain in full force and effect in accordance, in the aggregate, with the following schedule: not more than 50 percent for the period April 1, 2014 to March 31, 2015; and the remaining amount for the period April 1, 2015 to [March 31] September 15, 2016.
Notwithstanding section 40 of the state finance law or any provision of law to the contrary, subject to federal approval, department of health state funds medicaid spending, excluding payments for medical services provided at state facilities operated by the office of mental health, the office for people with developmental disabilities and the office of alcoholism and substance abuse services and further excluding any payments which are not appropriated within the department of health, in the aggregate, for the period April 1, 2014 through March 31, 2015, shall not exceed $17,082,871,000 except as provided below and state share medicaid spending, in the aggregate, for the period April 1, 2015 through [March 31] September 15, 2016, shall not exceed $17,937,867,000, but in no event shall department of health state funds medicaid spending for the period April 1, 2014 through [March 31] September 15, 2016 exceed $35,020,738,000 provided, however, such aggregate limits may be adjusted by the director of the budget to account for any changes in the New York state federal medical assistance percentage amount established pursuant to the federal social security act, increases in provider revenues, reductions in local social services district payments for medical assistance administration and beginning April 1, 2012 the operational costs of the New York state medical indemnity fund, pursuant to a chapter establishing such fund. Such projections may be adjusted by the director of the budget to account for increased or expedited department of health state funds medicaid expenditures as a result of a natural or other type of disaster, including a governmental declaration of emergency. The director of the budget, in consultation with the commissioner of health, shall assess on a monthly basis known and projected medicaid expenditures by category of service and by geographic region, as determined by the commissioner of health, incurred both prior to and subsequent to such assessment for each such period, and if the director of the budget determines that such expenditures are expected to cause medicaid spending for such period to exceed the aggregate limit specified herein for such period, the state medicaid director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allocation plan to limit such spending to the aggregate limit specified herein for such period.

Such medicaid savings allocation plan shall be designed, to reduce the expenditures authorized by the appropriations herein in compliance with the following guidelines: (1) reductions shall be made in compliance with applicable federal law, including the provisions of the Patient Protection and Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No. 111-152 (collectively "Affordable Care Act") and any subsequent amendments thereto or regulations promulgated thereunder; (2) reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation plan that meets the other criteria set forth herein; (3) reductions shall be made in a

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation plan, to the extent that all or part of such plan, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation plan on the department of health's website and shall provide written copies of such plan to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

(b) The commissioner may revise the medicaid savings allocation plan subsequent to the provisions of notice and prior to implementation but need provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the plan.

Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this paragraph if, in the discretion of the commissioner, expedited development and implementation of a medicaid savings allocation plan is necessary due to a public health emergency.

For purposes of this section, a public health emergency is defined as: (i) a disaster, natural or otherwise, that significantly increases the immediate need for health care personnel in an area of the state; (ii) an event or condition that creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or (iii) any other event or condition determined by the commissioner to constitute an imminent threat to public health.
Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation plan from taking effect retroactively to the extent permitted by the federal centers for medicare and medicaid services.

In accordance with the medicaid savings allocation plan, the commissioner of the department of health shall reduce department of health state funds medicaid spending by the amount of the projected over-spending through, actions including, but not limited to modifying or suspending reimbursement methods, including but not limited to all fees, premium levels and rates of payment, notwithstanding any provision of law that sets a specific amount or methodology for any such payments or rates of payment; modifying medicaid program benefits; seeking all necessary federal approvals, including, but not limited to waivers, waiver amendments; and suspending time frames for notice, approval or certification of rate requirements, notwithstanding any provision of law, rule or regulation to the contrary, including but not limited to sections 2807 and 3614 of the public health law, section 18 of chapter 2 of the laws of 1988, and 18 NYCRR 505.14(h).

The department of health shall prepare a monthly report that sets forth: (a) known and projected department of health medicaid expenditures as described in subdivision 1 of this section, and factors that could result in medicaid disbursements for the relevant state fiscal year to exceed the projected department of health state funds disbursements in the enacted budget financial plan pursuant to subdivision 3 of section 23 of the state finance law, including spending increases or decreases due to: enrollment fluctuations, rate changes, utilization changes, MRT investments, and shift of beneficiaries to managed care; and variations in offline medicaid payments; and (b) the actions taken to implement any medicaid savings allocation plan implemented pursuant to subdivision 4 of this section, including information concerning the impact of such actions on each category of service and each geographic region of the state. Each such monthly report shall be provided to the chairs of the senate finance and the assembly Ways and Means committees and shall be posted on the department of health's website in a timely manner.

For the purpose of making payments, the money hereby appropriated is available for payment of aid heretofore accrued or hereafter accrued, to providers of medical care pursuant to section 367-b of the social services law, and for payment of state aid to municipalities and the federal government where payment systems through fiscal intermediaries are not operational, to reimburse such providers for costs attributable to the provision of care to patients eligible for medical assistance. Notwithstanding any inconsistent provision of law, the moneys hereby appropriated may be increased or decreased by interchange or transfer with any appropriation of the department of health with the approval of the director of the budget, who shall file such approval with the department of audit and control and copies thereof with the chairman of the senate finance committee and the chairman of the assembly Ways and Means committee.

Notwithstanding any other law, rule, or regulation to the contrary, full funding for aidable community college enrollment for the college fiscal years 2015-16 and heretofore as provided under this appropriation is determined by the operating aid formulas defined in rules and regulations developed jointly by the boards of trustees of the state and city universities and approved by the director of the budget provided that local sponsors may use funds contained in reserves for excess student revenue for operating support of a community college program even though said expenditures may cause expenses and student revenues to exceed one-third of the college's net operating costs for the college fiscal year 2015-16 provided that such funds do not cause the college's revenues from the local sponsor's contributions in aggregate to be less than the comparable amounts for the previous community college fiscal year and further...
provided that pursuant to standards and regulations of the state university trustees and the city university trustees for the college fiscal year 2015-16, community colleges may increase tuition and fees above that allowable under current education law if such standards and regulations require that in order to exceed the tuition limit otherwise set forth in the education law, local sponsor contributions either in the aggregate or for each full-time equivalent student shall be no less than the comparable amounts for the previous community college fiscal year.
