AN ACT making appropriations for the support of government

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. a) The several amounts specified in this chapter for aid to localities, or so much thereof as shall be sufficient to accomplish the purposes designated by the appropriations, are hereby appropriated and authorized to be paid as hereinafter provided, to the respective public officers and for the several purposes specified.

b) Where applicable, appropriations made by this chapter for expenditures from federal grants for aid to localities may be allocated for spending from federal grants for any grant period beginning, during, or prior to, the state fiscal year beginning on April 1, 2018 except as otherwise noted.

c) The several amounts named herein, or so much thereof as shall be sufficient to accomplish the purpose designated, being the undisbursed and/or unexpended balances of the prior year's appropriations, are hereby reappropriated from the same funds and made available for the same purposes as the prior year's appropriations, unless herein amended, for the fiscal year beginning April 1, 2018. Certain reappropriations in this chapter are shown using abbreviated text, with three leader dots (an ellipsis) followed by three spaces (…) used to indicate where existing law that is being continued is not shown. However, unless a change is clearly indicated by the use of brackets [ ] for deletions and underscores for additions, the purposes, amounts, funding source and all other aspects pertinent to each item of appropriation shall be as last appropriated.

For the purpose of complying with the state finance law, the year, chapter and section of the last act reappropriating a former original appropriation or any part thereof is, unless otherwise indicated, chapter 53, section 1, of the laws of 2017 and, for the education department, chapter 53, section 2, of the laws of 2017.

d) No moneys appropriated by this chapter shall be available for payment until a certificate of approval has been issued by the director of the budget, who shall file such certificate with the department of audit and control, the chairperson of the senate finance committee and the chairperson of the assembly ways and means committee.

e) Notwithstanding any other provision of law to the contrary, to maintain a balanced budget in the event that the annual estimate for tax receipts for fiscal year 2018-19 is reduced by $500,000,000 or more...
compared to estimate in the fiscal year 2018-19 executive budget financial plan, the appropriations and related cash disbursements for all general fund and state special revenue fund aid to localities appropriations made by this chapter shall be uniformly reduced by the percentage set forth in a written allocation plan prepared by the director of the budget, provided, however, that the uniform percentage reduction shall not exceed 3 percent. The following types of appropriations shall be exempt from such uniform reduction: (a) public assistance payments for families and individuals and payments for eligible aged, blind and disabled persons related to supplemental social security; (b) any reductions that would violate federal law; (c) payments of debt service and related expenses for which the state is constitutionally obligated to pay debt service or is contractually obligated to pay debt service, subject to an appropriation, including where the state has a contingent contractual obligation; (d) payments the state is obligated to make pursuant to court orders or judgments; (e) payments for CUNY senior colleges; (f) school aid, (g) medicaid and (h) payments from the community projects fund. Such reductions to the general fund and special revenue fund appropriations made by this chapter and related cash disbursements shall commence within 10 days following the publication of a financial plan required under sections 22 or 23 of the state finance law stating that the annual estimate for tax receipts for fiscal year 2018-19 is reduced by $500,000,000 or more compared to estimate in the fiscal year 2018-19 executive budget financial plan, and shall be uniformly reduced in accordance with a written allocation plan prepared by the director of the budget, which shall be filed with the state comptroller, the chairman of the senate finance committee and the chairman of the assembly ways and means committee. Such written allocation plan shall include a summary of the methodology for calculating the percentage reductions to the payments from non-exempt appropriations and cash disbursements and the reasons for any exemptions, and a detailed schedule of the reductions and exemptions. The director of the budget shall prepare appropriately reduced certificates, which shall be filed with the state comptroller, the chair of the senate finance committee and the chair of the assembly ways and means committee. On March 31, 2019, the director of the budget shall calculate the difference, if any, between the annual estimate in tax receipts contained in the fiscal year 2019 executive budget financial plan and actual tax collections for fiscal year 2018-19. If actual tax receipts for fiscal year 2018-2019 were not less than $500,000,000 below the annual estimate in tax receipts contained in the executive budget financial plan for fiscal year 2018-19, then the amounts withheld pursuant to the written allocation plan prepared by the director shall be payable as soon as practicable thereafter in the fiscal year 2020-21. Notwithstanding any inconsistent provision of law, rule or regulation, the effectiveness of the provisions of sections 2807 and 3614 of the public health law, section 18 of chapter 2 of the laws of 1988, and subdivision (h) of section 505.14 of title 18 of the NYCRR, as they relate to time frames for notice, approval or certification of rates of payment, are hereby suspended and without force or effect for purposes of implementing the written allocation plan prepared by the director to reduce the general fund and special revenue fund appropriations made by this chapter and related cash disbursements.

f) The appropriations contained in this chapter shall be available for the fiscal year beginning on April 1, 2018 except as otherwise noted.

PROGRAM ................................................. 32,212,719,000

Notwithstanding any inconsistent provision
of law, for general support for public
schools for the 2018-19 state fiscal year,
including aid for such school year payable
pursuant to section 3609-d of the
education law, as provided herein.
Notwithstanding any provision of law to the
contrary, foundation aid payable in the
2018-19 school year shall equal the sum of
the foundation aid base plus the base
increase plus the community schools
increase, as defined in this
appropriation.
(i) Base increase. The base increase for the
2018-19 school year shall equal the
greater of tiers A, B, or C.
(A) Tier A. Tier A shall equal the product
of the phase-in factor and the positive
difference, if any, of total foundation
aid pursuant to subdivision 4 of section
3602 of the education law less the
foundation aid base pursuant to paragraph
j of subdivision 1 of section 3602 of the
education law. The phase-in factor shall
equal, for a city school district in a
city having a population of 1,000,000 or
more, 0.09905, and for all other
districts, the product of 0.0356
multiplied by a CWR sliding scale, where
the CWR sliding scale shall be equal to
the positive difference, if any, of 1.616
less the product of (a) 1.1025 multiplied
by (b) the combined wealth ratio for total
foundation aid computed pursuant to
paragraph c of subdivision 3 of section
3602 of the education law multiplied again
by (c) the combined wealth ratio for total
foundation aid computed pursuant to such
paragraph c, provided that such ratio
shall be no more than one.
(B) Tier B. For districts with a combined
wealth ratio for total foundation aid
computed pursuant to paragraph c of subdivision 3 of section 3602 of the education law less than 1.0, Tier B shall be equal to the product of district public enrollment for the base year pursuant to paragraph n of subdivision 1 of section 3602 of the education law multiplied by the sum of the (I) EN percent base increase, (II) EN percent sparsity increase, (III) EN percent growth increase, and (IV) scaled per pupil amount. For purposes of this appropriation, the extraordinary needs index shall be equal to a district’s extraordinary needs percent calculated pursuant to paragraph w of subdivision 1 of section 3602 of the education law divided by 0.557.

(I) EN percent base increase. For all school districts with an extraordinary needs percent calculated pursuant to paragraph w of subdivision 1 of section 3602 of the education law greater than 0.25, the EN percent base increase shall be equal to the product of the extraordinary needs index multiplied by $32.50.

(II) EN percent sparsity increase. For all school districts with an EN percent base increase greater than zero and with a sparsity factor pursuant to paragraph r of subdivision 1 of section 3602 of the education law greater than zero, the EN percent sparsity increase shall be equal to the product of the extraordinary needs index multiplied by $9.42.

(III) EN percent growth increase. For all school districts with an EN percent base increase greater than zero and where the extraordinary needs percent calculated for the 2018-19 school year is more than 0.0325 greater than the extraordinary needs percent calculated for the 2016-17 school year, the EN percent growth increase shall be equal to the product of the extraordinary needs index multiplied by $30.00.

(IV) Scaled per pupil amount. The scaled per pupil amount shall equal the product of $69.00 multiplied by the positive difference, if any, of 1.616 less the product of (a) 1.1025 multiplied by (b) the combined wealth ratio for total foundation aid computed pursuant to paragraph c of subdivision three of section 3602 of the education law multiplied again by (c) the combined wealth ratio for total foundation aid computed pursuant to paragraph c of subdivision three of section 3602 of the education law, provided that such ratio shall be no more than 1.
(E) Tier C. For all school districts, tier C shall be equal to the product of 0.0025 multiplied by the foundation aid base computed pursuant to paragraph j of subdivision 1 of section 3602 of the education law.

(ii) Community schools increase. The community schools increase for the 2018-19 school year shall equal the greater of the community schools formula increase or the community schools level-up increase.

(A) Community schools formula increase. For all eligible school districts, the community schools formula increase shall equal the product of (1) difference of 1.0 less the product of 0.64 multiplied by the combined wealth ratio for total foundation aid computed pursuant to paragraph c of subdivision 3 of section 3602 of the education law, provided that such ratio shall be no more than 0.9 nor less than zero, multiplied by (2) $83.17, further multiplied by (3) school district public enrollment for the base year pursuant to paragraph n of subdivision 1 of section 3602 of the education law, provided that the community schools formula increase shall not be less than $75,000 for any eligible districts.

(B) A school district shall be eligible for the community schools formula increase if it is (i) a school district that contains at least one school designated as failing or persistently failing by the commissioner pursuant to paragraphs (a) or (b) of subdivision 1 of section 211-f of the education law as of January 1, 2018; or (ii) a school district (1) that has a combined wealth ratio for total foundation aid computed pursuant to paragraph c of subdivision 1 of section 3602 of the education law less than 1.0, and (2) where the positive difference, if any, of the English language learner count pursuant to paragraph o of subdivision 1 section 3602 of the education law less the amount equal to "2012-13 ENGLISH LANG. LEARNERS" in the computer listing produced by the commissioner in support of the executive budget request for the 2018-19 school year entitled "BT181-9" is greater than both (a) 100 pupils and (b) the product of 0.10 multiplied by the amount equal to "2012-13 ENGLISH LANG. LEARNERS" in the computer listing produced by the commissioner in support of the executive budget request for the 2018-19 school year and entitled "BT181-9", and (3) where the quotient arrived at when dividing the English language learner count by the base year public school district enrollment as computed pursuant to subparagraph 2 of
paragraph n of subdivision 1 of section 3602 of the education law exceeds 0.05; or
(iii) a school district where (1) the quotient arrived at when dividing the amount equal to "2016-17 HOMELESS PUPILS" in the computer listing produced by the commissioner in support of the executive budget request for the 2018-19 school year entitled "BT181-9" by the amount equal to "2012-13 HOMELESS PUPILS" in the computer listing produced by the commissioner in support of the executive budget request for the 2018-19 school year entitled "BT181-9" is greater than 1.4, and (2) the quotient arrived at when dividing the amount equal to "2016-17 HOMELESS PUPILS" in the computer listing produced by the commissioner in support of the executive budget request for the 2018-19 school year entitled "BT181-9" by public school district enrollment as computed pursuant to subparagraph 2 of paragraph n of subdivision 1 of section 3602 of the education law, for the year prior to the base year, is greater than 0.05, and (3) where the amount equal to "2016-17 HOMELESS PUPILS" in the computer listing produced by the commissioner in support of the executive budget request for the 2018-19 school year entitled "BT181-9" is greater than one hundred pupils.

(C) Community schools level-up increase. For all school districts with a community schools aid set-aside amount pursuant to paragraph e of subdivision 4 of section 3602 of the education law greater than zero, the community schools level-up increase shall be equal to the positive difference, if any, of (1) $75,000 less (2) the community schools aid set-aside amount for the 2017-18 school year pursuant to paragraph e of subdivision 4 of section 3602 of the education law. Notwithstanding any inconsistent provision of law, the community schools increase shall be added to the community schools aid set-aside for the 2018-19 school year pursuant to paragraph e of subdivision 4 of section 3602 of the education law, and a school district shall use such community schools increase to support the transformation of school buildings into community hubs to deliver co-located or school-linked academic, health, mental health services and personnel, after school programming, dual language programs, nutrition, counseling, legal and/or other services to students and their families, including but not limited to providing a community school site coordinator and programs for English language learners.
Provided that, notwithstanding any inconsistent provision of law, $64,000,000 shall be available as a 2018-19 school year fiscal stabilization fund for school districts otherwise eligible for an apportionment pursuant to subdivision 4 of section 3602 of the education law, provided that such fund shall be allocated among such school districts pursuant to a chapter of the laws of 2018, and provided further that not more than 70 percent of such fund shall be available for the 2018-19 state fiscal year.

Notwithstanding any provision of law to the contrary, for any apportionments provided pursuant to sections 701, 711, 751, 753, 1950, 3602, 3602-b, 3602-c, 3602-e and 4405 of the education law for claims for which payment is first to be made in the 2017-18 and 2018-19 school years, the commissioner shall certify no payment to a school district, other than payments pursuant to subdivisions 6-a, 11, 13 and 15 of section 3602 of the education law, in excess of the payment computed based on an electronic data file used to produce the school aid computer listing produced by the commissioner in support of the executive budget request submitted for the 2018-19 state fiscal year and entitled "BT181-9". Provided, however, no payments shall be barred or reduced where such payment is required as a result of a final audit of the state.

Notwithstanding any inconsistent provision of law, no school district shall be eligible for an apportionment of general support for public schools from the funds appropriated for the 2018-19 school year in excess of the amount apportioned to such school district in the base year, as defined in subdivision 1 of section 3602 of the education law, unless such school district has submitted documentation that has been approved by the commissioner of education by September 1 of the current year demonstrating that it has fully implemented the standards and procedures for conducting annual teacher and principal evaluations of teachers and principals in accordance with the requirements of section 3012-d of the education law and the regulations issued by the commissioner.

Notwithstanding any inconsistent provision of law, no school district located in a city with a population of more than 125,000 shall be eligible for an apportionment of general support for public schools from the funds appropriated herein for the 2018-19 school year in excess of the amount apportioned to such city.
school district in the 2017-18 school year unless such school district has (i) submitted to the commissioner of education and the director of the budget a detailed statement of the total funding allocation for each school in the district for the 2018-19 school year, in a form developed by the commissioner of education and approved by the director of the budget, and (ii) such statement has been approved by the commissioner of education and the director of the budget.

Provided that such school districts shall adhere to and complete the prescribed form accurately and fully, and shall make such statement publicly available and on the district website.

Provided further that each local educational agency shall include in such statement the approach used to allocate funds to each school and that such statement shall include but not be limited to separate entries for each individual school, demographic data for the school, per pupil funding level, source of funds, and uniform decision rules regarding allocation of centralized spending to individual schools from both state and local funds.

Provided further that notwithstanding any inconsistent provision of law, the commissioner of education and the director of the budget shall review and approve or disapprove of such statement of the approach used to allocate state and local funds, based on criteria which shall include but not be limited to student need, per pupil funding, and total funding, provided that no such approach shall use state or federal funds to supplant local funds.

Provided, however, that if the commissioner of education or the director of the budget disapprove a school district's spending statement, such school district shall be allowed to submit a revised spending statement for approval.

Provided further that nothing in this appropriation shall alter or suspend statutory school district budget and voting requirements.

Provided further that any apportionment withheld pursuant to this appropriation shall not occur prior to April 1 of the current year and shall not have any effect on the base year calculation for use in the subsequent school year.

Provided further that, if any payments of ineligible amounts pursuant to the preceding paragraphs of this appropriation were made, the total amount of such payments shall be deducted from future
payments to the school district; provided

further that, if the amount of the
deduction is greater than the sum of the
amounts available for such deductions in
the applicable school year, the remainder
of the deduction shall be withheld from
payments from funds appropriated herein
scheduled to be made to the school
district pursuant to section 3609-a of the
education law for the subsequent school
year.

Provided further that notwithstanding any
inconsistent provision of law, for the
purposes of this appropriation and of
calculating the allocable growth amount
for the 2018-19 school year pursuant to

the commissioner in support of the enacted
budget for the base year, excluding any
such apportionments appropriated for such
purpose from the commercial gaming revenue
fund plus (2) the competitive awards
amount for the base year, and (ii)
$384,150,000.

Provided further that notwithstanding any
provision of law to the contrary, the
competitive awards amount for purposes of
calculating the allocable growth amount
shall be $50,000,000 for the 2018-19
school year.

Provided further that notwithstanding any
provision of law to the contrary, for the
2018-19 school year, the apportionments

Provided further that to the extent required
by federal law, each board of cooperative
educational services receiving a payment
pursuant to section 3609-d of the educa-

The commissioner of education shall have 30 days from the receipt of such evidence to confirm whether the school district has complied with the requirements of chapter 89 of the laws of 2016 and shall determine whether such funds were spent in conformance with the provisions of such chapter. Upon finding compliance and determining that the funds were properly expended, the commissioner shall certify the amount of the approved expenditures to the state comptroller for payment no later than 60 days after such determinations. The East Ramapo central school district shall not receive reimbursement for funds authorized herein that are not spent for the direct benefit of students attending public schools in such district in a manner consistent with its approved comprehensive expenditure plan or prior written approval from the commissioner.

The board of education in consultation with the monitor or monitors shall submit the school district's proposed budget for the next succeeding school year to the commissioner no later than 45 days before the date scheduled for the school district's budget vote. The commissioner shall also review the proposed budget to ensure that it is balanced within the context of revenue and expenditure estimates and mandated programs. The commissioner shall present his or her findings to the board of education no later than 30 days prior to the

The East Ramapo central school district shall be eligible to receive
reimbursement from the funds appropriated herein for its approved
expenditures in the 2017-18 school year on services to improve and
enhance the educational opportunities of students attending the
public schools in such district. Such services shall include, but
not be limited to, reducing class sizes, expanding academic and
enrichment opportunities, establishing and expanding kindergarten
programs, expanding extracurricular opportunities and providing
student support services, provided, however, transportation services
and expenses shall not be eligible for reimbursement from such
funds.
In order to receive such funds, the school district in consultation
with the monitor or monitors pursuant to chapter 89 of the laws of
2016 shall revise its long term strategic academic and fiscal
improvement plan by October 1, 2017. Such revised plan shall be
submitted to the commissioner for approval and shall include a set
of goals with appropriate benchmarks and measurable objectives and
identify strategies to address areas where improvements are needed
in the district, including but not limited to its financial
stability, academic opportunities and outcomes, education of

learners, and shall ensure compliance with all applicable state and
federal laws and regulations. Such revised improvement plan shall
also include a comprehensive expenditure plan that will describe how
the funds made available to the district from this appropriation
will be spent. Such comprehensive expenditure plan shall ensure that
funds supplement, not supplant, expenditures from local, state and
federal funds for services provided to public school students,
except that such funds may be used to continue services funded
pursuant to chapter 89 of the laws of 2016 in prior years. Such
expenditure plan shall be revised in consultation with the monitor

the East Ramapo central school district shall conduct a public
hearing on the expenditure plan and shall consider the input of the
community before adopting such plan. Such expenditure plan shall
also be made publicly available and shall be submitted along with
comments made by the community to the commissioner for approval once
the plan is finalized. Upon review of such improvement plan and such
expenditure plan, the commissioner shall approve or deny such plan
in writing and, if denied, shall include the reasons therefor. The
district in consultation with the monitors may resubmit such plan or
plans with any needed modifications thereto.
The commissioner shall disburse the funds appropriated herein after receiving satisfactory evidence from the East Ramapo central school district that the district has complied with the approved comprehensive expenditure plan and spent such funds pursuant to the approved expenditure plan as set forth in chapter 89 of the laws of 2016.

The commissioner of education shall have 30 days from the receipt of such evidence to confirm whether the school district has complied with the requirements of chapter 89 of the laws of 2016 and shall determine whether such funds were spent in conformance with the provisions of such chapter. Upon finding compliance and determining that the funds were properly expended, the commissioner shall certify the amount of the approved expenditures to the state comptroller for payment no later than 60 days after such determinations. The East Ramapo central school district shall not receive reimbursement for funds authorized herein that are not spent for the direct benefit of students attending public schools in such district in a manner consistent with its approved comprehensive expenditure plan or prior written approval from the commissioner.

The board of education in consultation with the monitor or monitors shall submit the school district's proposed budget for the next succeeding school year to the commissioner no later than 45 days before the date scheduled for the school district's budget vote. The commissioner shall review the budget to ensure that it, to the greatest extent possible, expands educational programming for students including but not limited to extracurricular activities, course offerings, non-mandated support services, non-mandated art and music classes, programs and services for English language learners and students with disabilities, and maintaining class size.

The commissioner shall also review the proposed budget to ensure that it is balanced within the context of revenue and expenditure estimates and mandated programs. The commissioner shall present his or her findings to the board of education no later than 30 days prior to the date scheduled for the school district's budget vote. The board of education shall make adjustments to the proposed budget consistent with any recommendations made by the commissioner. The school district shall make available on the district's website: the initial proposed budget, the commissioner's findings, and the final proposed budget prior to the date of the school district's budget vote.

The monitor or monitors appointed by the commissioner shall quarterly, and the district shall annually provide to the commissioner reports on the fiscal and operational status of the school district to ensure compliance with the budgeting requirements herein. In addition, monitors shall provide an annual report to the commissioner and comptroller on contracts that the district entered into throughout the year. All reports shall be subject to review by the comptroller at the request of the commissioner.

For a school district management efficiency awards program. Funds

prior to a response to a request for proposal or during the current
school year in school district management, operations, procurement
practices or other cost savings measures and will not result in an
increase in cost to the state or the locality and: (i) have resulted

expenses compared to the prior year and/or significant reductions in
the administrative component, or the equivalent, of the school
district budget and/or transportation operating expenses and/or
transportation capital expenses and/or other non-personal service
costs included in the program component of the school district budg-

principals to determine teacher and principal effectiveness shall
receive bonus points in the scoring of its grant application.
Provided further that, notwithstanding any provision of law to the
contrary, in addition to the competitive awards amount as defined in
paragraph ee of subdivision 1 of section 3602 of the education law,

kindergarten grants, $10,000,000 of school-wide extended learning

by the commissioner by September 1 of 2013 and of each school year
in which a payment to such district from this appropriation would
otherwise be made demonstrating that it has fully implemented new
standards and procedures for conducting annual professional
performance reviews of classroom teachers and building principals to
determine teacher and principal effectiveness.
Provided, further, that notwithstanding any provision of law to the contrary, the $12,500,000 appropriated herein available for full-day and half-day pre-kindergarten grants shall be awarded, based on a request for proposals developed by the commissioner and approved by the director of the budget, to school districts to establish new full-day and half-day pre-kindergarten placements and/or to convert existing half-day pre-kindergarten placements into full-day placements; provided that preference shall be granted for full-day placements while ensuring that a portion of grants include half-day placements based on eligible applications; and provided, further, that such grants shall only be used to supplement, not supplant existing pre-kindergarten programs, and provided further, however, that any portion of such $12,500,000 that is not awarded shall remain available for subsequent awards in the 2013-14 school year or for full-day and half-day pre-kindergarten grants to be awarded in subsequent school years. Provided, further, that a school district's pre-kindergarten grant shall equal the product of (A) (i) two multiplied by the approved number of new full-day pre-kindergarten placements plus (ii) the approved number of half-day pre-kindergarten placement conversions and new half-day pre-kindergarten placements, and (B) the district's selected aid per pre-kindergarten pupil pursuant to subparagraph i of paragraph b of subdivision 10 of section 3602-e of the education law; provided, however, that no district shall receive a grant in excess of the total actual grant expenditures incurred by the district in the current school year as approved by the commissioner. Provided, further, that as a condition of eligibility for receipt of such funding, a school district shall agree to adopt approved quality indicators within two years, including, but not limited to, valid and reliable measures of environmental quality, the quality of teacher-student interactions and child outcomes, and ensure that any such assessment of child outcomes shall not be used to make high-stakes educational decisions for individual children. Provided, further, that no school district shall receive more than forty percent of the total pre-kindergarten grant allocation. Provided, further, that notwithstanding any provision of law to the contrary, the $10,000,000 appropriated herein available for school-wide extended learning grants shall be awarded to school districts or school districts in collaboration with not-for-profit community-based organizations based on responses to a request for proposals for planning and implementation grants that is (i) developed by the

commissioner; (ii) approved by the director of the budget; and (iii) shall be awarded based on factors including, but not limited to, the following: (i) the school district's proposal to target the schools and students with the greatest need, and (ii) proposal quality. Provided, further, that to assess proposal quality in order to award implementation grant funding, the commissioner shall take into account factors including, but not limited to: (i) the extent to which the school district's proposal would maximize the use of the additional learning time through a comprehensive restructuring of the school day and/or year, (ii) the extent to which the proposal would provide additional learning time for students in grades six through eight, and (iii) how the additional learning time would be utilized, including, but not limited to, additional time spent on core academics. Provided, however, that no district shall be eligible to receive a school-wide extended learning grant unless its proposal would increase student learning time by at least 25 percent. Provided, however, that community schools grants appropriated herein shall be paid to school districts in installments upon successful implementation of each phase of a school district's approved proposal. Provided, further, that no school district shall receive more than forty percent of the total community schools grant allocation, and that each individual community school site shall be limited to a maximum grant of $500,000. proposal would increase student learning time by at least 25 percent. Provided, further, that a school district's schoolwide extended learning implementation grant shall equal its average daily attendance in the school-wide extended learning program multiplied by the expected cost per pupil of the additional learning time; provided, further, that the expected cost per pupil of the additional learning time shall equal the greater of $1,500 or (A) the quotient of (i) the school district's approved operating expense, pursuant to paragraph t of subdivision 1 of section 3602 of the education law, for the year prior to the base year, divided by (ii) the district's public school district enrollment, pursuant to subparagraph (2) of paragraph n of such subdivision, for the year prior to the base year, multiplied by (B) 10 percent (0.10), multiplied by (C) the quotient of (i) the average of the national consumer price indexes determined by the United States department of labor for the 12-month period preceding January first of the base year, divided by (ii) the average of the national consumer price indexes determined by the United States department of labor for the 12-month period preceding January first of the year two years prior to the base year; provided, however, that in extraordinary cases the commissioner may award a grant that exceeds the per pupil limit described above; provided further, however, that no district shall receive a grant in excess of the total actual grant expenditures incurred by the district in the current school year as approved by the commissioner. funding streams and programs would be used to provide such community
services, and (v) the extent to which the proposal ensures the safe-
ty of all students, staff and community members in school buildings
used as community hubs. Provided, however, that community schools
grants appropriated herein shall be paid to school districts in
installments upon successful implementation of each phase of a
school district's approved proposal. Provided, further, that no

Provided further that, notwithstanding any provision of law to the

[2018-19] 2019-20 school years for the payment of grant awards as

to target the highest need schools and students, (iv) the extent to
which the district's proposal would prioritize funds to maximize the
total number of eligible children in the district served in pre-kind-

that full-day and half-day prekindergarten grants appropriated here-
in shall only be available to support programs (i) that provide
instruction for at least five hours per school day for full-day

otherwise comply with all of the same rules and requirements as

Provided, further, that a school district's grant for three-year-old prekindergarten shall equal the product of (A) (i) two multiplied by the approved number of new full-day pre-kindergarten placements plus (ii) the approved number of new half-day pre-kindergarten placements, and (B) the district's selected aid per pre-kindergarten pupil pursuant to subparagraph i of paragraph b of subdivision 10 of section 3602-e of the education law; provided, however, that no district shall receive a grant in excess of the total actual grant expenditures incurred by the district in the current school year as approved by the commissioner. Provided, further, that as a condition of eligibility for receipt of such funding, a school district shall agree to adopt approved quality indicators within two years, including, but not limited to, valid and reliable measures of environmental quality, the quality of teacher-student interactions and child outcomes, and ensure that any such assessment of child outcomes shall not be used to make high-stakes educational decisions for individual children. Provided, further, that no school district shall receive more than forty percent of the total pre-kindergarten for three-year-old children grant allocation. Provided further that, notwithstanding any provision of law to the contrary, the $1,500,000 appropriated herein available for early college high school programs shall be awarded pursuant to a plan developed by the commissioner and approved by the director of the budget, provided that such plan shall ensure regional diversity of grant recipients and prioritize programs serving students in academically challenged school districts; provided further that the commissioner shall make available the request for proposals for such programs on or before May fifteenth and the commissioner shall issue awards on or before August fifteenth; and provided further that a portion of the payments to early college high school programs awarded funding from this appropriation shall be made on a sliding scale based upon the number of college credits earned annually by participating students, consistent with guidelines established by the commissioner. Provided further that in connection with such guidelines, the commissioner shall execute a memorandum of understanding with the state university of New York and the city university of New York to develop common data collection, sharing and reporting mechanisms based on student-level data for students enrolled in early college high school programs. Provided further that, notwithstanding any provision of law to the contrary, higher education partners participating in an early college high school program, or the entity/entities responsible for setting tuition at the institution, shall be authorized to set a reduced rate of tuition and/or fees, or to waive tuition and/or fees entirely, for students enrolled in such an early college high school program with
no reduction in other state, local or other support for such
students earning college credit that such higher education partner
would otherwise be eligible to receive.

Provided further that, notwithstanding any provision of law to the
contrary, the $500,000 appropriated herein available for career and
technical education (CTE) programs shall be awarded, pursuant to a
plan developed by the commissioner and approved by the director of
the budget, to provide CTE programs with support and resources to
eliminate barriers to students with special needs and English
language learners from participating in such programs, as well as
promote gender diversity in CTE programs.

Provided, further, that notwithstanding any provision of law to the
contrary, the $1,000,000 appropriated herein available for QUALITYs-
tarsNY shall be used, pursuant to a plan approved by the director of
the budget, to support implementation of a statewide system to

otherwise made available to the office of children and family
services for the sole purpose of administering such system.

Provided that, for the 2016-17 through [2018-19] 2019-20 school
years, a portion of these funds shall be used to support programs
identified by the office of children and family services, the

salary and fringe benefit costs and other
critical nonpersonal services costs for
foster care programs as determined by the
office. Social services districts must
adjust the amount of payments made for
care provided by congregate care and foster boarding home programs and to foster parents to reflect the cost of living adjustments in the manner specified by the office. Each authorized agency operating a congregate care or foster boarding home program in New York state for which the office sets a maximum state aid rate pursuant to section 398-a of the social services law or section 4003 or 4405 of the education law shall submit, at the time and in a manner to be determined by the office, a written certification, attesting that the funds received for the continuation of the cost of living adjustment to the maximum state aid rate that became effective April 1, 2008 for that program will be or were used solely in accordance with the requirements of the cost of living adjustment established by the office.

Notwithstanding any inconsistent provision of law, including section 1 of part C of chapter 57 of the laws of 2006, as amended by part I of chapter 60 of the laws of 2014, for the period commencing on April 1, 2018 and ending March 31, 2019 the commissioner shall not apply any cost of living adjustment for the purpose of establishing rates of payments, contracts or any other form of reimbursement.

Within the amounts appropriated herein, state reimbursement to each social services district for services identified herein that are otherwise reimbursable by the state from April 1, 2018 through March 31, 2019 shall be limited to a district allocation, hereinafter referred to as the district's block grant allocation. Notwithstanding any other provision of law, such block grant allocation shall be based, in part, on each district's claims for such costs, adjusted by the applicable cost allocation methodology and net of any retroactive payments for the 12 month period ending June 30, 2017 that are submitted on or before January 2, 2018 and, in part, on such other factors as determined by the office of children and family services and approved by the director of the budget. Any portion of a social services district's allocation from funds appropriated herein not claimed by such district during the state fiscal year may be used by such district for expenditures on preventive services provided pursuant to section 409-a of the social services law, independent living services and aftercare services provided pursuant to regulations of the department of family assistance, claimed by such district.
during the next state fiscal year up to
the amount remaining from the district's
foster care block grant allocation,
provided however, that any claims for such
services during the next state fiscal year
in excess of such amount shall be subject
to 62 percent state reimbursement exclu-
sive of any federal funds made available
for such purposes, in accordance with
directives of the department of family
assistance and subject to the approval of
the director of the budget. Any claims
submitted by a social services district
for reimbursement for a particular state
fiscal year for which the social services
district does not receive state or federal
reimbursement during that state fiscal
year may not be claimed against that
district's block grant apportionment for
the next state fiscal year.

The office of children and family services,
with the approval of the director of the
budget, may reduce a district's block
grant allocation by the state share
decrease related to federal retroactive
reimbursement for such foster care
services identified herein. The office,
with the approval of the director of the
budget, may reduce a district's block
grant allocation by the state share of
disallowances or sanctions taken against
the district pursuant to the social
services law or federal law.

Notwithstanding any other provision of law,
the state shall not be responsible for
reimbursing a social services district and
a district shall not seek state reimburse-
ment for any portion of any state disal-
lowance or sanction taken against the
social services district, or any federal
disallowance attributable to final federal
agency decisions or to settlement made, on
or after July 1, 1995, when such disallow-
ance or sanction results from the failure
of the social services district to comply
with federal or state requirements,
including, but not limited to, failure to
document eligibility for federal or state
funds in the case record; provided, howev-
er, if the office determines that any
federal disallowance for services provided
between January 1, 1999 and May 31, 1999
results solely from the late enactment of
the state legislation implementing the
federal adoption and safe families act,
the state shall be solely responsible for
the full amount of the disallowance or
sanction; provided, further, however, this
provision shall be deemed to apply both
prospectively and retroactively regardless
of whether such sanctions or disallowances are for services provided or claims made prior to or after April 1, 2018. Notwithstanding any other provision of law, any federal disallowance resulting from a federal title IV-E eligibility review or audit that uses extrapolated statistic techniques shall be passed along by the state to any and all social services districts that the office of children and family services has determined have not complied with the title IV-E eligibility requirements or have not taken the necessary actions to ensure compliance with such requirements including, but not limited to, failing to: assess and fully document all the criteria and have readily available all the necessary documents to establish and continue title IV-E eligibility for all title IV-E eligible children within the required time frames; claim title IV-E funding only for cases that meet all of the title IV-E eligibility criteria; and fully implement the social services payment system on or before April 1, 2005 for all direct and voluntary agency foster care services. Notwithstanding any law to the contrary, the office of children and family services shall impose on social services districts any federal disallowance issued against the state as a result of a federal title IV-E secondary eligibility review regardless of the date the children may have entered foster care, the date the eligibility or payment errors occurred, or the filing date of any federal claims for reimbursement; provided, however, that the state shall be responsible for the disallowed costs and expenditures related to the placement of children in a facility operated by the office of children and family services, which shall be determined in the same manner as the disallowed costs and expenditures for social services districts other than the city of New York. In order to reimburse the federal government for the full amount of any disallowance imposed on the state by the federal administration for children and families within the timeframes necessary to avoid any potential interest payments on such amount, the office of children and family services is authorized to immediately offset funds otherwise due to each district for a pro rata share of the total disallowed costs based on the percentage of applicable federal title IV-E claims made by that district for the relevant time period as compared to the total applicable statewide title IV-E claims.
The amount of the offset against each district will be adjusted, if necessary, upon completion of the disallowance allocation process. The final allocation of the amount of any federal disallowance resulting from a title IV-E secondary eligibility review shall be allocated among the districts so that each district shall be responsible for the amount attributable to each of the district's children or cases that are determined by the federal review to be unallowable. Each district shall also be responsible for a portion of the federal extrapolated disallowance amount based on the relative error rate for the district. The city of New York's error rate will be based on the federal sample and federal statistics. For all social services districts other than the city of New York, the error rate will be based on a review conducted by the district of a sample of children and/or cases determined by the office of children and family services and a re-review of a sub-sample by the office of those children and/or cases determined by the office. The office of children and family services will determine what is reasonable in establishing the size of the sample and sub-sample for each district. The office of children and family services shall notify each social services district of the sample of children and/or cases from the federal audit period that the social services district must review. Any child or case from the social services district that was included in the federal sample will automatically be included in the social services district's review sample and the determination made at the federal review regarding that child or case will govern for the purposes of the social services district's review. The social services district must complete and submit the results of its review to the office of children and family services within 60 days of receipt of the sample. The error rate for the district will be based on the findings of the district's review and the office of children and family services' re-review. If a social services district does not complete its review within 60 days of receiving the sample from the office of children and family services, the office of children and family services shall assign an error rate to the social services district based on the relative percentage of the district's applicable title IV-E claims for the relevant period as compared to applicable statewide title IV-E claims for that period and other

1 circumstances that the office of children
2 and family services may consider in order
3 to allocate 100 percent of the federal
4 disallowance. The office of children and
5 family services shall apply each social
6 services district's error rate to the
7 total amount of the district's applicable
8 title IV-E claims including associated
9 administrative expenses. The resulting
10 dollar amounts for all of the social
11 services districts will be summed to
12 derive the total amount of title IV-E
13 claims deemed to be in error statewide. To
14 establish a disallowance percentage for
15 each social services district, the amount
16 of the district's title IV-E claims deemed
17 to be in error will be divided by the
18 amount of statewide title IV-E claims
19 deemed to be in error. The resulting
20 disallowance percentage for each district
21 will be applied to the entire title IV-E
22 extrapolated disallowance calculated by
23 the federal review to determine the amount
24 of the extrapolated disallowance for which
25 the district is responsible. Each district
26 will be credited for the amount already
27 disallowed for any individual children or
28 cases found to be in error during the
29 federal review. The exclusive appeal
30 rights for the review of the amount of the
31 federal disallowance assigned to each
32 social services district shall be pursuant
33 to article 78 of the civil practice laws
34 and rules; provided, however, that in any
35 such action all of the social services
36 districts shall be joined as necessary
37 parties and the venue of any such action
38 shall be in Rensselaer county. Any social
39 services district that fails to complete
40 its sample review in the required time
41 frames shall have no right to appeal and
42 shall not be a necessary party to any
43 action brought by another social services
44 district.

Notwithstanding any inconsistent provision
of law, in lieu of payments authorized by

the social services law.

Notwithstanding the provisions of any other
law to the contrary, the office of chil-
dren and family services may, on behalf of
social services districts, make payments
to foster boarding homes paid directly by

of such costs.

Notwithstanding any other provision of law,
if a social services district fails to
provide reimbursement to the office of
children and family services pursuant to section 529 of the executive law within 60 days of receiving a bill for services under such section, or by the date certain set by such office for providing reimbursement, whichever is later, the offices of the department of family assistance are authorized to exercise the state's set-off rights by withholding any amounts due and owing to such district under this appropriation, up to such amounts due and owing to the state under section 529 of the executive law and transferring such funds to the miscellaneous special revenue fund youth facility per diem account (22186). certification by the social services
district that it will not be using these
funds to supplant other state and local

title IV-E of the social security act. Such expenditures shall

constitute good cause pursuant to section 408 (a) (10) of the social
security act. Such funds may also be used, without state or local
participation, for care, maintenance, supervision, and tuition for
juvenile delinquents and persons in need of supervision who are
placed in residential programs operated by authorized agencies and
the state was authorized to fund such costs under part A of title IV
of the social security act as such part was in effect on September

section 408 (a) (10) of the social security act. Unless otherwise
approved by the commissioner of the office of children and family
services with the approval of the director of the budget, these
funds may be used only for eligible expenditures made from October

child care during a particular federal fiscal year, other than
claims made under title XX of the federal social security act and
under the supplemental nutrition assistance program employment and
training funds, shall be counted against the social services
district's block grant for child care for that federal fiscal year.

as of March 31, 2018.

Notwithstanding any inconsistent provision
of law, rule or regulation, for early

period April 1, 2018 through March 31,
2019, unless an infant or toddler has
already been referred to the early
intervention official or the health
officer of the public health district in
which the infant or toddler resides, as
designated by the municipality, the
following persons or entities, within two
working days of identifying an infant or
toddler suspected of having a disability
or at risk of having a disability, shall
refer such infant or toddler to the early
intervention official or the health
officer as applicable but in no event over
the objection of the parent made in
accordance with procedures established by
the department for use by such primary
referral sources: hospitals, child health
care providers, day care programs, local school districts, public health facilities, early childhood direction centers and such other social service and health care agencies and providers as the commissioner shall specify in regulation; provided, however, that the department shall establish procedures, including regulations if required, to ensure that primary referral sources adequately inform the parent or guardian about the early intervention program, including through brochures and written materials created or approved by the department. The primary referral sources identified above shall, with parent consent, complete and transmit at the time of referral, a referral form developed by the department which contains information sufficient to document the primary referral source's concern or basis for suspecting the child has a disability or is at risk of having a disability, and where applicable, specifies the child's diagnosed condition that establishes the child's eligibility for the early intervention program. The primary referral source shall inform the parent of a child with a diagnosed condition that has a high probability of resulting in developmental delay, that eligibility for the program may be established by medical or other records, and of the importance of providing consent for the primary referral source to transmit records or reports necessary to support the diagnosis, or, for parents or guardians of children who do not have a diagnosed condition, records or reports that would assist in determining eligibility for the program. Provided, however, that if this chapter appropriates sufficient additional funds to support the referral of an infant or toddler suspected of having a disability or at risk of having a disability by hospitals, child health care providers, day care programs, local school districts, public health facilities, early childhood direction centers and such other social service and health care agencies and providers as the commissioner shall specify in regulation to the early intervention official or the health officer unless the parent objects; and for the department to establish procedures, including regulations if required, to ensure that primary referral sources adequately inform the parent or guardian about the early intervention program, including through brochures and written materials created or approved by the department; the primary referral source to complete and transmit at the time of
referral, a referral form developed by the
department which contains information
sufficient to document the primary
referral source's concern or basis for
suspecting the child has a disability or
is at risk of having a disability, and
where applicable specifies the child's
diagnosed condition that establishes the
child's eligibility for the early
intervention program; the primary referral
source to inform the parent of a child
with a diagnosed condition that has a high
probability of resulting in developmental
delay, that eligibility for the program
may be established by medical or other
records, and of the importance of
providing consent for the primary referral
source to transmit records or reports
necessary to support the diagnosis, or,
for parents or guardians of children who
do not have a diagnosed condition, records
or reports that would assist in
determining eligibility for the program
then this language shall be considered
null and void as of March 31, 2018.

Notwithstanding any inconsistent provision
of law, rule or regulation, for early
intervention program purposes, for the
period April 1, 2018 through March 31,
2019, each child thought to be an eligible
child within the meaning of section 2541
of the public health law is entitled to an
evaluation conducted in accordance with
the following provisions, and the early
intervention official shall ensure such
evaluation, with parental consent. Subject
to the provisions of section 2545-a of
title 2-A of the public health law, the
parent may select an evaluator from the
list of approved evaluators as described
in section 2542 of the public health law
to conduct the screening and/or evaluation
as applicable and in accordance with this
provision. The parent or evaluator shall
immediately notify the early intervention
official of such selection. The evaluator
shall review the information and
documentation provided with the referral
to determine the appropriate screening or
evaluation process to follow. The
evaluator may begin the screening or
evaluation no sooner than four working
days after such notification, unless
otherwise approved by the initial service
coordinator. Initial service coordinators
shall inform parents of the screening or
evaluation procedures that may be
performed, as applicable. For a child
referred to the early intervention
official who has a diagnosed physical or
mental condition that has a high
probability of resulting in developmental
delay, the initial service coordinator shall inform the parent that the evaluation of the child shall be conducted in accordance with the procedures set forth for children who are referred to the early intervention official with diagnosed physical or mental conditions that have a high probability of resulting in developmental delay. If, in consultation with the evaluator, the service coordinator identifies a child that is potentially eligible for programs or services offered by or under the auspices of the office for people with developmental disabilities, the service coordinator shall, with parent consent, notify the office for people with developmental disabilities' regional developmental disabilities services office of the potential eligibility of such child for said programs or services.

Screenings for children referred to the early intervention program to determine whether they are suspected of having a disability:

(a) For a child referred to the early intervention program, the evaluator shall first perform a screening of the child, with parent consent, to determine whether the child is suspected of having a disability.

(b) The evaluator shall utilize a standardized instrument or instruments approved by the department to conduct the screening. If the evaluator does not utilize a standardized instrument or instruments approved by the department for the screening, the evaluator shall document in writing why the same are unavailable or inappropriate for the child.

(c) The evaluator shall explain the results of the screening to the parent, and shall fully document the results in writing.

(d) If, based upon the screening, a child is suspected of having a disability, the child shall, with parent consent, receive an evaluation to be conducted in accordance with public health law, the coordinated standards and procedures, and regulations promulgated by the commissioner.

(e) If, based upon the screening, a child is not suspected of having a disability, an evaluation shall not be provided, unless requested by the parent. The early intervention official shall provide the parent with written notice of the screening results, which shall include information on the parent's right to request an evaluation.
(f) A screening shall not be provided to children who are referred to the early intervention program who have a diagnosed physical or mental condition with a high probability of resulting in developmental delay that establishes eligibility for the program, or for children who have previously received an evaluation under the early intervention program.

The evaluation of a child shall:

(a) include the administration of an evaluation instrument approved by the department. If the evaluator does not utilize an instrument approved by the department as part of the evaluation of the child, the evaluator shall document in writing why such instrument or instruments are not appropriate or available for the child;

(b) be conducted by personnel trained to utilize appropriate methods and procedures;

(c) be based on informed clinical opinion;

(d) be made without regard to the availability of services in the municipality or who might provide such services;

(e) with parental consent, include the following:

(i) a review of pertinent records related to the child's current health status and medical history; and

(ii) an evaluation of the child's level of functioning in each of the developmental areas set forth in paragraph (c) of subdivision 7 of section 2541 of the public health law to determine whether the child has a disability as defined in title 2-A of article 25 of the public health law that establishes the child's eligibility for the program and

(f) if the child has been determined eligible by the evaluator after conducting the procedures set forth in paragraphs (a) through (e) above, the evaluation shall also include:

(i) an assessment for the purpose of identifying the child's unique strengths and needs in each of the developmental areas and the early intervention services appropriate to meet those needs;

(ii) a family-directed assessment, if consented to by the family, in order to identify the family's resources, priorities and concerns and the supports necessary to enhance the family's capacity to meet the developmental needs of the child. The family assessment shall be voluntary on the part of each family member participating in the assessment;

(iii) an assessment of the transportation needs of the child, if any; and
(iv) such other matters as the commissioner may prescribe in regulation.

Evaluations for children who are referred to the early intervention official with diagnosed physical or mental conditions that have a high probability of resulting in developmental delay:

(a) If a child has a diagnosed physical or mental condition that has a high probability of resulting in developmental delay, the child's medical or other records shall be used, when available to establish the child's eligibility for the program.

(b) The evaluator shall, upon review of the referral form or any other records, or at the time of initial contact with the child's family, determine whether the child has a diagnosed condition that establishes the child's eligibility for the program. If the evaluator has reason to believe, after speaking with the child's family, that the child may have a diagnosed condition that establishes the child's eligibility but the evaluator has not been provided with medical or other documentation of such diagnosis, the evaluator shall, with parent consent, obtain such documentation, when available, prior to proceeding with the evaluation of the child.

(c) The evaluator shall review all records received to document that the child's diagnosis as set forth in such records establishes the child's eligibility for the early intervention program.

(d) Notwithstanding the above, if the child's eligibility for the early intervention program is established pursuant to the provisions above, the evaluation of the child shall consist of (i) a review of the results of the medical or other records that established the child's eligibility, and any other pertinent evaluations or records available and (ii) an assessment for the purpose of identifying the child's unique strengths and needs in each of the developmental areas and the early intervention services appropriate to meet those needs; a family-directed assessment, if consented to by the family, in order to identify the family's resources, priorities and concerns and the supports necessary to enhance the family's capacity to meet the developmental needs of the child. The family assessment shall be voluntary on the part of each family member participating in the assessment; an assessment of the transportation needs of the child, if any; and such other matters as the commissioner may prescribe in
regulation. The evaluation procedures regarding the administration of an evaluation instrument; being conducted by personnel trained to utilize appropriate methods and procedures; be based on informed clinical opinion; be made without regard to the availability of services in the municipality or who might provide such services; a review of pertinent records related to the child’s health status and medical history; and an evaluation of the child’s level of functioning in each of the development areas to determine whether the child has a disability that establishes eligibility for the program shall not be required or conducted.

A parent may appeal a determination that a child is ineligible pursuant to the provisions of section 2549 of the public health law, provided, however, that a parent may not initiate such appeal until all evaluations are completed. In addition, for a child referred to the early intervention official who has a diagnosed physical or mental condition that establishes the child’s eligibility for the program, the parent may appeal the denial of a request to have the evaluator conduct the evaluation procedures regarding the administration of an evaluation instrument; being conducted by personnel trained to utilize appropriate methods and procedures; be based on informed clinical opinion; be made without regard to the availability of services in the municipality or who might provide such services; a review of pertinent records related to the child’s current health status and medical history; and an evaluation of the child’s level of functioning in each of the development areas to determine whether the child has a disability that establishes eligibility for the program, provided, however, that the parent may not initiate the appeal until the evaluation conducted for children who are referred to the early intervention official with diagnosed physical or mental conditions that have a high probability of resulting in developmental delay is completed. Provided, however, that if this chapter appropriates sufficient additional funds to support each child thought to be an eligible child within the meaning of section 2541 of the public health law is entitled to an evaluation conducted in accordance with the following provisions, and the early intervention official shall ensure such evaluation, with parental consent. Subject to the provisions of section 2545-a of the public health law,
the parent may select an evaluator from the list of approved evaluators as described in section 2542 of the public health law to conduct the screening and/or evaluation as applicable and in accordance with this provision. The parent or evaluator shall immediately notify the early intervention official of such selection. The evaluator shall review the information and documentation provided with the referral to determine the appropriate screening or evaluation process to follow. The evaluator may begin the screening or evaluation no sooner than four working days after such notification, unless otherwise approved by the initial service coordinator. Initial service coordinators shall inform parents of the screening or evaluation procedures that may be performed, as applicable. For a child referred to the early intervention official who has a diagnosed physical or mental condition that has a high probability of resulting in developmental delay, the initial service coordinator shall inform the parent that the evaluation of the child shall be conducted in accordance with the procedures set forth for children who are referred to the early intervention official with diagnosed physical or mental conditions that have a high probability of resulting in developmental delay. If, in consultation with the evaluator, the service coordinator identifies a child that is potentially eligible for programs or services offered by or under the auspices of the office for people with developmental disabilities, the service coordinator shall, with parent consent, notify the office for people with developmental disabilities' regional developmental disabilities services office of the potential eligibility of such child for said programs or services. Screenings for children referred to the early intervention program to determine whether they are suspected of having a disability:

(a) For a child referred to the early intervention program, the evaluator shall first perform a screening of the child, with parent consent, to determine whether the child is suspected of having a disability.

(b) The evaluator shall utilize a standardized instrument or instruments approved by the department to conduct the screening. If the evaluator does not utilize a standardized instrument or instruments approved by the department for the screening, the evaluator shall document in writing why the same are
unavailable or inappropriate for the child.

(c) The evaluator shall explain the results of the screening to the parent, and shall fully document the results in writing.

(d) If, based upon the screening, a child is suspected of having a disability, the child shall, with parent consent, receive an evaluation to be conducted in accordance with the procedures public health law, the coordinated standards and procedures, and regulations promulgated by the commissioner.

(e) If, based upon the screening, a child is not suspected of having a disability, an evaluation shall not be provided, unless requested by the parent. The early intervention official shall provide the parent with written notice of the screening results, which shall include information on the parent's right to request an evaluation.

(f) A screening shall not be provided to children who are referred to the early intervention program who have a diagnosed physical or mental condition with a high probability of resulting in developmental delay that establishes eligibility for the program, or for children who have previously received an evaluation under the early intervention program.

The evaluation of a child shall:

(a) include the administration of an evaluation instrument approved by the department. If the evaluator does not utilize an instrument approved by the department as part of the evaluation of the child, the evaluator shall document in writing why such instrument or instruments are not appropriate or available for the child;

(b) be conducted by personnel trained to utilize appropriate methods and procedures;

(c) be based on informed clinical opinion;

(d) be made without regard to the availability of services in the municipality or who might provide such services;

(e) with parental consent, include the following:

(i) a review of pertinent records related to the child's current health status and medical history; and

(ii) an evaluation of the child's level of functioning in each of the developmental areas set forth in paragraph (c) of subdivision 7 of section 2541 of the public health law to determine whether the child has a disability as defined in title 2-A of article 25 of the public health law
that establishes the child's eligibility
for the program and
(f) if the child has been determined
eligible by the evaluator after conducting
the procedures set forth in paragraphs (a)
through (e) above, the evaluation shall
also include:
(i) an assessment for the purpose of
identifying the child's unique strengths
and needs in each of the developmental
areas and the early intervention services
appropriate to meet those needs;
(ii) a family-directed assessment, if
consented to by the family, in order to
identify the family's resources,
priorities and concerns and the supports
necessary to enhance the family's capacity
to meet the developmental needs of the
child. The family assessment shall be
voluntary on the part of each family
member participating in the assessment;
(iii) an assessment of the transportation
needs of the child, if any; and
(iv) such other matters as the commissioner
may prescribe in regulation.
Evaluations for children who are referred to
the early intervention official with
diagnosed physical or mental conditions
that have a high probability of resulting
in developmental delay:
(a) If a child has a diagnosed physical or
mental condition that has a high
probability of resulting in developmental
delay, the child's medical or other
records shall be used, when available to
establish the child's eligibility for the
program.
(b) The evaluator shall, upon review of the
referral form or any other records, or at
the time of initial contact with the
child's family, determine whether the
child has a diagnosed condition that
establishes the child's eligibility for
the program. If the evaluator has reason
to believe, after speaking with the
child's family, that the child may have a
diagnosed condition that establishes the
child's eligibility but the evaluator has
not been provided with medical or other
documentation of such diagnosis, the
evaluator shall, with parent consent,
obtain such documentation, when available,
prior to proceeding with the evaluation of
the child.
(c) The evaluator shall review all records
received to document that the child's
diagnosis as set forth in such records
establishes the child's eligibility for
the early intervention program.
(d) Notwithstanding the above, if the
child's eligibility for the early
intervention program is established
pursuant to the provisions above, the evaluation of the child shall consist of:

(i) a review of the results of the medical or other records that established the child's eligibility, and any other pertinent evaluations or records available and

(ii) conduct an assessment for the purpose of identifying the child's unique strengths and needs in each of the developmental areas and the early intervention services appropriate to meet those needs; a family-directed assessment, if consented to by the family, in order to identify the family's resources, priorities and concerns and the supports necessary to enhance the family's capacity to meet the developmental needs of the child. The family assessment shall be voluntary on the part of each family member participating in the assessment; an assessment of the transportation needs of the child, if any; and such other matters as the commissioner may prescribe in regulation. The evaluation procedures regarding the administration of an evaluation instrument; being conducted by personnel trained to utilize appropriate methods and procedures; be based on informed clinical opinion; be made without regard to the availability of services in the municipality or who might provide such services; a review of pertinent records related to the child's current health status and medical history; and an evaluation of the child's level of functioning in each of the development areas to determine whether the child has a disability that establishes eligibility for the program shall not be required or conducted.

A parent may appeal a determination that a child is ineligible pursuant to the provisions of section 2549 of the public health law, provided, however, that a parent may not initiate such appeal until all evaluations are completed. In addition, for a child referred to the early intervention official who has a diagnosed physical or mental condition that establishes the child's eligibility for the program, the parent may appeal the denial of a request to have the evaluator conduct the evaluation procedures regarding the administration of an evaluation instrument; being conducted by personnel trained to utilize appropriate methods and procedures; be based on informed clinical opinion; be made without regard to the availability of services in the municipality or who might provide such services; a review of pertinent records
related to the child’s current health status and medical history; and an evaluation of the child’s level of functioning in each of the development areas to determine whether the child has a disability that establishes eligibility for the program, provided, however, that the parent may not initiate the appeal until the evaluation conducted for children who are referred to the early intervention official with diagnosed physical or mental conditions that have a high probability of resulting in developmental delay is completed then this language shall be considered null and void as of March 31, 2018. Notwithstanding any inconsistent provision of law, rule or regulation, for early intervention program purposes, for the period April 1, 2018 through March 31, 2019, if a claim for payment for early intervention services is denied by a third party payor, the provider shall request an appeal of such denial, in a manner prescribed by the department, in accordance with article 49 of the public health law and article 49 of the insurance law, and shall receive a determination of such appeal, prior to submitting a claim for payment from another third party payor or from the municipality. A provider shall not delay or discontinue services to eligible children pending payment of the claim or pending a determination of any denial for payment that has been appealed. Provided, however, that if this chapter appropriates sufficient additional funds to require providers to appeal a claim for payment for early intervention services denied by a third party payor, in accordance with article 49 of the public health law and article 49 of the insurance law, and receive a determination of such appeal, prior to submitting a claim for payment from another third party payor or from the municipality then this language shall be considered null and void as of March 31, 2018. Notwithstanding any inconsistent provision of law, rule or regulation, for early intervention program purposes, for the period April 1, 2018 through March 31, 2019, providers of early intervention services shall receive a two percent increase in rates of reimbursement for early intervention services, provided that for payments made for early intervention services to persons eligible for medical assistance pursuant to title 11 of article 5 of the social services law, the two percent increase shall be subject to the availability of federal financial
participation. Provided, however, that if this chapter appropriates sufficient additional funds to providers of early intervention services to receive a two percent increase in rates of reimbursement for early intervention services, provided that for payments made for early intervention services to persons eligible for medical assistance pursuant to title 11 of article 5 of the social services law the two percent increase shall be subject to the availability of federal financial participation then this language shall be considered null and void as of March 31, 2018.

Notwithstanding any inconsistent provision of law, rule or regulation, for early intervention program purposes, for the period April 1, 2018 through March 31, 2019, providers of early intervention services shall utilize the department's fiscal agent and data system for claiming payment and for requesting appeals of claims denied by third party payors, for evaluations and services rendered under the early intervention program. Provided, however, that if this chapter appropriates sufficient additional funds to providers of early intervention services to utilize the department's fiscal agent and data system for requesting appeals of claims denied by third party payors, for evaluations and services rendered under the early intervention program then this language shall be considered null and void as of March 31, 2018.

Notwithstanding any inconsistent provision of law, rule or regulation, for early intervention program purposes, for the period April 1, 2018 through March 31, 2019, for the purposes of article 49 of the public health law, and article 49 of the insurance law, the term "health care provider" shall mean a health care professional or a facility licensed pursuant to articles 28, 36, 44 or 47 of the public health law, a facility licensed pursuant to article 19, 23, 31 or 32 of the mental hygiene law, qualified personnel pursuant to title 2-A of article 25 of the public health law, or an agency as defined by the department of health in regulations promulgated pursuant to title 2-A of article 25 of the public health law. An enrollee, the enrollee's designee and, in connection with retrospective adverse determinations or adverse determinations for services rendered in accordance with title 2-A of article 25 of the public health law, an enrollee's health care provider, may appeal an adverse determination rendered by a
utilization review agent. An enrollee, the enrollee's designee and, in connection with concurrent and retrospective adverse determinations or adverse determinations for services rendered in accordance with title 2-A of article 25 of the public health law, an enrollee's health care provider, shall have the right to request an external appeal pursuant to such article. Except as provided in paragraphs (b) and (c) of subdivision 4 of section 4914 of the public health law, payment for an external appeal, including an appeal for services rendered in accordance with title 2-A of article 25 of the public health law, shall be the responsibility of the health care plan. Provided, however, that if this chapter appropriates sufficient additional funds to require for the purposes of article 49 of the public health law, and article 49 of the insurance law, the term "health care provider" shall mean a health care professional or a facility licensed pursuant to articles 28, 36, 44 or 47 of the public health law, a facility licensed pursuant to article 19, 23, 31 or 32 of the mental hygiene law, qualified personnel pursuant to title 2-A of article 25 of the public health law, or an agency as defined by the department of health in regulations promulgated pursuant to title 2-A of article 25 of the public health law. An enrollee, the enrollee's designee and, in connection with retrospective adverse determinations or adverse determinations for services rendered in accordance with title 2-A of article 25 of the public health law, an enrollee's health care provider, may appeal an adverse determination rendered by a utilization review agent. An enrollee, the enrollee's designee and, in connection with concurrent and retrospective adverse determinations or adverse determinations for services rendered in accordance with title 2-A of article 25 of the public health law, an enrollee's health care provider, shall have the right to request an external appeal pursuant to such article. Except as provided in paragraphs (b) and (c) of subdivision 4 of section 4914 of the public health law, payment for an external appeal, including an appeal for services rendered in accordance with title 2-A of article 25 of the public health law, shall be the responsibility of the health care plan and this language shall be considered null and void as of March 31, 2018.

The superintendent of financial services finds after notice and hearing that any insurer, representative of the insurer, insurance agent, insurance broker, adjuster, or any other person or entity subject to the insurance law, has willfully violated the provisions of the insurance law or any regulation promulgated thereunder, then the superintendent of financial services may order the person or entity to pay to the people of this state a penalty in a sum not exceeding the greater of (i) $1,000 for each offense; or (ii) where the violation relates to either the failure to pay a claim or making a false statement to the superintendent of financial services or the department of financial services, the greater of (A) $10,000 for each offense, or (B) a multiple of two times the aggregate damages attributable to the violation; or (C) a multiple of two times the aggregate economic gain attributable to the violation. Provided, however, that if this chapter appropriates sufficient additional funds to support the superintendent of financial services ordering persons or entities to pay to the people of this state a penalty in a sum not exceeding the greater of (i) $1,000 for each offense; or (ii) where the violation relates to either the failure to pay a claim or making a false statement to the superintendent of financial services or the department of financial services, the greater of (A) $10,000 for each offense, or (B) a multiple of two times the aggregate damages attributable to the violation; or (C) a multiple of two times the aggregate economic gain attributable to the violation, then this language shall be considered null and void as of March 31, 2018.

The money hereby appropriated is available for payment of aid heretofore accrued or hereafter accrued. Notwithstanding any other provision of law, the money hereby appropriated may be increased or decreased by transfer or suballocation to appropriations of the office of temporary and disability assistance, for the reimbursement of local district administrative costs related to children newly enrolled in Medicaid whose household income is between 100 percent and 133 percent of the federal poverty level. Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2018 through March 31, 2019, in the event federal funding pursuant to title XXI of the federal social security act is reduced or eliminated on and after October 1, 2017, the director of the division of the budget, in consultation with the commissioner of health, shall identify the amount of such reduction or elimination and notify the temporary president of the senate and the speaker of the assembly in writing that the federal actions will reduce or eliminate expected funding to New York state by such amount. The director of the division of the budget, in consultation with the commissioner of health, shall determine if programmatic changes are necessary to continue covering eligible children within state-only funding levels, identify available resources or actions, identify specific changes needed to align the child health insurance program with current funding levels, and establish a plan for implementing such changes which may include emergency regulations promulgated by the commissioner of health. Such plan shall be submitted to the legislature prior to its implementation. Provided, however, if this chapter appropriates sufficient additional funds to allow the child health insurance program to continue without modification upon the reduction or elimination of federal funding pursuant to title XXI of the federal social security act, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2018.

beginning April 1, 2012 the operational costs of the New York state medical indemnity fund, pursuant to chapter 59 of the laws of 2011, and state costs or savings from the essential plan program. Such projections may be adjusted by the director of the budget to account for increased or expedited department of health state funds medicaid expenditures as a result of a natural or other type of disaster, including a governmental declaration of emergency. The director of the budget, in consultation with the commissioner of health, shall assess on a monthly basis known and projected medicaid expenditures by category of service and by geographic region, as determined by the commissioner of health, incurred both prior to and subsequent to such assessment for each such period, and if the director of the budget determines that such expenditures are expected to cause medicaid spending for such period to exceed the aggregate limit specified herein for such period, the state medicaid director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allocation plan to limit such spending to the aggregate limit specified herein for such period. Such medicaid savings allocation plan shall be designed, to reduce the expenditures authorized by the appropriations herein in compliance with the following guidelines: (1) reductions shall be made in compliance with applicable federal law, including the provisions of the Patient Protection and Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No. 111-152 (collectively "Affordable Care Act") and any subsequent amendments thereto or regulations promulgated thereunder; (2) reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation plan that meets the other criteria set forth herein; (3) reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the Affordable Care Act; (4) reductions shall be made uniformly among
DEPARTMENT OF HEALTH
AID TO LOCALITIES  2018-19

categories of services and geographic
departments, regions of the state, to the extent prac-
ticable, and shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific categories of services contributed to department of health medicaid state funds spending in excess of the limits specified herein; the need to maintain safety net services in underserved communities; or the potential benefits of pursuing innovative payment models contemplated by the Affordable Care Act, in which case such grounds shall be set forth in the medicaid savings allocation plan; and (5) reductions shall be made in a manner that does not unnecessarily create administrative burdens to medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation plan, to the extent that all or part of such plan, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation plan on the department of health's website and shall provide written copies of such plan to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

(b) The commissioner may revise the medicaid savings allocation plan subsequent to the provisions of notice and prior to implementation but needs to provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the plan.

Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this subdivision if, in the discretion of the commissioner, expedited development and implementation of a medicaid savings allocation plan is necessary due to a public health emergency.
For purposes of this section, a public health emergency is defined as: (i) a disaster, natural or otherwise, that significantly increases the immediate need for health care personnel in an area of the state; (ii) an event or condition that creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or (iii) any other event or condition determined by the commissioner to constitute an imminent threat to public health.

Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation plan from taking effect retroactively to the extent permitted by the federal centers for medicare and medicaid services.

In accordance with the medicaid savings allocation plan, the commissioner of the department of health shall reduce department of health state funds medicaid spending by the amount of the projected overspending through, actions including, but not limited to modifying or suspending reimbursement methods, including but not limited to all fees, premium levels and rates of payment, notwithstanding any provision of law that sets a specific amount or methodology for any such payments or rates of payment; modifying medicaid program benefits; seeking all necessary federal approvals, including, but not limited to waivers, waiver amendments; and suspending time frames for notice, approval or certification of rate requirements, notwithstanding any provision of law, rule or regulation to the contrary, including but not limited to sections 2807 and 3614 of the public health law, section 18 of chapter 2 of the laws of 1988, and 18 NYCRR 505.14(h).

The department of health shall prepare a monthly report that sets forth: (a) known and projected department of health medicaid expenditures as described in subdivision (1) of this section, and factors that could result in medicaid disbursements for the relevant state fiscal year to exceed the projected department of health state funds disbursements in the enacted budget financial plan pursuant to subdivision 3 of section 23 of the state finance law, including spending increases or decreases due to: enrollment fluctuations, rate changes, utilization changes, MRT investments, and shift of beneficiaries to managed care; and variations in offline medicaid payments; and (b) the actions taken to implement any medicaid savings allocation plan implemented pursuant to
subdivision (4) of this section, including
information concerning the impact of such
actions on each category of service and
each geographic region of the state. Each
such monthly report shall be provided to
the chairs of the senate finance and the
assembly ways and means committees and
shall be posted on the department of
health’s website in a timely manner.

50 contrary, all medical assistance appropri-
51 ations made from this account shall remain
52 in full force and effect in accordance, in
53 the aggregate, with the following sched-
54 ule: not more than 48 percent for the
55 period April 1, 2018 to March 31, 2019;

DEPARTMENT OF HEALTH

AID TO LOCALITIES  2018-19

Notwithstanding section 40 of the state finance law or any provision of law to the contrary, subject to federal approval, department of health state funds medicaid spending, excluding payments for medical services provided at state facilities operated by the office of mental health, the office for people with developmental disabilities and the office of alcoholism and substance abuse services and further excluding any payments which are not appropriated within the department of health, in the aggregate, for the period April 1, 2018 through March 31, 2019, shall not exceed $20,960,018,000 except as provided below and state share medicaid spending, in the aggregate, for the period April 1, 2019 through March 31, 2020, shall not exceed $22,044,311,000, but in no event shall department of health state funds medicaid spending for the period April 1, 2018 through March 31, 2020 exceed $43,004,329,000 provided, however, such aggregate limits may be adjusted by the director of the budget to account for any changes in the New York state federal medical assistance percentage amount established pursuant to the federal social security act, increases in provider revenues, reductions in local social services district payments for medical assistance administration, minimum wage increases and beginning April 1, 2012 the operational costs of the New York state medical indemnity fund, pursuant to chapter 59 of the laws of 2011, and state costs or savings from the essential plan program. Such projections may be adjusted by the director of the budget to account for increased or expedited department of health state funds medicaid expenditures as a result of a natural or other type of disaster, including a governmental declaration of emergency. The director of the budget, in consultation with the commissioner of health, shall assess on a monthly basis known and projected medicaid expenditures by category of service and by geographic region, as defined by the commissioner, incurred both prior to and subsequent to such assessment for each such period, and if the director of the budget determines that such expenditures are expected to cause medicaid spending for such period to exceed the aggregate limit specified herein for such period, the state medicaid director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allocation plan to limit such spending to the aggregate limit specified herein for such period.
Such medicaid savings allocation plan shall be designed, to reduce the expenditures authorized by the appropriations herein in compliance with the following guidelines:

(1) reductions shall be made in compliance with applicable federal law, including the provisions of the Patient Protection and Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No. 111-152 (collectively "Affordable Care Act") and any subsequent amendments thereto or regulations promulgated thereunder;
(2) reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation plan that meets the other criteria set forth herein; (3) reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the Affordable Care Act; (4) reductions shall be made uniformly among categories of services and geographic regions of the state, to the extent practicable, and shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific categories of services contributed to department of health medicaid state funds spending in excess of the limits specified herein; the need to maintain safety net services in underserved communities; or the potential benefits of pursuing innovative payment models contemplated by the Affordable Care Act, in which case such grounds shall be set forth in the medicaid savings allocation plan; and (5) reductions shall be made in a manner that does not unnecessarily create administrative burdens to medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation plan, to the extent that all or part of such plan, in the discretion of
the commissioner, is likely to have a
material impact on the overall medicaid
program, particular categories of service
or particular geographic regions of the
state.
(a) The commissioner shall post the medicaid
savings allocation plan on the department
of health's website and shall provide
written copies of such plan to the chairs
of the senate finance and the assembly
ways and means committees at least 30 days
before the date on which implementation is
expected to begin.
(b) The commissioner may revise the medicaid
savings allocation plan subsequent to the
provisions of notice and prior to imple-
mentation but needs to provide a new
notice pursuant to subparagraph (i) of
this paragraph only if the commissioner
determines, in his or her discretion, that
such revisions materially alter the plan.
Notwithstanding the provisions of paragraphs
(a) and (b) of this subdivision, the
commissioner need not seek the input
described in paragraph (a) of this subdi-
vision or provide notice pursuant to para-
graph (b) of this subdivision if, in the
discretion of the commissioner, expedited
development and implementation of a medi-
caid savings allocation plan is necessary
due to a public health emergency.
For purposes of this section, a public
health emergency is defined as: (i) a
disaster, natural or otherwise, that
significantly increases the immediate need
for health care personnel in an area of
the state; (ii) an event or condition that
creates a widespread risk of exposure to a
serious communicable disease, or the
potential for such widespread risk of
exposure; or (iii) any other event or
condition determined by the commissioner
to constitute an imminent threat to public
health.
Nothing in this paragraph shall be deemed to
prevent all or part of such medicaid
savings allocation plan from taking effect
retroactively to the extent permitted by
the federal centers for medicare and medi-
caid services.
In accordance with the medicaid savings
allocation plan, the commissioner of the
department of health shall reduce depart-
ment of health state funds medicaid spend-
ing by the amount of the projected over-
spending through, actions including, but
not limited to modifying or suspending
reimbursement methods, including but not
limited to all fees, premium levels and
rates of payment, notwithstanding any
 provision of law that sets a specific
 amount or methodology for any such

 discontinuing medicaid program benefits;
 seeking all necessary federal approvals,
 including, but not limited to waivers,
 waiver amendments; and suspending time
 frames for notice, approval or certif-
ication of rate requirements, notwith-
tstanding any provision of law, rule or
 regulation to the contrary, including but
 not limited to sections 2807 and 3614 of
 the public health law, section 18 of chap-
ter 2 of the laws of 1988, and 18 NYCRR
 505.14(h).
The department of health shall prepare a
 monthly report that sets forth: (a) known
 and projected department of health medi-
caid expenditures as described in subdivi-
sion (1) of this section, and factors that
 could result in medicaid disbursements for
 the relevant state fiscal year to exceed
 the projected department of health state
 funds disbursements in the enacted budget
 financial plan pursuant to subdivision 3
 of section 23 of the state finance law,
 including spending increases or decreases
 due to: enrollment fluctuations, rate
 changes, utilization changes, MRT invest-
 ments, and shift of beneficiaries to
 managed care; and variations in offline
 medicaid payments; and (b) the actions
 taken to implement any medicaid savings
 allocation plan implemented pursuant to
 subdivision (4) of this section, including
 information concerning the impact of such
 actions on each category of service and
 each geographic region of the state. Each
 such monthly report shall be provided to
 the chairs of the senate finance and the
 assembly ways and means committees and
 shall be posted on the department of
 health's website in a timely manner.
The money hereby appropriated is to be
 available for payment of aid heretofore
 accrued or hereafter accrued to
 municipalities, and to providers of
 medical services pursuant to section 367-b
 of the social services law, and for
 payment of state aid to municipalities and
 to providers of family care where payment
 systems through the fiscal intermediaries
 are not operational, and shall be
 available to the department net of
 disallowances, refunds, reimbursements,
 and credits.
Notwithstanding any inconsistent provision
 of law to the contrary, funds may be used
 by the department for outside legal
 assistance on issues involving the federal
government, the conduct of preadmission

 required by the state's medicaid program,

Notwithstanding any inconsistent provision
of law, in lieu of payments authorized by
the social services law, or payments of
federal funds otherwise due to the local
social services districts for programs
provided under the federal social security
act or the federal food stamp act, funds
herein appropriated, in amounts certified
by the state commissioner of temporary and
disability assistance or the state commis-
sioner of health as due from local social
services districts each month as their
share of payments made pursuant to section
367-b of the social services law may be
set aside by the state comptroller in an
interest-bearing account in order to
ensure the orderly and prompt payment of
providers under section 367-b of the
social services law pursuant to an esti-
mate provided by the commissioner of
health of each local social services
district's share of payments made pursuant
to section 367-b of the social services
law.
Notwithstanding any inconsistent provision
of law, funding made available by these
appropriations shall support direct salary
costs and related fringe benefits within
the medical assistance program associated
with any minimum wage increase that takes
effect during the timeframe of these
appropriations, pursuant to section 652 of
the labor law. Each eligible organization
in receipt of funding made available by
these appropriations may be required to
submit written certification, in such form
and at such time the commissioner may
prescribe, attesting to the total amount
of funds used by the eligible organiza-
tion, how such funding will be or was used
for purposes eligible under these appro-
priations and any other reporting deemed
necessary by the commissioner. The amounts
appropriated herein may include advances
to organizations authorized to receive
such funds to accomplish this purpose.
Notwithstanding any other provision of law,
the money hereby appropriated may be
increased or decreased by interchange,
with any appropriation of the department
of health and the office of medicaid

for the aging with the approval of the
director of the budget, who shall file
such approval with the department of audit
and control and copies thereof with the
chairman of the senate finance committee
and the chairman of the assembly ways and
means committee.
Notwithstanding any inconsistent provision
of law to the contrary, the moneys hereby
appropriated may be used for payments to
the centers for medicaid and medicare
services for obligations incurred related
to the pharmaceutical costs of dually
eligible medicare/medicaid beneficiaries
participating in the medicare drug benefit
Notwithstanding any inconsistent provision

which provide care and services to resi-
dents of the state, providers of transpor-
tation services, that are altered,
amended, adjusted or otherwise changed by
a local social services district unless
previously approved by the department of
health and the director of the budget.
Notwithstanding any inconsistent provision
of law to the contrary, funds shall be
made available to the commissioner of the
office of mental health or the commissi-
oner of the office of alcoholism and
substance abuse services, in consultation
with the commissioner of health and
approved by the director of the budget,
and consistent with appropriations made
therefor, to implement allocation plans
developed by each such commissioner which
shall describe mental health or substance
use disorder services that should be
developed to meet service needs resulting
from the reduction of inpatient behavioral
health services provided under the medi-
caid program, by programs licensed pursu-

Notwithstanding any inconsistent provision
of law, the moneys hereby appropriated may

severe financial distress, pursuant to
criteria determined by the commissioner,
shall be eligible for awards for amounts
appropriated herein, to enable such
providers to maintain operations and vital
services while establishing long term
solutions to achieve sustainable health
services.
Notwithstanding any inconsistent provision
of law to the contrary, a portion of this
appropriation is available to make
disproportionate share hospital payments
to eligible hospitals operated by the
state university of New York, provided
further the eligible hospitals provide
sufficient financial information to evalu-
ate the need to support current and future
payments.

DEPARTMENT OF HEALTH

AID TO LOCALITIES  2018-19

For services and expenses of the medical assistance program including nursing home services.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2018 through March 31, 2020, the commissioner of health shall, to the extent necessary, submit the appropriate waivers, including but not limited to those authorized pursuant to sections 1115 and 1915 of the federal social security act or successor provisions, and any other waivers necessary to allow, effective October 1, 2018, limiting enrollment in managed long term care plans certified under section 4403-f of the public health law to medicaid recipients who achieve a score of nine or above when assessed using the UAS-NY assessment tool and who require community-based long term care services for a continuous period of more than 120 days from the date of enrollment and from the dates when continuing enrollment is reauthorized. This limitation would not apply to medical assistance recipients already enrolled in a managed long term care plan on October 1, 2018; however, if such recipients are disenrolled from their managed long term care plan, they would need to meet the level of care requirements set forth in this paragraph in order to be eligible for subsequent enrollment in a managed long term care plan. Provided, however, if this chapter appropriates sufficient additional funds to pay for medicaid coverage of services provided or arranged by managed long term care plans for recipients who do not achieve a score of nine or above when assessed using the UAS-NY assessment tool or who do not require community-based long term care services for a continuous period of more than 120, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2018.

Notwithstanding any provision of law to the contrary, the portion of this appropriation covering fiscal year 2018-19 shall supersede and replace any duplicative (i) reappropriation for this item covering fiscal year 2018-19, and (ii) appropriation for this item covering fiscal year 2018-19 set forth in chapter 53 of the laws of 2017 (26950) .......................... 1,601,433,000

For services and expenses of the medical assistance program including other long term care services.
DEPARTMENT OF HEALTH

AID TO LOCALITIES 2018-19

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for state fiscal years 2018-19 and 2019-20, for purposes of applying the medicaid income and resource budgeting rules set forth in section 366-c of the social services law to a person defined as an institutionalized spouse and allowing a "community spouse resource allowance" to be budgeted for the community spouse of such an institutionalized spouse, the "community spouse resource allowance" shall mean, on and after July 1, 2018, the amount, if any, by which the greatest of the following amounts exceeds the total value of the resources otherwise available to the community spouse: (a) $24,180 or such greater amount as may be required under federal law; or (b) the lesser of $60,000, which shall be increased annually by the same percentage as the percentage increase in the federal consumer price index, or the "spousal share", as defined in paragraph (c) of subdivision 2 of section 366-c of the social services law; or (c) the amount established for support of the community spouse pursuant to a medicaid fair hearing; or (d) the amount transferred pursuant to court order for the support of the community spouse. Provided, however, if this chapter appropriates sufficient additional funds to allow the "community spouse resource allowance" to be calculated with the amount of $74,820 being substituted for the amount of $24,180 in the formula set forth in this paragraph, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2018.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2018 through March 31, 2020, the commissioner of health shall reduce medicaid revenue to a residential health care facility in a payment year by two percent if in each of the two most recent payment years for which New York state nursing home quality initiative (NHQI) data is available, the facility was ranked in the lowest two quintiles of facilities based on its NHQI performance, and was ranked in the lowest quintile in the most recent payment year. The commissioner may waive the application of this paragraph to a facility if the commissioner determines that the facility is in extreme financial distress. Provided, however, if this chapter appropriates sufficient additional funds to cover the costs of medicaid expenditures to nursing homes without
providing an incentive for better
performance by low-performing nursing
homes, then the provisions of this
paragraph shall not apply and shall be
considered null and void as of March 31,
2018.

Notwithstanding any inconsistent provision
of law, rule or regulation to the
contrary, for the period April 1, 2018
through March 31, 2020, a medicaid
recipient who is permanently placed in a
nursing home for a consecutive period of
six months or more shall not be eligible
to participate in a managed long term care
program or other care coordination model
established pursuant to section 4403-f of
the public health law until program
features and reimbursement rates are
approved by the commissioner of health
and, as applicable under the terms of
section 4403-f, the commissioner of
developmental disabilities. Provided,
however, if this chapter appropriates
sufficient additional funds to cover the
costs of medicaid expenditures to managed
long term care plans and other care
coordination models for recipients who are
permanently placed in a nursing home for a
consecutive period of six months or more,
then the provisions of this paragraph
shall not apply and shall be considered
null and void as of March 31, 2018.

Notwithstanding any inconsistent provision
of law, rule or regulation to the
contrary, for the period April 1, 2018
through March 31, 2020, a medicaid
recipient required to enroll in a managed
long term care plan certified under
section 4403-f of the public health law
may change to another such plan without
cause within 30 days of notification of
enrollment or the effective date of
enrollment into a plan, whichever is
later, by making a request to the local
social services district or entity
designated by the department of health,
except that such period shall be 45 days
for recipients who have been assigned to a
provider by the commissioner of health.
However, after such 30 or 45 day period,
whichever is applicable, a recipient may
be prohibited from changing plans more
frequently than once every twelve months,
as permitted by federal law, except for
good cause as determined by the
commissioner of health.

Provided, however, if this chapter
appropriates sufficient additional funds
to cover the costs of medicaid
expenditures connected to frequent
changing of managed long term care plans
by recipients, then the provisions of this
Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2018 through March 31, 2020, benefits under the medical assistance program shall be furnished to an applicant notwithstanding that the applicant has a responsible relative with sufficient income and resources to provide medical assistance, if: (a) the legally responsible relative is a community spouse, as defined in section 366-c of the social services law, who is refusing to make his or her income and/or resources available to meet the cost of necessary medical care, services, and supplies, and the applicant has executed an assignment of support from the community spouse in favor of the county social services district and the department of health, unless the applicant is unable to execute such assignment due to physical or mental impairment or to deny assistance would create an undue hardship; or (b) the income and resources of the responsible relative are not available to such applicant because of the absence of such relative and the refusal or failure of such absent relative to provide the necessary care and assistance. In such cases, however, the furnishing of such assistance shall create an implied contract with such relative, and the cost thereof may be recovered from such relative in accordance with title 6 of article 3 of the social services law and other applicable provisions of law. Provided, however, if this chapter appropriates sufficient additional funds to allow medical assistance to be furnished in situations in which a responsible relative who is not absent from the household fails or refuses to provide necessary care and assistance, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2018.

Notwithstanding any provision of law to the contrary, the portion of this appropriation covering fiscal year 2018-19 shall supersede and replace any duplicative (i) reappropriation for this item covering fiscal year 2018-19, and (ii) appropriation for this item covering fiscal year 2018-19 set forth in chapter 53 of the laws of 2017 (26951) ..................... 7,777,990,000

For services and expenses of the medical assistance program including managed care services.
DEPARTMENT OF HEALTH

AID TO LOCALITIES 2018-19

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2018 through March 31, 2020, the commissioner of health may, in his or her discretion, apply penalties to medicaid managed care providers that do not submit a performing provider system partnership plan by July 1, 2018, in accordance with any submission guidelines issued by the department of health prior thereto. For purposes of this paragraph, "performing provider system partnership plan" shall mean a plan submitted by a medicaid managed care provider to the department that includes both short and long term approaches for effective collaboration with each performing provider system within its service area. For managed care providers that do not submit a performing provider system partnership plan in accordance with this paragraph, medicaid premiums shall be reduced by eighty-five one-hundredths of one percent for the rate period from April 1, 2018 through March 31, 2019 and for the rate period from April 1, 2019 through March 31, 2020. Provided, however, if this chapter appropriates sufficient additional funds to cover the costs of expenditures to medicaid managed care providers without providing an incentive for more effective collaboration by such providers with performing provider systems within their service areas, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2018.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2018 through March 31, 2020, the commissioner of health may by regulation specify certain drugs which may be dispensed without a prescription as required by section 6810 of the education law that shall be reimbursed by the medicaid program in accordance with a price schedule established by such commissioner. Amendments to the regulation specifying medicaid reimbursable, nonprescription drugs may be adopted by the commissioner of health on an emergency basis. The co-payment charged for drugs dispensed without a prescription as required by section 6810 of the education law but which are reimbursed by the medicaid program shall be one dollar. Provided, however, if this chapter appropriates sufficient additional funds to allow the medicaid program to continue to cover drugs which may be dispensed without a prescription as required by section 6810
of the education law with a required co-payment of only $0.50, and without the ability to remove drugs from the list of covered over-the-counter drugs by means of emergency rulemaking, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2018.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2018 through March 31, 2020, the medical assistance program may authorize payment for a drug that is not on the preferred drug list if certain criteria are met, including:

(i) the preferred drug has been tried by the patient and has failed to produce the desired health outcomes; (ii) the patient has tried the preferred drug and has experienced unacceptable side effects; (iii) the patient has been stabilized on a non-preferred drug and transition to the preferred drug would be medically contraindicated; or (iv) other clinical indications identified by the committee for the patient's use of the non-preferred drug, which shall include consideration of the medical needs of special populations, including children, elderly, chronically ill, persons with mental health conditions, and persons affected by HIV/AIDS. In the event that the patient does not meet this criteria, the prescriber may provide additional information to the medical assistance program to justify the use of the drug. The program shall provide a reasonable opportunity for the prescriber to reasonably present his or her justification of prior authorization. The program will consider the additional information and the justification presented to determine whether the use of a prescription drug that is not on the preferred drug list is warranted. In addition, managed care providers participating in the medical assistance program shall be required to cover non-formulary drugs for medical assistance recipients only if the prescriber, after consulting with the managed care provider, demonstrates that such drugs, in the prescriber's reasonable professional judgment, are medically necessary and warranted. Provided, however, if this chapter appropriates sufficient additional funds to allow the medical assistance program to pay for drugs that are not on the preferred drug list or on the formulary of a managed care provider participating in the medical assistance program.
program based solely on the determination
of the prescriber that the use of the
drugs is warranted, then the provisions of
this paragraph shall not apply and shall
be considered null and void as of March
31, 2018.

Notwithstanding any inconsistent provision
of law, rule or regulation to the
contrary, for the period April 1, 2018
through March 31, 2020, a physician
licensed pursuant to article 131 of the
education law or a nurse practitioner
certified pursuant to section 6910 of the
education law shall be authorized to
voluntarily establish a comprehensive
medication management protocol with a
qualified pharmacist to provide
comprehensive medication management
services for a patient who has not met
clinical goals of therapy, is at risk for
hospitalization, or whom the physician or
nurse practitioner deems to need
comprehensive medication management
services. Participation by the patient in
comprehensive medication management
services shall be voluntary. Under a
comprehensive medication management
protocol, a qualified pharmacist shall be
permitted to: (a) adjust or manage a drug
regimen for the patient, pursuant to the
patient specific order or protocol
established by the patient's treating
physician or nurse practitioner, which may
include adjusting drug strength, frequency
of administration or route of
administration; adjusting the drug regimen
shall not include substituting or
selecting a different drug which differs
from that initially prescribed by the
patient's treating physician or nurse
practitioner unless such substitution is
expressly authorized in the written order
or protocol; the qualified pharmacist
shall be required to immediately document
in the patient's medical record changes
made to the drug therapy; the patient's
treating physician or nurse practitioner
may prohibit, by written instruction, any
adjustment or change in the patient's drug
regimen by the qualified pharmacist; (b)
evaluate the need for and only if
specifically authorized by the protocol,
and only to the extent necessary to
discharge the responsibility set forth in
this paragraph, order or perform routine
patient monitoring functions or disease
state laboratory tests related to the drug
therapy comprehensive medication
management for the specific chronic
disease or diseases specified within the
written agreement or comprehensive
medication management protocol; (c) order
or perform routine patient monitoring functions, only if specifically authorized by the written order or protocol and only to the extent necessary to discharge the responsibilities set forth in this paragraph, as may be necessary in the drug therapy management, including the collecting and reviewing of patient histories, and ordering or checking patient vital signs, including pulse, temperature, blood pressure, weight and respiration; and (d) access the complete patient medical record maintained by the physician or nurse practitioner with whom he or she has the comprehensive medication management protocol and document any adjustments made pursuant to the protocol in the patient's medical record and notify the patient's treating physician or nurse practitioner in a timely manner electronically or by other means. Under no circumstances shall the qualified pharmacist be permitted to delegate comprehensive medication management services to any other licensed pharmacist or other pharmacy personnel. Any medication adjustments made by the qualified pharmacist pursuant to the comprehensive medication management protocol, including adjustments in drug strength, frequency or route of administration, or initiation of a drug which differs from that initially prescribed and as documented in the patient medical record, shall be deemed an oral prescription authorized by an agent of the patient's treating physician or nurse practitioner and shall be dispensed consistent with section 6810 of the education law. A physician licensed pursuant to article 131 of the education law or a nurse practitioner certified pursuant to section 6910 of the education law who has responsibility for the treatment and care of a patient for a chronic disease or diseases may refer the patient to a qualified pharmacist for comprehensive medication management services, pursuant to the comprehensive medication management protocol that the physician or nurse practitioner has established with the qualified pharmacist. The protocol agreement shall authorize the pharmacist to serve as an agent of the physician or nurse practitioner as defined by the protocol. Such referral shall be documented in the patient's medical record. For purposes of this paragraph: (a) "qualified pharmacist" means a pharmacist who maintains a current unrestricted license pursuant to article 137 of the education law who has a minimum
of two years of experience in patient care
as a practicing pharmacist within the last
five years, and who has demonstrated
competency in the medication management of
patients with a chronic disease or
diseases, including but not limited to,
the completion of one or more programs
which are accredited by the accreditation
council for pharmacy education, recognized
by the education department and acceptable
to the patient's treating physician; (b)
"comprehensive medication management"
means a program that ensures a patient's
medications, whether prescription or
nonprescription, are individually assessed
to determine that each medication is
appropriate for the patient, effective for
the medical condition, safe given
comorbidities and other medications being
taken, and able to be taken by the patient
as intended; and (c) "comprehensive
medication management protocol" means a
written document pursuant to and
consistent with any applicable state and
federal requirements, that is entered into
voluntarily by a physician licensed
pursuant to article 131 of the education
law and a qualified pharmacist, or by a
nurse practitioner certified pursuant to
section 6910 of the education law and a
qualified pharmacist, which addresses a
chronic disease or diseases as determined
by the treating physician or nurse
practitioner and that describes the nature
and scope of the comprehensive medication
management services to be performed by the
qualified pharmacist. Comprehensive
medication management protocols between
physicians and qualified pharmacists, or
between nurse practitioners and qualified
pharmacists, shall be made available to
the department of health for review and to
ensure compliance with this paragraph,
upon request. Provided, however, if this
chapter appropriates sufficient additional
funds to allow medicaid to pay the costs
of additional services, including
hospitalization, needed by recipients with
chronic diseases who do not achieve
clinical goals of therapy due to the lack
of comprehensive medication management,
then the provisions of this paragraph
shall not apply and shall be considered
null and void as of March 31, 2018.
Notwithstanding any provision of law to the
contrary, the portion of this appropri-
ation covering fiscal year 2018-19 shall
supersede and replace any duplicative (i)
appropriation for this item covering
fiscal year 2018-19, and (ii) appropri-

AID TO LOCALITIES  2018-19

1  ation for this item covering fiscal year
2  2018-19 set forth in chapter 53 of the
3  laws of 2017 (26952) ....................... 8,051,845,000
4  For services and expenses of the medical
5  assistance program including pharmacy
6  services.
7  Notwithstanding any inconsistent provision
8  of law, rule or regulation to the
9  contrary, for the period April 1, 2018
10  through March 31, 2020, the commissioner
11  of health may by regulation specify
12  certain drugs which may be dispensed
13  without a prescription as required by
14  section 6810 of the education law that
15  shall be reimbursed by the medicaid
16  program in accordance with a price
17  schedule established by such commissioner.
18  Amendments to the regulation specifying
19  medicaid reimbursable, nonprescription
20  drugs may be adopted by the commissioner
21  of health on an emergency basis. The co-
22  payment charged for drugs dispensed
23  without a prescription as required by
24  section 6810 of the education law but
25  which are reimbursed by the medicaid
26  program shall be one dollar. Provided,
27  however, if this chapter appropriates
28  sufficient additional funds to allow the
29  medicaid program to continue to cover
30  drugs which may be dispensed without a
31  prescription as required by section 6810
32  of the education law with a required co-
33  payment of only $0.50, and without the
34  ability to remove drugs from the list of
35  covered over-the-counter drugs by means of
36  emergency rulemaking, then the provisions
37  of this paragraph shall not apply and
38  shall be considered null and void as of
39  March 31, 2018.
40  Notwithstanding any inconsistent provision
41  of law, rule or regulation to the
42  contrary, for the period April 1, 2018
43  through March 31, 2020, the medical
44  assistance program may authorize payment
45  for a drug that is not on the preferred
46  drug list if certain criteria are met,
47  including:
48  (i) the preferred drug has been tried by the
49  patient and has failed to produce the
50  desired health outcomes; (ii) the patient
51  has tried the preferred drug and has
52  experienced unacceptable side effects;
53  (iii) the patient has been stabilized on a
54  non-preferred drug and transition to the
55  preferred drug would be medically
56  contraindicated; or (iv) other clinical
57  indications identified by the committee
58  for the patient's use of the non-preferred
59  drug, which shall include consideration of
60  the medical needs of special populations,
61  including children, elderly, chronically
62  ill, persons with mental health
conditions, and persons affected by HIV/AIDS. In the event that the patient does not meet this criteria, the prescriber may provide additional information to the medical assistance program to justify the use of the drug. The program shall provide a reasonable opportunity for the prescriber to reasonably present his or her justification of prior authorization. The program will consider the additional information and the justification presented to determine whether the use of a prescription drug that is not on the preferred drug list is warranted. In addition, managed care providers participating in the medical assistance program shall be required to cover non-formulary drugs for medical assistance recipients only if the prescriber, after consulting with the managed care provider, demonstrates that such drugs, in the prescriber's reasonable professional judgment, are medically necessary and warranted. Provided, however, if this chapter appropriates sufficient additional funds to allow the medical assistance program to pay for drugs that are not on the preferred drug list or on the formulary of a managed care provider participating in the medical assistance program based solely on the determination of the prescriber that the use of the drugs is warranted, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2018.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2018 through March 31, 2020, a physician licensed pursuant to article 131 of the education law or a nurse practitioner certified pursuant to section 6910 of the education law shall be authorized to voluntarily establish a comprehensive medication management protocol with a qualified pharmacist to provide comprehensive medication management services for a patient who has not met clinical goals of therapy, is at risk for hospitalization, or whom the physician or nurse practitioner deems to need comprehensive medication management services. Participation by the patient in comprehensive medication management services shall be voluntary. Under a comprehensive medication management protocol, a qualified pharmacist shall be permitted to: (a) adjust or manage a drug regimen for the patient, pursuant to the patient specific order or protocol.
established by the patient's treating physician or nurse practitioner, which may include adjusting drug strength, frequency of administration or route of administration; adjusting the drug regimen shall not include substituting or selecting a different drug which differs from that initially prescribed by the patient's treating physician or nurse practitioner unless such substitution is expressly authorized in the written order or protocol; the qualified pharmacist shall be required to immediately document in the patient's medical record changes made to the drug therapy; the patient's treating physician or nurse practitioner may prohibit, by written instruction, any adjustment or change in the patient's drug regimen by the qualified pharmacist; (b) evaluate the need for and only if specifically authorized by the protocol, and only to the extent necessary to discharge the responsibility set forth in this paragraph, order or perform routine patient monitoring functions or disease state laboratory tests related to the drug therapy comprehensive medication management for the specific chronic disease or diseases specified within the written agreement or comprehensive medication management protocol; (c) order or perform routine patient monitoring functions, only if specifically authorized by the written order or protocol and only to the extent necessary to discharge the responsibilities set forth in this paragraph, as may be necessary in the drug therapy management, including the collecting and reviewing of patient histories, and ordering or checking patient vital signs, including pulse, temperature, blood pressure, weight and respiration; and (d) access the complete patient medical record maintained by the physician or nurse practitioner with whom he or she has the comprehensive medication management protocol and document any adjustments made pursuant to the protocol in the patient's medical record and notify the patient's treating physician or nurse practitioner in a timely manner electronically or by other means. Under no circumstances shall the qualified pharmacist be permitted to delegate comprehensive medication management services to any other licensed pharmacist or other pharmacy personnel. Any medication adjustments made by the qualified pharmacist pursuant to the comprehensive medication management protocol, including adjustments in drug strength, frequency or route of
administration, or initiation of a drug which differs from that initially prescribed and as documented in the patient medical record, shall be deemed an oral prescription authorized by an agent of the patient's treating physician or nurse practitioner and shall be dispensed consistent with section 6810 of the education law. A physician licensed pursuant to article 131 of the education law or a nurse practitioner certified pursuant to section 6910 of the education law who has responsibility for the treatment and care of a patient for a chronic disease or diseases may refer the patient to a qualified pharmacist for comprehensive medication management services, pursuant to the comprehensive medication management protocol that the physician or nurse practitioner has established with the qualified pharmacist. The protocol agreement shall authorize the pharmacist to serve as an agent of the physician or nurse practitioner as defined by the protocol. Such referral shall be documented in the patient's medical record. For purposes of this paragraph:

(a) "qualified pharmacist" means a pharmacist who maintains a current unrestricted license pursuant to article 137 of the education law who has a minimum of two years of experience in patient care as a practicing pharmacist within the last five years, and who has demonstrated competency in the medication management of patients with a chronic disease or diseases, including but not limited to, the completion of one or more programs which are accredited by the accreditation council for pharmacy education, recognized by the education department and acceptable to the patient's treating physician; (b) "comprehensive medication management" means a program that ensures a patient's medications, whether prescription or nonprescription, are individually assessed to determine that each medication is appropriate for the patient, effective for the medical condition, safe given comorbidities and other medications being taken, and able to be taken by the patient as intended; and (c) "comprehensive medication management protocol" means a written document pursuant to and consistent with any applicable state and federal requirements, that is entered into voluntarily by a physician licensed pursuant to article 131 of the education law and a qualified pharmacist, or by a nurse practitioner certified pursuant to section 6910 of the education law and a qualified pharmacist, which addresses a
chronic disease or diseases as determined by the treating physician or nurse practitioner and that describes the nature and scope of the comprehensive medication management services to be performed by the qualified pharmacist. Comprehensive medication management protocols between physicians and qualified pharmacists, or between nurse practitioners and qualified pharmacists, shall be made available to the department of health for review and to ensure compliance with this paragraph, upon request. Provided, however, if this chapter appropriates sufficient additional funds to allow medicaid to pay the costs of additional services, including hospitalization, needed by recipients with chronic diseases who do not achieve clinical goals of therapy due to the lack of comprehensive medication management, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2018.

Notwithstanding any provision of law to the contrary, the portion of this appropriation covering fiscal year 2018-19 shall supersede and replace any duplicative (i) reappropriation for this item covering fiscal year 2018-19, and (ii) appropriation for this item covering fiscal year 2018-19 set forth in chapter 53 of the laws of 2017 (26953) ................. 906,665,000

For services and expenses of the medical assistance program including transportation services. Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2018 through March 31, 2020, the commissioner of health is authorized to assume responsibility from a local social services official for the provision and reimbursement of transportation costs under the medicaid program. If the commissioner of health elects to assume such responsibility, he or she shall notify the local social services official in writing as to the election, the date upon which the election shall be effective, and such information as to transition of responsibilities as he or she deems prudent. The commissioner of health is authorized to contract with a transportation manager or managers to manage transportation services in any local social services district, including transportation services provided or arranged for enrollees of medicaid managed care and managed long term care plans, with the exception of a program designated as a program of all-inclusive care for the elderly (PACE) as authorized by federal
public law 105-33, subtitle I of title IV of the balanced budget act of 1997. Any transportation manager or managers selected by the commissioner of health to manage transportation services shall have proven experience in coordinating transportation services in a geographic and demographic area similar to the area in New York state within which the contractor would manage the provision of medicaid transportation services. Such a contract or contracts may include responsibility for: review, approval and processing of transportation orders; management of the appropriate level of transportation based on documented patient medical need; and development of new technologies leading to efficient transportation services. If the commissioner of health elects to assume such responsibility from a local social services district, he or she shall examine and, if appropriate, adopt quality assurance measures that may include, but are not limited to, global positioning tracking system reporting requirements and service verification mechanisms. Any and all reimbursement rates developed by medicaid transportation managers shall be subject to the review and approval of the commissioner of health. Provided, however, if this chapter appropriates sufficient additional funds to pay for medicaid transportation services provided or arranged for enrollees of managed long term care plans without the use of a transportation manager or managers, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2018.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2018 through March 31, 2020, the medicaid program shall not make adjustments to payments for transportation of eligible persons for the purpose of providing increased access to medicaid non-emergency transportation in rural communities. Provided, however, if this chapter appropriates sufficient additional funds to allow the department of health to make such adjustments to medicaid payments for transportation of eligible persons, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2018.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2018 through March 31, 2020, the medicaid
program shall not make a supplemental
payment of up to $6,000,000 to providers
of emergency medical transportation.
Provided, however, if this chapter
appropriates sufficient additional funds
to allow the department of health to make
such a supplemental payment, then the
provisions of this paragraph shall not
apply and shall be considered null and
void as of March 31, 2018.

of health shall, to the extent necessary, submit the appropriate waivers, including but not limited to those authorized pursuant to sections 1115 and 1915 of the federal social security act or successor provisions, and any other waivers necessary to allow, effective October 1, 2018, limiting enrollment in managed long term care plans certified under section 4403-f of the public health law to medicaid recipients who achieve a score of nine or above when assessed using the UAS-NY assessment tool and who require community-based long term care services for a continuous period of more than 120 days from the date of enrollment and from the dates when continuing enrollment is reauthorized. This limitation would not apply to medical assistance recipients already enrolled in a managed long term care plan on October 1, 2018; however, if such recipients are disenrolled from their managed long term care plan, they would need to meet the level of care requirements set forth in this paragraph in order to be eligible for subsequent enrollment in a managed long term care plan. Provided, however, if this chapter appropriates sufficient additional funds to pay for medicaid coverage of services provided or arranged by managed long term care plans for recipients who do not achieve a score of nine or above when assessed using the UAS-NY assessment tool or who do not require community-based long term care services for a continuous period of more than 120 days, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2018.

Notwithstanding any provision of law to the contrary, the portion of this appropriation covering fiscal year 2018-19 shall supersede and replace any duplicative (i) reappropriation for this item covering fiscal year 2018-19, and (ii) appropriation for this item covering fiscal year 2018-19 set forth in chapter 53 of the laws of 2017 (26950) ..................... 9,252,428,000 For services and expenses of the medical assistance program including other long term care services. Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for state fiscal years 2018-19 and 2019-20, for purposes of applying the medicaid income and resource budgeting rules set forth in section 366-c of the social services law to a person defined as an institutionalized spouse and allowing a "community spouse resource allowance" to be budgeted for the community spouse of
such an institutionalized spouse, the "community spouse resource allowance" shall mean, on and after July 1, 2018, the amount, if any, by which the greatest of the following amounts exceeds the total value of the resources otherwise available to the community spouse: (a) $24,180 or such greater amount as may be required under federal law; or (b) the lesser of $60,000, which shall be increased annually by the same percentage as the percentage increase in the federal consumer price index, or the "spousal share", as defined in paragraph (c) of subdivision 2 of section 366-c of the social services law; or (c) the amount established for support of the community spouse pursuant to a medicaid fair hearing; or (d) the amount transferred pursuant to court order for the support of the community spouse. Provided, however, if this chapter appropriates sufficient additional funds to allow the "community spouse resource allowance" to be calculated with the amount of $74,820 being substituted for the amount of $24,180 in the formula set forth in this paragraph, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2018.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2018 through March 31, 2020, the commissioner of health shall reduce medicaid revenue to a residential health care facility in a payment year by two percent if in each of the two most recent payment years for which New York state nursing home quality initiative (NHQI) data is available, the facility was ranked in the lowest two quintiles of facilities based on its NHQI performance, and was ranked in the lowest quintile in the most recent payment year. The commissioner may waive the application of this paragraph to a facility if the commissioner determines that the facility is in extreme financial distress. Provided, however, if this chapter appropriates sufficient additional funds to cover the costs of medicaid expenditures to nursing homes without providing an incentive for better performance by low-performing nursing homes, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2018.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2018 through March 31, 2020, a medicaid
recipient who is permanently placed in a nursing home for a consecutive period of six months or more shall not be eligible to participate in a managed long term care program or other care coordination model established pursuant to section 4403-f of the public health law until program features and reimbursement rates are approved by the commissioner of health and, as applicable under the terms of section 4403-f, the commissioner of developmental disabilities. Provided, however, if this chapter appropriates sufficient additional funds to cover the costs of medicaid expenditures to managed long term care plans and other care coordination models for recipients who are permanently placed in a nursing home for a consecutive period of six months or more, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2018.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2018 through March 31, 2020, a medicaid recipient required to enroll in a managed long term care plan certified under section 4403-f of the public health law may change to another such plan without cause within 30 days of notification of enrollment or the effective date of enrollment into a plan, whichever is later, by making a request to the local social services district or entity designated by the department of health, except that such period shall be 45 days for recipients who have been assigned to a provider by the commissioner of health. However, after such 30 or 45 day period, whichever is applicable, a recipient may be prohibited from changing plans more frequently than once every twelve months, as permitted by federal law, except for good cause as determined by the commissioner of health.

Provided, however, if this chapter appropriates sufficient additional funds to cover the costs of medicaid expenditures connected to frequent changing of managed long term care plans by recipients, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2018.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2018 through March 31, 2020, benefits under the medical assistance program shall be furnished to an applicant notwithstanding that the applicant has a responsible
relative with sufficient income and
resources to provide medical assistance,
if: (a) the legally responsible relative
is a community spouse, as defined in
section 366 -c of the social services
law, who is refusing to make his or her
income and/or resources available to meet
the cost of necessary medical care,
services, and supplies, and the applicant
has executed an assignment of support from
the community spouse in favor of the
county social services district and the
department of health, unless the applicant
is unable to execute such assignment due
to physical or mental impairment or to
deny assistance would create an undue
hardship; or (b) the income and resources
of the responsible relative are not
available to such applicant because of the
absence of such relative and the refusal
or failure of such absent relative to
provide the necessary care and assistance.
In such cases, however, the furnishing of
such assistance shall create an implied
contract with such relative, and the cost
thereof may be recovered from such
relative in accordance with title 6 of
article 3 of the social services law and
other applicable provisions of law.
Provided, however, if this chapter
appropriates sufficient additional funds
to allow medical assistance to be
furnished in situations in which a
responsible relative who is not absent
from the household fails or refuses to
provide necessary care and assistance,
then the provisions of this paragraph
shall not apply and shall be considered
null and void as of March 31, 2018.
Notwithstanding any provision of law to the
contrary, the portion of this appropri-
ation covering fiscal year 2018-19 shall
supersede and replace any duplicative (i)
reappropriation for this item covering
fiscal year 2018-19, and (ii) appropri-
ation for this item covering fiscal year
2018-19 set forth in chapter 53 of the
laws of 2017 (26951) ................. 8,444,507,000
For services and expenses of the medical
assistance program including managed care
services.
Notwithstanding any inconsistent provision
of law, rule or regulation to the
contrary, for the period April 1, 2018
through March 31, 2020, the commissioner
of health may, in his or her discretion,
apply penalties to medicaid managed care
providers that do not submit a performing
provider system partnership plan by July
1, 2018, in accordance with any submission
guidelines issued by the department of
health prior thereto. For purposes of this
paragraph, "performing provider system partnership plan" shall mean a plan submitted by a medicaid managed care provider to the department that includes both short and long term approaches for effective collaboration with each performing provider system within its service area. For managed care providers that do not submit a performing provider system partnership plan in accordance with this paragraph, medicaid premiums shall be reduced by eighty-five one-hundredths of one percent for the rate period from April 1, 2018 through March 31, 2019 and for the rate period from April 1, 2019 through March 31, 2020. Provided, however, if this chapter appropriates sufficient additional funds to cover the costs of expenditures to medicaid managed care providers without providing an incentive for more effective collaboration by such providers with performing provider systems within their service areas, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2018.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2018 through March 31, 2020, the commissioner of health may by regulation specify certain drugs which may be dispensed without a prescription as required by section 6810 of the education law that shall be reimbursed by the medicaid program in accordance with a price schedule established by such commissioner. Amendments to the regulation specifying medicaid reimbursable, nonprescription drugs may be adopted by the commissioner of health on an emergency basis. The co-payment charged for drugs dispensed without a prescription as required by section 6810 of the education law but which are reimbursed by the medicaid program shall be one dollar. Provided, however, if this chapter appropriates sufficient additional funds to allow the medicaid program to continue to cover drugs which may be dispensed without a prescription as required by section 6810 of the education law with a required copayment of only $0.50, and without the ability to remove drugs from the list of covered over-the-counter drugs by means of emergency rulemaking, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2018.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2018
through March 31, 2020, the medical assistance program may authorize payment for a drug that is not on the preferred drug list if certain criteria are met, including:

(i) the preferred drug has been tried by the patient and has failed to produce the desired health outcomes; (ii) the patient has tried the preferred drug and has experienced unacceptable side effects; (iii) the patient has been stabilized on a non-preferred drug and transition to the preferred drug would be medically contraindicated; or (iv) other clinical indications identified by the committee for the patient's use of the non-preferred drug, which shall include consideration of the medical needs of special populations, including children, elderly, chronically ill, persons with mental health conditions, and persons affected by HIV/AIDS. In the event that the patient does not meet this criteria, the prescriber may provide additional information to the medical assistance program to justify the use of the drug. The program shall provide a reasonable opportunity for the prescriber to reasonably present his or her justification of prior authorization. The program will consider the additional information and the justification presented to determine whether the use of a prescription drug that is not on the preferred drug list is warranted. In addition, managed care providers participating in the medical assistance program shall be required to cover non-formulary drugs for medical assistance recipients only if the prescriber, after consulting with the managed care provider, demonstrates that such drugs, in the prescriber's reasonable professional judgment, are medically necessary and warranted. Provided, however, if this chapter appropriates sufficient additional funds to allow the medical assistance program to pay for drugs that are not on the preferred drug list or on the formulary of a managed care provider participating in the medical assistance program based solely on the determination of the prescriber that the use of the drugs is warranted, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2018.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2018 through March 31, 2020, a physician licensed pursuant to article 131 of the
education law or a nurse practitioner certified pursuant to section 6910 of the education law shall be authorized to voluntarily establish a comprehensive medication management protocol with a qualified pharmacist to provide comprehensive medication management services for a patient who has not met clinical goals of therapy, is at risk for hospitalization, or whom the physician or nurse practitioner deems to need comprehensive medication management services. Participation by the patient in comprehensive medication management services shall be voluntary. Under a comprehensive medication management protocol, a qualified pharmacist shall be permitted to: (a) adjust or manage a drug regimen for the patient, pursuant to the patient specific order or protocol established by the patient's treating physician or nurse practitioner, which may include adjusting drug strength, frequency of administration or route of administration; adjusting the drug regimen shall not include substituting or selecting a different drug which differs from that initially prescribed by the patient's treating physician or nurse practitioner unless such substitution is expressly authorized in the written order or protocol; the qualified pharmacist shall be required to immediately document in the patient's medical record changes made to the drug therapy; the patient's treating physician or nurse practitioner may prohibit, by written instruction, any adjustment or change in the patient's drug regimen by the qualified pharmacist; (b) evaluate the need for and only if specifically authorized by the protocol, and only to the extent necessary to discharge the responsibility set forth in this paragraph, order or perform routine patient monitoring functions or disease state laboratory tests related to the drug therapy comprehensive medication management for the specific chronic disease or diseases specified within the written agreement or comprehensive medication management protocol; (c) order or perform routine patient monitoring functions, only if specifically authorized by the written order or protocol and only to the extent necessary to discharge the responsibilities set forth in this paragraph, as may be necessary in the drug therapy management, including the collecting and reviewing of patient histories, and ordering or checking patient vital signs, including pulse, temperature, blood pressure, weight and
respiration; and (d) access the complete patient medical record maintained by the physician or nurse practitioner with whom he or she has the comprehensive medication management protocol and document any adjustments made pursuant to the protocol in the patient's medical record and notify the patient's treating physician or nurse practitioner in a timely manner electronically or by other means. Under no circumstances shall the qualified pharmacist be permitted to delegate comprehensive medication management services to any other licensed pharmacist or other pharmacy personnel. Any medication adjustments made by the qualified pharmacist pursuant to the comprehensive medication management protocol, including adjustments in drug strength, frequency or route of administration, or initiation of a drug which differs from that initially prescribed and as documented in the patient medical record, shall be deemed an oral prescription authorized by an agent of the patient's treating physician or nurse practitioner and shall be dispensed consistent with section 6810 of the education law. A physician licensed pursuant to article 131 of the education law or a nurse practitioner certified pursuant to section 6910 of the education law who has responsibility for the treatment and care of a patient for a chronic disease or diseases may refer the patient to a qualified pharmacist for comprehensive medication management services, pursuant to the comprehensive medication management protocol that the physician or nurse practitioner has established with the qualified pharmacist. The protocol agreement shall authorize the pharmacist to serve as an agent of the physician or nurse practitioner as defined by the protocol. Such referral shall be documented in the patient's medical record. For purposes of this paragraph:

(a) "qualified pharmacist" means a pharmacist who maintains a current unrestricted license pursuant to article 137 of the education law who has a minimum of two years of experience in patient care as a practicing pharmacist within the last five years, and who has demonstrated competency in the medication management of patients with a chronic disease or diseases, including but not limited to, the completion of one or more programs which are accredited by the accreditation council for pharmacy education, recognized by the education department and acceptable to the patient's treating physician; (b)
"comprehensive medication management" means a program that ensures a patient's medications, whether prescription or nonprescription, are individually assessed to determine that each medication is appropriate for the patient, effective for the medical condition, safe given comorbidities and other medications being taken, and able to be taken by the patient as intended; and (c) "comprehensive medication management protocol" means a written document pursuant to and consistent with any applicable state and federal requirements, that is entered into voluntarily by a physician licensed pursuant to article 131 of the education law and a qualified pharmacist, or by a nurse practitioner certified pursuant to section 6910 of the education law and a qualified pharmacist, which addresses a chronic disease or diseases as determined by the treating physician or nurse practitioner and that describes the nature and scope of the comprehensive medication management services to be performed by the qualified pharmacist. Comprehensive medication management protocols between physicians and qualified pharmacists, or between nurse practitioners and qualified pharmacists, shall be made available to the department of health for review and to ensure compliance with this paragraph, upon request. Provided, however, if this chapter appropriates sufficient additional funds to allow medicaid to pay the costs of additional services, including hospitalization, needed by recipients with chronic diseases who do not achieve clinical goals of therapy due to the lack of comprehensive medication management, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2018. Notwithstanding any provision of law to the contrary, the portion of this appropriation covering fiscal year 2018-19 shall supersede and replace any duplicative (i) reappropriation for this item covering fiscal year 2018-19, and (ii) appropriation for this item covering fiscal year 2018-19 set forth in chapter 53 of the laws of 2017 (26952) ................. 14,489,974,000 For services and expenses of the medical assistance program including pharmacy services. Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2018 through March 31, 2020, the commissioner of health may by regulation specify certain drugs which may be dispensed without a prescription as required by
section 6810 of the education law that shall be reimbursed by the medicaid program in accordance with a price schedule established by such commissioner. Amendments to the regulation specifying medicaid reimbursable, nonprescription drugs may be adopted by the commissioner of health on an emergency basis. Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2018 through March 31, 2020, the medical assistance program may authorize payment for a drug that is not on the preferred drug list if certain criteria are met, including:

(i) the preferred drug has been tried by the patient and has failed to produce the desired health outcomes; (ii) the patient has tried the preferred drug and has experienced unacceptable side effects; (iii) the patient has been stabilized on a non-preferred drug and transition to the preferred drug would be medically contraindicated; or (iv) other clinical indications identified by the committee for the patient's use of the non-preferred drug, which shall include consideration of the medical needs of special populations, including children, elderly, chronically ill, persons with mental health conditions, and persons affected by HIV/AIDS. Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2018 through March 31, 2020, a physician licensed pursuant to article 131 of the education law or a nurse practitioner certified pursuant to section 6910 of the education law shall be authorized to voluntarily establish a comprehensive medication management protocol with a qualified pharmacist to provide comprehensive medication management services for a patient who has not met clinical goals of therapy, is at risk for hospitalization, or whom the physician or nurse practitioner deems to need comprehensive medication management services. in the patient's medical record changes made to the drug therapy; the patient's
treating physician or nurse practitioner may prohibit, by written instruction, any
adjustment or change in the patient's drug regimen by the qualified pharmacist; (b)

and only to the extent necessary to discharge the responsibility set forth in
this paragraph, order or perform routine patient monitoring functions or disease
state laboratory tests related to the drug therapy comprehensive medication
management for the specific chronic disease or diseases specified within the
written agreement or comprehensive medication management protocol; (c) order
or perform routine patient monitoring functions, only if specifically authorized
by the written order or protocol and only to the extent necessary to discharge the
responsibilities set forth in this paragraph, as may be necessary in the drug
therapy management, including the collecting and reviewing of patient
histories, and ordering or checking patient vital signs, including pulse,
temperature, blood pressure, weight and respiration; and (d) access the complete
patient medical record maintained by the physician or nurse practitioner with whom
he or she has the comprehensive medication management protocol and document any
adjustments made pursuant to the protocol in the patient's medical record and notify
the patient's treating physician or nurse practitioner in a timely manner

Chapter appropriates sufficient additional funds to allow Medicaid to pay the costs of additional services, including hospitalization, needed by recipients with chronic diseases who do not achieve clinical goals of therapy due to the lack of comprehensive medication management, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2018.

Notwithstanding any provision of law to the contrary, the portion of this appropriation covering fiscal year 2018-19 shall supersede and replace any duplicative (i) reappropriation for this item covering fiscal year 2018-19, and (ii) appropriation for this item covering fiscal year 2018-19 set forth in chapter 53 of the laws of 2017 (26953) ..................... $5,484,790,000

For services and expenses of the medical assistance program including transportation services.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2018 through March 31, 2020, the commissioner of health is authorized to assume responsibility from a local social services official for the provision and reimbursement of transportation costs under the Medicaid program. If the commissioner of health elects to assume such responsibility, he or she shall notify the local social services official in writing as to the election, the date upon which the election shall be effective, and such information as to transition of responsibilities as he or she deems prudent. The commissioner of health is authorized to contract with a transportation manager or managers to manage transportation services in any local social services district, including transportation services provided or arranged for enrollees of Medicaid managed care and managed long term care plans, with the exception of a program designated as a program of all-inclusive care for the elderly (PACE) as authorized by federal public law 105-33, subtitle I of title IV of the balanced budget act of 1997. Any transportation manager or managers selected by the commissioner of health to manage transportation services shall have proven experience in coordinating transportation services in a geographic and demographic area similar to the area in New York state within which the contractor would manage the provision of Medicaid transportation services. Such a contract or contracts may include responsibility for: review, approval and
processing of transportation orders;  
management of the appropriate level of  
transportation based on documented patient  
medical need; and development of new  
technologies leading to efficient  
transportation services. If the  
commissioner of health elects to assume  
such responsibility from a local social  
services district, he or she shall examine  
and, if appropriate, adopt quality  
assurance measures that may include, but  
are not limited to, global positioning  
tracking system reporting requirements and  
service verification mechanisms. Any and  
all reimbursement rates developed by  
medicaid transportation managers shall be  
subject to the review and approval of the  
commissioner of health.  
Provided, however, if this chapter  
appropriates sufficient additional funds  
to pay for medicaid transportation  
services provided or arranged for  
enrollees of managed long term care plans  
without the use of a transportation  
manager or managers, then the provisions  
of this paragraph shall not apply and  
shall be considered null and void as of  
March 31, 2018.  
Notwithstanding any inconsistent provision  
of law, rule or regulation to the  
contrary, for the period April 1, 2018  
through March 31, 2020, the medicaid  
program shall not make adjustments to  
payments for transportation of eligible  
persons for the purpose of providing  
increased access to medicaid non-emergency  
transportation in rural communities.  
Provided, however, if this chapter  
 appropriates sufficient additional funds  
to allow the department of health to make  
such adjustments to medicaid payments for  
transportation of eligible persons, then  
the provisions of this paragraph shall not  
apply and shall be considered null and  
void as of March 31, 2018.  
Notwithstanding any inconsistent provision

Notwithstanding section 40 of the state finance law or any other law to the contrary, all medical assistance appropriations made from this account shall remain in full force and effect in accordance, in the aggregate, with the following schedule: not more than 50 percent for the period April 1, 2018 to March 31, 2019; and the remaining amount for the period April 1, 2019 to March 31, 2020.

Notwithstanding section 40 of the state finance law or any provision of law to the contrary, subject to federal approval, department of health state funds medicaid spending, excluding payments for medical services provided at state facilities...
operated by the office of mental health, the office for people with developmental disabilities and the office of alcoholism and substance abuse services and further excluding any payments which are not appropriated within the department of health, in the aggregate, for the period April 1, 2018 through March 31, 2019, shall not exceed $20,960,018,000 except as provided below and state share medicaid spending, in the aggregate, for the period April 1, 2019 through March 31, 2020, shall not exceed $22,044,311,000, but in no event shall department of health state funds medicaid spending for the period April 1, 2018 through March 31, 2020 exceed $43,004,329,000 provided, however, such aggregate limits may be adjusted by the director of the budget to account for any changes in the New York state federal medical assistance percentage amount established pursuant to the federal social security act, increases in provider revenues, reductions in local social services district payments for medical assistance administration, minimum wage increases and beginning April 1, 2012 the operational costs of the New York state medical indemnity fund, pursuant to chapter 59 of the laws of 2011, and state costs or savings from the essential plan program. Such projections may be adjusted by the director of the budget to account for increased or expedited department of health state funds medicaid expenditures as a result of a natural or other type of disaster, including a governmental declaration of emergency. The director of the budget, in consultation with the commissioner of health, shall assess on monthly basis known and projected medicaid expenditures by category of service and by geographic region, as determined by the commissioner of health, incurred both prior to and subsequent to such assessment for each such period, and if the director of the budget determines that such expenditures are expected to cause medicaid spending for such period to exceed the aggregate limit specified herein for such period, the state medicaid director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allocation plan to limit such spending to the aggregate limit specified herein for such period. Such medicaid savings allocation plan shall be designed, to reduce the expenditures authorized by the appropriations herein in compliance with the following guidelines: (1) reductions shall be made in compliance with applicable federal law, including the
provisions of the Patient Protection and
Affordable Care Act, Public Law No. 111-
148, and the Health Care and Education
Reconciliation Act of 2010, Public Law No.
111-152 (collectively "Affordable Care
Act") and any subsequent amendments there-
to or regulations promulgated thereunder;
(2) reductions shall be made in a manner
that complies with the state medicaid plan
approved by the federal centers for medi-
care and medicaid services, provided,
however, that the commissioner of health
is authorized to submit any state plan
amendment or seek other federal approval,
including waiver authority, to implement
the provisions of the medicaid savings
allocation plan that meets the other
criteria set forth herein; (3) reductions
shall be made in a manner that maximizes
federal financial participation, to the
extent practicable, including any federal
financial participation that is available
or is reasonably expected to become avail-
able, in the discretion of the commissi-
er, under the Affordable Care Act; (4)
reductions shall be made uniformly among
categories of services and geographic
regions of the state, to the extent prac-
icable, and shall be made uniformly with-
in a category of service, to the extent
practicable, except where the commissioner
determines that there are sufficient
grounds for non-uniformity, including but
not limited to: the extent to which
specific categories of services contrib-
uted to department of health medicaid
state funds spending in excess of the
limits specified herein; the need to main-
tain safety net services in underserved
communities; or the potential benefits of
pursuing innovative payment models contem-
plated by the Affordable Care Act, in
which case such grounds shall be set forth
in the medicaid savings allocation plan;
and (5) reductions shall be made in a
manner that does not unnecessarily create
administrative burdens to medicaid appli-
cants and recipients or providers.
The commissioner shall seek the input of the
legislature, as well as organizations
representing health care providers,
consumers, businesses, workers, health
insurers, and others with relevant exper-
tise, in developing such medicaid savings
allocation plan, to the extent that all or
part of such plan, in the discretion of
the commissioner, is likely to have a
material impact on the overall medicaid
program, particular categories of service
or particular geographic regions of the
state.
(a) The commissioner shall post the medicaid savings allocation plan on the department of health's website and shall provide written copies of such plan to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

(b) The commissioner may revise the medicaid savings allocation plan subsequent to the provisions of notice and prior to implementation but needs to provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the plan.

Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this subdivision if, in the discretion of the commissioner, expedited development and implementation of a medicaid savings allocation plan is necessary due to a public health emergency.

For purposes of this section, a public health emergency is defined as: (i) a disaster, natural or otherwise, that significantly increases the immediate need for health care personnel in an area of the state; (ii) an event or condition that creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or (iii) any other event or condition determined by the commissioner to constitute an imminent threat to public health.

Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation plan from taking effect retroactively to the extent permitted by the federal centers for medicare and medicaid services.

In accordance with the medicaid savings allocation plan, the commissioner of the department of health shall reduce department of health state funds medicaid spending by the amount of the projected over-spending through, actions including, but not limited to modifying or suspending reimbursement methods, including but not limited to all fees, premium levels and rates of payment, notwithstanding any provision of law that sets a specific amount or methodology for any such payments or rates of payment; modifying medicaid program benefits; seeking all necessary federal approvals, including, but not limited to waivers, waiver amendments; and suspending time frames for

sections 2807 and 3614 of the public
health law, section 18 of chapter 2 of the
laws of 1988, and 18 NYCRR 505.14(h).
The department of health shall prepare a
monthly report that sets forth: (a) known
and projected department of health medi-
caid expenditures as described in subdivi-
sion (1) of this section, and factors that
could result in medicaid disbursements for
the relevant state fiscal year to exceed
the projected department of health state
funds disbursements in the enacted budget
financial plan pursuant to subdivision 3
of section 23 of the state finance law,
including spending increases or decreases
due to: enrollment fluctuations, rate
changes, utilization changes, MRT invest-
ments, and shift of beneficiaries to
managed care; and variations in offline
medicaid payments; and (b) the actions
taken to implement any medicaid savings
allocation plan implemented pursuant to
subdivision (4) of this section, including
information concerning the impact of such
actions on each category of service and
each geographic region of the state. Each
such monthly report shall be provided to
the chairs of the senate finance and the
assembly ways and means committees and
shall be posted on the department of

with applicable federal law, including the
provisions of the Patient Protection and
Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No. 111-152 (collectively "Affordable Care Act") and any subsequent amendments thereto or regulations promulgated thereunder; (2) reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation plan that meets the other criteria set forth herein; (3) reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the Affordable Care Act; (4) reductions shall be made uniformly among categories of services and geographic regions of the state, to the extent practicable, and shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific categories of services contributed to department of health medicaid state funds spending in excess of the limits specified herein; the need to maintain safety net services in underserved communities; or the potential benefits of pursuing innovative payment models contemplated by the Affordable Care Act, in which case such grounds shall be set forth in the medicaid savings allocation plan; and (5) reductions shall be made in a manner that does not unnecessarily create administrative burdens to medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation plan, to the extent that all or part of such plan, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation plan on the department
of health’s website and shall provide
written copies of such plan to the chairs
of the senate finance and the assembly
ways and means committees at least 30 days
before the date on which implementation is
expected to begin.
(b) The commissioner may revise the medicaid
savings allocation plan subsequent to the
provisions of notice and prior to imple-
mentation but needs to provide a new
notice pursuant to subparagraph (i) of
this paragraph only if the commissioner
determines, in his or her discretion, that
such revisions materially alter the plan.
Notwithstanding the provisions of paragraphs
(a) and (b) of this subdivision, the
commissioner need not seek the input
described in paragraph (a) of this subdi-
vision or provide notice pursuant to para-
graph (b) of this subdivision if, in the
discretion of the commissioner, expedited
development and implementation of a medi-
caid savings allocation plan is necessary
due to a public health emergency.
For purposes of this section, a public
health emergency is defined as: (i) a
disaster, natural or otherwise, that
significantly increases the immediate need
for health care personnel in an area of
the state; (ii) an event or condition that
creates a widespread risk of exposure to a
serious communicable disease, or the
potential for such widespread risk of
exposure; or (iii) any other event or
condition determined by the commissioner
to constitute an imminent threat to public
health.
Nothing in this paragraph shall be deemed to
prevent all or part of such medicaid
savings allocation plan from taking effect
retroactively to the extent permitted by
the federal centers for medicare and medi-
caid services.
In accordance with the medicaid savings
allocation plan, the commissioner of the
department of health shall reduce depart-
ment of health state funds medicaid spend-
ing by the amount of the projected over-
spending through, actions including, but
not limited to modifying or suspending
reimbursement methods, including but not
limited to all fees, premium levels and
rates of payment, notwithstanding any
provision of law that sets a specific
amount or methodology for any such
payments or rates of payment; modifying
medicaid program benefits; seeking all
necessary federal approvals, including,
but not limited to waivers, waiver amend-
ments; and suspending time frames for
notice, approval or certification of rate
requirements, notwithstanding any

For reimbursement of local administrative expenses for medical assistance programs and for state administration of medical assistance programs, notwithstanding section 153 of the social services law, to include the performance of eligibility and enrollment determinations by the state or third-party entities designated by the state to perform such services.

Notwithstanding any provision of law to the contrary, subject to the approval of the director of budget, up to $23,000,000 of the amount appropriated herein shall be available for the purpose of providing payments to local social services districts for medical assistance administration claims that exceed an administrative ceiling established by the commissioner of health.

Notwithstanding any inconsistent provision of law and subject to the approval of the director of budget, moneys hereby appropriated may be increased or decreased by transfer or interchange between these appropriated amounts and appropriations of the medical assistance administration program, the medical assistance program, and the office of health insurance programs. Funding authority from this account used for state administration of the medical assistance program may be transferred to state operations appropriations within the aforementioned programs at amounts agreed upon by the commissioner of health, and the New York state division of the budget.

DEPARTMENT OF HEALTH

AID TO LOCALITIES - REAPPROPRIATIONS 2018-19

to September 14, 2017 as determined by the director of the budget
with notice to the state comptroller, and (ii) reduce the
availability of funds under appropriations enacted for the period
April 1, 2017 to March 31, 2018.

Notwithstanding section 40 of the state finance law or any provision
of law to the contrary, subject to federal approval, department of
health state funds medicaid spending, excluding payments for medical
services provided at state facilities operated by the office of
mental health, the office for people with developmental disabilities
and the office of alcoholism and substance abuse services and
further excluding any payments which are not appropriated within the
department of health, in the aggregate, for the period April 1, 2017
through March 31, 2018, shall not exceed [$19,726,075,000]
$19,737,001,000 except as provided below and state share medicaid
spending, in the aggregate, for the period April 1, 2018 through
March 31, September 15, 2019, shall not exceed [$20,797,987,000]
$20,960,018,000, but in no event shall department of health state
funds medicaid spending for the period April 1, 2017 through March 31
September 15, 2019 exceed [$40,524,062,000] $40,697,019,000
provided, however, such aggregate limits may be adjusted by the
director of the budget to account for any changes in the New York
state federal medical assistance percentage amount established
pursuant to the federal social security act, increases in provider
revenues, reductions in local social services district payments for
medical assistance administration, minimum wage increases and
beginning April 1, 2012 the operational costs of the New York state
medical indemnity fund, pursuant to chapter 59 of the laws of 2011,
and state costs or savings from the essential plan program. Such
projections may be adjusted by the director of the budget to account
for increased or expedited department of health state funds medicaid
expenditures as a result of a natural or other type of disaster,
including a governmental declaration of emergency. The director of
the budget, in consultation with the commissioner of health, shall
assess on a monthly basis known and projected medicaid expenditures
by category of service and by geographic region, as determined by
the commissioner of health, incurred both prior to and subsequent to
such assessment for each such period, and if the director of the
budget determines that such expenditures are expected to cause
medicaid spending for such period to exceed the aggregate limit
specified herein for such period, the state medicaid director, in
consultation with the director of the budget and the commissioner of
health, shall develop a medicaid savings allocation plan to limit
such spending to the aggregate limit specified herein for such
period.

Such medicaid savings allocation plan shall be designed, to reduce the
expenditures authorized by the appropriations herein in compliance
with the following guidelines: (1) reductions shall be made in
compliance with applicable federal law, including the provisions of
the Patient Protection and Affordable Care Act, Public Law No. 111-
148, and the Health Care and Education Reconciliation Act of 2010,
Public Law No. 111-152 (collectively "Affordable Care Act") and any
subsequent amendments thereto or regulations promulgated thereunder;
(2) reductions shall be made in a manner that complies with the
state medicaid plan approved by the federal centers for medicare and
medicaid services, provided, however, that the commissioner of
health is authorized to submit any state plan amendment or seek
other federal approval, including waiver authority, to implement the
provisions of the medicaid savings allocation plan that meets the
other criteria set forth herein; (3) reductions shall be made in a
manner that maximizes federal financial participation, to the extent
practicable, including any federal financial participation that is
available or is reasonably expected to become available, in the
discretion of the commissioner, under the Affordable Care Act; (4) reductions shall be made uniformly among categories of services and geographic regions of the state, to the extent practicable, and shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific categories of services contributed to department of health medicaid state funds spending in excess of the limits specified herein; the need to maintain safety net services in underserved communities; or the potential benefits of pursuing innovative payment models contemplated by the Affordable Care Act, in which case such grounds shall be set forth in the medicaid savings allocation plan; and (5) reductions shall be made in a manner that does not unnecessarily create administrative burdens to medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation plan, to the extent that all or part of such plan, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation plan on the department of health's website and shall provide written copies of such plan to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

(b) The commissioner may revise the medicaid savings allocation plan subsequent to the provisions of notice and prior to implementation but needs to provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the plan.

Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this subdivision if, in the discretion of the commissioner, expedited development and implementation of a medicaid savings allocation plan is necessary due to a public health emergency.

For purposes of this section, a public health emergency is defined as: (i) a disaster, natural or otherwise, that significantly increases the immediate need for health care personnel in an area of the state; (ii) an event or condition that creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or (iii) any other event or condition determined by the commissioner to constitute an imminent threat to public health.

Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation plan from taking effect retroactively to the extent permitted by the federal centers for medicare and medicaid services.

In accordance with the medicaid savings allocation plan, the commissioner of the department of health shall reduce department of health state funds medicaid spending by the amount of the projected over-spending through, actions including, but not limited to modifying or suspending reimbursement methods, including but not limited to all fees, premium levels and rates of payment, notwithstanding any provision of law that sets a specific amount or methodology for any such payments or rates of payment; modifying medicaid program benefits; seeking all necessary federal approvals, including, but not limited to waivers, waiver amendments; and
suspending time frames for notice, approval or certification of rate
requirements, notwithstanding any provision of law, rule or
regulation to the contrary, including but not limited to sections
2807 and 3614 of the public health law, section 18 of chapter 2 of
the laws of 1988, and 18 NYCRR 505.14(h).

The department of health shall prepare a monthly report that sets
forth: (a) known and projected department of health medicaid
expenditures as described in subdivision (1) of this section, and
factors that could result in medicaid disbursements for the relevant
state fiscal year to exceed the projected department of health state
funds disbursements in the enacted budget financial plan pursuant to
subdivision 3 of section 23 of the state finance law, including
spending increases or decreases due to: enrollment fluctuations,
rate changes, utilization changes, MRT investments, and shift of
beneficiaries to managed care; and variations in offline medicaid
payments; and (b) the actions taken to implement any medicaid
savings allocation plan implemented pursuant to subdivision (4) of
this section, including information concerning the impact of such
actions on each category of service and each geographic region of
the state. Each such monthly report shall be provided to the chairs
of the senate finance and the assembly ways and means committees and
shall be posted on the department of health's website in a timely
manner.

The money hereby appropriated is available for payment of aid
heretofore accrued to municipalities, and to providers of medical
services pursuant to section 367-b of the social services law, and
shall be available to the department net of disallowances, refunds,
reimbursements, and credits.

appropriated may be increased or decreased by interchange, with any
appropriation of the department of health, and may be increased or
decreased by transfer or suballocation between these appropriated
amounts and appropriations of the office of mental health, the
office for people with developmental disabilities, the office of
alcoholism and substance abuse services, the department of family
assistance office of temporary and disability assistance, and office
of children and family services with the approval of the director of
the budget, who shall file such approval with the department of
audit and control and copies thereof with the chairman of the senate
finance committee and the chairman of the assembly ways and means
committee.

Notwithstanding any inconsistent provision of law, in lieu of payments
authorized by the social services law, or payments of federal funds
otherwise due to the local social services districts for programs
provided under the federal social security act or the federal food
stamp act, funds herein appropriated, in amounts certified by the
state commissioner of temporary and disability assistance or the
state commissioner of health as due from local social services
districts each month as their share of payments made pursuant to
section 367-b of the social services law may be set aside by the
state comptroller in an interest-bearing account in order to ensure
the orderly and prompt payment of providers under section 367-b of
the social services law pursuant to an estimate provided by the
commissioner of health of each local social services district's
share of payments made pursuant to section 367-b of the social
services law.

amended and reappropriated to read:
For the medical assistance program, including administrative expenses,
for local social services districts, and for medical care rates for
authorized child care agencies.

Notwithstanding section 40 of the state finance law or any other law
to the contrary, all medical assistance appropriations made from
this account shall remain in full force and effect in accordance, in
the aggregate, with the following schedule: not more than 48 percent
for the period April 1, 2017 to March 31, 2018; and the remaining
amount for the period April 1, 2018 to [March 31] September 15,
2019, provided however, the director of the budget may (i) decrease
the lapse date of appropriations heretofore enacted for the period
from April 1, 2016 to March 31, 2017 to a date between April 1, 2017
and September 14, 2017 as determined by the director of the budget
with notice to the state comptroller, and (ii) reduce the
availability of funds under appropriations enacted for the period
April 1, 2017 to March 31, 2018.

Notwithstanding section 40 of the state finance law or any provision
of law to the contrary, subject to federal approval, department of
health state funds medicaid spending, excluding payments for medical
services provided at state facilities operated by the office of
mental health, the office for people with developmental disabilities
and the office of alcoholism and substance abuse services and
further excluding any payments which are not appropriated within the
department of health, in the aggregate, for the period April 1, 2017
through March 31, 2018, shall not exceed [$19,726,075,000]
$19,737,001,000 except as provided below and state share medicaid
spending, in the aggregate, for the period April 1, 2018 through
[March 31] September 15, 2019, shall not exceed [$20,797,987,000]
$20,960,018,000, but in no event shall department of health state
funds medicaid spending for the period April 1, 2017 through [March 31] September 15, 2019 exceed [40,524,062,000] $40,697,019,000 provided, however, such aggregate limits may be adjusted by the director of the budget to account for any changes in the New York state federal medical assistance percentage amount established pursuant to the federal social security act, increases in provider revenues, reductions in local social services district payments for medical assistance administration, minimum wage increases and beginning April 1, 2012 the operational costs of the New York state medical indemnity fund, pursuant to chapter 59 of the laws of 2011, and state costs or savings from the essential plan program. Such projections may be adjusted by the director of the budget to account for increased or expedited department of health state funds medicaid expenditures as a result of a natural or other type of disaster, including a governmental declaration of emergency. The director of the budget, in consultation with the commissioner of health, shall assess on a monthly basis known and projected medicaid expenditures by category of service and by geographic region, as defined by the commissioner, incurred both prior to and subsequent to such assessment for each such period, and if the director of the budget determines that such expenditures are expected to cause medicaid spending for such period to exceed the aggregate limit specified herein for such period, the state medicaid director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allocation plan to limit such spending to the aggregate limit specified herein for such period. Such medicaid savings allocation plan shall be designed, to reduce the expenditures authorized by the appropriations herein in compliance with the following guidelines: (1) reductions shall be made in compliance with applicable federal law, including the provisions of the Patient Protection and Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No. 111-152 (collectively "Affordable Care Act") and any subsequent amendments thereto or regulations promulgated thereunder; (2) reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation plan that meets the other criteria set forth herein; (3) reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the Affordable Care Act; (4) reductions shall be made uniformly among categories of services and geographic regions of the state, to the extent practicable, and shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific categories of services contributed to department of health medicaid state funds spending in excess of the limits specified herein; the need to maintain safety net services in underserved communities; or the potential benefits of pursuing innovative payment models contemplated by the Affordable Care Act, in which case such grounds shall be set forth in the medicaid savings allocation plan; and (5) reductions shall be made in a manner that does not unnecessarily create administrative burdens to medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant
expertise, in developing such medicaid savings allocation plan, to the extent that all or part of such plan, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation plan on the department of health's website and shall provide written copies of such plan to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

(b) The commissioner may revise the medicaid savings allocation plan subsequent to the provisions of notice and prior to implementation but needs to provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the plan.

Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this subdivision if, in the discretion of the commissioner, expedited development and implementation of a medicaid savings allocation plan is necessary due to a public health emergency.

For purposes of this section, a public health emergency is defined as:

(i) a disaster, natural or otherwise, that significantly increases the immediate need for health care personnel in an area of the state; (ii) an event or condition that creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or (iii) any other event or condition determined by the commissioner to constitute an imminent threat to public health.

Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation plan from taking effect retroactively to the extent permitted by the federal centers for medicare and medicaid services.

In accordance with the medicaid savings allocation plan, the commissioner of the department of health shall reduce department of health state funds medicaid spending by the amount of the projected over-spending through, actions including, but not limited to modifying or suspending reimbursement methods, including but not limited to all fees, premium levels and rates of payment, notwithstanding any provision of law that sets a specific amount or methodology for any such payments or rates of payment; modifying or discontinuing medicaid program benefits; seeking all necessary federal approvals, including, but not limited to waivers, waiver amendments; and suspending time frames for notice, approval or certification of rate requirements, notwithstanding any provision of law, rule or regulation to the contrary, including but not limited to sections 2807 and 3614 of the public health law, section 18 of chapter 2 of the laws of 1988, and 18 NYCRR 505.14(h).

The department of health shall prepare a monthly report that sets forth: (a) known and projected department of health medicaid expenditures as described in subdivision (1) of this section, and factors that could result in medicaid disbursements for the relevant state fiscal year to exceed the projected department of health state funds disbursements in the enacted budget financial plan pursuant to subdivision 3 of section 23 of the state finance law, including spending increases or decreases due to: enrollment fluctuations, rate changes, utilization changes, MRT investments, and shift of beneficiaries to managed care; and variations in offline medicaid payments; and (b) the actions taken to implement any medicaid savings allocation plan implemented pursuant to subdivision (4) of this section, including information concerning the impact of such

the social services law pursuant to an estimate provided by the

share of payments made pursuant to section 367-b of the social
services law.

eligible organization, how such funding will be or was used for
purposes eligible under these appropriations and any other reporting
deemed necessary by the commissioner. The amounts appropriated
herein may include advances to organizations authorized to receive

Notwithstanding section 40 of the state finance law or any provision of law to the contrary, subject to federal approval, department of health state funds medicaid spending, excluding payments for medical services provided at state facilities operated by the office of mental health, the office for people with developmental disabilities and the office of alcoholism and substance abuse services and further excluding any payments which are not appropriated within the department of health, in the aggregate, for the period April 1, 2017 through March 31, 2018, shall not exceed $19,726,075,000 except as provided below and state share medicaid spending, in the aggregate, for the period April 1, 2018 through [March 31] September 15, 2019, shall not exceed $20,797,987,000 but in no event shall department of health state funds medicaid spending for the period April 1, 2017 through [March 31] September 15, 2019 exceed $40,524,062,000 provided, however, such aggregate limits may be adjusted by the director of the budget to account for any changes in the New York state federal medical assistance percentage amount established pursuant to the federal social security act, increases in provider revenues, reductions in local social services district payments for medical assistance administration, minimum wage increases and beginning April 1, 2012 the operational costs of the New York state medical indemnity fund, pursuant to chapter 59 of the laws of 2011, and state costs or savings from the essential plan program. Such projections may be adjusted by the director of the budget to account for increased or expedited department of health state funds medicaid expenditures as a result of a natural or other type of disaster, including a governmental declaration of emergency. The director of the budget, in consultation with the commissioner of health, shall assess on monthly basis known and projected medicaid expenditures by category of service and by geographic region, as determined by the commissioner of health, incurred both prior to and subsequent to such assessment for each such period, and if the director of the budget determines that such expenditures are expected to cause medicaid spending for such period to exceed the aggregate limit specified herein for such period, the state medicaid director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allocation plan to limit such spending to the aggregate limit specified herein for such period.

Such medicaid savings allocation plan shall be designed, to reduce the expenditures authorized by the appropriations herein in compliance with the following guidelines: (1) reductions shall be made in compliance with applicable federal law, including the provisions of the Patient Protection and Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No. 111-152 (collectively "Affordable Care Act") and any subsequent amendments thereto or regulations promulgated thereunder; (2) reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation plan that meets the other criteria set forth herein; (3) reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the Affordable Care Act; (4) reductions shall be made uniformly among categories of services and
geographic regions of the state, to the extent practicable, and
shall be made uniformly within a category of service, to the extent
practicable, except where the commissioner determines that there are
sufficient grounds for non-uniformity, including but not limited to:
the extent to which specific categories of services contributed to
department of health medicaid state funds spending in excess of the
limits specified herein; the need to maintain safety net services in
underserved communities; or the potential benefits of pursuing
innovative payment models contemplated by the Affordable Care Act,
in which case such grounds shall be set forth in the medicaid
savings allocation plan; and (5) reductions shall be made in a
manner that does not unnecessarily create administrative burdens to
medicaid applicants and recipients or providers.
The commissioner shall seek the input of the legislature, as well as
organizations representing health care providers, consumers,
businesses, workers, health insurers, and others with relevant
expertise, in developing such medicaid savings allocation plan, to
the extent that all or part of such plan, in the discretion of the
commissioner, is likely to have a material impact on the overall
medicaid program, particular categories of service or particular
geographic regions of the state.
(a) The commissioner shall post the medicaid savings allocation plan
on the department of health's website and shall provide written
copies of such plan to the chairs of the senate finance and the
assembly ways and means committees at least 30 days before the date
on which implementation is expected to begin.
(b) The commissioner may revise the medicaid savings allocation plan
subsequent to the provisions of notice and prior to implementation
but needs to provide a new notice pursuant to subparagraph (i) of
this paragraph only if the commissioner determines, in his or her
discretion, that such revisions materially alter the plan.
Notwithstanding the provisions of paragraphs (a) and (b) of this
subdivision, the commissioner need not seek the input described in
paragraph (a) of this subdivision or provide notice pursuant to
paragraph (b) of this subdivision if, in the discretion of the
commissioner, expedited development and implementation of a medicaid
savings allocation plan is necessary due to a public health
emergency.
For purposes of this section, a public health emergency is defined as:
(i) a disaster, natural or otherwise, that significantly increases
the immediate need for health care personnel in an area of the
state; (ii) an event or condition that creates a widespread risk of
exposure to a serious communicable disease, or the potential for
such widespread risk of exposure; or (iii) any other event or
condition determined by the commissioner to constitute an imminent
threat to public health.
Nothing in this paragraph shall be deemed to prevent all or part of
such medicaid savings allocation plan from taking effect
retroactively to the extent permitted by the federal centers for
medicare and medicaid services. In accordance with the medicaid
savings allocation plan, the commissioner of the department of
health shall reduce department of health state funds medicaid
spending by the amount of the projected over-spending through,
actions including, but not limited to modifying or suspending
reimbursement methods, including but not limited to all fees,
premium levels and rates of payment, notwithstanding any provision
of law that sets a specific amount or methodology for any such
payments or rates of payment; modifying medicaid program benefits;
seeking all necessary federal approvals, including, but not limited
to waivers, waiver amendments; and suspending time frames for
notice, approval or certification of rate requirements,
notwithstanding any provision of law, rule or regulation to the

The department of health shall prepare a monthly report that sets forth: (a) known and projected department of health medicaid expenditures as described in subdivision (1) of this section, and factors that could result in medicaid disbursements for the relevant state fiscal year to exceed the projected department of health state funds disbursements in the enacted budget financial plan pursuant to subdivision 3 of section 23 of the state finance law, including spending increases or decreases due to: enrollment fluctuations, rate changes, utilization changes, MRT investments, and shift of beneficiaries to managed care; and variations in offline medicaid payments; and (b) the actions taken to implement any medicaid savings allocation plan implemented pursuant to subdivision (4) of this section, including information concerning the impact of such actions on each category of service and each geographic region of the state. Each such monthly report shall be provided to the chairs of the senate finance and the assembly ways and means committees and shall be posted on the department of health's website in a timely manner.

For the purpose of making payments to providers of medical care pursuant to section 367-b of the social services law, and for payment of state aid to municipalities where payment systems through fiscal intermediaries are not operational, to reimburse such providers for costs attributable to the provision of care to patients eligible for medical assistance. Payments from this appropriation to general hospitals related to indigent care pursuant to article 28 of the public health law respectively, when combined with federal funds for services and expenses for the medical assistance program pursuant to title XIX of the federal social security act or its successor program, shall equal the amount of the funds received related to health care reform act allowances and surcharges pursuant to article 28 of the public health law and deposited to this account less any such amounts withheld pursuant to subdivision 21 of section 2807-c of the public health law. Notwithstanding section 40 of the state finance law or any other law to the contrary, all medical assistance appropriations made from this account shall remain in full force and effect in accordance, in the aggregate, with the following schedule: not more than 50 percent for the period April 1, 2017 to March 31, 2018; and the remaining amount for the period April 1, 2018 to [March 31] September 15,
2019, provided however, the director of the budget may (i) decrease
the lapse date of appropriations heretofore enacted for the period
from April 1, 2016 to March 31, 2017 to a date between April 1, 2017
and September 14, 2017 as determined by the director of the budget
with notice to the state comptroller, and (ii) reduce the

pursuant to the federal social security act, increases in provider
revenues, reductions in local social services district payments for
medical assistance administration, minimum wage increases and
beginning April 1, 2012 the operational costs of the New York state

and state costs or savings from the essential plan. Such projections
may be adjusted by the director of the budget to account for

including a governmental declaration of emergency. The director of
the budget, in consultation with the commissioner of health, shall
assess on a monthly basis known and projected medicaid expenditures
by category of service and by geographic region, as determined by
the commissioner of health, incurred both prior to and subsequent to
such assessment for each such period, and if the director of the

medicaid spending for such period to exceed the aggregate limit
specified herein for such period, the state medicaid director, in
consultation with the director of the budget and the commissioner of
health, shall develop a medicaid savings allocation plan to limit
such spending to the aggregate limit specified herein for such
period.

Such medicaid savings allocation plan shall be designed, to reduce the
expenditures authorized by the appropriations herein in compliance
with the following guidelines: (1) reductions shall be made in
compliance with applicable federal law, including the provisions of
the Patient Protection and Affordable Care Act, Public Law No. 111-

provisions of the medicaid savings allocation plan that meets the

(a) The commissioner shall post the medicaid savings allocation plan on the department of health's website and shall provide written copies of such plan to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this subdivision if, in the discretion of the commissioner, expedited development and implementation of a medicaid savings allocation plan is necessary due to a public health emergency.

For purposes of this section, a public health emergency is defined as: (i) a disaster, natural or otherwise, that significantly increases the immediate need for health care personnel in an area of the state; (ii) an event or condition that creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or (iii) any other event or condition determined by the commissioner to constitute an imminent threat to public health.

the laws of 1988, and 18 NYCRR 505.14(h).

The department of health shall prepare a monthly report that sets
forth: (a) known and projected department of health medicaid
expenditures as described in subdivision (1) of this section, and
factors that could result in medicaid disbursements for the relevant
state fiscal year to exceed the projected department of health state
funds disbursements in the enacted budget financial plan pursuant to
subdivision 3 of section 23 of the state finance law, including
spending increases or decreases due to: enrollment fluctuations,
rates changes, utilization changes, MRT investments, and shift of
beneficiaries to managed care; and variations in offline medicaid
payments; and (b) the actions taken to implement any medicaid
savings allocation plan implemented pursuant to subdivision (4) of
this section, including information concerning the impact of such
actions on each category of service and each geographic region of
the state. Each such monthly report shall be provided to the chairs
of the senate finance and the assembly ways and means committees and
shall be posted on the department of health's website in a timely
manner.

For the purpose of making payments, the money hereby appropriated is

(re. $100,000,000)

The appropriation made by chapter 53, section 1, of the laws of 2017, is hereby amended and reappropriated to read:

Notwithstanding section 40 of the state finance law or any other law to the contrary, all medical assistance appropriations made from this account shall remain in full force and effect in accordance, in the aggregate, with the following schedule: not more than 50 percent for the period April 1, 2017 to March 31, 2018; and the remaining amount for the period April 1, 2018 to [March 31] September 15, 2019, provided however, the director of the budget may (i) decrease the lapse date of appropriations heretofore enacted for the period from April 1, 2016 to March 31, 2017 to a date between April 1, 2017 to September 14, 2017 as determined by the director of the budget with notice to the state comptroller, and (ii) reduce the availability of funds under appropriations enacted for the period April 1, 2017 to March 31, 2018.

Notwithstanding section 40 of the state finance law or any provision of law to the contrary, subject to federal approval, department of health state funds medicaid spending, excluding payments for medical services provided at state facilities operated by the office of mental health, the office for people with developmental disabilities and the office of alcoholism and substance abuse services and further excluding any payments which are not appropriated within the department of health, in the aggregate, for the period April 1, 2017 through March 31, 2018, shall not exceed [$19,726,075,000] $19,737,001,000 except as provided below and state share medicaid spending, in the aggregate, for the period April 1, 2017 through [March 31] September 15, 2019, shall not exceed [$20,797,987,000] $20,960,018,000, but in no event shall department of health state funds medicaid spending for the period April 1, 2017 through [March 31] September 15, 2019 exceed [$40,524,062,000] $40,697,019,000 provided, however, such aggregate limits may be adjusted by the director of the budget to account for any changes in the New York state federal medical assistance percentage amount established pursuant to the federal social security act, increases in provider revenues, reductions in local social services district payments for...
medical assistance administration, minimum wage increases and
beginning April 1, 2012 the operational costs of the New York state
medical indemnity fund, pursuant to chapter 59 of the laws of 2011,
and state costs or savings from the essential plan. Such projections
may be adjusted by the director of the budget to account for
increased or expedited department of health state funds medicaid
expenditures as a result of a natural or other type of disaster,
including a governmental declaration of emergency. The director of
the budget, in consultation with the commissioner of health, shall
assess on monthly basis known and projected medicaid expenditures by
category of service and by geographic region, as determined by the
commissioner of health, incurred both prior to and subsequent to
such assessment for each such period, and if the director of the
budget determines that such expenditures are expected to cause
medicaid spending for such period to exceed the aggregate limit
specified herein for such period, the state medicaid director, in
consultation with the director of the budget and the commissioner of
health, shall develop a medicaid savings allocation plan to limit
such spending to the aggregate limit specified herein for such
period.

Such medicaid savings allocation plan shall be designed, to reduce the
expenditures authorized by the appropriations herein in compliance
with the following guidelines: (1) reductions shall be made in
compliance with applicable federal law, including the provisions of
the Patient Protection and Affordable Care Act, Public Law No. 111-
148, and the Health Care and Education Reconciliation Act of 2010,
Public Law No. 111-152 (collectively "Affordable Care Act") and any
subsequent amendments thereto or regulations promulgated thereunder;
(2) reductions shall be made in a manner that complies with the
state medicaid plan approved by the federal centers for medicare and
medicaid services, provided, however, that the commissioner of
health is authorized to submit any state plan amendment or seek
other federal approval, including waiver authority, to implement the
provisions of the medicaid savings allocation plan that meets the
other criteria set forth herein; (3) reductions shall be made in a
manner that maximizes federal financial participation, to the extent
practicable, including any federal financial participation that is
available or is reasonably expected to become available, in the
discretion of the commissioner, under the Affordable Care Act; (4)
reductions shall be made uniformly among categories of services and
geographic regions of the state, to the extent practicable, and
shall be made uniformly within a category of service, to the extent
practicable, except where the commissioner determines that there are
sufficient grounds for non-uniformity, including but not limited to:
the extent to which specific categories of services contributed to
department of health medicaid state funds spending in excess of the
limits specified herein; the need to maintain safety net services in
underserved communities; or the potential benefits of pursuing
innovative payment models contemplated by the Affordable Care Act,
in which case such grounds shall be set forth in the medicaid
savings allocation plan; and (5) reductions shall be made in a
manner that does not unnecessarily create administrative burdens to
medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as
organizations representing health care providers, consumers,
businesses, workers, health insurers, and others with relevant
expertise, in developing such medicaid savings allocation plan, to
the extent that all or part of such plan, in the discretion of the
commissioner, is likely to have a material impact on the overall
medicaid program, particular categories of service or particular
geographic regions of the state.
(a) The commissioner shall post the medicaid savings allocation plan on the department of health's website and shall provide written copies of such plan to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

(b) The commissioner may revise the medicaid savings allocation plan subsequent to the provisions of notice and prior to implementation but needs to provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the plan.

Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this subdivision if, in the discretion of the commissioner, expedited development and implementation of a medicaid savings allocation plan is necessary due to a public health emergency.

For purposes of this section, a public health emergency is defined as:

(i) a disaster, natural or otherwise, that significantly increases the immediate need for health care personnel in an area of the state;
(ii) an event or condition that creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or
(iii) any other event or condition determined by the commissioner to constitute an imminent threat to public health.

Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation plan from taking effect retroactively to the extent permitted by the federal centers for medicare and medicaid services.

In accordance with the medicaid savings allocation plan, the commissioner of the department of health shall reduce department of health state funds medicaid spending by the amount of the projected over-spending through, actions including, but not limited to modifying or suspending reimbursement methods, including but not limited to all fees, premium levels and rates of payment, notwithstanding any provision of law that sets a specific amount or methodology for any such payments or rates of payment; modifying medicaid program benefits; seeking all necessary federal approvals, including, but not limited to waivers, waiver amendments; and suspending time frames for notice, approval or certification of rate requirements, notwithstanding any provision of law, rule or regulation to the contrary, including but not limited to sections 2807 and 3614 of the public health law, section 18 of chapter 2 of the laws of 1988, and 18 NYCRR 505.14(h).

The department of health shall prepare a monthly report that sets forth:

(a) known and projected department of health medicaid expenditures as described in subdivision (1) of this section, and factors that could result in medicaid disbursements for the relevant state fiscal year to exceed the projected department of health state funds disbursements in the enacted budget financial plan pursuant to subdivision 3 of section 23 of the state finance law, including spending increases or decreases due to: enrollment fluctuations, rate changes, utilization changes, MRT investments, and shift of beneficiaries to managed care; and variations in offline medicaid payments; and
(b) the actions taken to implement any medicaid savings allocation plan implemented pursuant to subdivision (4) of this section, including information concerning the impact of such actions on each category of service and each geographic region of the state. Each such monthly report shall be provided to the chairs of the senate finance and the assembly ways and means committees and shall be posted on the department of health's website in a timely manner.
For the purpose of making payments to providers of medical care pursuant to section 367-b of the social services law, and for payment of state aid to municipalities and the federal government where payment systems through fiscal intermediaries are not operational, to reimburse the provision of care to patients eligible for medical assistance.

For services and expenses of the medical assistance program including nursing home, personal care, certified home health agency, long term home health care program and hospital services.

Notwithstanding any provision of law to the contrary, the portion of this appropriation covering fiscal year 2017-18 shall supersede and replace any duplicative (i) reappropriation for this item covering fiscal year 2017-18, and (ii) appropriation for this item covering fiscal year 2017-18 set forth in chapter 53 of the laws of 2016 (29846) ... 1,664,000,000 .....................
