Such plan shall specify how the school district will increase per pupil expenditures, from all sources, in underfunded high-need schools within such district above the level at which the school district would have otherwise funded such schools in the current year in order to maintain a level of current services from the base year, including but not limited to contractual salary increases and other continuations. Such plan shall specify how the district will utilize for this purpose an amount at least equal to the product of the equity percentage multiplied by the increase in foundation aid in the 2019-20 school year pursuant to this appropriation. Provided further, on or before May 1, 2019, the director of the budget shall produce a list of underfunded high need schools, as defined herein. Provided, however, that the director of the budget shall exclude from this list schools within district 75 of the city school district of New York, schools that are of the same school type within a district but do not serve any grade levels that overlap, schools serving only students in prekindergarten, or any other schools with irregular or outlying properties. In the event that a school district designated as requiring an equity plan for the 2019-20 school year has not submitted an equity plan pursuant to this appropriation that has been approved by the commissioner of education by September 1, 2019, the commissioner of education shall develop such plan for the school district, specifying the increase in per pupil expenditures required by the immediately preceding paragraph of this appropriation at each underfunded high-need school within the school district, and shall order the officers of the school district to implement such plan fully and faithfully. Provided further, for purposes of this appropriation:

year and entitled "BT192-0". Provided,
however, no payments shall be barred or
reduced where such payment is required as
a result of a final audit of the state.
Notwithstanding any inconsistent provision
of law, no school district shall be eligi-

Provided further that, notwithstanding any provision of subdivision 12 of section 3012-d of the education law to the contrary, nothing in this appropriation shall be construed to abrogate any conflicting provisions of any collective bargaining agreement in effect on the date this appropriation takes effect and until the entry into a successor collective bargaining agreement, provided that notwithstanding any other provision of law to the contrary, upon expiration of such term and the entry into a successor collective bargaining agreement the provisions of this appropriation shall apply.

amended and reappropriated to read:
For a school district management efficiency awards program. Funds
appropriated herein shall be used to provide competitive awards to
school districts based on a plan developed by the commissioner and
approved by the director of the budget. Provided that such funds may
only be awarded to a school district which demonstrates that it has
implemented one or more long term efficiencies within two years
prior to a response to a request for proposal or during the current
school year in school district management, operations, procurement
practices or other cost savings measures and will not result in an increase in cost to the state or the locality and: (i) have resulted or will result in a significant reduction in total operating expenses compared to the prior year and/or significant reductions in the administrative component, or the equivalent, of the school district budget and/or transportation operating expenses and/or transportation capital expenses and/or other non-personal service costs included in the program component of the school district budget compared to the prior year; and (ii) are expected to result in substantial and recurring cost savings in total operating expenses and/or recurring significant reductions in administrative expenditures, or the equivalent, and/or transportation operating expenses and/or transportation capital expenses and/or other non-personal service costs included in the program component of the school district budget in future years; provided further that, a school district that submits documentation that has been approved by the commissioner by September 1 of 2013 and of each school year in which a payment is made from this appropriation demonstrating that it has fully implemented new standards and procedures for conducting annual professional performance reviews of classroom teachers and building principals to determine teacher and principal effectiveness shall receive bonus points in the scoring of its grant application.

Provided further that, notwithstanding any provision of law to the contrary, in addition to the competitive awards amount as defined in paragraph ee of subdivision 1 of section 3602 of the education law, a minimum of $37,500,000 shall be available for the payment of grant awards made in the 2013-14 school year, with additional amounts to be made available in the 2014-15 through 2019-20 state fiscal years as necessary to continue such awards, make an additional round of awards pursuant to subdivision 6-a of section 3641 of the education law in the 2014-15 school year not to exceed the amount awarded in the 2013-14 school year pursuant to such subdivision 6-a, and make additional master teachers awards to the extent that the master teachers program authorized herein would not otherwise expend the maximum school year amount authorized herein; and such $37,500,000 shall be made available for $12,500,000 of prekindergarten grants, $10,000,000 of school-wide extended learning grants, $7,500,000 of community schools grants, $5,500,000 for a master teacher program and $2,000,000 for the early college high school program; provided, however, the funds appropriated herein for pre-kindergarten grants shall only be available for grants awarded for the 2016-17 school year and prior school years; provided, however, the funds appropriated herein for school-wide extended learning grants shall only be available for grants awarded for the 2017-18 school year and prior school years; provided, however, the funds appropriated herein for the early college high school program shall only be available for grants awarded for the 2017-18 school year and prior school years; provided, however, the funds appropriated herein for the master teachers program shall only be available for expenses for the 2018-19 school year and prior school years; provided, however, that no school district shall receive any portion of the funds appropriated herein unless it shall have submitted documentation that has been approved by the commissioner by September 1 of 2013 and of each school year in which a payment to such district from this appropriation would otherwise be made demonstrating that it has fully implemented new standards and procedures for conducting annual professional performance reviews of classroom teachers and building principals to determine teacher and principal effectiveness.

Provided, further, that notwithstanding any provision of law to the contrary, the $12,500,000 appropriated herein available for full-day and half-day pre-kindergarten grants shall be awarded, based on a request for proposals developed by the commissioner and approved by
the director of the budget, to school districts to establish new
full-day and half-day pre-kindergarten placements and/or to convert
existing half-day pre-kindergarten placements into full-day place-
ments; provided that preference shall be granted for full-day place-
ments while ensuring that a portion of grants include half-day
placements based on eligible applications; and provided, further,
that such grants shall only be used to supplement, not supplant
existing pre-kindergarten programs, and provided further, however,
that any portion of such $12,500,000 that is not awarded shall
remain available for subsequent awards in the 2013-14 school year or
for full-day and half-day pre-kindergarten grants to be awarded in
subsequent school years. Provided, further, that such grants from
funds appropriated herein shall be awarded based on factors includ-
ing, but not limited to, the following: (i) measures of school
district need, (ii) measures of the need of students to be served by
each of the school districts, (iii) the school district's proposal
to target the highest need schools and students, (iv) the extent to
which the district's proposal would prioritize funds to maximize the
total number of eligible children in the district served in prekin-
dergarten programs, and (v) proposal quality. Provided, however,
that full-day and half-day pre-kindergarten grants appropriated
herein shall only be available to support programs (i) that provide
instruction for at least five hours per school day for full-day
pre-kindergarten programs and at least two and one-half hours per
school day for half-day pre-kindergarten programs; (ii) that agree
to offer instruction consistent with the New York state prekind-
ger-garten foundation for the common core standards within three years;
(iii) that ensure that, to the extent community-based providers are
part of such program, such providers meet the requirements of para-
graphs d-1 and d-2 of subdivision 12 of section 3602-e of the educa-
tion law; and (iv) that otherwise comply with all of the same rules
and requirements as universal pre-kindergarten programs pursuant to
section 3602-e of the education law except as modified herein.
Provided, further, that a school district's pre-kindergarten grant
shall equal the product of (A) (i) two multiplied by the approved
number of new full-day pre-kindergarten placements plus (ii) the
approved number of half-day pre-kindergarten placement conversions
and new half-day pre-kindergarten placements, and (B) the district's
selected aid per pre-kindergarten pupil pursuant to subparagraph i
of paragraph b of subdivision 10 of section 3602-e of the education
law; provided, however, that no district shall receive a grant in
excess of the total actual grant expenditures incurred by the
district in the current school year as approved by the commissioner.
Provided, further, that as a condition of eligibility for receipt of
such funding, a school district shall agree to adopt approved quali-
ity indicators within two years, including, but not limited to, valid
and reliable measures of environmental quality, the quality of
teacher-student interactions and child outcomes, and ensure that any
such assessment of child outcomes shall not be used to make high-
stakes educational decisions for individual children. Provided,
further, that no school district shall receive more than forty
percent of the total pre-kindergarten grant allocation.
Provided, further, that notwithstanding any provision of law to the
contrary, the $10,000,000 appropriated herein available for school-

or school districts in collaboration with not-for-profit community-
based organizations based on responses to a request for proposals
for planning and implementation grants that is (i) developed by the
commissioner; (ii) approved by the director of the budget; and (iii)
issued by the commissioner. Provided, further, that such grants
shall be awarded based on factors including, but not limited to, the
following: (i) the school district's proposal to target the schools
and students with the greatest need, and (ii) proposal quality. Provided, further, that to assess proposal quality in order to award implementation grant funding, the commissioner shall take into account factors including, but not limited to: (i) the extent to which the school district's proposal would maximize the use of the additional learning time through a comprehensive restructuring of the school day and/or year, (ii) the extent to which the proposal would provide additional learning time for students in grades six through eight, and (iii) how the additional learning time would be utilized, including, but not limited to, additional time spent on core academics. Provided, however, that no district shall be eligible to receive a school-wide extended learning grant unless its proposal would increase student learning time by at least 25 percent. Provided, further, that a school district's schoolwide extended learning implementation grant shall equal its average daily attendance in the school-wide extended learning program multiplied by the expected cost per pupil of the additional learning time; provided, further, that the expected cost per pupil of the additional learning time shall equal the greater of $1,500 or (A) the quotient of (i) the school district's approved operating expense, pursuant to paragraph t of subdivision 1 of section 3602 of the education law, for the year prior to the base year, divided by (ii) the district's public school district enrollment, pursuant to subparagraph (2) of paragraph n of such subdivision, for the year prior to the base year, multiplied by (B) 10 percent (0.10), multiplied by (C) the quotient of (i) the average of the national consumer price index determined by the United States department of labor for the 12-month period preceding January first of the base year, divided by (ii) the average of the national consumer price indexes determined by the United States department of labor for the 12-month period preceding January first of the year two years prior to the base year; provided, however, that in extraordinary cases the commissioner may award a grant that exceeds the per pupil limit described above; provided further, however, that no district shall receive a grant in excess of the total actual grant expenditures incurred by the district in the current school year as approved by the commissioner. Provided, further, that no school district shall receive more than forty percent of the total school-wide extended learning grant allocation. Provided, further, that notwithstanding any provision of law to the contrary, the $7,500,000 appropriated herein available for community schools grants shall be awarded, based on a request for proposals (i) developed by the state council on children and families in coordination with the commissioner, (ii) approved by the director of the budget and (iii) issued by the commissioner, to school districts, or in a city with a population of one million or more an eligible entity, to improve student outcomes through the implementation of community schools programs that use school buildings as community hubs to deliver co-located or school-linked academic, health, mental health, nutrition, counseling, legal and/or other services to students and their families. In a city with a population of one million or more, eligible entities shall mean the city school district of the city of New York, or not-for-profit organizations, which shall include not-for-profit community-based organizations. An eligible entity that is a not-for-profit may apply for a community school grant provided that it collaborates with the city school district of the city of New York and receives the approval of the chancellor of the city school district of the city of New York. Provided, further, that such grants shall be awarded based on factors including, but not limited to, the following: (i) measures of school district need, (ii) measures of the need of students to be served by each of the school districts, (iii) the school district's proposal to target the
highest need schools and students, (iv) the sustainability of the
proposed community schools program, and (v) proposal quality.
Provided, further, that to assess proposal quality in order to award
such funding, the commissioner shall take into account factors
including, but not limited to: (i) the extent to which the school
district's proposal would provide such community services through
partnerships with local governments and non-profit organizations,
(ii) the extent to which the proposal would provide for delivery of
such services directly in school buildings, (iii) the extent to
which the proposal articulates how such services would facilitate
measurable improvement in student and family outcomes, (iv) the
extent to which the proposal articulates and identifies how existing
funding streams and programs would be used to provide such community
services, and (v) the extent to which the proposal ensures the safe-
ty of all students, staff and community members in school buildings
used as community hubs. Provided, however, that community schools
grants appropriated herein shall be paid to school districts in
installments upon successful implementation of each phase of a
school district's approved proposal. Provided, further, that no
school district shall receive more than forty percent of the total
community schools grant allocation, and that each individual commu-
nity school site shall be limited to a maximum grant of $500,000.
Provided, further, that notwithstanding any provision of law to the
contrary, the $5,500,000 appropriated herein available for a master
teachers program shall support the award of stipends of $15,000 per
annum over four years to individual high-performing teachers in
math, science and related fields, and of related costs, administered
by the state university of New York pursuant to a plan developed in
consultation with the commissioner, who shall consult with appropri-
ate state organizations representing K-12 public school teachers and
approved by the director of the budget, to build a corps of
outstanding math, science and related fields teachers in order to
improve the quality of instruction at public secondary schools. Such
plan for use of funding appropriated herein shall: (i) establish an
application process; (ii) guidelines by which applications from
eligible teachers shall be evaluated, which shall include, but not
be limited to, achievement of a rating of highly effective on the
annual professional performance review; and (iii) provide periodic
opportunities for professional development for successful appli-
cants. Provided, further, that priority shall be given to applicants
in regions of the state where a similar program is not otherwise
offered. Notwithstanding any provision of law to the contrary, upon
approval of the director of the budget, such $5,500,000 of master
teachers program funding may be sub-allocated, interchanged, trans-
ferred or otherwise made available to the state university of New
York for the services and expenses of administering such program.
Nothing herein shall be construed to limit the rights of labor
organizations representing teachers to collectively bargain terms
and conditions pursuant to article 14 of the civil service law.
Provided, further, that notwithstanding any provision of law to the
contrary, the $2,000,000 appropriated herein available for the early
college high school program shall support the continuation and
expansion of such program pursuant to a plan developed by the
commissioner and approved by the director of the budget. Provided,
however, that a portion of the payments to early college high school
programs awarded funding from this appropriation shall be awarded on
a sliding scale based upon the number of college credits earned
annually by participating students, consistent with guidelines
established by the commissioner. Provided further that, notwith-
standing any provision of law to the contrary, higher education
partners participating in an early college high schools program, or
the entity/entities responsible for setting tuition at the institu-
tion, shall be authorized to set a reduced rate of tuition and/or fees, or to waive tuition and/or fees entirely, for students enrolled in such early college high schools program with no reduction in other state, local or other support for such students earning college credit that such higher education partner would otherwise be eligible to receive.

Provided further that, notwithstanding any provision of law to the contrary, of the amount appropriated herein, a minimum of $12,500,000 per year shall be available in the 2014-15 through 2019-20 school years for the payment of grant awards as follows: $2,500,000 of pathways in technology early college high school program grants and $10,000,000 of teacher excellence fund grants; provided, however, the funds appropriated herein for pathways in technology early college high school program grants shall only be available for grants awarded for the 2017-18 school year and prior school years; provided further that, notwithstanding any provision of law to the contrary, such $12,500,000, plus any other amounts so designated in other items of appropriation within the general fund local assistance account office of pre-kindergarten through grade twelve education program, shall constitute the competitive awards amount authorized for the 2013-14 school year by chapter 53 of the laws of 2013.

Provided further that, notwithstanding any provision of law to the contrary, the $2,500,000 appropriated herein available for pathways in technology early college high school (P-TECH) program grants shall be awarded pursuant to a plan developed by the commissioner and approved by the director of the budget, provided that such plan shall include but not be limited to (i) assurances that K-12, higher education and private-sector partners commit to the required elements and responsibilities of a P-TECH program, (ii) provisions to ensure regional diversity of grant recipients, and (iii) priority for P-TECH programs serving students in academically challenged school districts; provided further that the commissioner shall make available the request for proposals for such program on or before May fifteenth and the commissioner shall issue awards on or before August fifteenth; and provided further that a portion of the payments to P-TECH programs awarded funding from this appropriation shall be made on a sliding scale based upon the number of college credits earned annually by participating students, consistent with guidelines established by the commissioner. Provided further that, notwithstanding any provision of law to the contrary, higher education partners participating in a P-TECH program, or the entity/entities responsible for setting tuition at the institution, shall be authorized to set a reduced rate of tuition and/or fees, or to waive tuition and/or fees entirely, for students enrolled in such P-TECH program with no reduction in other state, local or other support for such students earning college credit that such higher education partner would otherwise be eligible to receive.

Provided further that, notwithstanding any provision of law to the contrary, the $10,000,000 appropriated herein available for teacher excellence fund grants shall be awarded to eligible school districts pursuant to a request for proposals based on a plan developed by the commissioner and approved by the director of the budget; provided that such plan shall include an application for award of such grants to such eligible school districts to provide annual teacher excellence fund performance awards of up to $20,000 to eligible teachers rated as "highly effective" on the most recent annual professional performance review, in accordance with the requirements of section 3012-d of the education law and the regulations of the commissioner, pursuant to such districts' approved applications; provided that in making such grants the commissioner shall prioritize school districts' applications based on factors including but not limited
to (i) the extent to which the school district's application would recognize and reward such teachers in school buildings with the greatest academic need, in difficult-to-staff subject or certification areas and grade levels, and at critical points in a teacher's career in order to encourage highly effective teachers to remain in the classroom, and (ii) the quality of the school district's application; and provided further that the commissioner shall make available the application for such grants on or before May fifteenth and the commissioner shall issue grant awards an agreed-to schedule.

Provided, further, that to assess proposal quality in order to award implementation grant funding, the commissioner shall take into account factors including, but not limited to: (i) the extent to which the school district's proposal would maximize the use of the additional learning time through a comprehensive restructuring of the school day and/or year, (ii) the extent to which the proposal would provide additional learning time for students in grades six through eight, and (iii) how the additional learning time would be utilized, including, but not limited to, additional time spent on core academics. Provided, however, that no district shall be eligible to receive a school-wide extended learning grant unless its proposal would increase student learning time by at least 25 percent. Provided, further, that a school district's schoolwide extended learning implementation grant shall equal its average daily attendance in the school-wide extended learning program multiplied by the expected cost per pupil of the additional learning time; provided, further, that the expected cost per pupil of the additional learning time shall equal the greater of $1,500 or (A) the quotient of (i) the school district's approved operating expense, pursuant to paragraph t of subdivision 1 of section 3602 of the education law, for the year prior to the base year, divided by (ii) the district's public school district enrollment, pursuant to subparagraph (2) of paragraph n of such subdivision, for the year prior to the base year, multiplied by (B) 10 percent (0.10), multiplied by (C) the quotient of (i) the average of the national consumer price indexes determined by the United States department of labor for the 12-month period preceding January first of the base year, divided by (ii) the average of the national consumer price indexes determined by the United States department of labor for the 12-month period preceding January first of the year two years prior to the base year; provided, however, that in extraordinary cases the commissioner may award a grant that exceeds the per pupil limit described above; provided further, however, that no district shall receive a grant in excess of the total actual grant expenditures incurred by the district in the current school year as approved by the commissioner. Provided, further, that no school district shall receive more than forty percent of the total school-wide extended learning grant allocation.

Provided, further, that notwithstanding any provision of law to the contrary, the $7,500,000 appropriated herein available for community schools grants shall be awarded, based on a request for proposals (i) developed by the state council on children and families in coordination with the commissioner, (ii) approved by the director of the budget and (iii) issued by the commissioner, to school districts, or in a city with a population of one million or more an eligible entity, to improve student outcomes through the implementation of community schools programs that use school buildings as community hubs to deliver co-located or school-linked academic, health, mental health, nutrition, counseling, legal and/or other services to students and their families. Provided, however, that community schools grants appropriated herein shall be paid to school districts in installments upon successful implementation of each phase of a school district's approved proposal. Provided, further, that no school district shall receive more than forty percent of the total community schools grant allocation, and that each individual community school site shall be limited to a maximum grant of $500,000. remain in the classroom, and (ii) the quality of the school

period ending June 30, 2018 that are
submitted on or before January 2, 2019
and, in part, on such other factors as
determined by the office of children and
family services and approved by the direc-
tor of the budget. Any portion of a social
services district's allocation from funds
appropriated herein not claimed by such
district during the state fiscal year may
be used by such district for expenditures
on preventive services provided pursuant
to section 409-a of the social services
law, independent living services and
aftercare services provided pursuant to
regulations of the department of family
assistance, claimed by such district
during the next state fiscal year up to
the amount remaining from the district's
foster care block grant allocation,
provided however, that any claims for such
services during the next state fiscal year
in excess of such amount shall be subject
to 62 percent state reimbursement exclu-
sive of any federal funds made available
for such purposes, in accordance with
directives of the department of family
assistance and subject to the approval of
the director of the budget. Any claims
submitted by a social services district
for reimbursement for a particular state
fiscal year for which the social services
district does not receive state or federal
reimbursement during that state fiscal
year may not be claimed against that
district's block grant apportionment for
the next state fiscal year.
The office of children and family services,
with the approval of the director of the
budget, may reduce a district's block
grant allocation by the state share
decrease related to federal retroactive
reimbursement for such foster care
services identified herein. The office,
with the approval of the director of the
budget, may reduce a district's block
grant allocation by the state share of
disallowances or sanctions taken against
the district pursuant to the social
services law or federal law.
Notwithstanding any other provision of law,
the state shall not be responsible for
reimbursing a social services district and
a district shall not seek state reimburse-
ment for any portion of any state disal-
lowance or sanction taken against the
social services district, or any federal
disallowance attributable to final federal
agency decisions or to settlement made, on
or after July 1, 1995, when such disallow-
ance or sanction results from the failure
of the social services district to comply
with federal or state requirements,
including, but not limited to, failure to
document eligibility for federal or state
funds in the case record; provided, howev-
er, if the office determines that any
federal disallowance for services provided
between January 1, 1999 and May 31, 1999
results solely from the late enactment of
the state legislation implementing the
federal adoption and safe families act,
the state shall be solely responsible for
the full amount of the disallowance or
sanction; provided, further, however, this
provision shall be deemed to apply both
prospectively and retroactively regardless
of whether such sanctions or disallowances are for services provided or claims made prior to or after April 1, 2019. Notwithstanding any other provision of law, any federal disallowance resulting from a federal title IV-E eligibility review or audit that uses extrapolated statistic techniques shall be passed along by the state to any and all social services districts that the office of children and family services has determined have not complied with the title IV-E eligibility requirements or have not taken the necessary actions to ensure compliance with such requirements including, but not limited to, failing to: assess and fully document all the criteria and have readily available all the necessary documents to establish and continue title IV-E eligibility for all title IV-E eligible children within the required time frames; claim title IV-E funding only for cases that meet all of the title IV-E eligibility criteria; and fully implement the social services payment system on or before April 1, 2005 for all direct and voluntary agency foster care services. Notwithstanding any law to the contrary, the office of children and family services shall impose on social services districts any federal disallowance issued against the state as a result of a federal title IV-E secondary eligibility review regardless of the date the children may have entered foster care, the date the eligibility or payment errors occurred, or the filing date of any federal claims for reimbursement; provided, however, that the state shall be responsible for the disallowed costs and expenditures related to the placement of children in a facility operated by the office of children and family services, which shall be determined in the same manner as the disallowed costs and expenditures for social services districts other than the city of New York. In order to reimburse the federal government for the full amount of any disallowance imposed on the state by the federal administration for children and families within the timeframes necessary to avoid any potential interest payments on such amount, the office of children and family services is authorized to immediately offset funds otherwise due to each district for a pro rata share of the total disallowed costs based on the percentage of applicable federal title IV-E claims made by that district for the relevant time period as compared to the total applicable statewide title IV-E claims.
The amount of the offset against each district will be adjusted, if necessary, upon completion of the disallowance allocation process. The final allocation of the amount of any federal disallowance resulting from a title IV-E secondary eligibility review shall be allocated among the districts so that each district shall be responsible for the amount attributable to each of the district's children or cases that are determined by the federal review to be unallowable. Each district shall also be responsible for a portion of the federal extrapolated disallowance amount based on the relative error rate for the district. The city of New York's error rate will be based on the federal sample and federal statistics. For all social services districts other than the city of New York, the error rate will be based on a review conducted by the district of a sample of children and/or cases determined by the office of children and family services and a re-review of a sub-sample by the office of those children and/or cases determined by the office. The office of children and family services will determine what is reasonable in establishing the size of the sample and sub-sample for each district. The office of children and family services shall notify each social services district of the sample of children and/or cases from the federal audit period that the social services district must review. Any child or case from the social services district that was included in the federal sample will automatically be included in the social services district's review sample and the determination made at the federal review regarding that child or case will govern for the purposes of the social services district's review. The social services district must complete and submit the results of its review to the office of children and family services within 60 days of receipt of the sample. The error rate for the district will be based on the findings of the district's review and the office of children and family services' re-review. If a social services district does not complete its review within 60 days of receiving the sample from the office of children and family services, the office of children and family services shall assign an error rate to the social services district based on the relative percentage of the district's applicable title IV-E claims for the relevant period as compared to applicable statewide title IV-E claims for that period and other

circumstances that the office of children
and family services may consider in order
to allocate 100 percent of the federal
disallowance. The office of children and
family services shall apply each social
services district's error rate to the
total amount of the district's applicable
title IV-E claims including associated
administrative expenses. The resulting
dollar amounts for all of the social
services districts will be summed to
derive the total amount of title IV-E
claims deemed to be in error statewide. To
establish a disallowance percentage for
each social services district, the amount
of the district's title IV-E claims deemed
to be in error will be divided by the
amount of statewide title IV-E claims
deemed to be in error. The resulting
disallowance percentage for each district
will be applied to the entire title IV-E
extrapolated disallowance calculated by
the federal review to determine the amount
of the extrapolated disallowance for which
the district is responsible. Each district
will be credited for the amount already
disallowed for any individual children or
cases found to be in error during the
federal review. The exclusive appeal
rights for the review of the amount of the
federal disallowance assigned to each
social services district shall be pursuant
to article 78 of the civil practice laws
and rules; provided, however, that in any
such action all of the social services
districts shall be joined as necessary
parties and the venue of any such action
shall be in Rensselaer county. Any social
services district that fails to complete
its sample review in the required time
frames shall have no right to appeal and
shall not be a necessary party to any
action brought by another social services
district.

districts shall reimburse the office for
the costs of administering such direct

Such information shall be submitted electronically to the extent feasible as determined by the office, and shall be used to evaluate expenditures by such social services districts for the provision of temporary housing assistance for homeless individuals and families.

For persons living with clinical/symptomatic HIV illness or AIDS who are receiving public assistance, funds appropriated herein shall not be used to reimburse the additional rental costs determined based on limiting such person's earned and/or unearned income contribution to 30 percent.

Each social services district must certify to the office of children and family services and the office of temporary and disability assistance, within 90 days of enactment of the budget but before August 15, 2017, the amount of funds it wishes to have transferred under this provision.

Notwithstanding any other provision of law, the amount of the funds that each district expends on child welfare services from its flexible fund for family services funds and any flexible fund for family services funds transferred at the district's request to the title XX social services block grant must, to the extent that families are eligible therefor, be equal to or greater than the district's portion of the $342,322,341 statewide child welfare threshold amount, which shall be established pursuant to a formula developed by the office of temporary and disability assistance and the office of children and family services and approved by the director of the budget.

claims made by a social services district for expenditures made for
child care during a particular federal fiscal year, other than
claims made under title XX of the federal social security act and
under the supplemental nutrition assistance program employment and
training funds, shall be counted against the social services
district's block grant for child care for that federal fiscal year.

DEPARTMENT OF HEALTH

AID TO LOCALITIES  2019-20

Notwithstanding any inconsistent provision of law and subject to the approval of the director of budget, moneys hereby appropriated may be increased or decreased by transfer or interchange between these appropriated amounts and appropriations of the medical assistance administration program, the medical assistance program, and the office of health insurance programs. Funding authority from this account used for state administration of the medical assistance program may be transferred to state operations appropriations within the aforementioned programs at amounts agreed upon by the commissioner of health, and the New York state division of the budget.

Notwithstanding section 40 of the state finance law or any other law to the contrary, all medical assistance appropriations made from this account shall remain in full force and effect in accordance, in the aggregate, with the following schedule: not more than 50 percent for the period April 1, 2019 to March 31, 2020; and the remaining amount for the period April 1, 2020 to March 31, 2021.

Notwithstanding section 40 of the state finance law or any provision of law to the contrary, subject to federal approval, department of health state funds medicaid spending, excluding payments for medical services provided at state facilities operated by the office of mental health, the office for people with developmental disabilities and the office of alcoholism and substance abuse services and further excluding any payments which are not appropriated within the department of health, in the aggregate, for the period April 1, 2019 through March 31, 2020, shall not exceed $22,251,148,000 except as provided below and state share medicaid spending, in the aggregate, for the period April 1, 2020 through March 31, 2021, shall not exceed $23,256,018,000, but in no event shall department of health state funds medicaid spending for the period April 1, 2019 through March 31, 2021 exceed $45,507,166,000 provided, however, such aggregate limits may be adjusted by the director of the budget to account for any changes in the New York state federal medical assistance percentage amount established pursuant to the federal social security act, increases in provider revenues, reductions in local social services district payments for medical assistance administration, minimum wage increases and beginning April 1, 2012 the operational costs of the New York state medical indemnity fund, pursuant to chapter 59 of the
laws of 2011, and state costs or savings from the essential plan program. Such projections may be adjusted by the director of the budget to account for increased or expedited department of health state funds medicaid expenditures as a result of a natural or other type of disaster, including a governmental declaration of emergency. The director of the budget, in consultation with the commissioner of health, shall assess on a monthly basis known and projected medicaid expenditures by category of service and by geographic region, as determined by the commissioner of health, incurred both prior to and subsequent to such assessment for each such period, and if the director of the budget determines that such expenditures are expected to cause medicaid spending for such period to exceed the aggregate limit specified herein for such period, the state medicaid director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allocation plan to limit such spending to the aggregate limit specified herein for such period.

Such medicaid savings allocation plan shall be designed, to reduce the expenditures authorized by the appropriations herein in compliance with the following guidelines:

(1) reductions shall be made in compliance with applicable federal law, including the provisions of the Patient Protection and Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No. 111-152 (collectively "Affordable Care Act") and any subsequent amendments there-to or regulations promulgated thereunder;

(2) reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation plan that meets the other criteria set forth herein; (3) reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the Affordable Care Act; (4) reductions shall be made uniformly among categories of services and geographic regions of the state, to the extent practicable, and shall be made uniformly with-

AID TO LOCALITIES  2019-20

in a category of service, to the extent
practicable, except where the commissioner
determines that there are sufficient
grounds for non-uniformity, including but
not limited to: the extent to which
specific categories of services contrib-
uted to department of health medicaid
state funds spending in excess of the
limits specified herein; the need to main-
tain safety net services in underserved
communities; or the potential benefits of
pursuing innovative payment models contem-
plated by the Affordable Care Act, in
which case such grounds shall be set forth
in the medicaid savings allocation plan;
and (5) reductions shall be made in a
manner that does not unnecessarily create
administrative burdens to medicaid appli-
cants and recipients or providers.
The commissioner shall seek the input of the
legislature, as well as organizations
representing health care providers,
consumers, businesses, workers, health
insurers, and others with relevant exper-
tise, in developing such medicaid savings
allocation plan, to the extent that all or
part of such plan, in the discretion of
the commissioner, is likely to have a
material impact on the overall medicaid
program, particular categories of service
or particular geographic regions of the
state.
(a) The commissioner shall post the medicaid
savings allocation plan on the department
of health’s website and shall provide
written copies of such plan to the chairs
of the senate finance and the assembly
ways and means committees at least 30 days
before the date on which implementation is
expected to begin.
(b) The commissioner may revise the medicaid
savings allocation plan subsequent to the
provisions of notice and prior to imple-
mentation but needs to provide a new
notice pursuant to subparagraph (i) of
this paragraph only if the commissioner
determines, in his or her discretion, that
such revisions materially alter the plan.
Notwithstanding the provisions of paragraphs
(a) and (b) of this subdivision, the
commissioner need not seek the input
described in paragraph (a) of this subdi-
vision or provide notice pursuant to para-
graph (b) of this subdivision if, in the
discretion of the commissioner, expedited
development and implementation of a medi-
caid savings allocation plan is necessary
due to a public health emergency.
For purposes of this section, a public
health emergency is defined as: (i) a
disaster, natural or otherwise, that
significantly increases the immediate need

the state; (ii) an event or condition that
creates a widespread risk of exposure to a
serious communicable disease, or the
potential for such widespread risk of
exposure; or (iii) any other event or
condition determined by the commissioner
to constitute an imminent threat to public
health.

Nothing in this paragraph shall be deemed to
prevent all or part of such medicaid
savings allocation plan from taking effect
retroactively to the extent permitted by
the federal centers for medicare and medi-
caid services.

In accordance with the medicaid savings
allocation plan, the commissioner of the
department of health shall reduce depart-
ment of health state funds medicaid spend-
ing by the amount of the projected over-
spending through, actions including, but
not limited to modifying or suspending
reimbursement methods, including but not
limited to all fees, premium levels and
rates of payment, notwithstanding any
provision of law that sets a specific
amount or methodology for any such
payments or rates of payment; modifying
medicaid program benefits; seeking all
necessary federal approvals, including,
but not limited to waivers, waiver amend-
ments; and suspending time frames for
notice, approval or certification of rate
requirements, notwithstanding any
provision of law, rule or regulation to
the contrary, including but not limited to
sections 2807 and 3614 of the public
health law, section 18 of chapter 2 of the
laws of 1988, and 18 NYCRR 505.14(h).

The department of health shall prepare a
monthly report that sets forth: (a) known
and projected department of health medi-
caid expenditures as described in subdivi-
sion (1) of this section, and factors that
could result in medicaid disbursements for
the relevant state fiscal year to exceed
the projected department of health state
funds disbursements in the enacted budget
financial plan pursuant to subdivision 3
of section 23 of the state finance law,
including spending increases or decreases
due to: enrollment fluctuations, rate
changes, utilization changes, MRT invest-
ments, and shift of beneficiaries to
managed care; and variations in offline
medicaid payments; and (b) the actions
taken to implement any medicaid savings
allocation plan implemented pursuant to
subdivision (4) of this section, including
information concerning the impact of such
actions on each category of service and

ule: not more than 49 percent for the
period April 1, 2019 to March 31, 2020;
and the remaining amount for the period
April 1, 2020 to March 31, 2021.
Notwithstanding section 40 of the state finance law or any provision of law to the contrary, subject to federal approval, department of health state funds medicaid spending, excluding payments for medical services provided at state facilities operated by the office of mental health, the office for people with developmental disabilities and the office of alcoholism and substance abuse services and further excluding any payments which are not appropriated within the department of health, in the aggregate, for the period April 1, 2019 through March 31, 2020, shall not exceed $22,251,148,000 except as provided below and state share medicaid spending, in the aggregate, for the period April 1, 2020 through March 31, 2021, shall not exceed $23,256,018,000, but in no event shall department of health state funds medicaid spending for the period April 1, 2019 through March 31, 2021 exceed $45,507,166,000 provided, however, such aggregate limits may be adjusted by the director of the budget to account for any changes in the New York state federal medical assistance percentage amount established pursuant to the federal social security act, increases in provider revenues, reductions in local social services district payments for medical assistance administration, minimum wage increases and beginning April 1, 2012 the operational costs of the New York state medical indemnity fund, pursuant to chapter 59 of the laws of 2011, and state costs or savings from the essential plan program. Such projections may be adjusted by the director of the budget to account for increased or expedited department of health state funds medicaid expenditures as a result of a natural or other type of disaster, including a governmental declaration of emergency. The director of the budget, in consultation with the commissioner of health, shall assess on a monthly basis known and projected medicaid expenditures by category of service and by geographic region, as defined by the commissioner, incurred both prior to and subsequent to such assessment for each such period, and if the director of the budget determines that such expenditures are expected to cause medicaid spending for such period to exceed the aggregate limit specified herein for such period, the state medicaid director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allocation plan to limit such spending to the aggregate limit specified herein for such period.
Such medicaid savings allocation plan shall be designed, to reduce the expenditures authorized by the appropriations herein in compliance with the following guidelines:

1. Reductions shall be made in compliance with applicable federal law, including the provisions of the Patient Protection and Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No. 111-152 (collectively "Affordable Care Act") and any subsequent amendments thereto or regulations promulgated thereunder;

2. Reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation plan that meets the other criteria set forth herein;

3. Reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the Affordable Care Act;

4. Reductions shall be made uniformly among categories of services and geographic regions of the state, to the extent practicable, and shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific categories of services contributed to department of health medicaid state funds spending in excess of the limits specified herein; the need to maintain safety net services in underserved communities; or the potential benefits of pursuing innovative payment models contemplated by the Affordable Care Act, in which case such grounds shall be set forth in the medicaid savings allocation plan;

5. Reductions shall be made in a manner that does not unnecessarily create administrative burdens to medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation plan, to the extent that all or part of such plan, in the discretion of
the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state. 

(a) The commissioner shall post the medicaid savings allocation plan on the department of health's website and shall provide written copies of such plan to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin. 

(b) The commissioner may revise the medicaid savings allocation plan subsequent to the provisions of notice and prior to implementation but needs to provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the plan. 

Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this subdivision if, in the discretion of the commissioner, expedited development and implementation of a medicaid savings allocation plan is necessary due to a public health emergency. 

For purposes of this section, a public health emergency is defined as: (i) a disaster, natural or otherwise, that significantly increases the immediate need for health care personnel in an area of the state; (ii) an event or condition that creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or (iii) any other event or condition determined by the commissioner to constitute an imminent threat to public health.

Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation plan from taking effect retroactively to the extent permitted by the federal centers for medicare and medicaid services.

In accordance with the medicaid savings allocation plan, the commissioner of the department of health shall reduce department of health state funds medicaid spending by the amount of the projected overspending through, actions including, but not limited to modifying or suspending reimbursement methods, including but not limited to all fees, premium levels and rates of payment, notwithstanding any provision of law that sets a specific amount or methodology for any such

to organizations authorized to receive
such funds to accomplish this purpose.
Notwithstanding any other provision of law,
the money hereby appropriated may be

For services and expenses of the medical assistance program including hospital inpatient services and general hospitals that are safety-net providers that evince severe financial distress, pursuant to criteria determined by the commissioner, shall be eligible for awards for amounts appropriated herein, to enable such providers to maintain operations and vital services while establishing long term solutions to achieve sustainable health services.
Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for state fiscal years 2019-2020 and 2020-2021, the rates and payment methodologies set forth in the provisions of paragraph (b) of subdivision (35) of section 2807-c of the public health law may incorporate methodologies to reduce payments to facilities with a higher percentage of potentially avoidable inpatient services by instituting lower inpatient payment rates for both fee-for-service and managed care to incentivize the provision of preventative care to reduce preventable events and overall inpatient costs. A portion of such savings derived from the implementation of such payment methodologies shall be reinvested in initiatives to incentivize the provision of preventative care, maternity services, and other ambulatory care services to reduce preventable health care costs. Provided, however, if the director of the budget determines that this chapter appropriates sufficient additional funds to allow for the alteration of such rates and payment methodologies pursuant to public health law section 2807-c (b) (35) (xiv), then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2019.
Notwithstanding any provision of law to the contrary, the portion of this appropriation covering fiscal year 2019-20 shall supersede and replace any duplicative (i) reappropriation for this item covering fiscal year 2019-20, and (ii) appropriation for this item covering fiscal year 2019-20 set forth in chapter 53 of the laws of 2018 (26947) ..................... $1,315,625,000
1. For services and expenses of the medical assistance program including hospital outpatient and emergency room services.
2. Notwithstanding any provision of law to the contrary, the portion of this appropriation covering fiscal year 2019-20 shall supersede and replace any duplicative (i) reappropriation for this item covering fiscal year 2019-20, and (ii) appropriation for this item covering fiscal year 2019-20 set forth in chapter 53 of the laws of 2018 (26948) ..................... $461,853,000

3. For services and expenses of the medical assistance program including clinic services.
4. Notwithstanding any provision of law to the contrary, the portion of this appropriation covering fiscal year 2019-20 shall supersede and replace any duplicative (i) reappropriation for this item covering fiscal year 2019-20, and (ii) appropriation for this item covering fiscal year 2019-20 set forth in chapter 53 of the laws of 2018 (26949) ..................... $597,863,000

7. For services and expenses of the medical assistance program including other long term care services.
8. Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2019 through March 31, 2021, benefits under the medical assistance program shall be furnished to an applicant notwithstanding that the applicant has a responsible relative with sufficient income and resources to provide medical assistance, if: (a) the legally responsible relative is a community spouse, as defined in section 366-c of the social services law, who is refusing to make his or her income and/or resources available to meet the cost of necessary medical care, services, and supplies, and the applicant has executed an assignment of support from the community spouse in favor of the county social services district and the department of health, unless the applicant is unable to execute such assignment due to physical or mental impairment or to deny assistance would create an undue
hardship; or (b) the income and resources
of the responsible relative are not
available to such applicant because of the
absence of such relative and the refusal
or failure of such absent relative to
provide the necessary care and assistance.
In such cases, however, the furnishing of
such assistance shall create an implied
contract with such relative, and the cost
thereof may be recovered from such
relative in accordance with title 6 of
article 3 of the social services law and
other applicable provisions of law.
Provided, however, if the director of the
budget determines that this chapter
appropriates sufficient additional funds
to allow medical assistance to be
furnished in situations in which a
responsible relative who is not absent
from the household fails or refuses to
provide necessary care and assistance,
then the provisions of this paragraph
shall not apply and shall be considered
null and void as of March 31, 2019.
Notwithstanding any inconsistent provision
of law, rule or regulation to the
contrary, for the period April 1, 2019
through March 31, 2021, the commissioner
of health is authorized to manage medicaid
transportation services using the
contracted transportation manager or
managers for transportation provided to
enrollees of managed long term care plans,
with the exception of a program designated
as a program of all-inclusive care for the
elderly (PACE) as authorized by federal
public law 105-33, subtitle I of title IV
Provided, however, if the director of the
budget determines that this chapter
appropriates sufficient additional funds
to pay for medicaid transportation
services provided to enrollees of managed
long term care plans without the use of a
transportation manager or managers then
the provisions of this paragraph shall not
apply and shall be considered null and
void as of March 31, 2019.
Notwithstanding any inconsistent provision
of law, rule or regulation to the
contrary, for the period April 1, 2019
through December 31, 2019, in relation to
fiscal intermediary services under
subdivision 4-a section 365-f of the
social services law, fiscal intermediary
services shall not require an application
for authorization, and, further, section
365-f of the social services law shall not
be deemed to require fiscal intermediaries
to submit advertisements to the department
prior to dissemination.
Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period January 1, 2020 through March 31, 2021, all eligible individuals receiving home care shall be provided notice of the availability of the consumer directed personal assistance program, and no less frequently than annually thereafter, shall have the opportunity to apply for participation in the program. Each social services district shall file an implementation plan with the commissioner of the department of health, which shall be updated annually. Such updates shall be submitted no later than November thirtieth of each year. The plans and updates submitted by districts shall require the approval of the department. Implementation plans shall include district enrollment targets, describe methods for the provision of notice and assistance to interested individuals eligible for enrollment in the program, and shall contain such other information as shall be required by the department. An "eligible individual" is a person who:
(a) is eligible for long term care and services provided by a certified home health agency, long term home health care program or AIDS home care program authorized pursuant to article thirty-six of the public health law, or is eligible for personal care services provided pursuant to Article 5, Title 11 of the social services law;
(b) is eligible for medical assistance;
(c) has been determined by the social services district or an entity certified under article forty-four of the public health law, pursuant to an assessment of the person's appropriateness for the program, conducted with an appropriate long term home health care program, a certified home health agency, or an AIDS home care program or pursuant to the personal care program, as being in need of home care services or private duty nursing and is able and willing or has a designated representative, including a legal guardian able and willing to make informed choices, or a designated relative or other adult who is able and willing to assist in making informed choices, as to the type and quality of services, including but not limited to such services as nursing care, personal care, transportation and respite services; and
(d) meets such other criteria, as may be established by the commissioner, which are necessary to effectively implement the objectives established herein;
And, further, eligible individuals who elect to participate in the program assume the responsibility for services under such program as mutually agreed to by the eligible individual and provider and as documented in the eligible individual's record, including, but not limited to, recruiting, hiring and supervising their personal assistants. Personal assistant shall mean an adult who provides services to the eligible individual under the eligible individual's instruction, supervision and direction or under the instruction, supervision and direction of the eligible individual's designated representative, provided that a person legally responsible for an eligible individual's care and support, an eligible individual's spouse or designated assistant for the eligible individual; however, a personal assistant may include any other adult relative of the eligible individual, provided, however, that the program determines that the services provided by such relative are consistent with an individual's plan of care and that the aggregate cost for such services does not exceed the aggregate costs for equivalent services provided by a non-relative personal assistant. Such individuals shall be assisted as appropriate with service coverage, supervision, advocacy and management. Providers shall not be liable for fulfillment of responsibilities agreed to be undertaken by the eligible individual. These requirements, however, shall not diminish the participating provider's liability for failure to exercise reasonable care in properly carrying out its responsibilities under this program, which shall include monitoring such individual's continuing ability to fulfill those responsibilities documented in his or her records. Failure of the individual to carry out his or her agreed to responsibilities may be considered in determining such individual's continued appropriateness for the program.

And, further, all agencies or individuals who meet the qualifications to provide home health, personal care or nursing services and who elect to provide such services to persons receiving medical assistance may participate in the program. Any agency or individuals providing services under a patient managed home care program authorized under the former section thirty-six hundred twenty-two of the public health law or the former sections three hundred sixty-five-f of the
social services law may continue to provide such services;
And, further, “fiscal intermediary” shall mean:
(i) an entity that has a contract with the department of health to provide fiscal intermediary services; or
(ii) an entity authorized by the commissioner upon application with a history of providing fiscal intermediary services that:
(A) is a service center for independent living under section one thousand one hundred and twenty-one of the education law; or
(B) has experience providing fiscal intermediary services for persons with disabilities, in accordance with such criteria as the department may develop, as demonstrated by having a continuous history of arrangements with local departments of social services beginning no later than January 1, 2012.
An application for authorization as a fiscal intermediary as referenced herein shall be filed with the commissioner, together with such other forms and information as shall be prescribed by, or acceptable to the commissioner.
Fiscal intermediary services shall include the following services, performed on behalf of the consumer to facilitate his or her role as the employer:
(i) wage and benefit processing for consumer directed personal assistants;
(ii) processing all income tax and other required wage withholdings;
(iii) complying with workers' compensation, disability and unemployment requirements;
(iv) maintaining personnel records for each consumer directed personal assistant, including time sheets and other documentation needed for wages and benefit processing and a copy of the medical documentation required pursuant to regulations established by the commissioner;
(v) ensuring that the health status of each consumer directed personal assistant is assessed prior to service delivery pursuant to regulations issued by the commissioner;
(vi) maintaining records of service authorizations or reauthorizations;
(vii) monitoring the consumer's or, if applicable, the designated representative's continuing ability to fulfill the consumer's responsibilities under the program and promptly notifying the authorizing entity of any circumstance that may affect the consumer's or, if applicable, the designated
representative's ability to fulfill such responsibilities;
(viii) complying with regulations established by the commissioner specifying the responsibilities of fiscal intermediaries providing services under the social services law; and
(ix) entering into a department approved memorandum of understanding with the consumer that describes the parties' responsibilities under this program.
Fiscal intermediaries are not responsible for, and fiscal intermediary services shall not include, fulfillment of the responsibilities of the consumer or, if applicable, the consumer's designated representative as established by the commissioner. A fiscal intermediary's responsibilities shall not include, and a fiscal intermediary shall not engage in: managing the plan of care including recruiting and hiring a sufficient number of individuals who meet the definition of consumer directed personal assistant, as such term is defined by the commissioner, to provide authorized services that are included on the consumer's plan of care; training, supervising and scheduling each consumer directed personal assistant; terminating the consumer directed personal assistant's employment; or assuring that each consumer directed personal assistant competently and safely performs the personal care services, home health aide services and skilled nursing tasks that are included on the consumer's plan of care. A fiscal intermediary shall exercise reasonable care in properly carrying out its responsibilities under the program.
Notwithstanding any inconsistent provision of sections one hundred twelve and one hundred sixty-three of the state finance law, or section one hundred forty-two of the economic development law, or any other law, the commissioner is authorized to enter into a contract or with an entity or entities without a competitive bid or request for proposal process, provided, however, that:
(i) the department shall post on its website, for a period of no less than thirty days:
(A) a description of the proposed services to be provided pursuant to the contract or contracts;
(B) the criteria for selection of a contractor or contractors;
(C) the period of time during which a prospective contractor may seek selection, which shall be no less than thirty days after such information is first posted on the website; and
(D) the manner by which a prospective contractor may seek such selection, which may include submission by electronic means;
(ii) all reasonable and responsive submissions that are received from prospective contractors in timely fashion shall be reviewed by the commissioner; and
(iii) the commissioner shall select such contractor or contractors that, in his or her discretion, are best suited to serve the purposes established herein;
And, further, a fiscal intermediary's authorization as described above may be revoked, suspended, limited or annulled upon thirty day's written notice to the fiscal intermediary, if the commissioner finds that the fiscal intermediary has failed to comply with the provisions established herein or regulations promulgated hereunder. Notwithstanding the foregoing, upon determining that the public health or safety would be imminently endangered by the continued authorization of the fiscal intermediary, the commissioner may revoke, suspend, limit or annul the fiscal intermediary's authorization immediately. All such orders or determinations shall be subject to review as provided in article seventy-eight of the civil practice law and rules;
And, further, the commissioner may, subject to the approval of the director of budget, file for such federal waivers as may be needed for the implementation of the program.
(b) Notwithstanding any other provision of law, the commissioner is authorized to waive any provision of section three hundred sixty-seven-b of the social services law related to payment and may promulgate regulations necessary to carry out the objectives of the program, and which describe the responsibilities of the eligible individuals in arranging and paying for services and the protections assured such individuals if they are unable or no longer desire to continue in the program;
And, further, notwithstanding any inconsistent provision above or any other contrary provision of law, managed care programs established pursuant to section three hundred sixty-four-j of the social services law and managed long term care plans and other care coordination models established pursuant to section four thousand four hundred three-f of the public health law shall offer consumer directed personal assistance programs to enrollees;
And, further, notwithstanding any inconsistent provision above or any other contrary provision of law, the foregoing provisions shall only be available if the commissioner of health determines that there is adequate federal financial participation to fund expenditures for such programs and/or entities incurred under the provisions herein;

And, further, subject to the availability of federal financial participation, the foregoing provisions governing consumer directed personal assistance services shall also apply to such services when offered under the home and community-based attendant services and supports state plan option (Community First Choice) pursuant to 42 U.S.C. § 1396n(k);

Provided, however, if the director of the budget determines that this chapter appropriates sufficient additional funds to achieve savings related to a transition to a fiscal intermediary or intermediaries that contract directly with the state, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2019.

Notwithstanding any provision of law to the contrary, the portion of this appropriation covering fiscal year 2019-20 shall supersede and replace any duplicative (i) reappropriation for this item covering fiscal year 2019-20, and (ii) appropriation for this item covering fiscal year 2019-20 set forth in chapter 53 of the laws of 2018 (26951) ..................... 9,447,761,000

For services and expenses of the medical assistance program including managed care services including regional planning activities of the finger lakes health systems agency, including statewide coordination and demonstration of best practices. The department shall make grants within amounts appropriated therefor, to assure high-quality and accessible primary care, to provide technical assistance to support financial and business planning for integrated systems of care, and to assist primary care providers in the adoption, implementation, and meaningful use of electronic health record technology.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for state fiscal years 2019-2020 and 2020-2021, the rates and payment methodologies set forth in the provisions of paragraph (b) of subdivision (35) of section 2807-c of the public health law may incorporate methodologies to reduce payments to facilities with a higher percentage of potentially avoidable...
inpatient services by instituting lower inpatient payment rates for both fee-for-service and managed care to incentivize the provision of preventative care to reduce preventable events and overall inpatient costs. A portion of such savings derived from the implementation of such payment methodologies shall be reinvested in initiatives to incentivize the provision of preventative care, maternity services, and other ambulatory care services to reduce preventable health care costs. Provided, however, if the director of the budget determines that this chapter appropriates sufficient additional funds to allow for the alteration of such rates and payment methodologies pursuant to public health law section 2807-c (b) (35) (xiv), then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2019. Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2019 through March 31, 2021, medical assistance for needy persons shall include, as part of standard coverage, evidence-based prevention and support services recognized by the federal centers for disease control (CDC), provided by a community-based organization, and designed to prevent individuals at risk of developing diabetes from developing type 2 diabetes. Provided, however, if the director of the budget determines that this chapter appropriates sufficient additional funds to pay for such medicaid coverage, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2019. Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2019 through March 31, 2021, the commissioner of health may by regulation specify certain drugs which may be dispensed without a prescription as required by section 6810 of the education law that shall be reimbursed by the medicaid program in accordance with a price schedule established by such commissioner. Amendments to the regulation specifying medicaid reimbursable, nonprescription drugs may be adopted by the commissioner of health on an emergency basis. The copayment charged for drugs dispensed without a prescription as required by section 6810 of the education law but which are reimbursed by the medicaid program shall be one dollar. Provided, however, if the director of the budget determines that this chapter appropriates
sufficient additional funds to allow the
medicaid program to continue to cover
drugs which may be dispensed without a
prescription as required by section 6810
of the education law with a required co-
payment of only $0.50, and without the
ability to remove drugs from the list of
covered over-the-counter drugs by means of
emergency rulemaking, then the provisions
of this paragraph shall not apply and
shall be considered null and void as of
March 31, 2019.

Notwithstanding any inconsistent provision
of law, rule or regulation to the
contrary, for the period April 1, 2019
through March 31, 2021, the medical
assistance program may authorize payment
for a drug that is not on the preferred
drug list if certain criteria are met,
including:

(i) the preferred drug has been tried by the
patient and has failed to produce the
desired health outcomes; (ii) the patient
has tried the preferred drug and has
experienced unacceptable side effects;
(iii) the patient has been stabilized on a
non-preferred drug and transition to the
preferred drug would be medically
contraindicated; or (iv) other clinical
indications identified by the committee
for the patient's use of the non-preferred
drug, which shall include consideration of
the medical needs of special populations,
including children, elderly, chronically
ill, persons with mental health
conditions, and persons affected by
HIV/AIDS. In the event that the patient
does not meet this criteria, the
prescriber may provide additional
information to the medical assistance
program to justify the use of the drug.
The program shall provide a reasonable
opportunity for the prescriber to
reasonably present his or her
justification of prior authorization. The
program will consider the additional
information and the justification
presented to determine whether the use of
a prescription drug that is not on the
preferred drug list is warranted. In
addition, managed care providers
participating in the medical assistance
program shall be required to cover non-
formulary drugs for medical assistance
recipients only if the prescriber, after
consulting with the managed care provider,
demonstrates that such drugs, in the
prescriber's reasonable professional
judgment, are medically necessary and
warranted. Provided, however, if the
director of the budget determines that
this chapter appropriates sufficient
additional funds to allow the medical
assistance program to pay for drugs that
are not on the preferred drug list or on
the formulary of a managed care provider
participating in the medical assistance
program based solely on the determination
of the prescriber that the use of the
drugs is warranted, then the provisions of
this paragraph shall not apply and shall
be considered null and void as of March
31, 2019.
Notwithstanding any inconsistent provision
of law, rule or regulation to the
contrary, for state fiscal years 2019-20
and 2020-21, any contract or other
arrangement for pharmacy benefit
management services entered into by a
health care plan shall include provisions
that ensure the following: (i) Payment to
the pharmacy benefit manager for pharmacy
benefit management services is limited to
the actual ingredient costs, a dispensing
fee, and an administrative fee for each
claim processed. The commissioner of
health may establish a maximum
administrative fee; (ii) The pharmacy
benefit manager identifies all sources of
income related to the provision of
pharmacy benefit management services on
behalf of the health care plan, including,
but not limited to, any discounts or
supplemental rebates, and that any portion
of such income is passed through to the
health care plan in full to reduce the
reportable ingredient cost; (iii) The
pharmacy benefit manager shall not retain
any portion of spread pricing. For
purposes of this provision "spread
pricing" means any amount charged or
claimed by the pharmacy benefit manager in
excess of the amount paid to pharmacies on
behalf of the health care plan less an
administrative fee as described above. Any
such excess amount shall be remitted to
the health care plan on a quarterly basis.
The commissioner may promulgate
regulations as necessary to establish
additional standards for contracts or
other arrangements related to the services
described above. Provided, however, the
director of the budget determines that if
this chapter appropriates sufficient
additional funds to allow the narrowing of
the spread between the amount the managed
care organization is charged by the
pharmacy benefit manager for prescriptions
and the amount actually paid to the
pharmacy and the cost to the medicaid
program, then the provisions of this
paragraph shall not apply and shall be
considered null and void.
Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for state fiscal year 2019-20, the commissioners of the department of health, the office of mental health, the office for people with developmental disabilities, and the office of alcoholism and substance abuse services are authorized to waive any regulatory requirements as are necessary, consistent with applicable law, to allow providers that are involved in DSRIP projects or replication and scaling activities, as approved by the authorizing commissioner, to avoid duplication of requirements and to allow the efficient scaling and replication of DSRIP promising practices, as determined by the authorizing commissioner; provided however, that regulations pertaining to patient safety may not be waived, nor shall any regulations be waived if such waiver would risk patient safety. Provided, further, however, if the director of the budget determines that this chapter appropriates sufficient additional funds to allow the waiver of such regulatory requirements for the purposes described above, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2019.

Notwithstanding any provision of law to the contrary, the portion of this appropriation covering fiscal year 2019-20 shall supersede and replace any duplicative (i) reappropriation for this item covering fiscal year 2019-20, and (ii) appropriation for this item covering fiscal year 2019-20 set forth in chapter 53 of the laws of 2018 (26952) ...................... 8,701,978,000

For services and expenses for health homes including grants to health homes.

Notwithstanding any provision of law to the contrary, the portion of this appropriation covering fiscal year 2019-20 shall supersede and replace any duplicative (i) reappropriation for this item covering fiscal year 2019-20, and (ii) appropriation for this item covering fiscal year 2019-20 set forth in chapter 53 of the laws of 2018 (29548) ...................... 656,000,000

For services and expenses of the medical assistance program including pharmacy services.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for state fiscal years 2020-21, the medicaid drug expenditure growth target shall be limited to the ten-year rolling average of the medical component of the consumer price index plus four
percent and minus a pharmacy savings
target of $85,000,000.
Further, for state fiscal years 2019-2020
and 2020-21: The department and the
division of the budget shall not be
required to report quarterly to the drug
utilization review board the projected
state funds medicaid drug expenditures.
Rebates for drugs covered by medicaid and
negotiated with manufactures may be based
on evidence-based research, including, but
not limited to: research operated or
conducted by or for other state
governments, the federal government, the
governments of other nations, third party
payers or multi-state coalitions.
In the event that the commissioner and the
manufacturer previously agreed to a
supplemental rebate for a drug pursuant to
paragraph (b) of subdivision (2) of
section 280 of the public health law, or
paragraph (e) of subdivision 7 of section
367-a of the social services law, the drug
shall not be prohibited from referral to
the drug utilization review board for any
further supplemental rebate for the
duration of the previous rebate agreement.
When considering a drug's actual cost to the
state, including current rebate amounts,
prior to seeking an additional rebate
pursuant to paragraph (b) or (c) of
subdivision (2) of section 280 of the
public health law, the department shall
not be required to take into consideration
whether the manufacturer of the drug is
providing significant discounts relative
to other drugs covered by the medicaid
program.
If, pursuant to section 280 of the public
health law, the drug utilization review
board recommends a target rebate amount on
a drug referred by the commissioner, the
department shall negotiate with the drug's
manufacturer for a supplemental rebate to
be paid by the manufacturer in an amount
not to exceed such target rebate amount. A
rebate requirement shall apply beginning
with the first day of the state fiscal
year during which the rebate was required,
without regard to the date the department
enters into the rebate agreement with the
manufacturer.
The commissioner shall report by July,
rather than February, first annually to
the drug utilization review board on
savings achieved through the drug cap in
the last fiscal year.
Provided, however, if the director of the
budget determines that this chapter
appropriates sufficient additional funds
to achieve commensurate savings then the
provisions of this paragraph shall not
apply and shall be considered null and void as of March 31, 2019.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2019 through March 31, 2021, the commissioner of health may by regulation specify certain drugs which may be dispensed without a prescription as required by section 6810 of the education law that shall be reimbursed by the medicaid program in accordance with a price schedule established by such commissioner. Amendments to the regulation specifying medicaid reimbursable, nonprescription drugs may be adopted by the commissioner of health on an emergency basis. The copayment charged for drugs dispensed without a prescription as required by section 6810 of the education law but which are reimbursed by the medicaid program shall be one dollar. Provided, however, if the director of the budget determines that this chapter appropriates sufficient additional funds to allow the medicaid program to continue to cover drugs which may be dispensed without a prescription as required by section 6810 of the education law with a required copayment of only $0.50, and without the ability to remove drugs from the list of covered over-the-counter drugs by means of emergency rulemaking, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2019.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2019 through March 31, 2021, the medical assistance program may authorize payment for a drug that is not on the preferred drug list if certain criteria are met, including:

(i) the preferred drug has been tried by the patient and has failed to produce the desired health outcomes; (ii) the patient has tried the preferred drug and has experienced unacceptable side effects; (iii) the patient has been stabilized on a non-preferred drug and transition to the preferred drug would be medically contraindicated; or (iv) other clinical indications identified by the committee for the patient's use of the non-preferred drug, which shall include consideration of the medical needs of special populations, including children, elderly, chronically ill, persons with mental health conditions, and persons affected by HIV/AIDS. In the event that the patient does not meet this criteria, the
prescriber may provide additional information to the medical assistance program to justify the use of the drug. The program shall provide a reasonable opportunity for the prescriber to reasonably present his or her justification of prior authorization. The program will consider the additional information and the justification presented to determine whether the use of a prescription drug that is not on the preferred drug list is warranted. In addition, managed care providers participating in the medical assistance program shall be required to cover non-formulary drugs for medical assistance recipients only if the prescriber, after consulting with the managed care provider, demonstrates that such drugs, in the prescriber's reasonable professional judgment, are medically necessary and warranted. Provided, however, if the director of the budget determines that this chapter appropriates sufficient additional funds to allow the medical assistance program to pay for drugs that are not on the preferred drug list or on the formulary of a managed care provider participating in the medical assistance program based solely on the determination of the prescriber that the use of the drugs is warranted, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2019.

Notwithstanding any provision of law to the contrary, the portion of this appropriation covering fiscal year 2019-20 shall supersede and replace any duplicative (i) reappropriation for this item covering fiscal year 2019-20, and (ii) appropriation for this item covering fiscal year 2019-20 set forth in chapter 53 of the laws of 2018 (26953) ................. 644,978,000

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2019 through March 31, 2021, the medicaid program shall not make a supplemental payment of up to $6,000,000 to providers of emergency medical transportation. Provided, however, if the director of the budget determines that this chapter appropriates sufficient additional funds to allow the medicaid program to make such a supplemental payment then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2019.
Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2019 through March 31, 2021, the medicaid program shall not make adjustments to payments for transportation of eligible persons for the purpose of providing increased access to medicaid non-emergency transportation in rural communities. Provided, however, if the director of the budget determines that this chapter appropriates sufficient additional funds to allow the medicaid program to make such adjustments then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2019.

Notwithstanding any provision of law to the contrary, the portion of this appropriation covering fiscal year 2019-20 shall supersede and replace any duplicative (i) reappropriation for this item covering fiscal year 2019-20, and (ii) appropriation for this item covering fiscal year 2019-20 set forth in chapter 53 of the laws of 2018 (26954) ..................... 513,075,000

of the education law, such amount shall
not be limited by the amount of any co-

beneficiaries, or the amount which such
eligible persons or such qualified
medicare beneficiaries would be liable
under federal law were they not eligible
for medical assistance or were they not
qualified medicare beneficiaries with
respect to such benefits under part B.
Provided, however, if the director of the
budget determines that this chapter
appropriates sufficient additional funds
to ensure that such fees associated with
the medical assistance program do not
exceed medicare fees for dual eligible
members, then the provisions of this
paragraph shall not apply and shall be
considered null and void as of March 31,
2019.

period April 1, 2019 to March 31, 2020;
and the remaining amount for the period
April 1, 2020 to March 31, 2021.
The moneys hereby appropriated are to be
available for payment of aid heretofore
accrued or hereafter accrued to munici-
palities, and to providers of medical
services pursuant to section 367-b of the
social services law, and for payment of
state aid to municipalities and to provid-
ers of family care where payment systems
through the fiscal intermediaries are not
operational, shall be available to the
department net of disallowances, refunds,
reimbursements, and credits.
Notwithstanding any inconsistent provision
of law, funding made available by these
appropriations shall support direct salary
costs and related fringe benefits within
the medical assistance program associated
with any minimum wage increase that takes
effect during the timeframe of these
appropriations, pursuant to section 652 of
the labor law. Each eligible organization
in receipt of funding made available by
these appropriations may be required to
submit written certification, in such form
and at such time the commissioner may
prescribe, attesting to the total amount
of funds used by the eligible organization, how such funding will be or was used for purposes eligible under these appropriations and any other reporting deemed necessary by the commissioner. The amounts appropriated herein may include advances to organizations authorized to receive such funds to accomplish this purpose.

Notwithstanding any other provision of law, the money hereby appropriated may be increased or decreased by interchange, with any appropriation of the department of health and the office of medicaid inspector general and may be increased or decreased by transfer or suballocation between these appropriated amounts and appropriations of the office of mental health, office for people with developmental disabilities, the office of alcoholism and substance abuse services, the department of family assistance office of temporary and disability assistance, office of children and family services, the department of financial services, department of corrections and community supervision, the department of corrections and community supervision, the office of information technology services, the state university of New York, and the state office for the aging with the approval of the director of the budget, who shall file such approval with the department of audit and control and copies thereof with the chairman of the senate finance committee and the chairman of the assembly ways and means committee.

Notwithstanding any inconsistent provision of law, in lieu of payments authorized by the social services law, or payments of federal funds otherwise due to the local social services districts for programs provided under the federal social security act or the federal food stamp act, funds herein appropriated, in amounts certified by the state commissioner of temporary and disability assistance or the state commissioner of health as due from local social services districts each month as their share of payments made pursuant to section 367-b of the social services law may be set aside by the state comptroller in an interest-bearing account in order to ensure the orderly and prompt payment of providers under section 367-b of the social services law pursuant to an estimate provided by the commissioner of health of each local social services district's share of payments made pursuant to section 367-b of the social services law.

Notwithstanding any inconsistent provision of law to the contrary, funds shall be
made available to the commissioner of the office of mental health or the commissioner of the office of alcoholism and substance abuse services, in consultation with the commissioner of health and approved by the director of the budget, and consistent with appropriations made therefor, to implement allocation plans developed by each such commissioner which shall describe mental health or substance use disorder services that should be developed to meet service needs resulting from the reduction of inpatient behavioral health services provided under the Medicaid program, by programs licensed pursuant to article 31 or 32 of the mental hygiene law. Such programs may include programs that are licensed pursuant to both article 31 of the mental hygiene law and article 28 of the public health law, or certified under both article 32 of the mental hygiene law and article 28 of the public health law.

Notwithstanding any inconsistent provision of law, the moneys hereby appropriated may be available for payments associated with the resolution by settlement agreement or judgment of rate appeals and/or litigation where the department of health is a party.

For services and expenses of the medical assistance program including hospital inpatient services.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for state fiscal years 2019-2020 and 2020-2021, the rates and payment methodologies set forth in the provisions of paragraph (b) of subdivision (35) of section 2807-c of the public health law may incorporate methodologies to reduce payments to facilities with a higher percentage of potentially avoidable inpatient services by instituting lower inpatient payment rates for both fee-for-service and managed care to incentivize the provision of preventative care to reduce preventable events and overall inpatient costs. A portion of such savings derived from the implementation of such payment methodologies shall be reinvested in initiatives to incentivize the provision of preventative care, maternity services, and other ambulatory care services to reduce preventable health care costs. Provided, however, if the director of the budget determines that this chapter appropriates sufficient additional funds to allow for the alteration of such rates and payment methodologies pursuant to public health law section 2807-c (b) (35) (xiv), then the provisions of this paragraph shall not apply and shall be

Notwithstanding any provision of law to the contrary, the portion of this appropriation covering fiscal year 2019-20 shall supersede and replace any duplicative (i) reappropriation for this item covering fiscal year 2019-20, and (ii) appropriation for this item covering fiscal year 2019-20 set forth in chapter 53 of the laws of 2018 (26947) 13,898,017,000

For services and expenses of the medical assistance program including hospital outpatient and emergency room services. Notwithstanding any provision of law to the contrary, the portion of this appropriation covering fiscal year 2019-20 shall supersede and replace any duplicative (i) reappropriation for this item covering fiscal year 2019-20, and (ii) appropriation for this item covering fiscal year 2019-20 set forth in chapter 53 of the laws of 2018 (26948) 3,452,949,000

For services and expenses of the medical assistance program including clinic services. Notwithstanding any provision of law to the contrary, the portion of this appropriation covering fiscal year 2019-20 shall supersede and replace any duplicative (i) reappropriation for this item covering fiscal year 2019-20, and (ii) appropriation for this item covering fiscal year 2019-20 set forth in chapter 53 of the laws of 2018 (26949) 2,359,063,000

For services and expenses of the medical assistance program including nursing home services. Notwithstanding any provision of law to the contrary, the portion of this appropriation covering fiscal year 2019-20 shall supersede and replace any duplicative (i) reappropriation for this item covering fiscal year 2019-20, and (ii) appropriation for this item covering fiscal year 2019-20 set forth in chapter 53 of the laws of 2018 (26950) 9,332,410,000

For services and expenses of the medical assistance program including other long term care services. Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2019 through March 31, 2021, benefits under the medical assistance program shall be furnished to an applicant notwithstanding that the applicant has a responsible relative with sufficient income and resources to provide medical assistance, if: (a) the legally responsible relative is a community spouse, as defined in section 366-c of the social services law,
who is refusing to make his or her income and/or resources available to meet the cost of necessary medical care, services, and supplies, and the applicant has executed an assignment of support from the community spouse in favor of the county social services district and the department of health, unless the applicant is unable to execute such assignment due to physical or mental impairment or to deny assistance would create an undue hardship; or (b) the income and resources of the responsible relative are not available to such applicant because of the absence of such relative and the refusal or failure of such absent relative to provide the necessary care and assistance. In such cases, however, the furnishing of such assistance shall create an implied contract with such relative, and the cost thereof may be recovered from such relative in accordance with title 6 of article 3 of the social services law and other applicable provisions of law. Provided, however, if the director of the budget determines that this chapter appropriates sufficient additional funds to allow medical assistance to be furnished in situations in which a responsible relative who is not absent from the household fails or refuses to provide necessary care and assistance, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2019. Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2019 through December 31, 2019, in relation to fiscal intermediary services under subdivision 4-a section 365-f of the social services law, fiscal intermediary services shall not require an application for authorization, and, further, section 365-f of the social services law shall not be deemed to require fiscal intermediaries to submit advertisements to the department prior to dissemination. Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period January 1, 2020 through March 31, 2021, all eligible individuals receiving home care shall be provided notice of the availability of the consumer directed personal assistance program, and no less frequently than annually thereafter, shall have the opportunity to apply for participation in the program. Each social services district shall file an implementation plan with the commissioner of the department of health, which shall be updated annually. Such
updates shall be submitted no later than November thirtieth of each year. The plans and updates submitted by districts shall require the approval of the department. Implementation plans shall include district enrollment targets, describe methods for the provision of notice and assistance to interested individuals eligible for enrollment in the program, and shall contain such other information as shall be required by the department. An "eligible individual" is a person who:

(a) is eligible for long term care and services provided by a certified home health agency, long term home health care program or AIDS home care program authorized pursuant to article thirty-six of the public health law, or is eligible for personal care services provided pursuant to Article 5, Title 11 of the social services law;

(b) is eligible for medical assistance;

(c) has been determined by the social services district or an entity certified under article forty-four of the public health law, pursuant to an assessment of the person's appropriateness for the program, conducted with an appropriate long term home health care program, a certified home health agency, or an AIDS home care program or pursuant to the personal care program, as being in need of home care services or private duty nursing and is able and willing or has a designated representative, including a legal guardian able and willing to make informed choices, or a designated relative or other adult who is able and willing to assist in making informed choices, as to the type and quality of services, including but not limited to such services as nursing care, personal care, transportation and respite services; and

(d) meets such other criteria, as may be established by the commissioner, which are necessary to effectively implement the objectives established herein;

And, further, eligible individuals who elect to participate in the program assume the responsibility for services under such program as mutually agreed to by the eligible individual and provider and as documented in the eligible individual's record, including, but not limited to, recruiting, hiring and supervising their personal assistants. Personal assistant shall mean an adult who provides services to the eligible individual under the eligible individual's instruction, supervision and direction or under the instruction, supervision and direction of the eligible individual's designated
representative, provided that a person legally responsible for an eligible individual's care and support, an eligible individual's spouse or designated representative may not be the personal assistant for the eligible individual; however, a personal assistant may include any other adult relative of the eligible individual, provided, however, that the program determines that the services provided by such relative are consistent with an individual's plan of care and that the aggregate cost for such services does not exceed the aggregate costs for equivalent services provided by a non-relative personal assistant. Such individuals shall be assisted as appropriate with service coverage, supervision, advocacy and management. Providers shall not be liable for fulfillment of responsibilities agreed to be undertaken by the eligible individual. These requirements, however, shall not diminish the participating provider's liability for failure to exercise reasonable care in properly carrying out its responsibilities under this program, which shall include monitoring such individual's continuing ability to fulfill those responsibilities documented in his or her records. Failure of the individual to carry out his or her agreed to responsibilities may be considered in determining such individual's continued appropriateness for the program;

And, further, all agencies or individuals who meet the qualifications to provide home health, personal care or nursing services and who elect to provide such services to persons receiving medical assistance may participate in the program. Any agency or individuals providing services under a patient managed home care program authorized under the former section thirty-six hundred twenty-two of the public health law or the former sections three hundred sixty-five-f of the social services law may continue to provide such services;

And, further, "fiscal intermediary" shall mean:

(i) an entity that has a contract with the department of health to provide fiscal intermediary services; or

(ii) an entity authorized by the commissioner upon application with a history of providing fiscal intermediary services that:

(A) is a service center for independent living under section one thousand one hundred and twenty-one of the education law; or
(B) has experience providing fiscal intermediary services for persons with disabilities, in accordance with such criteria as the department may develop, as demonstrated by having a continuous history of arrangements with local departments of social services beginning no later than January 1, 2012.

An application for authorization as a fiscal intermediary as referenced herein shall be filed with the commissioner, together with such other forms and information as shall be prescribed by, or acceptable to the commissioner.

Fiscal intermediary services shall include the following services, performed on behalf of the consumer to facilitate his or her role as the employer:

(i) wage and benefit processing for consumer directed personal assistants;
(ii) processing all income tax and other required wage withholdings;
(iii) complying with workers' compensation, disability and unemployment requirements;
(iv) maintaining personnel records for each consumer directed personal assistant, including time sheets and other documentation needed for wages and benefit processing and a copy of the medical documentation required pursuant to regulations established by the commissioner;
(v) ensuring that the health status of each consumer directed personal assistant is assessed prior to service delivery pursuant to regulations issued by the commissioner;
(vi) maintaining records of service authorizations or reauthorizations;
(vii) monitoring the consumer's or, if applicable, the designated representative's continuing ability to fulfill the consumer's responsibilities under the program and promptly notifying the authorizing entity of any circumstance that may affect the consumer's or, if applicable, the designated representative's ability to fulfill such responsibilities;
(viii) complying with regulations established by the commissioner specifying the responsibilities of fiscal intermediaries providing services under the social services law; and
(ix) entering into a department approved memorandum of understanding with the consumer that describes the parties' responsibilities under this program.

Fiscal intermediaries are not responsible for, and fiscal intermediary services shall not include, fulfillment of the responsibilities of the consumer or, if
applicable, the consumer's designated representative as established by the commissioner. A fiscal intermediary's responsibilities shall not include, and a fiscal intermediary shall not engage in: managing the plan of care including recruiting and hiring a sufficient number of individuals who meet the definition of consumer directed personal assistant, as such term is defined by the commissioner, to provide authorized services that are included on the consumer's plan of care; training, supervising and scheduling each consumer directed personal assistant; terminating the consumer directed personal assistant's employment; or assuring that each consumer directed personal assistant competently and safely performs the personal care services, home health aide services and skilled nursing tasks that are included on the consumer's plan of care. A fiscal intermediary shall exercise reasonable care in properly carrying out its responsibilities under the program. Notwithstanding any inconsistent provision of sections one hundred twelve and one hundred sixty-three of the state finance law, or section one hundred forty-two of the economic development law, or any other law, the commissioner is authorized to enter into a contract or with an entity or entities without a competitive bid or request for proposal process, provided, however, that:

(i) the department shall post on its website, for a period of no less than thirty days:
(A) a description of the proposed services to be provided pursuant to the contract or contracts;
(B) the criteria for selection of a contractor or contractors;
(C) the period of time during which a prospective contractor may seek selection, which shall be no less than thirty days after such information is first posted on the website; and
(D) the manner by which a prospective contractor may seek such selection, which may include submission by electronic means;
(ii) all reasonable and responsive submissions that are received from prospective contractors in timely fashion shall be reviewed by the commissioner; and
(iii) the commissioner shall select such contractor or contractors that, in his or her discretion, are best suited to serve the purposes established herein;
And, further, a fiscal intermediary's authorization as described above may be revoked, suspended, limited or annulled
upon thirty day's written notice to the
fiscal intermediary, if the commissioner
finds that the fiscal intermediary has
failed to comply with the provisions
established herein or regulations
promulgated hereunder. Notwithstanding the
foregoing, upon determining that the
public health or safety would be
imminently endangered by the continued
authorization of the fiscal intermediary,
the commissioner may revoke, suspend,
limit or annul the fiscal intermediary's
authorization immediately.
All such orders or determinations shall be
subject to review as provided in article
seventy-eight of the civil practice law
and rules;
And, further, the commissioner may, subject
to the approval of the director of budget,
file for such federal waivers as may be
needed for the implementation of the
program.
(b) Notwithstanding any other provision of
law, the commissioner is authorized to
waive any provision of section three
hundred sixty-seven-b of the social
services law related to payment and may
promulgate regulations necessary to carry
out the objectives of the program, and
which describe the responsibilities of the
eligible individuals in arranging and
paying for services and the protections
assured such individuals if they are
unable or no longer desire to continue in
the program;
And, further, notwithstanding any
inconsistent provision above or any other
contrary provision of law, managed care
programs established pursuant to section
three hundred sixty-four-j of the social
services law and managed long term care
plans and other care coordination models
established pursuant to section four
thousand four hundred three-f of the
public health law shall offer consumer
directed personal assistance programs to
enrollees;
And, further, notwithstanding any
inconsistent provision above or any other
contrary provision of law, the foregoing
provisions shall only be available if the
commissioner of health determines that
there is adequate federal financial
participation to fund expenditures for
such programs and/or entities incurred
under the provisions herein;
And, further, subject to the availability of
federal financial participation, the
foregoing provisions governing consumer
directed personal assistance services
shall also apply to such services when
offered under the home and community-based
attendant services and supports state plan
option (Community First Choice) pursuant
to 42 U.S.C. § 1396n(k);
Provided, however, if the director of the
budget determines that this chapter
appropriates sufficient additional funds
to achieve savings related to a transition
to a fiscal intermediary or intermediaries
that contract directly with the state,
then the provisions of this paragraph
shall not apply and shall be considered
null and void as of March 31, 2019.
Notwithstanding any inconsistent provision
of law, rule or regulation to the
contrary, for the period April 1, 2019
through March 31, 2021, the commissioner
of health is authorized to manage medicaid
transportation services using the
contracted transportation manager or
managers for transportation provided to
enrollees of managed long term care plans,
with the exception of a program designated
as a program of all-inclusive care for the
elderly (PACE) as authorized by federal
public law 105-33, subtitle I of title IV
Provided, however, if the director of the
budget determines that this chapter
appropriates sufficient additional funds
to pay for medicaid transportation
services provided to enrollees of managed
long term care plans without the use of a
transportation manager or managers then
the provisions of this paragraph shall not
apply and shall be considered null and
void as of March 31, 2019.
Notwithstanding any provision of law to the
contrary, the portion of this appropri-
ation covering fiscal year 2019-20 shall
supersede and replace any duplicative (i)
reappropriation for this item covering
fiscal year 2019-20, and (ii) appropri-
ation for this item covering fiscal year
2019-20 set forth in chapter 53 of the
laws of 2018 (26951) .................... 10,958,332,000
For services and expenses of the medical
assistance program including managed care
services including regional planning
activities of the finger lakes health
systems agency, including statewide
coordination and demonstration of best
practices. The department shall make
grants within amounts appropriated
therefor, to assure high-quality and
accessible primary care, to provide
technical assistance to support financial
and business planning for integrated
systems of care, and to assist primary
care providers in the adoption,
implementation, and meaningful use of
electronic health record technology.
Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for state fiscal years 2019-2020 and 2020-2021, the rates and payment methodologies set forth in the provisions of paragraph (b) of subdivision (35) of section 2807-c of the public health law may incorporate methodologies to reduce payments to facilities with a higher percentage of potentially avoidable inpatient services by instituting lower inpatient payment rates for both fee-for-service and managed care to incentivize the provision of preventative care to reduce preventable events and overall inpatient costs. A portion of such savings derived from the implementation of such payment methodologies shall be reinvested in initiatives to incentivize the provision of preventative care, maternity services, and other ambulatory care services to reduce preventable health care costs. Provided, however, if the director of the budget determines that this chapter appropriates sufficient additional funds to allow for the alteration of such rates and payment methodologies pursuant to public health law section 2807-c (b) (35) (xiv), then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2019.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2019 through March 31, 2021, medical assistance for needy persons shall include, as part of standard coverage, evidence-based prevention and support services recognized by the federal centers for disease control (CDC), provided by a community-based organization, and designed to prevent individuals at risk of developing diabetes from developing type 2 diabetes. Provided, however, if the director of the budget determines that this chapter appropriates sufficient additional funds to pay for such medicaid coverage, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2019.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2019 through March 31, 2021, the commissioner of health may by regulation specify certain drugs which may be dispensed without a prescription as required by section 6810 of the education law that shall be reimbursed by the medicaid program in accordance with a price schedule established by such commissioner.
Amendments to the regulation specifying Medicaid reimbursable, nonprescription drugs may be adopted by the commissioner of health on an emergency basis. The co-payment charged for drugs dispensed without a prescription as required by section 6810 of the Education law but which are reimbursed by the Medicaid program shall be one dollar. Provided, however, if the director of the budget determines that this chapter appropriates sufficient additional funds to allow the Medicaid program to continue to cover drugs which may be dispensed without a prescription as required by section 6810 of the Education law with a required co-payment of only $0.50, and without the ability to remove drugs from the list of covered over-the-counter drugs by means of emergency rulemaking, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2019.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2019 through March 31, 2021, the medical assistance program may authorize payment for a drug that is not on the preferred drug list if certain criteria are met, including:

(i) the preferred drug has been tried by the patient and has failed to produce the desired health outcomes; (ii) the patient has tried the preferred drug and has experienced unacceptable side effects; (iii) the patient has been stabilized on a non-preferred drug and transition to the preferred drug would be medically contraindicated; or (iv) other clinical indications identified by the committee for the patient's use of the non-preferred drug, which shall include consideration of the medical needs of special populations, including children, elderly, chronically ill, persons with mental health conditions, and persons affected by HIV/AIDS. In the event that the patient does not meet this criteria, the prescriber may provide additional information to the medical assistance program to justify the use of the drug. The program shall provide a reasonable opportunity for the prescriber to reasonably present his or her justification of prior authorization. The program will consider the additional information and the justification presented to determine whether the use of a prescription drug that is not on the preferred drug list is warranted. In addition, managed care providers
participating in the medical assistance program shall be required to cover non-
formulary drugs for medical assistance recipients only if the prescriber, after
consulting with the managed care provider, demonstrates that such drugs, in the
prescriber's reasonable professional judgment, are medically necessary and warranted. Provided, however, if the
director of the budget determines that this chapter appropriates sufficient
additional funds to allow the medical assistance program to pay for drugs that
are not on the preferred drug list or on the formulary of a managed care provider
participating in the medical assistance program based solely on the determination
of the prescriber that the use of the drugs is warranted, then the provisions of
this paragraph shall not apply and shall be considered null and void as of March
31, 2019.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for state fiscal years 2019-20 and 2020-21, any contract or other arrangement for pharmacy benefit management services entered into by a health care plan shall include provisions that ensure the following: (i) Payment to the pharmacy benefit manager for pharmacy benefit management services is limited to the actual ingredient costs, a dispensing fee, and an administrative fee for each claim processed. The commissioner of health may establish a maximum administrative fee; (ii) The pharmacy benefit manager identifies all sources of income related to the provision of pharmacy benefit management services on behalf of the health care plan, including, but not limited to, any discounts or supplemental rebates, and that any portion of such income is passed through to the health care plan in full to reduce the reportable ingredient cost; (iii) The pharmacy benefit manager shall not retain any portion of spread pricing. For purposes of this provision "spread pricing" means any amount charged or claimed by the pharmacy benefit manager in excess of the amount paid to pharmacies on behalf of the health care plan less an administrative fee as described above. Any such excess amount shall be remitted to the health care plan on a quarterly basis. The commissioner may promulgate regulations as necessary to establish additional standards for contracts or other arrangements related to the services described above. Provided, however, if the director of the budget determines that
this chapter appropriates sufficient additional funds to allow the narrowing of the spread between the amount the managed care organization is charged by the pharmacy benefit manager for prescriptions and the amount actually paid to the pharmacy and the cost to the medicaid program, then the provisions of this paragraph shall not apply and shall be considered null and void.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for state fiscal year 2019-20, the commissioners of the department of health, the office of mental health, the office for people with developmental disabilities, and the office of alcoholism and substance abuse services are authorized to waive any regulatory requirements as are necessary, consistent with applicable law, to allow providers that are involved in DSRIP projects or replication and scaling activities, as approved by the authorizing commissioner, to avoid duplication of requirements and to allow the efficient scaling and replication of DSRIP promising practices, as determined by the authorizing commissioner; provided however, that regulations pertaining to patient safety may not be waived, nor shall any regulations be waived if such waiver would risk patient safety. Provided, further, however, if the director of the budget determines that this chapter appropriates sufficient additional funds to allow the waiver of such regulatory requirements for the purposes described above, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2019.

Notwithstanding any provision of law to the contrary, the portion of this appropriation covering fiscal year 2019-20 shall supersede and replace any duplicative (i) reappropriation for this item covering fiscal year 2019-20, and (ii) appropriation for this item covering fiscal year 2019-20 set forth in chapter 53 of the laws of 2018 (26952) ................. 15,061,616,000

For services and expenses of the medical assistance program including pharmacy services.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for state fiscal years 2020-21, the medicaid drug expenditure growth target shall be limited to the ten-year rolling average of the medical component of the consumer price index plus four percent and minus a pharmacy savings target of $85,000,000.
Further, for state fiscal years 2019-2020 and 2020-21: The department and the division of the budget shall not be required to report quarterly to the drug utilization review board the projected state funds medicaid drug expenditures. Rebates for drugs covered by medicaid and negotiated with manufactures may be based on evidence-based research, including, but not limited to: research operated or conducted by or for other state governments, the federal government, the governments of other nations, third party payers or multi-state coalitions.

In the event that the commissioner and the manufacturer previously agreed to a supplemental rebate for a drug pursuant to paragraph (b) of subdivision (2) of section 280 of the public health law, or paragraph (e) of subdivision 7 of section 367-a of the social services law, the drug shall not be prohibited from referral to the drug utilization review board for any further supplemental rebate for the duration of the previous rebate agreement.

When considering a drug’s actual cost to the state, including current rebate amounts, prior to seeking an additional rebate pursuant to paragraph (b) or (c) of subdivision (2) of section 280 of the public health law, the department shall not be required to take into consideration whether the manufacturer of the drug is providing significant discounts relative to other drugs covered by the medicaid program.

If, pursuant to section 280 of the public health law, the drug utilization review board recommends a target rebate amount on a drug referred by the commissioner, the department shall negotiate with the drug’s manufacturer for a supplemental rebate to be paid by the manufacturer in an amount not to exceed such target rebate amount. A rebate requirement shall apply beginning with the first day of the state fiscal year during which the rebate was required, without regard to the date the department enters into the rebate agreement with the manufacturer.

The commissioner shall report by July, rather than February, first annually to the drug utilization review board on savings achieved through the drug cap in the last fiscal year.

Provided, however, if the director of the budget determines that this chapter appropriates sufficient additional funds to achieve commensurate savings then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2019.
Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2019 through March 31, 2021, the commissioner of health may by regulation specify certain drugs which may be dispensed without a prescription as required by section 6810 of the education law that shall be reimbursed by the medicaid program in accordance with a price schedule established by such commissioner.

Amendments to the regulation specifying medicaid reimbursable, nonprescription drugs may be adopted by the commissioner of health on an emergency basis. The co-payment charged for drugs dispensed without a prescription as required by section 6810 of the education law but which are reimbursed by the medicaid program shall be one dollar. Provided, however, if the director of the budget determines that this chapter appropriates sufficient additional funds to allow the medicaid program to continue to cover drugs which may be dispensed without a prescription as required by section 6810 of the education law with a required co-payment of only $0.50, and without the ability to remove drugs from the list of covered over-the-counter drugs by means of emergency rulemaking, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2019.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2019 through March 31, 2021, the medical assistance program may authorize payment for a drug that is not on the preferred drug list if certain criteria are met, including:

(i) the preferred drug has been tried by the patient and has failed to produce the desired health outcomes; (ii) the patient has tried the preferred drug and has experienced unacceptable side effects; (iii) the patient has been stabilized on a non-preferred drug and transition to the preferred drug would be medically contraindicated; or (iv) other clinical indications identified by the committee for the patient's use of the non-preferred drug, which shall include consideration of the medical needs of special populations, including children, elderly, chronically ill, persons with mental health conditions, and persons affected by HIV/AIDS. In the event that the patient does not meet this criteria, the prescriber may provide additional information to the medical assistance
program to justify the use of the drug. The program shall provide a reasonable opportunity for the prescriber to reasonably present his or her justification of prior authorization. The program will consider the additional information and the justification presented to determine whether the use of a prescription drug that is not on the preferred drug list is warranted. In addition, managed care providers participating in the medical assistance program shall be required to cover non-formulary drugs for medical assistance recipients only if the prescriber, after consulting with the managed care provider, demonstrates that such drugs, in the prescriber's reasonable professional judgment, are medically necessary and warranted. Provided, however, if the director of the budget determines that this chapter appropriates sufficient additional funds to allow the medical assistance program to pay for drugs that are not on the preferred drug list or on the formulary of a managed care provider participating in the medical assistance program based solely on the determination of the prescriber that the use of the drugs is warranted, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2019.

operated by the office of mental health, the office for people with developmental disabilities and the office of alcoholism and substance abuse services and further excluding any payments which are not appropriated within the department of health, in the aggregate, for the period April 1, 2019 through March 31, 2020, shall not exceed $22,251,148,000 except as provided below and state share medicaid spending, in the aggregate, for the period April 1, 2020 through March 31, 2021, shall not exceed $23,256,018,000 but in no event shall department of health state funds medicaid spending for the period April 1, 2019 through March 31, 2021 exceed $45,507,166,000 provided, however, such aggregate limits may be adjusted by the director of the budget to account for any changes in the New York state federal medical assistance percentage amount established pursuant to the federal social security act, increases in provider revenues, reductions in local social services district payments for medical assistance administration, minimum wage increases and beginning April 1, 2012 the operational costs of the New York state medical indemnity fund, pursuant to chapter 59 of the laws of 2011, and state costs or savings from the essential plan program. Such projections may be adjusted by the director of the budget to account for increased or expedited department of health state funds medicaid expenditures as a result of a natural or other type of disaster, including a governmental declaration of emergency. The director of the budget, in consultation with the commissioner of health, shall assess on a monthly basis known and projected medicaid expenditures by category of service and by geographic region, as determined by the commissioner of health, incurred both prior to and subsequent to such assessment for each such period, and if the director of the budget determines that such expenditures are expected to cause medicaid spending for such period to exceed the aggregate limit specified herein for such period, the state medicaid director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allocation plan to limit such spending to the aggregate limit specified herein for such period. Such medicaid savings allocation plan shall be designed, to reduce the expenditures authorized by the appropriations herein in compliance with the following guidelines: (1) reductions shall be made in compliance with applicable federal law, including the
provisions of the Patient Protection and
Affordable Care Act, Public Law No. 111-
148, and the Health Care and Education
Reconciliation Act of 2010, Public Law No.
111-152 (collectively "Affordable Care
Act") and any subsequent amendments there-
to or regulations promulgated thereunder;
(2) reductions shall be made in a manner
that complies with the state medicaid plan
approved by the federal centers for medi-
care and medicaid services, provided,
however, that the commissioner of health
is authorized to submit any state plan
amendment or seek other federal approval,
including waiver authority, to implement
the provisions of the medicaid savings
allocation plan that meets the other
criteria set forth herein; (3) reductions
shall be made in a manner that maximizes
federal financial participation, to the
extent practicable, including any federal
financial participation that is available
or is reasonably expected to become avail-
able, in the discretion of the commission-
er, under the Affordable Care Act; (4)
reductions shall be made uniformly among
categories of services and geographic
regions of the state, to the extent prac-
ticable, and shall be made uniformly with-
in a category of service, to the extent
practicable, except where the commissioner
determines that there are sufficient
grounds for non-uniformity, including but
not limited to: the extent to which
specific categories of services contrib-
uted to department of health medicaid
state funds spending in excess of the
limits specified herein; the need to main-
tain safety net services in underserved
communities; or the potential benefits of
pursuing innovative payment models contem-
plated by the Affordable Care Act, in
which case such grounds shall be set forth
in the medicaid savings allocation plan;
and (5) reductions shall be made in a
manner that does not unnecessarily create
administrative burdens to medicaid appli-
cants and recipients or providers.

The commissioner shall seek the input of the
legislature, as well as organizations
representing health care providers,
consumers, businesses, workers, health
insurers, and others with relevant exper-
tise, in developing such medicaid savings
allocation plan, to the extent that all or
part of such plan, in the discretion of
the commissioner, is likely to have a
material impact on the overall medicaid
program, particular categories of service
or particular geographic regions of the
state.
(a) The commissioner shall post the medicaid savings allocation plan on the department of health's website and shall provide written copies of such plan to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

(b) The commissioner may revise the medicaid savings allocation plan subsequent to the provisions of notice and prior to implementation but needs to provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the plan.

Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this subdivision if, in the discretion of the commissioner, expedited development and implementation of a medicaid savings allocation plan is necessary due to a public health emergency.

For purposes of this section, a public health emergency is defined as: (i) a disaster, natural or otherwise, that significantly increases the immediate need for health care personnel in an area of the state; (ii) an event or condition that creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or (iii) any other event or condition determined by the commissioner to constitute an imminent threat to public health.

Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation plan from taking effect retroactively to the extent permitted by the federal centers for medicare and medicaid services.

In accordance with the medicaid savings allocation plan, the commissioner of the department of health shall reduce department of health state funds medicaid spending by the amount of the projected overspending through, actions including, but not limited to modifying or suspending reimbursement methods, including but not limited to all fees, premium levels and rates of payment, notwithstanding any provision of law that sets a specific amount or methodology for any such payments or rates of payment; modifying medicaid program benefits; seeking all necessary federal approvals, including, but not limited to waivers, waiver amendments; and suspending time frames for

Notwithstanding section 40 of the state finance law or any other law to the contrary, all medical assistance appropriations made from this account shall remain in full force and effect in accordance, in the aggregate, with the following schedule: not more than 51 percent for the period April 1, 2019 to March 31, 2020; and the remaining amount for the period April 1, 2020 to March 31, 2021.

administration, minimum wage increases and
beginning April 1, 2012 the operational
costs of the New York state medical indem-

from the essential plan. Such projections
may be adjusted by the director of the

cy. The director of the budget, in consul-
tation with the commissioner of health,
shall assess on a monthly basis known and
projected medicaid expenditures by catego-
ry of service and by geographic region, as
determined by the commissioner of health,
incurred both prior to and subsequent to
such assessment for each such period, and
if the director of the budget determines
that such expenditures are expected to
cause medicaid spending for such period to
exceed the aggregate limit specified here-
in for such period, the state medicaid
director, in consultation with the direc-
tor of the budget and the commissioner of
health, shall develop a medicaid savings
allocation plan to limit such spending to
the aggregate limit specified herein for
such period.
Such medicaid savings allocation plan shall
be designed, to reduce the expenditures
authorized by the appropriations herein in
compliance with the following guidelines:
(1) reductions shall be made in compliance
with applicable federal law, including the
provisions of the Patient Protection and
Affordable Care Act, Public Law No. 111-
148, and the Health Care and Education
Reconciliation Act of 2010, Public Law No.
111-152 (collectively "Affordable Care
Act") and any subsequent amendments there-
-to or regulations promulgated thereunder;
(2) reductions shall be made in a manner
that complies with the state medicaid plan
approved by the federal centers for medi-
care and medicaid services, provided,
however, that the commissioner of health
is authorized to submit any state plan
amendment or seek other federal approval,
including waiver authority, to implement
the provisions of the medicaid savings
allocation plan that meets the other
criteria set forth herein; (3) reductions
shall be made in a manner that maximizes
federal financial participation, to the
extent practicable, including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the Affordable Care Act; (4) reductions shall be made uniformly among categories of services and geographic regions of the state, to the extent practicable, and shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific categories of services contributed to department of health medicaid state funds spending in excess of the limits specified herein; the need to maintain safety net services in underserved communities; or the potential benefits of pursuing innovative payment models contemplated by the Affordable Care Act, in which case such grounds shall be set forth in the medicaid savings allocation plan; and (5) reductions shall be made in a manner that does not unnecessarily create administrative burdens to medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation plan, to the extent that all or part of such plan, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation plan on the department of health's website and shall provide written copies of such plan to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

(b) The commissioner may revise the medicaid savings allocation plan subsequent to the provisions of notice and prior to implementation but needs to provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the plan.

Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to para-
graph (b) of this subdivision if, in the
discretion of the commissioner, expedited
development and implementation of a medi-
caid savings allocation plan is necessary
due to a public health emergency.
For purposes of this section, a public
health emergency is defined as: (i) a
disaster, natural or otherwise, that
significantly increases the immediate need
for health care personnel in an area of
the state; (ii) an event or condition that
creates a widespread risk of exposure to a
serious communicable disease, or the
potential for such widespread risk of
exposure; or (iii) any other event or
condition determined by the commissioner
to constitute an imminent threat to public
health.
Nothing in this paragraph shall be deemed to
prevent all or part of such medicaid
savings allocation plan from taking effect
retroactively to the extent permitted by
the federal centers for medicare and medi-
caid services.
In accordance with the medicaid savings
allocation plan, the commissioner of the
department of health shall reduce depart-
ment of health state funds medicaid spend-
ing by the amount of the projected over-
spending through, actions including, but
not limited to modifying or suspending
reimbursement methods, including but not

provision of law that sets a specific
amount or methodology for any such
payments or rates of payment; modifying
medicaid program benefits; seeking all
necessary federal approvals, including,
but not limited to waivers, waiver amend-
ments; and suspending time frames for
notice, approval or certification of rate
requirements, notwithstanding any
provision of law, rule or regulation to
the contrary, including but not limited to
sections 2807 and 3614 of the public

Medical Assistance Account - 22187

Notwithstanding section 40 of the state finance law or any other law to the contrary, all medical assistance appropriations made from this account shall remain in full force and effect in accordance, in the aggregate, with the following schedule: not more than 49 percent for the period April 1, 2019 to March 31, 2020; and the remaining amount for the period April 1, 2020 to March 31, 2021.

Notwithstanding section 40 of the state finance law or any provision of law to the contrary, subject to federal approval, department of health state funds medicaid spending, excluding payments for medical services provided at state facilities operated by the office of mental health,
the office for people with developmental
disabilities and the office of alcoholism
and substance abuse services and further
excluding any payments which are not
appropriated within the department of
health, in the aggregate, for the period
April 1, 2019 through March 31, 2020,
shall not exceed $22,251,148,000 except as
provided below and state share medicaid
spending, in the aggregate, for the period
April 1, 2020 through March 31, 2021,
shall not exceed $23,256,018,000 but in
no event shall department of health state
funds medicaid spending for the period
April 1, 2019 through March 31, 2021
exceed $45,507,166,000 provided, however,
such aggregate limits may be adjusted by
the director of the budget to account for
any changes in the New York state federal
medical assistance percentage amount
established pursuant to the federal social
security act, increases in provider revenues, reductions in local social services
district payments for medical assistance
administration, minimum wage increases and
beginning April 1, 2012 the operational
costs of the New York state medical indem-
nity fund, pursuant to chapter 59 of the
laws of 2011, and state costs or savings
from the essential plan. Such projections
may be adjusted by the director of the
budget to account for increased or expe-
dited department of health state funds
medicaid expenditures as a result of a
natural or other type of disaster, includ-
ing a governmental declaration of emergen-
cy. The director of the budget, in consul-
tation with the commissioner of health,
shall assess on monthly basis known and
projected medicaid expenditures by catego-
ry of service and by geographic region, as
determined by the commissioner of health,
incurred both prior to and subsequent to
such assessment for each such period, and
if the director of the budget determines
that such expenditures are expected to
cause medicaid spending for such period to
exceed the aggregate limit specified here-
in for such period, the state medicaid
director, in consultation with the direc-
tor of the budget and the commissioner of
health, shall develop a medicaid savings
allocation plan to limit such spending to
the aggregate limit specified herein for
such period.
Such medicaid savings allocation plan shall
be designed, to reduce the expenditures
authorized by the appropriations herein in
compliance with the following guidelines:
(1) reductions shall be made in compliance
with applicable federal law, including the
provisions of the Patient Protection and
DEPARTMENT OF HEALTH

AID TO LOCALITIES 2019-20

Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No. 111-152 (collectively "Affordable Care Act") and any subsequent amendments there-to or regulations promulgated thereunder; (2) reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation plan that meets the other criteria set forth herein; (3) reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the Affordable Care Act; (4) reductions shall be made uniformly among categories of services and geographic regions of the state, to the extent practicable, and shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific categories of services contributed to department of health medicaid state funds spending in excess of the limits specified herein; the need to maintain safety net services in underserved communities; or the potential benefits of pursuing innovative payment models contemplated by the Affordable Care Act, in which case such grounds shall be set forth in the medicaid savings allocation plan; and (5) reductions shall be made in a manner that does not unnecessarily create administrative burdens to medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation plan, to the extent that all or part of such plan, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation plan on the department

of health's website and shall provide
written copies of such plan to the chairs
of the senate finance and the assembly
ways and means committees at least 30 days
before the date on which implementation is
expected to begin.

(b) The commissioner may revise the medicaid
savings allocation plan subsequent to the
provisions of notice and prior to imple-
mentation but needs to provide a new
notice pursuant to subparagraph (i) of
this paragraph only if the commissioner
determines, in his or her discretion, that
such revisions materially alter the plan.

Notwithstanding the provisions of paragraphs
(a) and (b) of this subdivision, the
commissioner need not seek the input
described in paragraph (a) of this subdi-
vision or provide notice pursuant to para-
graph (b) of this subdivision if, in the
discretion of the commissioner, expedited
development and implementation of a medi-
caid savings allocation plan is necessary
due to a public health emergency.

For purposes of this section, a public
health emergency is defined as: (i) a
disaster, natural or otherwise, that
significantly increases the immediate need
for health care personnel in an area of
the state; (ii) an event or condition that
creates a widespread risk of exposure to a
serious communicable disease, or the
potential for such widespread risk of
exposure; or (iii) any other event or
condition determined by the commissioner
to constitute an imminent threat to public
health.

Nothing in this paragraph shall be deemed to
prevent all or part of such medicaid
savings allocation plan from taking effect
retroactively to the extent permitted by
the federal centers for medicare and medi-
caid services.

In accordance with the medicaid savings
allocation plan, the commissioner of the
department of health shall reduce depart-
ment of health state funds medicaid spend-
ing by the amount of the projected over-
spending through, actions including, but
not limited to modifying or suspending
reimbursement methods, including but not
limited to all fees, premium levels and
rates of payment, notwithstanding any
provision of law that sets a specific
amount or methodology for any such
payments or rates of payment; modifying
medicaid program benefits; seeking all
necessary federal approvals, including,
but not limited to waivers, waiver amend-
ments; and suspending time frames for
notice, approval or certification of rate
requirements, notwithstanding any
The department of health shall prepare a monthly report that sets forth: (a) known and projected department of health medicaid expenditures as described in subdivision (1) of this section, and factors that could result in medicaid disbursements for the relevant state fiscal year to exceed the projected department of health state funds disbursements in the enacted budget financial plan pursuant to subdivision 3 of section 23 of the state finance law, including spending increases or decreases due to: enrollment fluctuations, rate changes, utilization changes, MRT investments, and shift of beneficiaries to managed care; and variations in offline medicaid payments; and (b) the actions taken to implement any medicaid savings allocation plan implemented pursuant to subdivision (4) of this section, including information concerning the impact of such actions on each category of service and each geographic region of the state. Each such monthly report shall be provided to the chairs of the senate finance and the assembly ways and means committees and shall be posted on the department of health’s website in a timely manner.

For the purpose of making payments to providers of medical care pursuant to section 367-b of the social services law, and for payment of state aid to municipalities and the federal government where payment systems through fiscal intermediaries are not operational, to reimburse the provision of care to patients eligible for medical assistance.

For services and expenses of the medical assistance program including nursing home, personal care, certified home health agency, long term home health care program and hospital services.

DEPARTMENT OF HEALTH

AID TO LOCALITIES - REAPPROPRIATIONS 2019-20

Notwithstanding any inconsistent provision of law and subject to the approval of the director of budget, moneys hereby appropriated may be increased or decreased by transfer or interchange between these appropriated amounts and appropriations of the medical assistance administration program, the medical assistance program, and the office of health insurance programs. Funding authority from this account used for state administration of the medical assistance program may be transferred to state operations appropriations within the aforementioned programs at amounts agreed upon by the commissioner of health, and the New York state division of the budget.

Notwithstanding section 40 of the state finance law or any other law to the contrary, all medical assistance appropriations made from this account shall remain in full force and effect in accordance, in the aggregate, with the following schedule: not more than 50 percent for the period April 1, 2018 to March 31, 2019; and the remaining amount for the period April 1, 2019 to [March 31] September 15, 2020.

Notwithstanding section 40 of the state finance law or any provision of law to the contrary, subject to federal approval, department of health state funds medicaid spending, excluding payments for medical services provided at state facilities operated by the office of mental health, the office for people with developmental disabilities and the office of alcoholism and substance abuse services and further excluding any payments which are not appropriated within the department of health, in the aggregate, for the period April 1, [2018] 2019 through March 31, [2019] 2020, shall not exceed [[$20,960,018,000] $22,251,148,000] except as provided below and state share medicaid spending, in the aggregate, for the period April 1, [2019] 2020 through [March 31] September 15, [2020] 2021, shall not exceed [[$22,044,311,000] $23,256,018,000], but in no event shall department of health state funds medicaid spending for the period April 1, [2018] 2019 through March 31, [2020] 2021 exceed [[$43,004,329,000] $45,507,166,000] provided, however, such aggregate limits may be adjusted by the director of the budget to account for any changes in the New York state federal medical assistance percentage amount established pursuant to the federal social security act, increases in provider revenues, reductions in local social services district payments for medical assistance administration, minimum wage increases and beginning April 1, 2012 the operational costs of the New York state medical indemnity fund, pursuant to chapter 59 of the laws of 2011, and state costs or savings from the essential plan program. Such projections may be adjusted by the director of the budget to account for increased or expedited department of health state funds medicaid expenditures as a result of a natural or other type of disaster, including a governmental declaration of emergency. The director of the budget, in consultation with the commissioner of health, shall assess on a monthly basis known and projected medicaid expenditures by category of service and by geographic region, as determined by the commissioner of health, incurred both prior to and subsequent to such assessment for each such period, and if the director of the budget determines that such expenditures are expected to cause medicaid spending for such period to exceed the aggregate limit specified herein for such period, the state medicaid director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allocation plan to limit such spending to the aggregate limit specified herein for such period.

Such medicaid savings allocation plan shall be designed, to reduce the expenditures authorized by the appropriations herein in compliance with the following guidelines: (1) reductions shall be made in
compliance with applicable federal law, including the provisions of
the Patient Protection and Affordable Care Act, Public Law No. 111-
148, and the Health Care and Education Reconciliation Act of 2010,
Public Law No. 111-152 (collectively "Affordable Care Act") and any
subsequent amendments thereto or regulations promulgated thereunder;
(2) reductions shall be made in a manner that complies with the
state medicaid plan approved by the federal centers for medicare and
medicaid services, provided, however, that the commissioner of
health is authorized to submit any state plan amendment or seek
other federal approval, including waiver authority, to implement the
provisions of the medicaid savings allocation plan that meets the
other criteria set forth herein; (3) reductions shall be made in a
manner that maximizes federal financial participation, to the extent
practicable, including any federal financial participation that is
available or is reasonably expected to become available, in the
discretion of the commissioner, under the Affordable Care Act; (4)
reductions shall be made uniformly among categories of services and
geographic regions of the state, to the extent practicable, and
shall be made uniformly within a category of service, to the extent
practicable, except where the commissioner determines that there are
sufficient grounds for non-uniformity, including but not limited to:
the extent to which specific categories of services contributed to
department of health medicaid state funds spending in excess of the
limits specified herein; the need to maintain safety net services in
underserved communities; or the potential benefits of pursuing
innovative payment models contemplated by the Affordable Care Act,
in which case such grounds shall be set forth in the medicaid
savings allocation plan; and (5) reductions shall be made in a
manner that does not unnecessarily create administrative burdens to
medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as
organizations representing health care providers, consumers,
businesses, workers, health insurers, and others with relevant
expertise, in developing such medicaid savings allocation plan, to
the extent that all or part of such plan, in the discretion of the
commissioner, is likely to have a material impact on the overall
medicaid program, particular categories of service or particular
geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation plan
on the department of health's website and shall provide written
copies of such plan to the chairs of the senate finance and the
assembly ways and means committees at least 30 days before the date
on which implementation is expected to begin.

(b) The commissioner may revise the medicaid savings allocation plan
subsequent to the provisions of notice and prior to implementation
but needs to provide a new notice pursuant to subparagraph (i) of
this paragraph only if the commissioner determines, in his or her
discretion, that such revisions materially alter the plan.

Notwithstanding the provisions of paragraphs (a) and (b) of this
subdivision, the commissioner need not seek the input described in
paragraph (a) of this subdivision or provide notice pursuant to
paragraph (b) of this subdivision if, in the discretion of the
commissioner, expedited development and implementation of a medicaid
savings allocation plan is necessary due to a public health
emergency.

For purposes of this section, a public health emergency is defined as:
(i) a disaster, natural or otherwise, that significantly increases
the immediate need for health care personnel in an area of the
state; (ii) an event or condition that creates a widespread risk of
exposure to a serious communicable disease, or the potential for
such widespread risk of exposure; or (iii) any other event or
condition determined by the commissioner to constitute an imminent threat to public health. Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation plan from taking effect retroactively to the extent permitted by the federal centers for medicare and medicaid services.

In accordance with the medicaid savings allocation plan, the commissioner of the department of health shall reduce department of health state funds medicaid spending by the amount of the projected over-spending through, actions including, but not limited to modifying or suspending reimbursement methods, including but not limited to all fees, premium levels and rates of payment, notwithstanding any provision of law that sets a specific amount or methodology for any such payments or rates of payment; modifying medicaid program benefits; seeking all necessary federal approvals, including, but not limited to waivers, waiver amendments; and suspending time frames for notice, approval or certification of rate requirements, notwithstanding any provision of law, rule or regulation to the contrary, including but not limited to sections 2807 and 3614 of the public health law, section 18 of chapter 2 of the laws of 1988, and 18 NYCRR 505.14(h).

The department of health shall prepare a monthly report that sets forth: (a) known and projected department of health medicaid expenditures as described in subdivision (1) of this section, and factors that could result in medicaid disbursements for the relevant state fiscal year to exceed the projected department of health state funds disbursements in the enacted budget financial plan pursuant to subdivision 3 of section 23 of the state finance law, including spending increases or decreases due to: enrollment fluctuations, rate changes, utilization changes, MRT investments, and shift of beneficiaries to managed care; and variations in offline medicaid payments; and (b) the actions taken to implement any medicaid savings allocation plan implemented pursuant to subdivision (4) of this section, including information concerning the impact of such actions on each category of service and each geographic region of the state. Each such monthly report shall be provided to the chairs of the senate finance and the assembly ways and means committees and shall be posted on the department of health's website in a timely manner.

MEDICAL ASSISTANCE PROGRAM

The appropriation made by chapter 53, section 1, of the laws of 2018, is hereby amended and reappropriated to read:

For the medical assistance program, including administrative expenses, for local social services districts, and for medical care rates for authorized child care agencies.

Notwithstanding section 40 of the state finance law or any other law to the contrary, all medical assistance appropriations made from this account shall remain in full force and effect in accordance, in the aggregate, with the following schedule: not more than 48 percent for the period April 1, 2018 to March 31, 2019; and the remaining amount for the period April 1, 2019 to [March 31] September 15, 2020.

Notwithstanding section 40 of the state finance law or any provision of law to the contrary, subject to federal approval, department of health state funds medicaid spending, excluding payments for medical services provided at state facilities operated by the office of mental health, the office for people with developmental disabilities and the office of alcoholism and substance abuse services and further excluding any payments which are not appropriated within the department of health, in the aggregate, for the period April 1, [2018] 2019 through March 31, [2019] 2020, shall not exceed [$20,960,018,000] $22,251,148,000 except as provided below and state share medicaid spending, in the aggregate, for the period April 1, [2019] 2020 through March 31, [2020] 2021, shall not exceed [$22,044,311,000] $23,256,018,000, but in no event shall department of health state funds medicaid spending for the period April 1, [2018] 2019 through March 31, [2020] 2021 exceed [$43,004,329,000] $45,507,166,000 provided, however, such aggregate limits may be adjusted by the director of the budget to account for any changes in the New York state federal medical assistance percentage amount established pursuant to the federal social security act, increases in provider revenues, reductions in local social services district payments for medical assistance administration, minimum wage increases and beginning April 1, 2012 the operational costs of the New York state medical indemnity fund, pursuant to chapter 59 of the laws of 2011, and state costs or savings from the essential plan program. Such projections may be adjusted by the director of the budget to account for increased or expedited department of health state funds medicaid expenditures as a result of a natural or other type of disaster, including a governmental declaration of emergency. The director of the budget, in consultation with the commissioner of health, shall assess on a monthly basis known and projected medicaid expenditures by category of service and by geographic region, as defined by the commissioner, incurred both prior to and subsequent to such assessment for each such period, and if the director of the budget determines that such expenditures are expected to cause medicaid spending for such period to exceed the aggregate limit
specifying herein for such period, the state medicaid director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allocation plan to limit such spending to the aggregate limit specified herein for such period.

Such medicaid savings allocation plan shall be designed, to reduce the expenditures authorized by the appropriations herein in compliance with the following guidelines: (1) reductions shall be made in compliance with applicable federal law, including the provisions of the Patient Protection and Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No. 111-152 (collectively "Affordable Care Act") and any subsequent amendments thereto or regulations promulgated thereunder; (2) reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation plan that meets the other criteria set forth herein; (3) reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the Affordable Care Act; (4) reductions shall be made uniformly among categories of services and geographic regions of the state, to the extent practicable, and shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific categories of services contributed to department of health medicaid state funds spending in excess of the limits specified herein; the need to maintain safety net services in underserved communities; or the potential benefits of pursuing innovative payment models contemplated by the Affordable Care Act, in which case such grounds shall be set forth in the medicaid savings allocation plan; and (5) reductions shall be made in a manner that does not unnecessarily create administrative burdens to medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation plan, to the extent that all or part of such plan, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation plan on the department of health's website and shall provide written copies of such plan to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

(b) The commissioner may revise the medicaid savings allocation plan subsequent to the provisions of notice and prior to implementation but needs to provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the plan.

Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this subdivision if, in the discretion of the commissioner, expedited development and implementation of a medicaid

Each such monthly report shall be provided to the chairs of the senate finance and the assembly ways and means committees and shall be posted on the department of health's website in a timely manner.

The appropriation made by chapter 53, section 1, of the laws of 2018, is
hereby amended and reappropriated to read:

Notwithstanding section 40 of the state finance law or any other law
to the contrary, all medical assistance appropriations made from
this account shall remain in full force and effect in accordance, in
the aggregate, with the following schedule: not more than 50 percent
for the period April 1, 2018 to March 31, 2019; and the remaining
amount for the period April 1, 2019 to [March 31] September 15,
2020.
Notwithstanding section 40 of the state finance law or any provision of law to the contrary, subject to federal approval, department of health state funds medicaid spending, excluding payments for medical services provided at state facilities operated by the office of mental health, the office for people with developmental disabilities and the office of alcoholism and substance abuse services and further excluding any payments which are not appropriated within the department of health, in the aggregate, for the period April 1, 2018 through March 31, 2019, shall not exceed $22,251,148,000 except as provided below and state share medicaid spending, in the aggregate, for the period April 1, 2019 through March 31, 2020, shall not exceed $23,256,018,000, but in no event shall department of health state funds medicaid spending for the period April 1, 2018 through March 31, 2020 exceed $45,507,166,000 provided, however, such aggregate limits may be adjusted by the director of the budget to account for any changes in the New York state federal medical assistance percentage amount established pursuant to the federal social security act, increases in provider revenues, reductions in local social services district payments for medical assistance administration, minimum wage increases and beginning April 1, 2012 the operational costs of the New York state medical indemnity fund, pursuant to chapter 59 of the laws of 2011, and state costs or savings from the essential plan program. Such projections may be adjusted by the director of the budget to account for increased or expedited department of health state funds medicaid expenditures as a result of a natural or other type of disaster, including a governmental declaration of emergency. The director of the budget, in consultation with the commissioner of health, shall assess on a monthly basis known and projected medicaid expenditures by category of service and by geographic region, as determined by the commissioner of health, incurred both prior to and subsequent to such assessment for each such period, and if the director of the budget determines that such expenditures are expected to cause medicaid spending for such period to exceed the aggregate limit specified herein for such period, the state medicaid director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allocation plan to limit such spending to the aggregate limit specified herein for such period.

Such medicaid savings allocation plan shall be designed, to reduce the expenditures authorized by the appropriations herein in compliance with the following guidelines: (1) reductions shall be made in compliance with applicable federal law, including the provisions of the Patient Protection and Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No. 111-152 (collectively "Affordable Care Act") and any subsequent amendments thereto or regulations promulgated thereunder; (2) reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation plan that meets the other criteria set forth herein; (3) reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the Affordable Care Act; (4) reductions shall be made uniformly among categories of services and geographic regions of the state, to the extent practicable, and shall be made uniformly within a category of service, to the extent
practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific categories of services contributed to department of health medicaid state funds spending in excess of the limits specified herein; the need to maintain safety net services in underserved communities; or the potential benefits of pursuing innovative payment models contemplated by the Affordable Care Act, in which case such grounds shall be set forth in the medicaid savings allocation plan; and (5) reductions shall be made in a manner that does not unnecessarily create administrative burdens to medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation plan, to the extent that all or part of such plan, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation plan on the department of health's website and shall provide written copies of such plan to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

(b) The commissioner may revise the medicaid savings allocation plan subsequent to the provisions of notice and prior to implementation but needs to provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the plan.

Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this subdivision if, in the discretion of the commissioner, expedited development and implementation of a medicaid savings allocation plan is necessary due to a public health emergency.

For purposes of this section, a public health emergency is defined as: (i) a disaster, natural or otherwise, that significantly increases the immediate need for health care personnel in an area of the state; (ii) an event or condition that creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or (iii) any other event or condition determined by the commissioner to constitute an imminent threat to public health.

Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation plan from taking effect retroactively to the extent permitted by the federal centers for medicare and medicaid services.

In accordance with the medicaid savings allocation plan, the commissioner of the department of health shall reduce department of health state funds medicaid spending by the amount of the projected over-spending through, actions including, but not limited to modifying or suspending reimbursement methods, including but not limited to all fees, premium levels and rates of payment, notwithstanding any provision of law that sets a specific amount or methodology for any such payments or rates of payment; modifying medicaid program benefits; seeking all necessary federal approvals, including, but not limited to waivers, waiver amendments; and suspending time frames for notice, approval or certification of rate requirements, notwithstanding any provision of law, rule or regulation to the contrary, including but not limited to sections
2807 and 3614 of the public health law, section 18 of chapter 2 of
the laws of 1988, and 18 NYCRR 505.14(h).

The department of health shall prepare a monthly report that sets
forth: (a) known and projected department of health medicaid
expenditures as described in subdivision (1) of this section, and
factors that could result in medicaid disbursements for the relevant
state fiscal year to exceed the projected department of health state
funds disbursements in the enacted budget financial plan pursuant to
subdivision 3 of section 23 of the state finance law, including
spending increases or decreases due to: enrollment fluctuations,
rate changes, utilization changes, MRT investments, and shift of
beneficiaries to managed care; and variations in offline medicaid
payments; and (b) the actions taken to implement any medicaid
savings allocation plan implemented pursuant to subdivision (4) of
this section, including information concerning the impact of such
actions on each category of service and each geographic region of
the state. Each such monthly report shall be provided to the chairs
of the senate finance and the assembly ways and means committees and
shall be posted on the department of health's website in a timely
manner.

For the purpose of making payments to providers of medical care
pursuant to section 367-b of the social services law, and for
payment of state aid to municipalities where payment systems through
fiscal intermediaries are not operational, to reimburse such
providers for costs attributable to the provision of care to
patients eligible for medical assistance. Payments from this
appropriation to general hospitals related to indigent care pursuant
to article 28 of the public health law respectively, when combined
with federal funds for services and expenses for the medical
assistance program pursuant to title XIX of the federal social
security act or its successor program, shall equal the amount of the
funds received related to health care reform act allowances and
surcharges pursuant to article 28 of the public health law and
deposited to this account less any such amounts withheld pursuant to
subdivision 21 of section 2807-c of the public health law.
Notwithstanding any inconsistent provision of law, the moneys hereby
appropriated may be increased or decreased by interchange or
transfer with any appropriation of the department of health with the
approval of the director of the budget, who shall file such approval
with the department of audit and control and copies thereof with the
chairman of the senate finance committee and the chairman of the
assembly ways and means committee.

Notwithstanding any provision of law to the contrary, the portion of
this appropriation covering fiscal year 2018-19 shall supersede and
replace any duplicative (i) reappropriation for this item covering
