The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. a) The several amounts specified in this chapter for aid to localities, or so much thereof as shall be sufficient to accomplish the purposes designated by the appropriations, are hereby appropriated and authorized to be paid as hereinafter provided, to the respective public officers and for the several purposes specified.

b) Where applicable, appropriations made by this chapter for expenditures from federal grants for aid to localities may be allocated for spending from federal grants for any grant period beginning, during, or prior to, the state fiscal year beginning on April 1, 2023 except as otherwise noted.

c) The several amounts named herein, or so much thereof as shall be sufficient to accomplish the purpose designated, being the undisbursed and/or unexpended balances of the prior year's appropriations, are hereby reappropriated from the same funds and made available for the same purposes as the prior year's appropriations, unless herein amended, for the fiscal year beginning April 1, 2023. Certain reappropriations in this chapter are shown using abbreviated text, with three leader dots (an ellipsis) followed by three spaces (... ) used to indicate where existing law that is being continued is not shown. However, unless a change is clearly indicated by the use of brackets [ ] for deletions and underscores for additions, the purposes, amounts, funding source and all other aspects pertinent to each item of appropriation shall be as last appropriated.

d) No moneys appropriated by this chapter shall be available for payment until a certificate of approval has been issued by the director of the budget, who shall file such certificate with the department of audit and control, the chairperson of the senate finance committee and the chairperson of the assembly ways and means committee.

e) Notwithstanding any provision of law to the contrary, for purposes of any appropriation made by this chapter which authorizes spending in an amount net of refunds, rebates, reimbursements, credits, repayments, and/or disallowances, "refunds" shall mean funds received to the state resulting from the overpayment of monies, "rebates" shall mean funds...
received to the state resulting from a return of a full or partial
amount previously paid, as for goods or services, serving as a
reduction, discount or rebate to the original payment amount,
"reimbursements" shall mean funds received to the state as repayment in
an equivalent amount for goods or services, including but not limited to
personal service costs, incurred by the state in the first instance

available to the state that reduce the amount owed to a third party,
including but not limited to billing errors, rebates, and prior overpay-
ments, "repayment" shall mean the return of monies as pay back for
expenses incurred, and "disallowance" shall mean monies made available
to the state that were not allowed or accepted officially by the

such refunds, rebates, reimbursements, credits, repayments, and/or
disallowances, he or she shall credit the refunded, rebated, reimbursed,
credited, repaid, and disallowed amount back to the original appropri-
ation and reduce expenditures in the year which such credit is received
regardless of the timing of the initial expenditure.

f) Notwithstanding any other provision of law to the contrary, if the
state or any agency thereof incurs any costs associated with administer-
ing the rent regulation program in accordance with subdivision (c) of
section 8 of chapter 576 of the laws of 1974, as amended, for a city
having a population of one million or more, the director of the budget
may direct any other state agency or agencies making payments to such
city, or any department, agency, or instrumentality thereof, to perma-
nently reduce the amount of any other payment or payments owed to such
city or any department, agency, or instrumentality thereof pursuant to
to any appropriation set forth in this chapter. Provided however, that such
reduction shall be in an amount equal to the costs incurred by the state
or agency thereof in accordance with subdivision (c) of section 8 of
chapter 576 of the laws of 1974 and provided further that such direction
shall be made in writing by the director of the budget. If the director
of the budget makes such direction pursuant to the authority set forth

vision (c) of section 8 of chapter 576 of the laws of 1974, as amended,
and the division of housing and community renewal shall notify such city
in writing of what payment or payments will be reduced and the amount of
such reduction. To the extent a city of one million or more or any
department, agency, or instrumentality thereof is entitled to any cash
disbursement authorized by any appropriation contained in this chapter,
such entitlement shall be reduced commensurate with reductions in
payments made in accordance with this part.

g) Notwithstanding any provision of law to the contrary, upon enact-
ment of this chapter of the laws of 2023 containing the aid to locali-
ties budget bill for the state fiscal year 2023-2024, all appropriations

Notwithstanding any provision of law to the contrary, for the 2023-24 school year, foundation aid shall be equal to the sum of the total foundation aid base computed pursuant to paragraph j of subdivision 1 of section 3602 of education law plus the greater of (a) the positive difference, if any, of 

Notwithstanding any inconsistent provision of law, for the 2023-24 school year, each school district shall set aside from its total foundation aid a high-impact tutoring set-aside amount as defined in this appropriation. These funds shall be utilized to deliver small group or individual tutoring sessions in reading and mathematics to students in grades 3-8 designated by each school district as at risk of falling below state standards. Such services and sessions may be provided during the school day, before or after school, or on the weekend and must occur no less than twice per week for no less than 30 minutes until the student is no longer designated as at risk. The funds set aside under this appropriation shall only be used to supplement current federal, state, and local funding and in no case shall supplant current district expenditures of federal, state, or local funds on high-impact tutoring.

For purposes of this appropriation:

(i) The high-impact tutoring set-aside shall equal the amount set forth for each school district as “HIGH-IMPACT TUTORING SETASIDE” on the school aid computer listing produced by the commissioner of education in support of the executive budget request for the 2023-24 school year and shall equal the greater of: (i)

foundation aid increase base.

(ii) A district shall be subject to the high-
impact tutoring set-aside for the 2023-24 
school year if (1) the quotient arrived at 
when dividing the foundation aid increase 
by the foundation aid base is greater than 
3 percent (0.03) and (2) the foundation 
aid increase base is greater than 
$100,000.

(iii) The “foundation aid increase” shall 
equal the positive difference of the 
amounts set forth for each school district 
as "FOUNDATION AID" under the heading 
"2023-24 ESTIMATED AIDS" as set forth in 
the school aid computer listing produced 
by the commissioner of education in 
support of the executive budget request 
for the 2023-24 school year, less the 
amounts set forth for each school district 
as "FOUNDATION AID" under the heading 
"2022-23 BASE YEAR AIDS" in such computer 
listing.

(iv) The “foundation aid increase base” 
shall equal the positive difference of the 
foundation aid increase less the product 
of 3 percent (0.03) multiplied by the 
total foundation aid base, where the total 
foundation aid base shall equal 
"FOUNDATION AID" under the heading "2022- 
23 BASE YEAR AIDS" as set forth in the 
school aid computer listing produced by 
the commissioner of education in support 
of the executive budget request for the 
2023-24 school year and defined pursuant 
to subparagraph j of section 1 of 
subdivision 3602 of education law.

Notwithstanding any provision of law to the 
contrary, for the 2023-24 school year, 
each district shall be eligible to receive 
a universal prekindergarten grant equal to 
the amount set forth in the school aid 
computer listing produced by the 
commissioner of education in support of 
the executive budget request for the 2023- 
24 school year and equal to the sum of (a) 
the amount set forth for such school 
district as "2022-23 MAX UPK AID" based on 
the school aid computer listing produced 
by the commissioner of education in 
support of the executive budget for the 
2023-24 school year and entitled "BT232- 
4", excluding amounts subject to section 
3602-ee of education law, plus (b) twice 
the product of (1) expansion slots 
multiplied by (2) selected aid per 
prekindergarten pupil calculated pursuant 
to subparagraph (i) of paragraph b of 
subdivision 10 of section 3602-e of 
education law as allocated pursuant to a 
universal prekindergarten expansion under
paragraph b of subdivision 20 of section 3602-e of education law as of the school aid computer listing produced by the commissioner of education in support of the executive budget request for the 2023-24 school year, provided that the maximum grant shall not exceed the total actual grant expenditures incurred by the school district in the school year for which funds are granted as approved by the commissioner of education.

For purposes of this appropriation:

(i) “Expansion slots” shall be slots for new full-day four-year-old prekindergarten pupils for purposes of subparagraph (ii) of paragraph b of subdivision 10 of section 3602-e of education law as set forth in the electronic data file produced by the commissioner of education in support of the executive budget request for the 2023-24 school year and equal to the positive difference, if any, of (1) the product of 89.7 percent (0.897) multiplied by unserved four-year-old prekindergarten pupils as defined in subparagraph (iv) of paragraph b of subdivision 10 of section 3602-e of education law, less (2) the sum of four-year-old students served plus the underserved count. If such expansion slots are greater than or equal to 10 but less than 20, the expansion slots shall be 20; if such expansion slots are less than 10, the expansion slots shall be 0; and for a city school district in a city having a population of one million or more, the expansion slots shall be 0.

(ii) “Four-year-old students served” shall be as set forth in the electronic data file produced by the commissioner of education in support of the executive budget request for the 2023-24 school year and equal to the sum of (1) the number of four-year-old students served in full-day and half-day settings in a state-funded program which must meet the requirements of section 3602-e of education law as reported to the education department for the 2021-22 school year, plus (2) the number of four-year-old students served in full-day settings in a state-funded program which must meet the requirements of section 3602-ee of education law and for which grants were awarded prior to the 2020-2021 school year, plus (3) the number of expansion slots allocated pursuant to paragraph b of subdivision 19 of section 3602-e of education law, plus (4) the number of expansions slots allocated pursuant to paragraph a of subdivision 20 of section 3602-e of education law, plus (5) the maximum number of students who may
be served in full-day prekindergarten programs funded by grants which must meet the requirements of section 3602-ee for grants awarded in the 2021-2022 or 2022-2023 school year.

(iii) "Underserved count" shall be as set forth in the electronic data file produced by the commissioner of education in support of the executive budget request for the 2023-24 school year and equal to the positive difference, if any, of (1) the sum of (a) eligible full-day four-year-old prekindergarten pupils as defined in subparagraph (ii) of paragraph b of subdivision 10 of section 3602-e of education law for the 2021-2022 school year, plus (b) the product of 0.5 and the eligible half-day four-year-old prekindergarten pupils as defined in subparagraph (iii) of paragraph b of subdivision 10 of section 3602-e of education law for the 2021-2022 school year, less (2) the positive difference of (a) the number of four-year-old students served in full-day and half-day settings in a state-funded program which must meet the requirements of section 3602-e of education law as reported to the education department for the 2021-2022 school year, with students served in half-day settings multiplied by 0.5, less (b) the number of pupils served in a conversion slot pursuant to section 3602-ee of education law in the 2021-2022 school year multiplied by 0.5.

Notwithstanding any inconsistent provision of law, for the purposes of this appropriation and of calculating the allocable growth amount for the 2023-24 school year pursuant to paragraph gg of subdivision 1 of section 3602 of the education law, the allowable growth amount shall equal the sum of (a) the product of the positive difference of the personal income growth index minus one, multiplied by the statewide total of the sum of (1) the apportionments due and owing during the base year to school districts and boards of cooperative educational services from the general support for public schools as computed based on an electronic data file used to produce the school aid computer listing produced by the commissioner of education in support of the executive budget for the base year plus (2) the competitive awards amount for the base year plus (b) $1,733,212,000. Provided that the personal income growth index shall equal the average of the quotients for each year in the period commencing with the state fiscal year nine years prior to the state fiscal year in
which the base year began and finishing with the state fiscal year prior to the state fiscal year in which the base year began of the total personal income of the state for each such year divided by the total personal income of the state for the immediately preceding state fiscal year, but not less than one.

Provided further that notwithstanding any provision of law to the contrary, the competitive awards amount for purposes of calculating the allocable growth amount shall be $20,750,000 for the 2023-24 school year.

Notwithstanding any inconsistent provision of law, for all school districts, the apportionment of general support for public schools for the 2023-24 school year in excess of the amount apportioned to such school district in the 2022-23 school year shall be withheld until (i) such school district has submitted to the commissioner of education and the director of the budget a detailed statement of the total funding allocation for each school in the district for the 2023-24 school year, in a statewide uniform form developed by the director of the budget, in consultation with the commissioner of education, and (ii) the commissioner of education and the director of the budget issue a determination of compliance in writing of such school district's statement of total funding allocation as required by subdivision 1 of section 3614 of the education law, provided that such school districts shall submit such statement to the commissioner of education and the director of the budget on or before September 1, 2023.

Provided further that such school districts shall adhere to and complete the prescribed form accurately and fully, and shall make such statement publicly available and on the district website.

Provided further that the director of the budget shall request in such form only information that is known to, or may be ascertained or estimated by, the district.

Provided further that each such local educational agency shall include in such statement the approach used to allocate funds to each school and that such statement shall include but not be limited to separate entries for each individual school, demographic data for the school, per pupil funding level, source of funds, and uniform decision rules regarding allocation of centralized spending to individual schools from all funding sources.

Provided further that within 45 days of submission of such statement by a school
district, the commissioner of education and director of the budget shall review such statement and determine whether the statement is complete and is in the format required. If such statement is determined to be complete and in the format required, a written acknowledgement of such shall be sent to the school district. If no determination is made by the commissioner of education and the director of the budget within 45 days of submission of the statement, such statement shall be deemed approved.

Should the commissioner of education or the director of the budget request additional information from the school district to determine completeness, the district shall submit such requested information to the commissioner of education and the director of the budget within 30 days of such request and the commissioner of education and director of the budget's deadline for review and determination shall be extended by 45 days from the date of submission of the additional requested information. If the commissioner of education or director of the budget determine a school district's spending statement to be noncompliant, such school district shall be allowed to submit a revised spending statement at any time.

Provided further that if a school district fails to submit a statement that is complete and in the format required on or before September 1, 2023, or if the commissioner of education or director of the budget determine the school district's spending statement to be noncompliant, a written explanation shall be provided and the school district will have 30 days to cure. Provided further that where the comptroller or chief financial officer exercises the authority to submit such form, such
submission shall occur within 60 days following notification of the school district's failure to cure. Provided further that nothing in the preceding paragraph shall preclude a school district from submitting a spending statement for approval by the director of the budget and the commissioner of education at any time. Provided further that any apportionment withheld pursuant to this appropriation shall not have any effect on the base year calculation for use in the subsequent school year. Notwithstanding any inconsistent provision of law, for the 2023-24 school year, any school district with an underfunded high-need school shall prioritize all such underfunded high-need schools among its individual schools, and shall submit to the commissioner on or before September 1, 2023 a report specifying how such district effectuated appropriate funding for the underfunded high-need schools. Notwithstanding any provision of law to the contrary, funds not otherwise allocated to local educational agencies pursuant to section 2001(d)(1) of the American rescue plan act of 2021 shall be allocated as follows, pursuant to a plan developed by the commissioner of education and approved by the director of the budget:

Such grant funds shall remain available for obligation by such school districts until the deadline therefor prescribed in federal law. Provided further that, for purposes of this appropriation:

The "adjusted per pupil amount" shall be equal to the product of (a) $4,550.26 multiplied by (b) the regional cost index calculated in 2018, reflecting an analysis of labor market costs based on median salaries in professional occupations that require similar credentials to those of positions in the education field, but not including those occupations in the education field, multiplied by (c) the modified EN index, and multiplied by (d) the learning loss wealth factor.

(2) The "learning loss wealth factor" shall be equal to the positive difference, if any, of 0.75 less the product of 0.5 multiplied by the combined wealth ratio computed pursuant to subparagraph 1 of paragraph c of subdivision 3 of section 3602 of education law.

(3) The "modified EN index" shall be equal to the modified EN percent divided by the statewide average modified EN percent, provided that for the 2021-22 school year, the statewide average modified EN percent shall be equal to 0.5565.

(5) The "modified EN count" shall equal the sum of (a) the product of 0.5 multiplied by the English language learner count computed pursuant to paragraph o of subdivision 1 of section 3602 of education law, plus (b) the sparsity count computed pursuant to paragraph r of subdivision 1 of section 3602 of education law, plus (c) the product of 0.65 multiplied by the 3-year average small area income and poverty estimate rate computed pursuant to paragraph mm of subdivision 1 of section 3602 of education law, plus (d) the product of 0.65 multiplied by the 3-year average economically disadvantaged rate defined pursuant to paragraph ll of subdivision 1 of section 3602 of education law and multiplied further by public school district enrollment for the base year as computed pursuant to paragraph n of subdivision 1 of section 3602 of education law and multiplied further by public school district enrollment for the base year as computed pursuant to paragraph n of subdivision 1 of section 3602 of education law.

Provided further that districts receiving learning loss grants shall use (a) 14.286 percent of such grants for implementation of evidence-based summer enrichment programs; (b) 14.286 percent for implementation of evidence-based comprehensive after-school programs; and (c) the remaining funds for activities to address learning loss by supporting the implementation of evidence-based interventions, such as summer learning or summer enrichment, extended day, comprehensive afterschool programs, or extended school year programs. School districts shall ensure that such interventions respond to students’ academic, social, and emotional needs and address the disproportionate impact of the coronavirus on low-income students, children with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.

Grantees awarded funds from this appropriation shall comply with all of the same rules and requirements as the universal prekindergarten programs pursuant to section 3602-e of education law. Provided further that, for purposes of this appropriation:

(1) For eligible school districts, the preliminary slot count shall be equal to the positive difference of (1) the product of 0.3504 and unserved 4-year-old prekindergarten pupils calculated pursuant to subparagraph iv of paragraph b of subdivision 10 of section 3602-e of education law less (2) the sum of (a) full day 4-year-old prekindergarten pupils served in the 2019-20 school year served pursuant to section 3602-e of education law plus (b) students served in full-day prekindergarten programs funded by grants pursuant to section 3602-ee of education law in the 2019-20 school year. If such preliminary slot count is less than 10, the expansion slots shall be 0; if such preliminary slot count is greater than or equal to 10 but less than 20, the expansion slots shall be 20; for all other eligible districts, the expansion slots shall equal the preliminary slot count.

(2) For the 2021-22 school year, school districts shall be eligible for a grant amount if (1) the combined wealth ratio computed pursuant to subparagraph 1 of paragraph c of subdivision 3 of section 3602 of education law is less than 2.0 and (2) the quotient arrived at when dividing (i) the sum of (a) full day and half day 4-year-old prekindergarten pupils served in the 2019-20 school year served pursuant to section 3602-e of education law plus (b) students served in full-day prekindergarten programs funded by grants pursuant to section 3602-ee of education law in the 2019-20 school year by (ii) unserved four-year-old prekindergarten pupils calculated pursuant to subparagraph iv of paragraph b of subdivision 10 of section 3602-e of education law is less than 0.5.

(3) Maintenance of Effort. Where a school district serves fewer 4-year-old prekindergarten pupils in full-day programs funded by the Full-day 4-year-old universal prekindergarten expansion pursuant to this appropriation than the number of expansion slots as defined in this appropriation, the school district shall have its current year
Full-day 4-year-old universal prekindergarten expansion payment reduced to an amount equal to the product of (i) the Full-day 4-year-old universal prekindergarten expansion multiplied by (ii) the quotient of 4-year-old prekindergarten pupils served in programs funded by the Full-day 4-year-old universal prekindergarten expansion divided by the number of expansion slots. Provided that funds provided pursuant to this appropriation shall only be used to supplement and not supplant current local expenditures of state or local funds on prekindergarten programs.

(4) Notwithstanding any inconsistent provision of law, for the purposes of determining the prekindergarten allocation on the electronic data file prepared by the commissioner pursuant to subdivision 21 of section 305 of education law for the 2021-22 school year, the commissioner is directed to include the grant amounts awarded pursuant to this appropriation in the amount set forth for such school district as "UNIVERSAL PRE-KINDERGARTEN."

Provided that funds appropriated herein shall only be awarded to school districts which meet the requirements of section 3602-ee of the education law.

Provided that grants awarded pursuant to this request for proposal process shall be equal to $7,000 per pupil for students served by teachers without a certificate valid for service in early childhood grades and $10,000 per pupil for students served by teachers with valid certificates for service in early childhood grades. Programs shall (i) provide instruction for at least five hours per school day for full-day pre-kindergarten programs; (ii) agree to offer instruction consistent with applicable New York state prekindergarten early learning standards; and (iii) otherwise comply with all of the same rules and requirements as the statewide universal prekindergarten programs pursuant to section 3602-ee of the education law except as modified herein.

services fund, federal temporary assist-
ce to needy families block grant funds
at the request of local social services
districts and, upon approval of the direc-
tor of the budget, transfer of federal
temporary assistance for needy families
block grant funds made available from the
New York works compliance fund program or
otherwise specifically appropriated there-
for, in combination with the money appro-
priated in the general fund / aid to
localities local assistance account,
appropriated for the state block grant for
child care shall constitute the state
block grant for child care.

services districts for child care assist-
ance shall be apportioned among the social
services districts by the office according
to the allocation plan developed by the
office and submitted to the director of
the budget for approval within 60 days of
enactment of the budget. A district's
block grant allocation, including any

cation to the state block grant for child
care at the district's request, for a
particular federal fiscal year is avail-

social services district for expenditures
made during a particular federal fiscal
year, other than claims made under title
XX of the federal social security act and
under the food stamp employment and train-
ing program, shall be counted against the
social services district's block grant
allocation for that federal fiscal year.
A social services district shall expend its
allocation from the block grant in accord-
ance with the applicable provisions in
federal law and regulations relating to
the federal funds included in the state
block grant for child care and the regu-
lations of the office of children and
family services. Notwithstanding any other
provision of law, each district's claims
submitted under the state block grant for
child care will be processed in a manner that maximizes the availability of federal funds and ensures that the district meets its maintenance of effort requirement in each applicable federal fiscal year. Funds appropriated herein shall be subject to the amount awarded in federal grant funding.

26  Notwithstanding any inconsistent provision of law, the amount appropriated herein,
27  shall be available under a foster care block grant for state reimbursement of eligible social services district expendi-
28  tures for the provision and administration of foster care services including care, maintenance, supervision, and tuition; for supervision of foster children placed in federally funded job corps programs; for care, maintenance, supervision, and tuition for adjudicated juvenile delin-
29  quents placed in residential programs operated by authorized agencies and in out-of-state residential programs; for the provision and administration of the kinship guardian assistance program including kinship guardianship assistance payments and payments for non-recurring guardianship expenses and eligible expend-
30  itures associated with local compliance with the federal Family First Prevention Services Act (P.L. 115-123); except that, reimbursement from the amount appropriated herein shall not be available for tuition expenditures for foster children, including persons in need of supervision and adjudicated juvenile delinquents, made by a social services district located within a city having a population of one million or more.
32  Notwithstanding any other provision of law, a portion of the funds are available to reimburse social services districts for the change in the maximum state aid rates established by the office of children and
family services for the 2023-24 rate year pursuant to section 398-a of the social services law and sections 4003 and 4405 of the education law to reflect the continuation of the cost of living adjustments that became effective April 1, 2008 for payments made to foster parents and for salary and fringe benefit costs and other critical nonpersonal services costs for foster care programs as determined by the office. Social services districts must adjust the amount of payments made for care provided by congregate care and foster boarding home programs and to foster parents to reflect the cost of living adjustments in the manner specified by the office. Each authorized agency operating a congregate care or foster boarding home program in New York state for which the office sets a maximum state aid rate pursuant to section 398-a of the social services law or section 4003 or 4405 of the education law shall submit, at the time and in a manner to be determined by the office, a written certification, attesting that the funds received for the continuation of the cost of living adjustment to the maximum state aid rate that became effective April 1, 2008 for that program will be or were used solely in accordance with the requirements of the cost of living adjustment established by the office. Notwithstanding any inconsistent provision of law except a chapter of the laws of 2023 authorizing a 2.5 percent cost of living adjustment increase for the period commencing on April 1, 2023 and ending March 31, 2024, the commissioner shall not apply any other cost of living adjustment for the purpose of establishing rates of payments, contracts or any other form of reimbursement, provided that this shall not prevent the commissioner from applying additional trend or staff retention factors for this program. Within the amounts appropriated herein, state reimbursement to each social services district for services identified herein that are otherwise reimbursable by the state from April 1, 2023 through March 31, 2024 shall be limited to a district allocation, hereinafter referred to as the district's block grant allocation. Notwithstanding any other provision of law, such block grant allocation shall be based, in part, on each district's claims for such costs, adjusted by the applicable cost allocation methodology and net of any retroactive payments for the 12 month period ending June 30, 2022 that are
submitted on or before January 2, 2023
and, in part, on such other factors as
determined by the office of children and
family services and approved by the direc-
tor of the budget. Any portion of a social
services district's allocation from funds
appropriated herein not claimed by such
district during the state fiscal year may
be used by such district for expenditures
on preventive services provided pursuant
to section 409-a of the social services
law, independent living services and
aftercare services provided pursuant to
regulations of the department of family
assistance, claimed by such district
during the next state fiscal year up to
the amount remaining from the district's
foster care block grant allocation,
provided however, that any claims for such
services during the next state fiscal year
in excess of such amount shall be subject
to 62 percent state reimbursement exclu-
sive of any federal funds made available
for such purposes, in accordance with
directives of the department of family
assistance and subject to the approval of
the director of the budget. Any claims
submitted by a social services district
for reimbursement for a particular state
fiscal year for which the social services
district does not receive state or federal
reimbursement during that state fiscal
year may not be claimed against that
district's block grant apportionment for
the next state fiscal year.
The office of children and family services,
with the approval of the director of the
budget, may reduce a district's block
grant allocation by the state share
decrease related to federal retroactive
reimbursement for such foster care
services identified herein. The office,
with the approval of the director of the
budget, may reduce a district's block
grant allocation by the state share of
disallowances or sanctions taken against
the district pursuant to the social
services law or federal law.
Notwithstanding any other provision of law,
the state shall not be responsible for
reimbursing a social services district and
a district shall not seek state reimburse-
ment for any portion of any state disal-
lowance or sanction taken against the
social services district, or any federal
disallowance attributable to final federal
agency decisions or to settlement made, on
or after July 1, 1995, when such disallow-
ance or sanction results from the failure
of the social services district to comply
with federal or state requirements,
including, but not limited to, failure to
document eligibility for federal or state
funds in the case record; provided, howev-
er, if the office determines that any
federal disallowance for services provided
between January 1, 1999 and May 31, 1999
results solely from the late enactment of
the state legislation implementing the
federal adoption and safe families act,
the state shall be solely responsible for
the full amount of the disallowance or
sanction; provided, further, however, this
provision shall be deemed to apply both
prospectively and retroactively regardless
of whether such sanctions or disallowances
are for services provided or claims made
prior to or after April 1, 2023.
Notwithstanding any other provision of law,
any federal disallowance resulting from a
federal title IV-E eligibility review or
audit that uses extrapolated statistic
techniques shall be passed along by the
state to any and all social services
districts that the office of children and
family services has determined have not
complied with the title IV-E eligibility
requirements or have not taken the neces-
sary actions to ensure compliance with
such requirements including, but not
limited to, failing to: assess and fully
document all the criteria and have readily
available all the necessary documents to
establish and continue title IV-E eligi-
bility for all title IV-E eligible chil-
dren within the required time frames;
claim title IV-E funding only for cases
that meet all of the title IV-E eligibil-
ity criteria; and fully implement the
social services payment system on or
before April 1, 2005 for all direct and
voluntary agency foster care services.
Notwithstanding any law to the contrary, the
office of children and family services
shall impose on social services districts
any federal disallowance issued against
the state as a result of a federal title
IV-E secondary eligibility review regard-
less of the date the children may have
entered foster care, the date the eligi-
bility or payment errors occurred, or the
filing date of any federal claims for
reimbursement; provided, however, that the
state shall be responsible for the disal-
lowed costs and expenditures related to
the placement of children in a facility
operated by the office of children and
family services, which shall be determined
in the same manner as the disallowed costs
and expenditures for social services
districts other than the city of New York.
In order to reimburse the federal govern-
ment for the full amount of any disallow-
ance imposed on the state by the federal
administration for children and families
within the timeframes necessary to avoid
any potential interest payments on such
amount, the office of children and family
services is authorized to immediately
offset funds otherwise due to each
district for a pro rata share of the total
disallowed costs based on the percentage
of applicable federal title IV-E claims
made by that district for the relevant
time period as compared to the total
applicable statewide title IV-E claims.
The amount of the offset against each
district will be adjusted, if necessary,
upon completion of the disallowance allo-
cation process. The final allocation of
the amount of any federal disallowance
resulting from a title IV-E secondary
eligibility review shall be allocated
among the districts so that each district
shall be responsible for the amount
attributable to each of the district's
children or cases that are determined by
the federal review to be unallowable. Each
district shall also be responsible for a
portion of the federal extrapolated disal-
lowance amount based on the relative error
rate for the district. The city of New
York's error rate will be based on the
federal sample and federal statistics. For
all social services districts other than
the city of New York, the error rate will
be based on a review conducted by the
district of a sample of children and/or
cases determined by the office of children
and family services and a re-review of a
sub-sample by the office of those children
and/or cases determined by the office. The
office of children and family services
will determine what is reasonable in
establishing the size of the sample and
sub-sample for each district. The office
of children and family services shall
notify each social services district of
the sample of children and/or cases from
the federal audit period that the social
services district must review. Any child
or case from the social services district
that was included in the federal sample
will automatically be included in the
social services district's review sample
and the determination made at the federal
review regarding that child or case will
govern for the purposes of the social
services district's review. The social
services district must complete and submit
the results of its review to the office of
children and family services within 60
days of receipt of the sample. The error
rate for the district will be based on the findings of the district's review and the office of children and family services' re-review. If a social services district does not complete its review within 60 days of receiving the sample from the office of children and family services, the office of children and family services shall assign an error rate to the social services district based on the relative percentage of the district's applicable title IV-E claims for the relevant period as compared to applicable statewide title IV-E claims for that period and other circumstances that the office of children and family services may consider in order to allocate 100 percent of the federal disallowance. The office of children and family services shall apply each social services district's error rate to the total amount of the district's applicable title IV-E claims including associated administrative expenses. The resulting dollar amounts for all of the social services districts will be summed to derive the total amount of title IV-E claims deemed to be in error statewide. To establish a disallowance percentage for each social services district, the amount of the district's title IV-E claims deemed to be in error will be divided by the amount of statewide title IV-E claims deemed to be in error. The resulting disallowance percentage for each district will be applied to the entire title IV-E extrapolated disallowance calculated by the federal review to determine the amount of the extrapolated disallowance for which the district is responsible. Each district will be credited for the amount already disallowed for any individual children or cases found to be in error during the federal review. The exclusive appeal rights for the review of the amount of the federal disallowance assigned to each social services district shall be pursuant to article 78 of the civil practice law and rules; provided, however, that in any such action all of the social services districts shall be joined as necessary parties and the venue of any such action shall be in Rensselaer county. Any social services district that fails to complete its sample review in the required time frames shall have no right to appeal and shall not be a necessary party to any action brought by another social services district.

The money hereby appropriated is to be available for payment of state aid heretofore accrued or hereafter to accrue to
municipalities. Subject to the approval of
the director of the budget, such funds
shall be available to the office net of
disallowances, refunds, reimbursements,
and credits.
Notwithstanding any inconsistent provision

cated to the office of temporary and disa-

ated within the office of children and

assistance account with the approval of
the director of the budget who shall file
such approval with the department of audit

chairman of the senate finance committee
and the chairman of the assembly ways and

herein appropriated, in amounts certified

law to the contrary, the office of chil-
dren and family services may, on behalf of
social services districts, make payments

grant for state reimbursement of eligible social services district
expenditures for the provision and administration of foster care
services including care, maintenance, supervision, and tuition; for
supervision of foster children placed in federally funded job corps
programs; for care, maintenance, supervision, and tuition for
adjudicated juvenile delinquents placed in residential programs
operated by authorized agencies and in out-of-state residential
programs; for the provision and administration of the kinship
guardian assistance program including kinship guardianship
assistance payments and payments for non-recurring guardianship
expenses and eligible expenditures associated with local compliance
with the Federal Family First Prevention Services Act (P.L. 115-
123); except that, reimbursement from the amount appropriated herein
shall not be available for tuition expenditures for foster children,
including persons in need of supervision and adjudicated juvenile
delinquents, made by a social services district located within a
city having a population of one million or more.
Notwithstanding any other provision of law, a portion of the funds are
available to reimburse social services districts for the change in
the maximum state aid rates established by the office of children
and family services for the 2022-23 rate year pursuant to section
398-a of the social services law and sections 4003 and 4405 of the
education law to reflect the continuation of the cost of living
adjustments that became effective April 1, 2008 for payments made to
foster parents and for salary and fringe benefit costs and other
critical nonpersonal services costs for foster care programs as
determined by the office. Social services districts must adjust the
amount of payments made for care provided by congregate care and
foster boarding home programs and to foster parents to reflect the
cost of living adjustments in the manner specified by the office.
Each authorized agency operating a congregate care or foster
boarding home program in New York state for which the office sets a
maximum state aid rate pursuant to section 398-a of the social
services law or section 4003 or 4405 of the education law shall
submit, at the time and in a manner to be determined by the office,
a written certification, attesting that the funds received for the
continuation of the cost of living adjustment to the maximum state
aid rate that became effective April 1, 2008 for that program will
be or were used solely in accordance with the requirements of the
cost of living adjustment established by the office.
Notwithstanding any inconsistent provision of law except a chapter of
the laws of 2022 authorizing a 5.4 percent cost of living adjustment
increase for the period commencing on April 1, 2022 and ending March
31, 2023, the commissioner shall not apply any other cost of living
adjustment for the purpose of establishing rates of payments,
contracts or any other form of reimbursement.
Within the amounts appropriated herein, state reimbursement to each
social services district for services identified herein that are
otherwise reimbursable by the state from April 1, 2022 through March
31, 2023 shall be limited to a district allocation, hereinafter
referred to as the district's block grant allocation.
Notwithstanding any other provision of law, such block grant
allocation shall be based, in part, on each district's claims for
such costs, adjusted by the applicable cost allocation methodology
and net of any retroactive payments for the 12 month period ending
June 30, 2021 that are submitted on or before January 3, 2022 and,
in part, on such other factors as determined by the office of
children and family services and approved by the director of the
budget. Any portion of a social services district's allocation from
funds appropriated herein not claimed by such district during the
state fiscal year may be used by such district for expenditures on
preventive services provided pursuant to section 409-a of the social
services law, independent living services and aftercare services
provided pursuant to regulations of the department of family
assistance, claimed by such district during the next state fiscal
year up to the amount remaining from the district's foster care
block grant allocation, provided however, that any claims for such
services during the next state fiscal year in excess of such amount
shall be subject to 62 percent state reimbursement exclusive of any
federal funds made available for such purposes, in accordance with
directives of the department of family assistance and subject to the
approval of the director of the budget. Any claims submitted by a
social services district for reimbursement for a particular state
fiscal year for which the social services district does not receive
state or federal reimbursement during that state fiscal year may not
The office of children and family services, with the approval of the director of the budget, may reduce a district's block grant allocation by the state share decrease related to federal retroactive reimbursement for such foster care services identified herein. The office, with the approval of the director of the budget, may reduce a district's block grant allocation by the state share of disallowances or sanctions taken against the district pursuant to the social services law or federal law.

Notwithstanding any other provision of law, the state shall not be responsible for reimbursing a social services district and a district shall not seek state reimbursement for any portion of any state disallowance or sanction taken against the social services district, or any federal disallowance attributable to final federal agency decisions or to settlement made, on or after July 1, 1995, when such disallowance or sanction results from the failure of the social services district to comply with federal or state requirements, including, but not limited to, failure to document eligibility for federal or state funds in the case record; provided, however, if the office determines that any federal disallowance for services provided between January 1, 1999 and May 31, 1999 results solely from the late enactment of the state legislation implementing the federal adoption and safe families act, the state shall be solely responsible for the full amount of the disallowance or sanction; provided, further, however, this provision shall be deemed to apply both prospectively and retroactively regardless of whether such sanctions or disallowances are for services provided or claims made prior to or after April 1, 2022.

Notwithstanding any other provision of law, any federal disallowance resulting from a federal title IV-E eligibility review or audit that uses extrapolated statistic techniques shall be passed along by the state to any and all social services districts that the office of children and family services has determined have not complied with the title IV-E eligibility requirements or have not taken the necessary actions to ensure compliance with such requirements including, but not limited to, failing to: assess and fully document all the criteria and have readily available all the necessary documents to establish and continue title IV-E eligibility for all title IV-E eligible children within the required time frames; claim title IV-E funding only for cases that meet all of the title IV-E eligibility criteria; and fully implement the social services payment system on or before April 1, 2005 for all direct and voluntary agency foster care services.

Notwithstanding any law to the contrary, the office of children and family services shall impose on social services districts any federal disallowance issued against the state as a result of a federal title IV-E secondary eligibility review regardless of the date the children may have entered foster care, the date the eligibility or payment errors occurred, or the filing date of any federal claims for reimbursement; provided, however, that the state shall be responsible for the disallowed costs and expenditures related to the placement of children in a facility operated by the office of children and family services, which shall be determined in the same manner as the disallowed costs and expenditures for social services districts other than the city of New York. In order to reimburse the federal government for the full amount of any disallowance imposed on the state by the federal administration for children and families within the timeframes necessary to avoid any potential interest payments on such amount, the office of children and family services is authorized to immediately offset funds
otherwise due to each district for a pro rata share of the total
disallowed costs based on the percentage of applicable federal title
IV-E claims made by that district for the relevant time period as
compared to the total applicable statewide title IV-E claims. The
amount of the offset against each district will be adjusted, if
necessary, upon completion of the disallowance allocation process.
The final allocation of the amount of any federal disallowance
resulting from a title IV-E secondary eligibility review shall be
allocated among the districts so that each district shall be
responsible for the amount attributable to each of the district's
children or cases that are determined by the federal review to be
unallowable. Each district shall also be responsible for a portion
of the federal extrapolated disallowance amount based on the
relative error rate for the district. The city of New York's error
rate will be based on the federal sample and federal statistics. For
all social services districts other than the city of New York, the
error rate will be based on a review conducted by the district of a
sample of children and/or cases determined by the office of children
and family services and a re-review of a sub-sample by the office of
those children and/or cases determined by the office. The office of
children and family services will determine what is reasonable in
establishing the size of the sample and sub-sample for each
district. The office of children and family services shall notify
each social services district of the sample of children and/or cases
from the federal audit period that the social services district must
review. Any child or case from the social services district that was
included in the federal sample will automatically be included in the
social services district's review sample and the determination made
at the federal review regarding that child or case will govern for
the purposes of the social services district's review. The social
services district must complete and submit the results of its review
to the office of children and family services within 60 days of
receipt of the sample. The error rate for the district will be based
on the findings of the district's review and the office of children
and family services' re-review. If a social services district does
not complete its review within 60 days of receiving the sample from
the office of children and family services, the office of children
and family services shall assign an error rate to the social
services district based on the relative percentage of the district's
applicable title IV-E claims for the relevant period as compared to
applicable statewide title IV-E claims for that period and other
circumstances that the office of children and family services may
consider in order to allocate 100 percent of the federal
disallowance. The office of children and family services shall apply
each social services district's error rate to the total amount of
the district's applicable title IV-E claims including associated
administrative expenses. The resulting dollar amounts for all of the
social services districts will be summed to derive the total amount
of title IV-E claims deemed to be in error statewide. To establish a
disallowance percentage for each social services district, the
amount of the district's title IV-E claims deemed to be in error
will be divided by the amount of statewide title IV-E claims deemed
to be in error. The resulting disallowance percentage for each
district will be applied to the entire title IV-E extrapolated
disallowance calculated by the federal review to determine the
amount of the extrapolated disallowance for which the district is
responsible. Each district will be credited for the amount already
disallowed for any individual children or cases found to be in error
during the federal review. The exclusive appeal rights for the
review of the amount of the federal disallowance assigned to each
social services district shall be pursuant to article 78 of the
civil practice law and rules; provided, however, that in any such
action all of the social services districts shall be joined as
necessary parties and the venue of any such action shall be in
Rensselaer county. Any social services district that fails to
complete its sample review in the required time frames shall have no
right to appeal and shall not be a necessary party to any action
brought by another social services district.

By chapter 53, section 1, of the laws of 2021:

Notwithstanding any inconsistent provision of law, the amount appropriated herein shall be made available to reimburse 62 percent of eligible social services district expenditures that are claimed by March 31, 2022 for child welfare services which shall include and be limited to preventive services provided pursuant to section 409-a of the social services law other than community optional preventive services, child protective services, independent living services, after-care services as defined in regulations of the department of family assistance, and adoption administration and services, other than adoption subsidies provided pursuant to title 9 of article 6 of the social services law and regulations of the department of family assistance incurred on or after October 1, 2020 and before October 1, 2021 and that are otherwise reimbursable by the state on or after April 1, 2021, after first deducting therefrom any federal funds properly received or to be received on account thereof upon certification by the social services district that it will not be using these funds to supplant other state and local funds and that the district will not submit claims for reimbursement under this appropriation for the same type and level of services that the county previously provided and claimed under any contract in existence on October 1, 2002 as other than child protective, preventive, independent living, after care or adoption services or adoption administration. The money hereby appropriated is to be available for payment of state aid heretofore accrued or hereafter to accrue to municipalities. Subject to the approval of the director of the budget, such funds shall be available to the office net of disallowances, refunds, reimbursements, and credits; provided, however, that notwithstanding any other provision of law, for a district to receive reimbursement for such services, the amount of funds that the district expends on such services from its flexible fund for family services allocation and any flexible fund for family services funds transferred at the district's request to the title XX social services block grant must, to the extent that families are eligible therefore, be equal to or greater than the district's portion of the $382,322,341 statewide child welfare threshold amount, which shall be established pursuant to a formula developed by the office of temporary and disability assistance and the office of children and family services and approved by the director of the budget.

Notwithstanding any other provision of law, selected social services districts may authorize the office of temporary and disability assistance to intercept a portion of the funds on behalf of the office of children and family services otherwise due to the districts under this appropriation and/or under any other general fund - aid to localities appropriation available to such districts to suballocate to the office of mental health and subsequently for suballocation from the office of mental health to the department of health to use for the 38.9 percent of the non-federal share of the medical assistance payments for home and community based waiver
services provided in accordance with subdivision 9 of section 366 of
the social services law as authorized by such selected social
services districts which choose to use preventive services funds to
support such costs.

Notwithstanding any other provision of law, social services districts
may authorize the office of temporary and disability assistance to
intercept a portion of the funds on behalf of the office of children
and family services otherwise due to the districts under this appro-
priation and/or under any other general fund - aid to localities
appropriation available to such districts to transfer to any miscel-
naneous special revenue fund available to the office of children and
family services to use for the local share of the federal funds
available for education and training vouchers provided in accordance
with section 477 of title IV-E of the social security act as author-
ized by such social services districts which choose to use funds to
support such costs.

Notwithstanding any inconsistent provision of law, the amount herein
appropriated may be transferred to any other appropriation within
the office of children and family services and/or the office of
temporary and disability assistance and/or suballocated to the
office of temporary and disability assistance for the purpose of
paying local social services districts' costs of the above program
and may be increased or decreased by interchange with any other
appropriation or with any other item or items within the amounts
appropriated within the office of children and family services
general fund - local assistance account with the approval of the
director of the budget who shall file such approval with the depart-
ment of audit and control and copies thereof with the chairman of
the senate finance committee and the chairman of the assembly ways
and means committee.

Notwithstanding any inconsistent provision of law, in lieu of payments
authorized by the social services law, or payments of federal funds
otherwise due to the local social services districts for programs
provided under the federal social security act or the federal food
stamp act, funds herein appropriated, in amounts certified by the
state comptroller or the state commissioner of health as due from
local social services districts each month as their share of
payments made pursuant to section 367-b of the social services law

account with such interest accruing to the credit of the locality in
order to ensure the orderly and prompt payment of providers under
section 367-b of the social services law pursuant to an estimate
provided by the commissioner of health of each local social services
district's share of payments made pursuant to section 367-b of the
social services law.

Notwithstanding the provisions of any other law to the contrary, the
office of children and family services may, on behalf of local
social services districts, make payments for adoption subsidies by
direct deposit or debit card. Local social services districts shall
reimburse the office for the costs of administering such direct
deposit or debit card payments.

Notwithstanding any inconsistent provision of the social services law
or the state finance law, the office of children and family services
shall, on a quarterly basis, request that the office of temporary
and disability assistance reimburse the office of children and fami-
ly services in an amount equal to 38 percent of the non-federal
share of the costs of administering such direct deposit or debit
card payments to capture the local share of such costs.

Notwithstanding any other provision of law, the office of children and
family services shall reissue per diem rates, required pursuant to
section 529 of the executive law, for calendar years 2002 through
2009 to remove any adjustments to the costs included in determining such rates to reflect any changes in federal funding made available to the office or to local social services districts for such costs and, provided further, the office shall not include any such adjustments in per diem rates established hereafter.

All reimbursement made by local social services districts for care, maintenance and supervision under this section shall be paid directly to the state through the office of children and family services for deposit into a miscellaneous special revenue fund known as the youth facility per diem account.

Notwithstanding any other provision of law to the contrary, amounts due and owing to a social services district under this appropriation, may be reduced up to such amounts due and owing to the state under section 529 of the executive law (13998) ............................... 610,073,000 ........................................ (re. $196,730,000)

Notwithstanding any other provision of law, the amount appropriated herein shall be available to reimburse for 98 percent of 65 percent of eligible social services district expenditures that are claimed by March 31, 2022 for those community preventive services provided from October 1, 2020 through September 30, 2021 at a cost that does not exceed the cost that was in effect on October 1, 2008 and that a social services district can demonstrate had been approved by the office of children and family services on or before October 1, 2008; provided, however, that should insufficient funds be available to provide state reimbursement for 98 percent of 65 percent of such costs, reimbursement shall be made proportionally to each district based on the percentage of their total eligible claims to the amount appropriated; and, provided further, however, that if the amount appropriated exceeds the amount of funds necessary to reimburse 98 percent of 65 percent of the eligible social services district expenditures, the office may, to the extent funds are available, provide reimbursement for 98 percent of 65 percent of eligible social services district expenditures for new community preventive services programs approved by the office and only up to the amounts approved by the office. A local social services district seeking federal and/or state reimbursement for community preventive services provided on or after October 1, 2020 must submit claims that separately identify the costs of such services in a form and manner and at such times as are required by the department of family assistance and that information regarding outcome based measures that demonstrate quality of services provided and program effectiveness be submitted to the office of children and family services in a form and manner and at such times as required by the office. Of the amount appropriated herein, up to $1,000,000 may be used to provide additional funding to an eligible program or programs with evaluation results that show program effectiveness and demonstrate private monetary support as determined by the office of children and family services and approved by the director of the budget (13999) ... 12,124,750 ........................................ (re. $1,121,000)

Notwithstanding any other provision of law, for services provided prior to April 1, 2019 and suballocation to the office of mental health and subsequently for suballocation from the office of mental health to the department of health for 94 percent of 65 percent of the nonfederal share of medical assistance payments for home and community based waiver services provided in accordance with subdivision 9 of section 366 of the social services law as authorized by selected social services districts which choose to use preventive services funds to support such costs and to authorize the office of temporary and disability assistance to intercept funds otherwise due to the districts to provide the 38.9 percent local share of such preventive services expenditures.

director of the budget who shall file such approval with the depart-
ment of audit and control and copies thereof with the chairman of
the senate finance committee and the chairman of the assembly ways
and means committee.

Notwithstanding any inconsistent provision of law, in lieu of payments

otherwise due to the local social services districts for programs
provided under the federal social security act or the federal food
stamp act, funds herein appropriated, in amounts certified by the
state commissioner or the state commissioner of health as due from
local social services districts each month as their share of
payments made pursuant to section 367-b of the social services law

account with such interest accruing to the credit of the locality in
order to ensure the orderly and prompt payment of providers under
section 367-b of the social services law pursuant to an estimate
provided by the commissioner of health of each local social services
district's share of payments made pursuant to section 367-b of the
social services law.

after deducting any federal funds available therefor to social
services districts for amounts attributable to dormitory authority
billings or approved refinancing of such billings which result in
local social services districts' claims in excess of a local
district's foster care block grant allocation. In addition, subject
to the approval of the director of the budget, a portion of funds
appropriated herein, or such other amount as may be approved by the
director of the budget, shall be available for reimbursement related
to payments made by a social services district to foster care
providers subject to the provisions of section 410-i of the social
services law for expenses directly related to projects funded

ity payments.

Notwithstanding section 398-a of the social services law or any other
law to the contrary, such reimbursement shall be available for 94
percent of 98 percent of 50 percent of social services district
costs, after deducting federal funds available therefor to social
services districts' claims in excess of a social services
district's foster care block grant allocation for those amounts
exclusively attributable to the previously approved revised or
supplemental rates. In addition, subject to the approval of the
director of the budget, a portion of funds appropriated herein may
also be used for payments to the dormitory authority of the state of

Notwithstanding any inconsistent provision of law, the amount appropriated herein shall be available under the supervision and treatment services for juveniles program for 62 percent state reimbursement to counties and the city of New York for eligible expenditures for the provision and administration of eligible supervision and
treatment services for juveniles programs during the period of April
1, 2014 through March 31, 2015 that have been approved by the office
of children and family services pursuant to a plan approved by the
director of the budget; provided, however, if a municipality is
unable to use or claim all of its allocation for such program period
within the required time frames, the municipality may apply to the
office of children and family services for a waiver to permit the
municipality to continue to have the funds available to it for an
additional one-year program period upon a showing and certification
by the municipality that such funds will be used only to reimburse
the municipality for eligible expenditures for eligible services
provided during the period of April 1, 2014 through March 31, 2015
for which the municipality was unable to claim within the required
timeframes and for non-recurring eligible services or expenses that

proportionately to the amount each such district transferred.

to the office of children and family services for a waiver of the
local share requirement for the program funds for state fiscal year

significantly impact its ability to provide the required local share
and that providing the program funds to the municipality without a
local share will enable the municipality to implement services
designed to decrease the use of detention or residential care for
such youth.
Within the amounts appropriated herein, state reimbursement shall be
limited to the amount of such municipality's distribution. The

claims unless they are submitted within 12 months of the calendar

containing a household member who has been
released from prison, in order to prevent
eviction and address homelessness in
accordance with social services district
plans approved by the office of temporary

of the budget, provided, however, that in
social services districts with a popu-
lation over five million no shelter
supplements other than the family home-

ment shall be reimbursed, provided however
funds appropriated herein shall only be
used to reimburse rental costs up to the
maximum rent levels in place as of January

in fair market rent, provided, however, in
the event of a decrease in fair market rent the value of the maximum rent levels reimbursed with funds appropriated herein shall not decrease and shall be set at the maximum rent levels established during the prior year, and further provided that such supplements shall not be part of the standard of need pursuant to section 131-a of the social services law. Such payments of additional rental costs shall only be made at local option and in accordance with a plan approved by the office of temporary and disability assistance and the director of the budget. Provided, however, notwithstanding section 153 of the social services law or any other inconsistent provision of law, if necessary funding, as determined by the director of the budget, is secured in a social services district from the medical assistance program by reducing the capitation rates paid to medicaid managed care organizations by the amount of savings resulting from stably housing individuals living with medically diagnosed HIV infection as defined by the AIDS institute of the state department of health, the social services district shall make such payments of additional rental costs, for cases reimbursed under the safety net assistance and family assistance program, and the savings shall be used to reimburse 100 percent of the cost of the additional rental costs determined based on limiting such person's earned and/or unearned income contribution to 30 percent in social services districts with a population of five million or fewer, in accordance with a plan approved by the office of temporary and disability assistance and the director of the budget; provided further that reimbursement shall be provided to medicaid managed care organizations through adjustments to capitation rates should actual gross savings not be realized as determined by the director of the budget.

Such funds are to be available for payment of aid heretofore accrued or hereafter to accrue to municipalities. Subject to the approval of the director of the budget, such funds shall be available to the office of temporary and disability assistance net of disallowances, refunds, reimbursements, and credits, including those related to title IV-E of the social security act; and including, but not limited to, additional federal funds resulting from any changes in federal cost allocation methodologies.

Notwithstanding any inconsistent provision of law, the amount herein appropriated may be increased or decreased by interchange with any other appropriation within the office of temporary and disability assistance general fund - local assistance account with the approval of the director of the budget, who shall file such approval with the department of audit and control and copies thereof with the chairman of the senate finance committee and the chairman of the assembly ways and means committee.

Provided, however, that in social service districts with a population over five million, funds allocated to such district shall be used in the first instance to reimburse rental costs above the maximum rent levels in place as of January 1, 2021 up to the United States department of housing and urban development's fair market rent level for the family homelessness and eviction prevention supplement program pursuant to section 131-bb of the social services law, then adjusted consistent with the annual year-over-year percentage changes in fair market rent, provided, however, in the event of a decrease in fair market rent the value of the maximum rent levels reimbursed with funds appropriated herein shall not decrease and shall be set at the maximum rent levels established during the prior year, and any remaining funds for such district may be used to provide shelter supplements pursuant to the purposes appropriated herein.

Such supplements shall be provided to households who earn no more than 30 percent of area median income at the time of application, provided however, that if sufficient demand does not exist for households who earn no more than 30 percent of area median income, supplements may be provided for households earning up to 50 percent of area median income.

market rent at local cost; provided
further however that at least 50 percent

tion.
Funds appropriated herein shall be used to
reimburse up to 100 percent of the addi-
tional rental costs determined based on

the contrary such supplements shall not be

level for the family homelessness and
eviction prevention supplement pursuant to

market rent, provided, however, in the
event of a decrease in fair market rent
the value of the maximum rent levels reim-

SPECIALIZED SERVICES PROGRAM

General Fund
Local Assistance Account - 10000

The appropriation made by chapter 53, section 1, of the laws of 2022, as
supplemented by transfers in accordance with section 51 of the state
finance law, is hereby amended and reappropriated to read:

For services and expenses of a program to provide shelter supplements
at local option to individuals and families regardless of
immigration status who are experiencing homelessness or are facing
an imminent loss of housing, including individuals and families
without children. Provided, however, that in social service
districts with a population over five million, funds allocated to
such district shall be used in the first instance to reimburse
rental costs above the maximum rent levels in place as of January 1,
2021 up to the United States department of housing and urban
development's fair market rent level for the family homelessness and
eviction prevention supplement program pursuant to section 131-bb of
the social services law, then adjusted consistent with the annual
year-over-year percentage changes in fair market rent, provided,
however, in the event of a decrease in fair market rent the value of
the maximum rent levels reimbursed with funds appropriated herein
shall not decrease and shall be set at the maximum rent levels
established during the prior year, and any remaining funds for such
district may be used to provide shelter supplements pursuant to the
purposes appropriated herein.

Such supplements shall be provided to households who earn no more than
30 percent of area median income at the time of application,
provided however, that if sufficient demand does not exist for
households who earn no more than 30 percent of area median income,
supplements may be provided for households earning up to 50 percent
of area median income.

Such supplements shall be provided in accordance with social services
district plans, provided however that no plan shall require
supplements to be below 85 percent of fair market rent, but may
allow for supplements above 85 percent of fair market rent at local
cost; provided further however that at least 50 percent of the
supplements shall be allocated for households who are currently in
shelter or experiencing homelessness, unless sufficient demand does
not exist for such households within the district. A social services
district plan may provide for the administration of portions of this program to be delegated to another public agency or to a contractor or non-profit organization. Funds appropriated herein shall be used to reimburse up to 100 percent of the additional rental costs determined based on limiting such household's earned and/or unearned income contribution to 30 percent. Each supplement shall be provided until 30 percent of the household's earned and/or unearned income reaches the total monthly rent.

Supplements provided herein shall not be part of the standard of need pursuant to section 131-a of the social services law. Notwithstanding any provision of law to the contrary such supplements shall not be subject to recoupment or repayment. Notwithstanding the aforementioned requirement that a social services district with a population over five million shall use this funding to reimburse rental costs above the maximum rent levels in place as of January 1, 2021 up to the United States department of housing and urban development's fair market rent level for the family homelessness and eviction prevention supplement pursuant to section 131-bb of the social services law, then adjusted consistent with the annual year-over-year percentage changes in fair market rent, provided, however, in the event of a decrease in fair market rent the value of the maximum rent levels reimbursed with funds appropriated herein shall not decrease and shall be set at the maximum rent levels established during the prior year, nothing in this language shall prohibit undocumented individuals and families from receiving this assistance. Plans shall be subject to approval by the office of temporary and disability assistance and the director of the budget.

The office of temporary and disability assistance shall prepare and submit an annual program report to the chairs of the senate committee on social services and the senate finance committee, and the chairs of the assembly committee on social services, and the assembly ways and means committee. Such report shall include available information regarding the program or participants in the program, including but not limited to: the number of income eligible individuals or families under 30 percent of area median income that applied and received assistance, the number of income eligible individuals or families between 30 and 50 percent area median income that applied and received assistance, the number of individuals and families that applied but were denied assistance due to a lack of resources; the number of individuals and families that applied and were denied assistance due to income exceeding eligibility, who would otherwise be deemed eligible, and the average income of those denied for such reason; the number of participants who were able to leave shelter as a result of the rental supplements; the number of individuals and families served by the program who are in receipt of other forms of public assistance; the number of supplements issued by local social services; the average value of supplements issued by local social services district; the average recipient contribution by local social services district, and the number of local social services districts providing supplements above 85 percent of fair market rent. Such report shall be submitted on or before November 1 of each year.

Funds shall be allocated to each social services district pursuant to a methodology developed by the office of temporary and disability assistance and based on each district's relative share of public assistance households as of March 31, 2022 or any other factors determined relevant by the office (53009) .........................

the laws of 2011, and state costs or
savings from the essential plan program.
Such projections may be adjusted by the
director of the budget to account for
increased or expedited department of
health state funds medicaid expenditures
as a result of a natural or other type of
disaster, including a governmental decla-
reration of emergency.
The director of the budget, in consultation
with the commissioner of health, shall
assess on a quarterly basis known and projected medicaid expenditures by category of service and by geographic region, as determined by the commissioner of health, incurred both prior to and subsequent to such assessment for each such period, and if the director of the budget determines that such expenditures are expected to cause medicaid spending for such period to exceed the aggregate limit specified herein for such period, the state medicaid director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allocation adjustment to limit such spending to the aggregate limit specified herein for such period.

Such medicaid savings allocation adjustment shall be designed, to reduce the expenditures authorized by the appropriations herein in compliance with the following guidelines: (1) reductions shall be made in compliance with applicable federal law, including the provisions of the Patient Protection and Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No. 111-152 (collectively "Affordable Care Act") and any subsequent amendments thereto or regulations promulgated thereunder; (2) reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation adjustment that meets the other criteria set forth herein; (3) reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the Affordable Care Act; (4) reductions shall be made uniformly among categories of services and geographic regions of the state, to the extent practicable, and shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific categories of services contributed to department of health medicaid state funds spending in excess of the limits specified herein; the need to maintain safety net services in
underserved communities; or the potential benefits of pursuing innovative payment models contemplated by the Affordable Care Act, in which case such grounds shall be set forth in the medicaid savings allocation adjustment; and (5) reductions shall be made in a manner that does not unnecessarily create administrative burdens to medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation adjustment, to the extent that all or part of such adjustment, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation adjustment on the department of health's website and shall provide written copies of such adjustment to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

(b) The commissioner may revise the medicaid savings allocation adjustment subsequent to the provisions of notice and prior to implementation but needs to provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the adjustment.

Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this subdivision if, in the discretion of the commissioner, expedited development and implementation of a medicaid savings allocation adjustment is necessary due to a public health emergency.

For purposes of this section, a public health emergency is defined as: (i) a disaster, natural or otherwise, that significantly increases the immediate need for health care personnel in an area of the state; (ii) an event or condition that creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or (iii) any other event or condition determined by the commissioner.
to constitute an imminent threat to public health.

Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation adjustment from taking effect retroactively to the extent permitted by the federal centers for medicare and medicaid services.

In accordance with the medicaid savings allocation adjustment, the commissioner of the department of health shall reduce department of health state funds medicaid spending by the amount of the projected overspending through, actions including, but not limited to modifying or suspending reimbursement methods, including but not limited to all fees, premium levels and rates of payment, notwithstanding any provision of law that sets a specific amount or methodology for any such payments or rates of payment; modifying medicaid program benefits; seeking all necessary federal approvals, including, but not limited to waivers, waiver amendments; and suspending time frames for notice, approval or certification of rate requirements, notwithstanding any provision of law, rule or regulation to the contrary, including but not limited to sections 2807 and 3614 of the public health law, section 18 of chapter 2 of the laws of 1988, and 18 NYCRR 505.14(h).

The department of health shall prepare a quarterly report that sets forth: (a) known and projected department of health medicaid expenditures as described in subdivision (1) of this section, and factors that could result in medicaid disbursements for the relevant state fiscal year to exceed the projected department of health state funds disbursements in the enacted budget financial plan pursuant to subdivision 3 of section 23 of the state finance law, including spending increases or decreases due to: enrollment fluctuations, rate changes, utilization changes, MRT investments, and shift of beneficiaries to managed care; and variations in offline medicaid payments; and (b) the actions taken to implement any medicaid savings allocation adjustment implemented pursuant to subdivision (4) of this section, including information concerning the impact of such actions on each category of service and each geographic region of the state. Each such quarterly report shall be provided to the chairs of the senate finance and the assembly ways and means committees and shall be posted on the department of health's website in a timely manner.

Notwithstanding section 40 of the state finance law or any provision of law to the contrary, subject to federal approval, department of health state funds medicaid spending, excluding payments for medical services provided at state facilities operated by the office of mental health, the office for people with developmental disabilities and the office of addiction services and supports and further excluding any payments which are not appropriated within the department of health, in the aggregate, for the period April 1,
2023 through March 31, 2024, shall not exceed $28,156,098,000 except as provided. Except for state share medicaid spending, in the aggregate, for the period April 1, 2024 through March 31, 2025, shall not exceed $30,764,964,000, but in no event shall department of health state funds medicaid spending for the period April 1, 2023 through March 31, 2025 exceed $58,921,062,000. Provided, however, such aggregate limits may be adjusted by the director of the budget to account for any changes in the New York state federal medical assistance percentage amount established pursuant to the federal social security act, increases in provider revenues, reductions in local social services district payments for medical assistance administration, minimum wage increases, and beginning April 1, 2012 the operational costs of the New York state medical indemnity fund, pursuant to chapter 59 of the laws of 2011, and state costs or savings from the essential plan program.

Such projections may be adjusted by the director of the budget to account for increased or expedited department of health state funds medicaid expenditures as a result of a natural or other type of disaster, including a governmental declaration of emergency.

The director of the budget, in consultation with the commissioner of health, shall assess on a quarterly basis known and projected medicaid expenditures by category of service and by geographic region, as defined by the commissioner, incurred both prior to and subsequent to such assessment for each such period, and if the director of the budget determines that such expenditures are expected to cause medicaid spending for such period to exceed the aggregate limit specified herein for such period, the state medicaid director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allocation adjustment to limit such spending to the aggregate limit specified herein for such period.

Such medicaid savings allocation adjustment shall be designed, to reduce the expenditures authorized by the appropriations herein in compliance with the following guidelines: (1) reductions shall be made in compliance with applicable federal law, including the provisions of the Patient Protection and Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No. 111-152 (collectively "Affordable Care Act") and any subsequent
amendments thereto or regulations promulgated thereunder; (2) reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation adjustment that meets the other criteria set forth herein; (3) reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the Affordable Care Act; (4) reductions shall be made uniformly among categories of services and geographic regions of the state, to the extent practicable, and shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific categories of services contributed to department of health medicaid state funds spending in excess of the limits specified herein; the need to maintain safety net services in underserved communities; or the potential benefits of pursuing innovative payment models contemplated by the Affordable Care Act, in which case such grounds shall be set forth in the medicaid savings allocation adjustment; and (5) reductions shall be made in a manner that does not unnecessarily create administrative burdens to medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation adjustment, to the extent that all or part of such adjustment, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation adjustment on the department of health's website and shall provide written copies of such adjustment to the chairs of the senate finance and the assembly ways and means committees at
least 30 days before the date on which
implementation is expected to begin.

(b) The commissioner may revise the medicaid
savings allocation adjustment subsequent
to the provisions of notice and prior to
implementation but needs to provide a new
notice pursuant to subparagraph (i) of
this paragraph only if the commissioner
determines, in his or her discretion, that
such revisions materially alter the
adjustment.

Notwithstanding the provisions of paragraphs
(a) and (b) of this subdivision, the
commissioner need not seek the input
described in paragraph (a) of this subdi-
vision or provide notice pursuant to para-
graph (b) of this subdivision if, in the
discretion of the commissioner, expedited
development and implementation of a medi-
caid savings allocation adjustment is
necessary due to a public health emergen-

serious communicable disease, or the
potential for such widespread risk of
exposure; or (iii) any other event or
condition determined by the commissioner
to constitute an imminent threat to public
health.

Nothing in this paragraph shall be deemed to
prevent all or part of such medicaid
savings allocation adjustment from taking
effect retroactively to the extent permit-
ted by the federal centers for medicare
and medicaid services.

In accordance with the medicaid savings
allocation adjustment, the commissioner of

Such projections may be adjusted by the director of the budget to account for increased or expedited department of health state funds medicaid expenditures as a result of a natural or other type of disaster, including a governmental declaration of emergency.

The director of the budget, in consultation with the commissioner of health, shall assess on a quarterly basis known and projected medicaid expenditures by category of service and by geographic region, as determined by the commissioner of health, incurred both prior to and subsequent to such assessment for each such period, and if the director of the budget determines that such expenditures are expected to cause medicaid spending for such period to exceed the aggregate limit specified herein for such period, the state medicaid director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allocation adjustment to limit such spending to the aggregate limit specified herein for such period.

Such medicaid savings allocation adjustment shall be designed, to reduce the expenditures authorized by the appropriations herein in compliance with the following guidelines: (1) reductions shall be made in compliance with applicable federal law, including the provisions of the Patient Protection and Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No. 111-152 (collectively "Affordable Care Act") and any subsequent
amendments thereto or regulations promulgated thereunder; (2) reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation adjustment that meets the other criteria set forth herein; (3) reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the Affordable Care Act; (4) reductions shall be made uniformly among categories of services and geographic regions of the state, to the extent practicable, and shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific categories of services contributed to department of health medicaid state funds spending in excess of the limits specified herein; the need to maintain safety net services in underserved communities; or the potential benefits of pursuing innovative payment models contemplated by the Affordable Care Act, in which case such grounds shall be set forth in the medicaid savings allocation adjustment; and (5) reductions shall be made in a manner that does not unnecessarily create administrative burdens to medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation adjustment, to the extent that all or part of such adjustment, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation adjustment on the department of health's website and shall provide written copies of such plan to the chairs of the senate finance and the assembly ways and means committees at
least 30 days before the date on which implementation is expected to begin.

(b) The commissioner may revise the medicaid savings allocation adjustment subsequent to the provisions of notice and prior to implementation but needs to provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the plan.

Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this subdivision if, in the discretion of the commissioner, expedited development and implementation of a medicaid savings allocation adjustment is necessary due to a public health emergency.

For purposes of this section, a public health emergency is defined as: (i) a disaster, natural or otherwise, that significantly increases the immediate need for health care personnel in an area of the state; (ii) an event or condition that creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or (iii) any other event or condition determined by the commissioner to constitute an imminent threat to public health.

Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation adjustment from taking effect retroactively to the extent permitted by the federal centers for medicare and medicaid services.

In accordance with the medicaid savings allocation adjustment, the commissioner of the department of health shall reduce department of health state funds medicaid spending by the amount of the projected overspending through, actions including, but not limited to modifying or suspending reimbursement methods, including but not limited to all fees, premium levels and rates of payment, notwithstanding any provision of law that sets a specific amount or methodology for any such payments or rates of payment; modifying medicaid program benefits; seeking all necessary federal approvals, including, but not limited to waivers, waiver amendments; and suspending time frames for notice, approval or certification of rate requirements, notwithstanding any provision of law, rule or regulation to the contrary, including but not limited to sections 2807 and 3614 of the public
health law, section 18 of chapter 2 of the
laws of 1988, and 18 NYCRR 505.14(h).
The department of health shall prepare a
quarterly report that sets forth: (a) known and projected department of health

subdivision (1) of this section, and
factors that could result in medicaid
disbursements for the relevant state
fiscal year to exceed the projected
department of health state funds disburse-
ments in the enacted budget financial plan
pursuant to subdivision 3 of section 23 of
the state finance law, including spending
increases or decreases due to: enrollment
fluctuations, rate changes, utilization
changes, MRT investments, and shift of
beneficiaries to managed care; and vari-

(b) the actions taken to implement any
medicaid savings allocation adjustment
implemented pursuant to subdivision (4) of
this section, including information
concerning the impact of such actions on
each category of service and each
geographic region of the state. Each such
quarterly report shall be provided to the
chairs of the senate finance and the
assembly ways and means committees and
shall be posted on the department of
health’s website in a timely manner.

Notwithstanding section 40 of the state
finance law or any other law to the
contrary, all medical assistance appropri-
ations made from this account shall remain
in full force and effect in accordance, in
the aggregate, with the following sched-
ule: not more than 51 percent for the
period April 1, 2023 to March 31, 2024;
and the remaining amount for the period
April 1, 2024 to March 31, 2025.
Notwithstanding section 40 of the state
finance law or any provision of law to the
contrary, subject to federal approval,
department of health state funds medicaid
spending, excluding payments for medical
services provided at state facilities
operated by the office of mental health,
the office for people with developmental
disabilities and the office of addiction
services and supports and further excluding any payments which are not appropriated within the department of health, in the aggregate, for the period April 1, 2023 through March 31, 2024, shall not exceed $28,156,098,000 except as provided below and state share medicaid spending, in the aggregate, for the period April 1, 2024 through March 31, 2025, shall not exceed $30,764,964,000, but in no event shall department of health state funds medicaid spending for the period April 1, 2023 through March 31, 2025 exceed $58,921,062,000 provided, however, such aggregate limits may be adjusted by the director of the budget to account for any changes in the New York state federal medical assistance percentage amount established pursuant to the federal social security act, increases in provider revenues, reductions in local social services district payments for medical assistance administration, minimum wage increases and beginning April 1, 2012 the operational costs of the New York state medical indemnity fund, pursuant to chapter 59 of the laws of 2011, and state costs or savings from the essential plan. Such projections may be adjusted by the director of the budget to account for increased or expedited department of health state funds medicaid expenditures as a result of a natural or other type of disaster, including a governmental declaration of emergency.

The director of the budget, in consultation with the commissioner of health, shall assess on a quarterly basis known and projected medicaid expenditures by category of service and by geographic region, as determined by the commissioner of health, incurred both prior to and subsequent to such assessment for each such period, and if the director of the budget determines that such expenditures are expected to cause medicaid spending for such period to exceed the aggregate limit specified herein for such period, the state medicaid director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allocation adjustment to limit such spending to the aggregate limit specified herein for such period.

Such medicaid savings allocation adjustment shall be designed, to reduce the expenditures authorized by the appropriations herein in compliance with the following guidelines: (1) reductions shall be made in compliance with applicable federal law, including the provisions of the Patient Protection and Affordable Care Act, Public
Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No. 111-152 (collectively "Affordable Care Act") and any subsequent amendments thereto or regulations promulgated thereunder; (2) reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation adjustment that meets the other criteria set forth herein; (3) reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the Affordable Care Act; (4) reductions shall be made uniformly among categories of services and geographic regions of the state, to the extent practicable, and shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific categories of services contributed to department of health medicaid state funds spending in excess of the limits specified herein; the need to maintain safety net services in underserved communities; or the potential benefits of pursuing innovative payment models contemplated by the Affordable Care Act, in which case such grounds shall be set forth in the medicaid savings allocation adjustment; and (5) reductions shall be made in a manner that does not unnecessarily create administrative burdens to medicaid applicants and recipients or providers.

(a) The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation adjustment, to the extent that all or part of such adjustment, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.
department of health's website and shall provide written copies of such plan to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin. (b) The commissioner may revise the medicaid savings allocation adjustment subsequent to the provisions of notice and prior to implementation but needs to provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the plan. Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this subdivision if, in the discretion of the commissioner, expedited development and implementation of a medicaid savings allocation adjustment is necessary due to a public health emergency. For purposes of this section, a public health emergency is defined as: (i) a disaster, natural or otherwise, that significantly increases the immediate need for health care personnel in an area of the state; (ii) an event or condition that creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or (iii) any other event or condition determined by the commissioner to constitute an imminent threat to public health. Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation adjustment from taking effect retroactively to the extent permitted by the federal centers for medicare and medicaid services. In accordance with the medicaid savings allocation adjustment, the commissioner of the department of health shall reduce department of health state funds medicaid spending by the amount of the projected overspending through, actions including, but not limited to modifying or suspending reimbursement methods, including but not limited to all fees, premium levels and rates of payment, notwithstanding any provision of law that sets a specific amount or methodology for any such payments or rates of payment; modifying medicaid program benefits; seeking all necessary federal approvals, including, but not limited to waivers, waiver amendments; and suspending time frames for notice, approval or certification of rate
requirements, notwithstanding any provision of law, rule or regulation to the contrary, including but not limited to sections 2807 and 3614 of the public health law, section 18 of chapter 2 of the laws of 1988, and 18 NYCRR 505.14(h).

The department of health shall prepare a quarterly report that sets forth: (a) known and projected department of health medicaid expenditures as described in subdivision (1) of this section, and factors that could result in medicaid disbursements for the relevant state fiscal year to exceed the projected department of health state funds disbursements in the enacted budget financial plan pursuant to subdivision 3 of section 23 of the state finance law, including spending increases or decreases due to: enrollment fluctuations, rate changes, utilization changes, MRT investments, and shift of beneficiaries to managed care; and variations in offline medicaid payments; and (b) the actions taken to implement any medicaid savings allocation adjustment implemented pursuant to subdivision (4) of this section, including information concerning the impact of such actions on each category of service and each geographic region of the state. Each such quarterly report shall be provided to the chairs of the senate finance and the assembly ways and means committees and shall be posted on the department of health's website in a timely manner.

For the purpose of making payments, the money hereby appropriated is available for payment of aid heretofore accrued or hereafter accrued, to providers of medical care pursuant to section 367-b of the social services law, and for payment of state aid to municipalities and the federal government where payment systems through fiscal intermediaries are not operational, to reimburse such providers for costs attributable to the provision of care to patients eligible for medical assistance. Notwithstanding any inconsistent provision of law, the moneys hereby appropriated may be increased or decreased by interchange or transfer with any appropriation of the department of health with the approval of the director of the budget, who shall file such approval with the department of audit and control and copies thereof with the chairman of the senate finance committee and the chairman of the assembly ways and means committee.

Notwithstanding section 40 of the state finance law or any other law to the contrary, all medical assistance appropriations made from this account shall remain in full force and effect in accordance, in the aggregate, with the following schedule: not more than 49 percent for the period April 1, 2022 to March 31, 2023; and the remaining amount for the period April 1, 2023 to March 31, 2024.

Notwithstanding section 40 of the state finance law or any provision of law to the contrary, subject to federal approval, department of health state funds medicaid spending, excluding payments for medical services provided at state facilities operated by the office of mental health, the office for people with developmental disabilities and the office of addiction services and supports and further excluding any payments which are not appropriated within the department of health, in the aggregate, for the period April 1, 2023 through March 31, 2024, shall not exceed $28,156,098,000 except as provided below and state share medicaid spending, in the aggregate, for the period April 1, 2024 through March 31, 2025, shall not exceed $30,764,964,000, but in no event shall department of health state funds medicaid spending for the period April 1, 2023 through March 31, 2025 exceed $58,921,062,000 provided, however, such aggregate limits may be adjusted by the director of the budget to account for any changes in the New York state federal medical assistance percentage amount established pursuant to the federal social security act, increases in provider revenues, reductions in local social services district payments for medical assistance administration, minimum wage increases and beginning April 1, 2012 the operational costs of the New York state medical indemnity fund, pursuant to chapter 59 of the laws of 2011, and state costs or savings from the essential plan. Such projections may be adjusted by the director of the budget to account for increased or expedited department of health state funds medicaid expenditures as a result of a natural or other type of disaster, including a governmental declaration of emergency.

The director of the budget, in consultation with the commissioner of health, shall assess on a quarterly basis known and projected medicaid expenditures by category of service and by geographic region, as determined by the commissioner of health,
DEPARTMENT OF HEALTH

AID TO LOCALITIES  2023-24

incurred both prior to and subsequent to
such assessment for each such period, and
if the director of the budget determines
that such expenditures are expected to
cause medicaid spending for such period to
exceed the aggregate limit specified here-
in for such period, the state medicaid
director, in consultation with the direc-
tor of the budget and the commissioner of
health, shall develop a medicaid savings
allocation adjustment to limit such spend-
ing to the aggregate limit specified here-
in for such period.

Such medicaid savings allocation adjustment
shall be designed, to reduce the expendi-
tures authorized by the appropriations
herein in compliance with the following
guidelines: (1) reductions shall be made
in compliance with applicable federal law,
including the provisions of the Patient
Protection and Affordable Care Act, Public
Law No. 111-148, and the Health Care and
Education Reconciliation Act of 2010,
Public Law No. 111-152 (collectively
"Affordable Care Act") and any subsequent
amendments thereto or regulations promul-
gated thereunder; (2) reductions shall be
made in a manner that complies with the
state medicaid plan approved by the feder-
al centers for medicare and medicaid
services, provided, however, that the
commissioner of health is authorized to
submit any state plan amendment or seek
other federal approval, including waiver
authority, to implement the provisions of
the medicaid savings allocation adjustment
that meets the other criteria set forth
herein; (3) reductions shall be made in a
manner that maximizes federal financial
participation, to the extent practicable,
including any federal financial partic-
ipation that is available or is reasonably
expected to become available, in the
discretion of the commissioner, under the
Affordable Care Act; (4) reductions shall
be made uniformly among categories of
services and geographic regions of the
state, to the extent practicable, and
shall be made uniformly within a category
of service, to the extent practicable,
except where the commissioner determines
that there are sufficient grounds for
non-uniformity, including but not limited
to: the extent to which specific catego-
ries of services contributed to department
of health medicaid state funds spending in
excess of the limits specified herein; the
need to maintain safety net services in
underserved communities; or the potential
benefits of pursuing innovative payment
models contemplated by the Affordable Care
Act, in which case such grounds shall be
set forth in the medicaid savings allo-

cation adjustment; and (5) reductions
shall be made in a manner that does not
unnecessarily create administrative
burdens to medicaid applicants and recipi-
ents or providers.
The commissioner shall seek the input of the
legislature, as well as organizations
representing health care providers,
consumers, businesses, workers, health
insurers, and others with relevant exper-
tise, in developing such medicaid savings
allocation adjustment, to the extent that
all or part of such adjustment, in the
discretion of the commissioner, is likely
to have a material impact on the overall
medicaid program, particular categories of
service or particular geographic regions
of the state.
(a) The commissioner shall post the medicaid
savings allocation adjustment on the
department of health's website and shall
provide written copies of such plan to the
chairs of the senate finance and the
assembly ways and means committees at
least 30 days before the date on which
implementation is expected to begin.
(b) The commissioner may revise the medicaid
savings allocation adjustment subsequent
to the provisions of notice and prior to
implementation but needs to provide a new
notice pursuant to subparagraph (i) of
this paragraph only if the commissioner
determines, in his or her discretion, that
such revisions materially alter the plan.
Notwithstanding the provisions of paragraphs
(a) and (b) of this subdivision, the
commissioner need not seek the input
described in paragraph (a) of this subdi-
vision or provide notice pursuant to para-
graph (b) of this subdivision if, in the
discretion of the commissioner, expedited
development and implementation of a medi-
caid savings allocation adjustment is
necessary due to a public health emergen-
cy.
For purposes of this section, a public
health emergency is defined as: (i) a
disaster, natural or otherwise, that
significantly increases the immediate need
for health care personnel in an area of
the state; (ii) an event or condition that
creates a widespread risk of exposure to a
serious communicable disease, or the
potential for such widespread risk of
exposure; or (iii) any other event or
condition determined by the commissioner
to constitute an imminent threat to public
health.
Nothing in this paragraph shall be deemed to
prevent all or part of such medicaid
savings allocation adjustment from taking
effect retroactively to the extent permit-
ted by the federal centers for medicare
and medicaid services.

In accordance with the medicaid savings
allocation adjustment, the commissioner of
the department of health shall reduce
department of health state funds medicaid
spending by the amount of the projected
overspending through, actions including,
but not limited to modifying or suspending
reimbursement methods, including but not
limited to all fees, premium levels and
rates of payment, notwithstanding any
provision of law that sets a specific
amount or methodology for any such
payments or rates of payment; modifying
medicaid program benefits; seeking all
necessary federal approvals, including,
but not limited to waivers, waiver amend-
ments; and suspending time frames for
notice, approval or certification of rate
requirements, notwithstanding any
provision of law, rule or regulation to
the contrary, including but not limited to
sections 2807 and 3614 of the public
health law, section 18 of chapter 2 of the
laws of 1988, and 18 NYCRR 505.14(h).

The department of health shall prepare a
quarterly report that sets forth: (a)
known and projected department of health
medicaid expenditures as described in
subdivision (1) of this section, and
factors that could result in medicaid
disbursements for the relevant state
fiscal year to exceed the projected
department of health state funds disburse-
ments in the enacted budget financial plan
pursuant to subdivision 3 of section 23 of
the state finance law, including spending
increases or decreases due to: enrollment
fluctuations, rate changes, utilization
changes, MRT investments, and shift of
beneficiaries to managed care; and vari-
atations in offline medicaid payments; and
(b) the actions taken to implement any
medicaid savings allocation adjustment
implemented pursuant to subdivision (4) of
this section, including information
concerning the impact of such actions on
each category of service and each
geographic region of the state. Each such
quarterly report shall be provided to the
chairs of the senate finance and the
assembly ways and means committees and
shall be posted on the department of
health's website in a timely manner.

administration claims that exceed an administrative ceiling established by the commissioner of health.

Notwithstanding any inconsistent provision of law and subject to the approval of the director of budget, moneys hereby appropriated may be increased or decreased by transfer or interchange between these appropriated amounts and appropriations of the medical assistance administration program, the medical assistance program, and the office of health insurance programs. Funding authority from this account used for state administration of the medical assistance program may be transferred to state operations appropriations within the aforementioned programs at amounts agreed upon by the commissioner of health, and the New York state division of the budget.

Notwithstanding section 40 of the state finance law or any other law to the contrary, all medical assistance appropriations made from this account shall remain in full force and effect in accordance, in the aggregate, with the following schedule: not more than 50 percent for the period April 1, 2022 to March 31, 2023 and the remaining amount for the period April 1, 2023 to September 15, 2024.

Notwithstanding section 40 of the state finance law or any provision of law to the contrary, subject to federal approval, department of health state funds medicaid spending, excluding payments for medical services provided at state facilities operated by the office of mental health, the office for people with developmental disabilities and the office of addiction services and supports and further excluding any payments which are not appropriated within the department of health, in the aggregate, for the period April 1, 2021 through March 31, 2023, shall not exceed $25,936,887,000 except as provided below and state share medicaid spending, in the aggregate, for the period April 1, 2023 through September 15, 2024, shall not exceed $27,678,377,000 but in no event shall department of health state funds medicaid spending for the period April 1, 2022 through September 15, 2024 exceed $54,092,985,000 provided, however, such aggregate limits may be adjusted by the director of the budget to account for any changes in the New York state federal medical assistance percentage amount established pursuant to the federal social security act, increases in provider revenues, reductions in local social services district payments for medical assistance administration, minimum wage increases, and beginning April 1, 2012 the operational costs of the New York state medical indemnity fund, pursuant to chapter 59 of the laws of 2011, and state costs or savings from the essential plan program. Such projections may be adjusted by the director of the budget to account for increased or expedited department of health state funds medicaid expenditures as a result of a natural or other type of disaster, including a governmental declaration of emergency.

The director of the budget, in consultation with the commissioner of health, shall assess on a quarterly basis known and projected medicaid expenditures by category of service and by geographic region, as determined by the commissioner of health, incurred both prior to and subsequent to such assessment for each such period, and if the director of the budget determines that such expenditures are expected to cause medicaid spending for such period to exceed the aggregate limit specified herein for such period, the state medical director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allocation adjustment to limit such spending to the aggregate limit specified herein for such period.

Such medicaid savings allocation adjustment shall be designed, to reduce the expenditures authorized by the appropriations herein in
compliance with the following guidelines: (1) reductions shall be made in compliance with applicable federal law, including the provisions of the Patient Protection and Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No. 111-152 (collectively "Affordable Care Act") and any subsequent amendments thereto or regulations promulgated thereunder; (2) reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation adjustment that meets the other criteria set forth herein; (3) reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner under the Affordable Care Act; (4) reductions shall be made uniformly among categories of services and geographic regions of the state, to the extent practicable, and shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific categories of services contributed to department of health medicaid state funds spending in excess of the limits specified herein; the need to maintain safety net services in underserved communities; or the potential benefits of pursuing innovative payment models contemplated by the Affordable Care Act, in which case such grounds shall be set forth in the medicaid savings allocation adjustment; and (5) reductions shall be made in a manner that does not unnecessarily create administrative burdens to medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation adjustment, to the extent that all or part of such adjustment, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation adjustment on the department of health’s website and shall provide written copies of such adjustment to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

(b) The commissioner may revise the medicaid savings allocation adjustment subsequent to the provisions of notice and prior to implementation but needs to provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the adjustment.

Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this subdivision if, in the discretion of the commissioner, expedited development and implementation of a medicaid savings allocation adjustment is necessary due to a public health emergency.

For purposes of this section, a public health emergency is defined as:

(i) a disaster, natural or otherwise, that significantly increases the immediate need for health care personnel in an area of the state; (ii) an event or condition that creates a widespread risk of
exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or (iii) any other event or condition determined by the commissioner to constitute an imminent threat to public health.

Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation adjustment from taking effect retroactively to the extent permitted by the federal centers for medicare and medicaid services.

In accordance with the medicaid savings allocation adjustment, the commissioner of the department of health shall reduce department of health state funds medicaid spending by the amount of the projected overspending through, actions including, but not limited to modifying or suspending reimbursement methods, including but not limited to all fees, premium levels and rates of payment, notwithstanding any provision of law that sets a specific amount or methodology for any such payments or rates of payment; modifying medicaid program benefits; seeking all necessary federal approvals, including, but not limited to, waivers, waiver amendments; and suspending time frames for notice, approval or certification of rate requirements, notwithstanding any provision of law, rule or regulation to the contrary, including but not limited to sections 2807 and 3614 of the public health law, section 18 of chapter 2 of the laws of 1988, and 18 NYCRR 505.14(h).

The department of health shall prepare a quarterly report that sets forth: (a) known and projected department of health medicaid expenditures as described in subdivision (1) of this section, and factors that could result in medicaid disbursements for the relevant state fiscal year to exceed the projected department of health state funds disbursements in the enacted budget financial plan pursuant to subdivision 3 of section 23 of the state finance law, including spending increases or decreases due to: enrollment fluctuations, rate changes, utilization changes, MRT investments, and shift of beneficiaries to managed care; and variations in offline medicaid payments; and (b) the actions taken to implement any medicaid savings allocation adjustment implemented pursuant to subdivision (4) of this section, including information concerning the impact of such actions on each category of service and each geographic region of the state. Each such quarterly report shall be provided to the chairs of the senate finance and the assembly ways and means committees and shall be posted on the department of health's website in a timely manner.

The money hereby appropriated is available for payment of liabilities heretofore and hereafter accrued and shall be available to the department net of disallowances, refunds, reimbursements, and credits.

Notwithstanding any other provision of law, the money hereby appropriated may be increased or decreased by interchange or transfer, with any appropriation of the department of health, and may be increased or decreased by transfer or suballocation between these appropriated amounts and appropriations of the office of mental health, the office for people with developmental disabilities, the office of addiction services and supports, the department of family assistance office of temporary and disability assistance, the department of corrections and community supervision, the office of information technology services, the state university of New York, the state office for the aging, the office of the medicaid inspector general, the state education department, and office of children and family services with the approval of the director of the budget, who shall file such approval with the department of audit and control and copies thereof with the chairman of the senate finance committee and the chairman of the assembly ways and means committee.

MEDICAL ASSISTANCE PROGRAM

General Fund

Local Assistance Account - 10000

The appropriation made by chapter 53, section 1, of the laws of 2022, is hereby amended and reappropriated to read:

For the medical assistance program, including administrative expenses, for local social services districts, and for medical care rates for authorized child care agencies.

Notwithstanding section 40 of the state finance law or any other law to the contrary, all medical assistance appropriations made from this account shall remain in full force and effect in accordance, in the aggregate, with the following schedule: not more than 48 percent for the period April 1, 2022 to March 31, 2023; and the remaining amount for the period April 1, 2023 to September 15, 2024.

Notwithstanding section 40 of the state finance law or any provision of law to the contrary, subject to federal approval, department of health state funds medicaid spending, excluding payments for medical services provided at state facilities operated by the office of mental health, the office for people with developmental disabilities and the office of addiction services and supports and further excluding any payments which are not appropriated within the department of health, in the aggregate, for the period April 1, 2022 through March 31, 2023, shall not exceed $25,936,887,000 except as provided below and state share medicaid spending, in the aggregate, for the period April 1, 2023 through March 31, 2024, shall not exceed $28,156,098,000, but in no event shall department of health state funds medicaid spending for the period April 1, 2022 through September 15, 2024 exceed $53,615,265,000. Provided, however, such aggregate limits may be adjusted by the director of the budget to account for any changes in the New York state federal medical assistance percentage amount established pursuant to the federal social security act, increases in provider revenues, reductions in local social services district payments for medical assistance administration, minimum wage increases, and beginning April 1, 2012 the operational costs of the New York state medical indemnity fund, pursuant to chapter 59 of the laws of 2011, and state costs or savings from the essential plan program. Such projections may be adjusted by the director of the budget to account for increased or expedited department of health state funds medicaid expenditures as a result of a natural or other type of disaster, including a governmental declaration of emergency.
The director of the budget, in consultation with the commissioner of health, shall assess on a quarterly basis known and projected medicaid expenditures by category of service and by geographic region, as defined by the commissioner, incurred both prior to and subsequent to such assessment for each such period, and if the director of the budget determines that such expenditures are expected to cause medicaid spending for such period to exceed the aggregate limit specified herein for such period, the state medicaid director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allocation adjustment to limit such spending to the aggregate limit specified herein for such period.

Such medicaid savings allocation adjustment shall be designed, to reduce the expenditures authorized by the appropriations herein in compliance with the following guidelines: (1) reductions shall be made in compliance with applicable federal law, including the provisions of the Patient Protection and Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No. 111-152 (collectively "Affordable Care Act") and any subsequent amendments thereto or regulations promulgated thereunder; (2) reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation adjustment that meets the other criteria set forth herein; (3) reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the Affordable Care Act; (4) reductions shall be made uniformly among categories of services and geographic regions of the state, to the extent practicable, and shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific categories of services contributed to department of health medicaid state funds spending in excess of the limits specified herein; the need to maintain safety net services in underserved communities; or the potential benefits of pursuing innovative payment models contemplated by the Affordable Care Act, in which case such grounds shall be set forth in the medicaid savings allocation adjustment; and (5) reductions shall be made in a manner that does not unnecessarily create administrative burdens to medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation adjustment, to the extent that all or part of such adjustment, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation adjustment on the department of health's website and shall provide written copies of such adjustment to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

(b) The commissioner may revise the medicaid savings allocation adjustment subsequent to the provisions of notice and prior to implementation but needs to provide a new notice pursuant to
subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the adjustment.

Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this subdivision if, in the discretion of the commissioner, expedited development and implementation of a medicaid savings allocation adjustment is necessary due to a public health emergency.

For purposes of this section, a public health emergency is defined as: (i) a disaster, natural or otherwise, that significantly increases the immediate need for health care personnel in an area of the state; (ii) an event or condition that creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or (iii) any other event or condition determined by the commissioner to constitute an imminent threat to public health.

Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation adjustment from taking effect retroactively to the extent permitted by the federal centers for medicare and medicaid services.

In accordance with the medicaid savings allocation adjustment, the commissioner of the department of health shall reduce department of health state funds medicaid spending by the amount of the projected overspending through, actions including, but not limited to modifying or suspending reimbursement methods, including but not limited to all fees, premium levels and rates of payment, notwithstanding any provision of law that sets a specific amount or methodology for any such payments or rates of payment; modifying or discontinuing medicaid program benefits; seeking all necessary federal approvals, including, but not limited to waivers, waiver amendments; and suspending time frames for notice, approval or certification of rate requirements, notwithstanding any provision of law, rule or regulation to the contrary, including but not limited to sections 2807 and 3614 of the public health law, section 18 of chapter 2 of the laws of 1988, and 18 NYCRR 505.14(h).

The department of health shall prepare a quarterly report that sets forth: (a) known and projected department of health medicaid expenditures as described in subdivision (1) of this section, and factors that could result in medicaid disbursements for the relevant state fiscal year to exceed the projected department of health state funds disbursements in the enacted budget financial plan pursuant to subdivision 3 of section 23 of the state finance law, including spending increases or decreases due to: enrollment fluctuations, rate changes, utilization changes, MRT investments, and shift of beneficiaries to managed care; and variations in offline medicaid payments; and (b) the actions taken to implement any medicaid savings allocation adjustment implemented pursuant to subdivision (4) of this section, including information concerning the impact of such actions on each category of service and each geographic region of the state. Each such quarterly report shall be provided to the chairs of the senate finance and the assembly ways and means committees and shall be posted on the department of health's website in a timely manner.

The money hereby appropriated is to be available for payment of aid heretofore accrued or hereafter accrued to municipalities, and to providers of medical services pursuant to section 367-b of the social services law, and for payment of state aid to municipalities and to providers of family care where payment systems through the fiscal intermediaries are not operational.
Notwithstanding any inconsistent provision of law to the contrary, funds may be used by the department for outside legal assistance on issues involving the federal government, the conduct of preadmission screening and annual resident reviews required by the state's medicaid program, computer matching with insurance carriers to insure that medicaid is the payer of last resort and activities related to the management of the pharmacy benefit available under the medicaid program.

Notwithstanding any inconsistent provision of law, in lieu of payments authorized by the social services law, or payments of federal funds otherwise due to the local social services districts for programs provided under the federal social security act or the federal food stamp act, funds herein appropriated, in amounts certified by the state commissioner of temporary and disability assistance or the state commissioner of health as due from local social services districts each month as their share of payments made pursuant to section 367-b of the social services law may be set aside by the state comptroller in an interest-bearing account in order to ensure the orderly and prompt payment of providers under section 367-b of the social services law pursuant to an estimate provided by the commissioner of health of each local social services district's share of payments made pursuant to section 367-b of the social services law.

Notwithstanding any inconsistent provision of law, funding made available by these appropriations shall support direct salary costs and related fringe benefits within the medical assistance program associated with any minimum wage increase that takes effect during the timeframe of these appropriations, pursuant to section 652 of the labor law. Each eligible organization in receipt of funding made available by these appropriations may be required to submit written certification, in such form and at such time the commissioner may prescribe, attesting to the total amount of funds used by the eligible organization, how such funding will be or was used for purposes eligible under these appropriations and any other reporting deemed necessary by the commissioner. The amounts appropriated herein may include advances to organizations authorized to receive such funds to accomplish this purpose.

Notwithstanding any other provision of law, the money hereby appropriated may be increased or decreased by interchange or transfer, with any appropriation of the department of health and the office of medicaid inspector general and may be increased or decreased by transfer or suballocation between these appropriated amounts and appropriations of the department of health state purpose account, the office of mental health, office for people with developmental disabilities, the office of addiction services and supports, the department of family assistance office of temporary and disability assistance, the department of corrections and community supervision, the office of information technology services, the state university of New York, and office of children and family services, the office of medicaid inspector general, the state education department, and the state office for the aging with the approval of the director of the budget, who shall file such approval with the department of audit and control and copies thereof with the chairman of the senate finance committee and the chairman of the assembly ways and means committee.

Notwithstanding any inconsistent provision of law to the contrary, the moneys hereby appropriated may be used for payments to the centers for medicaid and medicare services for obligations incurred related to the pharmaceutical costs of dually eligible medicare/medicaid beneficiaries participating in the medicare drug benefit authorized by P.L. 108-173.

The appropriation made by chapter 53, section 1, of the laws of 2022, is
hereby amended and reappropriated to read:
Notwithstanding section 40 of the state finance law or any other law to the contrary, all medical assistance appropriations made from this account shall remain in full force and effect in accordance, in the aggregate, with the following schedule: not more than 50 percent for the period April 1, 2022 to March 31, 2023; and the remaining amount for the period April 1, 2023 to [March 31] September 15, 2024.

Notwithstanding section 40 of the state finance law or any provision of law to the contrary, subject to federal approval, department of health state funds medicaid spending, excluding payments for medical services provided at state facilities operated by the office of mental health, the office for people with developmental disabilities and the office of addiction services and supports and further excluding any payments which are not appropriated within the department of health, in the aggregate, for the period April 1, 2022 through March 31, 2023, shall not exceed $25,936,887,000 except as provided below and state share medicaid spending, in the aggregate, for the period April 1, 2023 through [March 31] September 15, 2024, shall not exceed $27,678,377,000 but in no event shall department of health state funds medicaid spending for the period April 1, 2022 through [March 31] September 15, 2024 exceed [53,615,265,000] $54,092,985,000 provided, however, such aggregate limits may be adjusted by the director of the budget to account for any changes in the New York state federal medical assistance percentage amount established pursuant to the federal social security act, increases in provider revenues, reductions in local social services district payments for medical assistance administration, minimum wage increases and beginning April 1, 2012 the operational costs of the New York state medical indemnity fund, pursuant to chapter 59 of the laws of 2011, and state costs or savings from the essential plan program. Such projections may be adjusted by the director of the budget to account for increased or expedited department of health state funds medicaid expenditures as a result of a natural or other type of disaster, including a governmental declaration of emergency.

The director of the budget, in consultation with the commissioner of health, shall assess on a quarterly basis known and projected medicaid expenditures by category of service and by geographic region, as determined by the commissioner of health, incurred both prior to and subsequent to such assessment for each such period, and if the director of the budget determines that such expenditures are expected to cause medicaid spending for such period to exceed the aggregate limit specified herein for such period, the state medicaid director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allocation adjustment to limit such spending to the aggregate limit specified herein for such period.

Such medicaid savings allocation adjustment shall be designed, to reduce the expenditures authorized by the appropriations herein in compliance with the following guidelines: (1) reductions shall be made in compliance with applicable federal law, including the provisions of the Patient Protection and Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No. 111-152 (collectively "Affordable Care Act") and any subsequent amendments thereto or regulations promulgated thereunder; (2) reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation adjustment that meets the other criteria set forth.
herein; (3) reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the Affordable Care Act; (4) reductions shall be made uniformly among categories of services and geographic regions of the state, to the extent practicable, and shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific categories of services contributed to department of health medicaid state funds spending in excess of the limits specified herein; the need to maintain safety net services in underserved communities; or the potential benefits of pursuing innovative payment models contemplated by the Affordable Care Act, in which case such grounds shall be set forth in the medicaid savings allocation adjustment; and (5) reductions shall be made in a manner that does not unnecessarily create administrative burdens to medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation adjustment, to the extent that all or part of such adjustment, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation adjustment on the department of health's website and shall provide written copies of such plan to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

(b) The commissioner may revise the medicaid savings allocation adjustment subsequent to the provisions of notice and prior to implementation but needs to provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the plan.

Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this subdivision if, in the discretion of the commissioner, expedited development and implementation of a medicaid savings allocation adjustment is necessary due to a public health emergency.

For purposes of this section, a public health emergency is defined as: (i) a disaster, natural or otherwise, that significantly increases the immediate need for health care personnel in an area of the state; (ii) an event or condition that creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or (iii) any other event or condition determined by the commissioner to constitute an imminent threat to public health.

Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation adjustment from taking effect retroactively to the extent permitted by the federal centers for medicare and medicaid services.

In accordance with the medicaid savings allocation adjustment, the commissioner of the department of health shall reduce department of health state funds medicaid spending by the amount of the projected overspending through, actions including, but not limited to modifying or suspending reimbursement methods, including but not
limited to all fees, premium levels and rates of payment, notwithstanding any provision of law that sets a specific amount or methodology for any such payments or rates of payment; modifying medicaid program benefits; seeking all necessary federal approvals, including, but not limited to waivers, waiver amendments; and suspending time frames for notice, approval or certification of rate requirements, notwithstanding any provision of law, rule or regulation to the contrary, including but not limited to sections 2807 and 3614 of the public health law, section 18 of chapter 2 of the laws of 1988, and 18 NYCRR 505.14(h).

The department of health shall prepare a quarterly report that sets forth: (a) known and projected department of health medicaid expenditures as described in subdivision (1) of this section, and factors that could result in medicaid disbursements for the relevant state fiscal year to exceed the projected department of health state funds disbursements in the enacted budget financial plan pursuant to subdivision 3 of section 23 of the state finance law, including spending increases or decreases due to: enrollment fluctuations, rate changes, utilization changes, MRT investments, and shift of beneficiaries to managed care; and variations in offline medicaid payments; and (b) the actions taken to implement any medicaid savings allocation adjustment implemented pursuant to subdivision (4) of this section, including information concerning the impact of such actions on each category of service and each geographic region of the state. Each such quarterly report shall be provided to the chairs of the senate finance and the assembly ways and means committees and shall be posted on the department of health's website in a timely manner.

For the purpose of making payments to providers of medical care pursuant to section 367-b of the social services law, and for payment of state aid to municipalities where payment systems through fiscal intermediaries are not operational, to reimburse such providers for costs attributable to the provision of care to patients eligible for medical assistance. Payments from this appropriation to general hospitals related to indigent care pursuant to article 28 of the public health law respectively, when combined with federal funds for services and expenses for the medical assistance program pursuant to title XIX of the federal social security act or its successor program, shall equal the amount of the funds received related to health care reform act allowances and surcharges pursuant to article 28 of the public health law and deposited to this account less any such amounts withheld pursuant to subdivision 21 of section 2807-c of the public health law. Notwithstanding any inconsistent provision of law, the moneys hereby appropriated may be increased or decreased by interchange or transfer with any appropriation of the department of health with the approval of the director of the budget, who shall file such approval with the department of audit and control and copies thereof with the chairman of the senate finance committee and the chairman of the assembly ways and means committee.

Notwithstanding any provision of law to the contrary, the portion of this appropriation covering fiscal year 2022-23 shall supersede and replace any duplicative (i) reappropriation for this item covering fiscal year 2022-23, and (ii) appropriation for this item covering fiscal year 2022-23 set forth in chapter 53 of the laws of 2021 (29797) ... 1,433,000,000 ..................... (re. $1,433,000,000)
The appropriation made by chapter 53, section 1, of the laws of 2022, is hereby amended and reappropriated to read:

Notwithstanding section 40 of the state finance law or any other law to the contrary, all medical assistance appropriations made from this account shall remain in full force and effect in accordance, in the aggregate, with the following schedule: not more than 51 percent for the period April 1, 2022 to March 31, 2023; and the remaining amount for the period April 1, 2023 to September 15, 2024.

Notwithstanding section 40 of the state finance law or any provision of law to the contrary, subject to federal approval, department of health state funds medicaid spending, excluding payments for medical services provided at state facilities operated by the office of mental health, the office for people with developmental disabilities and the office of addiction services and supports and further excluding any payments which are not appropriated within the department of health, in the aggregate, for the period April 1, 2022 through March 31, 2023, shall not exceed $25,936,887,000 except as provided below and state share medicaid spending, in the aggregate, for the period April 1, 2023 through September 15, 2024, shall not exceed $26,161,095,000, but in no event shall department of health state funds medicaid spending for the period April 1, 2022 through March 31, 2023 exceed $26,161,095,000 provided, however, such aggregate limits may be adjusted by the director of the budget to account for any changes in the New York state federal medical assistance percentage amount established pursuant to the federal social security act, increases in provider revenues, reductions in local social services district payments for medical assistance administration, minimum wage increases and beginning April 1, 2012 the operational costs of the New York state medical indemnity fund, pursuant to chapter 59 of the laws of 2011, and state costs or savings from the essential plan. Such projections may be adjusted by the director of the budget to account for increased or expedited department of health state funds medicaid expenditures as a result of a natural or other type of disaster, including a governmental declaration of emergency.

The director of the budget, in consultation with the commissioner of health, shall assess on a quarterly basis known and projected medicaid expenditures by category of service and by geographic region, as determined by the commissioner of health, incurred both prior to and subsequent to such assessment for each such period, and if the director of the budget determines that such expenditures are expected to cause medicaid spending for such period to exceed the aggregate limit specified herein for such period, the state medicaid director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allocation adjustment to limit such spending to the aggregate limit specified herein for such period.

Such medicaid savings allocation adjustment shall be designed, to reduce the expenditures authorized by the appropriations herein in compliance with the following guidelines: (1) reductions shall be made in compliance with applicable federal law, including the provisions of the Patient Protection and Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No. 111-152 (collectively "Affordable Care Act") and any subsequent amendments thereto or regulations promulgated thereunder; (2) reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation adjustment, to the extent that all or part of such adjustment, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation adjustment on the department of health's website and shall provide written copies of such plan to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

(b) The commissioner may revise the medicaid savings allocation adjustment subsequent to the provisions of notice and prior to implementation but needs to provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the plan.

Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this subdivision if, in the discretion of the commissioner, expedited development and implementation of a medicaid savings allocation adjustment is necessary due to a public health emergency.

Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation adjustment from taking effect retroactively to the extent permitted by the federal centers for medicare and medicaid services.

In accordance with the medicaid savings allocation adjustment, the commissioner of the department of health shall reduce department of health state funds medicaid spending by the amount of the projected

The appropriation made by chapter 53, section 1, of the laws of 2022, is hereby amended and reappropriated to read:

Notwithstanding section 40 of the state finance law or any other law to the contrary, all medical assistance appropriations made from this account shall remain in full force and effect in accordance, in the aggregate, with the following schedule: not more than 49 percent for the period April 1, 2022 to March 31, 2023; and the remaining amount for the period April 1, 2023 to [March 31] September 15, 2024.

Notwithstanding section 40 of the state finance law or any provision of law to the contrary, subject to federal approval, department of health state funds medicaid spending, excluding payments for medical services provided at state facilities operated by the office of mental health, the office for people with developmental disabilities and the office of addiction services and supports and further excluding any payments which are not appropriated within the department of health, in the aggregate, for the period April 1, 2022 through March 31, 2023, shall not exceed $25,936,887,000 except as provided below and state share medicaid spending, in the aggregate, for the period April 1, 2023 through [March 31] September 15, 2024, shall not exceed ($27,678,377,000) $28,156,098,000, but in no event shall department of health state funds medicaid spending for the period April 1, 2022 through [March 31] September 15, 2024 exceed ($53,615,265,000) $54,092,985,000 provided, however, such aggregate limits may be adjusted by the director of the budget to account for any changes in the New York state federal medical assistance percentage amount established pursuant to the federal social security act, increases in provider revenues, reductions in local social services district payments for medical assistance administration, minimum wage increases and beginning April 1, 2012 the operational costs of the New York state medical indemnity fund, pursuant to chapter 59 of the laws of 2011, and state costs or savings from the essential plan. Such projections may be adjusted by the director of the budget to account for increased or expedited department of health state funds medicaid expenditures as a result
of a natural or other type of disaster, including a governmental
declaration of emergency.

The director of the budget, in consultation with the commissioner of
health, shall assess on a quarterly basis known and projected
medicaid expenditures by category of service and by geographic
region, as determined by the commissioner of health, incurred both
prior to and subsequent to such assessment for each such period, and
if the director of the budget determines that such expenditures are
expected to cause medicaid spending for such period to exceed the
aggregate limit specified herein for such period, the state medicaid
director, in consultation with the director of the budget and the
commissioner of health, shall develop a medicaid savings allocation
adjustment to limit such spending to the aggregate limit specified
herein for such period.

Such medicaid savings allocation adjustment shall be designed, to
reduce the expenditures authorized by the appropriations herein in
compliance with the following guidelines: (1) reductions shall be
made in compliance with applicable federal law, including the
provisions of the Patient Protection and Affordable Care Act, Public
Law No. 111-148, and the Health Care and Education Reconciliation
Act of 2010, Public Law No. 111-152 (collectively "Affordable Care
Act") and any subsequent amendments thereto or regulations
promulgated thereunder; (2) reductions shall be made in a manner
that complies with the state medicaid plan approved by the federal
centers for medicare and medicaid services, provided, however, that
the commissioner of health is authorized to submit any state plan
amendment or seek other federal approval, including waiver
authority, to implement the provisions of the medicaid savings
allocation adjustment that meets the other criteria set forth
herein; (3) reductions shall be made in a manner that maximizes
federal financial participation, to the extent practicable, including any federal financial participation that is available or
is reasonably expected to become available, in the discretion of the
commissioner, under the Affordable Care Act; (4) reductions shall be
made uniformly among categories of services and geographic regions
of the state, to the extent practicable, and shall be made uniformly
within a category of service, to the extent practicable, except
where the commissioner determines that there are sufficient grounds
for non-uniformity, including but not limited to: the extent to
which specific categories of services contributed to department of
health medicaid state funds spending in excess of the limits
specified herein; the need to maintain safety net services in
underserved communities; or the potential benefits of pursuing
innovative payment models contemplated by the Affordable Care Act,
in which case such grounds shall be set forth in the medicaid
savings allocation adjustment; and (5) reductions shall be made in a
manner that does not unnecessarily create administrative burdens to
medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as
organizations representing health care providers, consumers,
businesses, workers, health insurers, and others with relevant
expertise, in developing such medicaid savings allocation
adjustment, to the extent that all or part of such adjustment, in
the discretion of the commissioner, is likely to have a material
impact on the overall medicaid program, particular categories of
service or particular geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation
adjustment on the department of health's website and shall provide
written copies of such plan to the chairs of the senate finance and
the assembly ways and means committees at least 30 days before the
date on which implementation is expected to begin.
(b) The commissioner may revise the medicaid savings allocation adjustment subsequent to the provisions of notice and prior to implementation but needs to provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the plan.

Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this subdivision if, in the discretion of the commissioner, expedited development and implementation of a medicaid savings allocation adjustment is necessary due to a public health emergency.

For purposes of this section, a public health emergency is defined as: (i) a disaster, natural or otherwise, that significantly increases the immediate need for health care personnel in an area of the state; (ii) an event or condition that creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or (iii) any other event or condition determined by the commissioner to constitute an imminent threat to public health.

Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation adjustment from taking effect retroactively to the extent permitted by the federal centers for medicare and medicaid services.

In accordance with the medicaid savings allocation adjustment, the commissioner of the department of health shall reduce department of health state funds medicaid spending by the amount of the projected overspending through, actions including, but not limited to modifying or suspending reimbursement methods, including but not limited to all fees, premium levels and rates of payment, notwithstanding any provision of law that sets a specific amount or methodology for any such payments or rates of payment; modifying medicaid program benefits; seeking all necessary federal approvals, including, but not limited to waivers, waiver amendments; and suspending time frames for notice, approval or certification of rate requirements, notwithstanding any provision of law, rule or regulation to the contrary, including but not limited to sections 2807 and 3614 of the public health law, section 18 of chapter 2 of the laws of 1988, and 18 NYCRR 505.14(h).

The department of health shall prepare a quarterly report that sets forth: (a) known and projected department of health medicaid expenditures as described in subdivision (1) of this section, and factors that could result in medicaid disbursements for the relevant state fiscal year to exceed the projected department of health state funds disbursements in the enacted budget financial plan pursuant to subdivision 3 of section 23 of the state finance law, including spending increases or decreases due to: enrollment fluctuations, rate changes, utilization changes, MRT investments, and shift of beneficiaries to managed care; and variations in offline medicaid payments; and (b) the actions taken to implement any medicaid savings allocation adjustment implemented pursuant to subdivision (4) of this section, including information concerning the impact of such actions on each category of service and each geographic region of the state. Each such quarterly report shall be provided to the chairs of the senate finance and the assembly ways and means committees and shall be posted on the department of health's website in a timely manner.
