DEPARTMENT OF MOTOR VEHICLES

MISSION

The New York State Department of Motor Vehicles (DMV) promotes safety on the State's highways by licensing drivers, registering motor vehicles, protecting the consumer rights of the driving public and providing other related services.

ORGANIZATION AND STAFFING

Under the direction of the Commissioner, the Department operaters fro its main office in Albany (Empire State Plaza) and from three regional headquarters in Albany, Long Island and New York City. The Department also operates 31 Distric and Branch Offices which issue licenses and registrations and process traffic tickets. In addition, 93 County Clerk offices act as DMV agents in many areas of the State.

The Department of Motor Vehicles will have workforce of 3,405 for 1999-2000, mso to whom license drivers and register motor vehicles. Approximately 75 percent of these positions are supported by State tax dollars and 25 percent are financed by fees, including a portion of traffic violation fines in certain localities. The remaining one percent are paid with Federal grants.

FISCAL BACKGROUND AND BUDGET HIGHLIGHTS

The Executive Budgeter commends approximately \$124 million in State tax dollars in 1999-2000 to support 57 percerft o the Department's budget. The balance is financed by Federal funds and various fees and fines. These recommendations continue efforts to enhance customer service, driver safety and support a variety of technology initiatives.

Customers in all areas of the State will mail vehicle and drivers' license renewals to a central processing center run by the DMV, thereby saving \$2.9 million. The percentage of gross receipts reimbursement for County Clerks will be increased from 9.3 to 12.7 percent to more appropriately compensate the County Clerks for their services.

In addition, a new debt recovery project will resul in the payment of unpaid traffic tickes dating back to 1993. This is anticipated to result in over \$6 million in additional revenues for local governments and \$2.5 million for the State.

The Department is also implement various technology initiatives designed to benefit the public, the courts, the insurance industry and its customers and law enforcement agencies. These initiatives will assist in the identification of uninsured motorists, improve the fimeliness of accident reporting, and streamline the processing of data from traffic tickets. Finally, the Department is nearing completion of efforts to ensure that key computing programs are compliant with Year 2000 requirements.

PROGRAM HIGHLIGHTS

CUSTOMER SERVICE

DMV issues driver's licenses and vehicle registrations, collects approximately \$900 million in revenue for the State and localities, monitors driver training and enforces the directives of local magistrates and departmental referees. State offices are also responsible for conducting road tests and maintaining enforcement sections that issue conditional and restricted use licenses and handle other suspension and revocation activities. The Department of Motor Vehicles served more than 2 million customers last year.

The Department also adjudicates traffic violations in New York City, western Suffolk County, Rochester and Buffalo. This allows local judges and criminal courts to dedicate their activities to criminal matters. This program is funded entirely by fines collected from violators. After State operating expenses are deducted, remaining funds are returned to the jurisdictions where the violations occurred.

During the past year the Department significantly reduced waiting times in the metropo litan New York area offices through the addition of new staff, creative work scheduling and quality management techniques.

This yeart he Department will offer its customers throughout the State the ability to schedule road test appointments via a toll free telephone number and will also upgrade its Internet website to enable customers to perform routine motor vehicle transactions for the first time and to use credit cards for all payments.

VEHICLE AND DRIVER SAFETY

DMV vehicle safety activities include: licensign and monitoring safety and emissions inspection stations; registering auto repair shops, dealers, transporters and dismantlers; and certifying vehicle inspectors, junk and salvage businesses and automotive body damage estimators.

Driver safety initiatives include implementation and oversight of educational or rehabilitative programs for motorists convicted of alcohol or drug related driving offenses, the point insurance reduction program and pre-licensing courses. DMV also licenses and monitors driving schools and instructors.

FIELD INVESTIGATION AND AUDIT

One of the Department's major functions is to issue credentials which establish the identity and license status of drivers, the ownership of vehicles and boats, and the authenticity of auto-related businesses. External investigation activities concern stolen automobiles, fraudulent identity and motor vehicle documents and complaints regarding unlicensed and suspended drivers.
